PREFATORY NOTE.

Since the 1st January 1918, all orders of the Secretary of State for India and the Government of India on matters of a non-confidential nature affecting the Army generally are conveyed to those concerned by the weekly "Army Instructions (India),"—see Army Instructions (India) No. 1, dated the 1st January 1918.—Previously such orders were promulgated either in separate letters issued directly to the officers concerned by the Government of India, or through the medium of India Army Orders. While the former are not always readily available in Army Staff, Departmental and Account Offices generally, the latter contain a great deal of matter of minor importance or of temporary, personal or purely local interest; so that it is frequently a matter of difficulty to ascertain the existing orders on any particular subject when they have not been incorporated in the Army Regulations, especially in those cases in which several modifications have been made at different times in orders originally notified.

2. The orders issued on Army matters since the beginning of the War have of necessity attained considerable volume, and embrace a much greater variety of subjects than in time of peace. This has increased the difficulties experienced in Army and Account Offices in dealing promptly and correctly with the many points that now arise for settlement, without an elaborate system of notes and indexes, for the maintenance of which in the stress of war there is no time.

3. It is to meet these difficulties that this Compendium has been designed and compiled.

4. It should be noted that the book contains only such orders, not embodied in Regulations and Army Tables, as are of general application and a reference to which is desirable, if not essential, in dealing with the every-day administration of the Army. It excludes those (many of considerable importance financially or otherwise) which do not embody any general principles or are of purely local or ephemeral interest. For example, the orders of the Secretary of State and the Government of India issued annually in connection with the schedule expenditure of the year, the Army and Military Works budgets, etc., are of considerable importance in themselves, but an acquaintance with these orders is not necessary on the part of any but a few of the higher administrative and account officers immediately concerned. They would, therefore, be obviously out of place in a general handbook of this kind. Secret and confidential orders have been omitted.

5. Comparatively few orders in connection with the Military Works Services will be found in the book, because of the fact that the great majority of the orders of Government with respect to this branch of the Army, while involving in many cases very heavy financial outlay, relate to individual stations, buildings, roads, schemes, installations, etc., and embody no general principle and have no special interest outside the department and locality concerned.

6. Similarly, decisions of Government or India Army Orders affecting individual divisions, brigades, units or officers (except those which enunciate a general principle or contain a guiding rule) and those which have only temporary operation, have been excluded. An exception has been made in the case of officers' appointments and promotions created, orders regarding which it has been considered desirable to include.

7. Many of the War Office Army Orders, including those publishing His Majesty's Royal Warrants, have been made applicable to India by special Orders or have had attention called to them in India Army Orders.

of them as require inclusion in the book have been reproduced in full; but where they are of such length as to render it inconvenient to incorporate them verbatim in the book, a reference to the Army Order and India Army Order has alone been inserted. A somewhat similar procedure has been adopted with regard to those orders of the Government of India or India Army Orders which contain details, statements or annexures of greater length than can be appropriately included in the book. Notes have been inserted indicating where the statements, etc., may be found.

8. Those Government and India Army Orders which clearly indicate that the decisions they contain have been, or will be, embodied in Army Regulations or Tables, or those which do not give this indication but which, on examination, have been found to be so included, do not find a place in the book. Owing, however, to the urgency of the work and the rapidity of its compilation, this provisional issue may be found to contain some entries which have already appeared in one or other of the volumes of A. R. L. or Army Tables. This will be remedied later in a second edition of the book. That edition will also contain several orders on subjects connected with the War which, for special reasons, it has not been found possible to include in this provisional issue.

9. A few words of explanation are necessary with regard to the marginal notes against each paragraph. Many of these contain three entries in different type. The first (in ordinary print) shows the number and date of the Government of India, Army Department, letter on the subject embodied in the paragraph; the second (in italics) is the record reference to the Proceedings on the case (useful only to the Secretariat and Headquarter offices); the third (in small heavy type) indicates the India Army Order in which the decision has been published. It has not, however, been found possible to include the record entry under every Government letter quoted. When only one marginal entry appears, it refers either to the Government letter or the India Army Order on the subject (generally the latter) distinguished by the type used, and indicates, as a rule, that the decision has not been notified otherwise.

10. It is important to note that some of the orders issued between August 1914 and December 1917, included or referred to in the book, have been cancelled or modified by orders issued from the 1st January 1918 onwards and published in Army Instructions, India. In certain cases notes have been inserted against the paragraphs concerned indicating the Army Instructions (India), in which the amendments or cancellations have been notified. All officers and others making use of the book are, however, advised to refer at the same time to the index to Army Instructions (India), to satisfy themselves with respect to the possible cancellation, amendment or otherwise, of any order on which they may intend to act.

11. It should be clearly understood that this compendium has been compiled merely as a convenient book of reference for use in army offices, and that it is not intended to take the place of orders of Government and India Army Orders which should, as usual, be quoted in all references on the subjects with which they deal.

A. H. BINGLEY, Major-General,
Secretary to the Government of India.

Instructions to General Officers Commanding Divisions and Brigades, and Heads of Departments, for the investigation and control of expenditure and the exercise of strict economy.

5. With reference to Fin. Dept. (M. F.) letter No. 2052-Accounts, dated the 29th August 1908, and I. A. O. 152 of 1914, the attention of General Officers Commanding Divisions is specially directed to paragraph 4 of the letter, under which Divisional Controllers have been invested with the duty of affording financial advice to General Officers Commanding and their staff and executive officers.

6. The fullest use is to be made of the assistance of the Controllers in investigating all branches of expenditure of which the General Officers Commanding are in administrative charge. Every head of expenditure which is shown in the budget estimates of a Division is to be systematically reviewed with the object of restricting the outlay within reasonable limits so that any savings which may accrue may be devoted to objects which are of paramount importance in maintaining the efficiency of the Army. In consultation with the Controllers, General Officers Commanding will be able to institute a summary examination of vouchers which are submitted to the Military Accounts Department with a view to detecting items of expenditure which could be avoided in future claims, and instructions have been issued to the Controllers enjoining on them the duty of rendering General Officers Commanding every assistance in this matter. In addition, every proposal relating to expenditure or in connection with economies is at some stage before final disposal to be referred to the Divisional Controller, who will

assist the General Officer Commanding in recording his opinion as to the advisability of proceeding with the course of action suggested and will submit a statement of the financial effect.

7. Expenditure may be curtailed under certain heads if a more systematic control is exercised by General Officers Commanding. Through force of custom it is possible that a higher standard of outlay may have been attained than is necessitated under modern conditions. Each head under which fluctuating expenditure is compiled should therefore receive special attention, with a view to an effective control being exercised. For instance, an allotment of the budget provision to cover travelling allowances may have been designed to meet the actual outlay, but this allotment may be found to be excessive and it may be possible to revise the provision and thus set savings aside. In the same way a systematic review of the numbers and rates of pay for temporary or even permanent establishments of all kinds might result in useful economies. In short, every class of expenditure which is within the General Officer's administrative charge should be reviewed and concurrently with these investigations the rules in India Army Regulations which govern expenditure might be examined with the object of submitting suggestions for any amendments which may seem advisable in order to safeguard the interests of Government.

8. Investigations of this nature must take up much of the time at the disposal of General Officers Commanding but the Government of India look to the General Officers Commanding Brigades to co-operate with them in arriving at their conclusions.

9. It is desirable that expenditure should be restricted as far as possible consistently with efficiency. The Government of India have accordingly impressed upon General Officers Commanding Divisions and Independent Brigades and all heads of departments, the necessity for the strictest economy. They should, therefore, refrain from submitting any proposals which cannot be clearly proved to be immediately necessary for the efficiency of the Army for war. Their efforts should also be devoted to securing such economies as may be possible without a sacrifice of military efficiency, in matters which are already provided for in the rules and for which expenditure is included in the budget estimates. In these matters they should freely seek the assistance of the Controllers of Military Accounts, who should be in a position to render valuable advice.

H.-968, 19-9-14.
B. Dec. 1914, 291.

10. In A. D. letter No. 16465—5 (Q. M. G.-5), dated 30th March 1914, General Officers Commanding were reminded that they are responsible that a close watch is kept on the progress of expenditure so that the limits of the budget are not exceeded. In cases where expenditure in excess of the budget provision may be thought desirable in order to take advantage of favourable rates or of other causes, it is the duty of the officer concerned, if the excess expenditure proposed cannot be met under his powers of re-appropriation, to apply to the Government of India for covering authority and funds before acting in the matter.

Necessity for the strictest economy with special reference to the War.

11. His Majesty's Government have considered it necessary to impress on the nation the necessity of husbanding its financial resources in order to secure that, whatever may be the duration of the War, the means required to carry it to a successful conclusion shall be always forthcoming.

H.-8304, 8-10-15.
B. Feb. 1916, 17-18.
583-1915.

12. This warning is specially applicable to India in cases where the expenditure on any measure or operation is debitable to the Imperial Government. The necessity for economy in matters connected with army expenditure debitable to Indian revenues has already been pointed out in A. D. letter No. H.-968, dated the 19th September 1914,* to which attention is again invited, in order that the Imperial aspect may not be overlooked.

* See para. 9.

13. In time of peace the interests of economy, while entrusted in various degrees to administrative and other officers, are also safeguarded by various checks and limitations. During war, however, not only are these limitations

to a certain extent removed, but the total expenditure is on a vastly larger scale. The possibilities of economy open to officers are consequently increased, and the elimination of waste in every branch of the service becomes a matter of primary importance and should be the object of particular concern to each individual officer.

14. The Government of India therefore desire to impress upon General Officers Commanding Divisions and Independent Brigades and all heads of departments the need for the exercise of foresight and a most careful regard for the strictest economy. Every item of expenditure of money or material which is not demanded in the interest of efficient and prudent administration, is to be avoided, and the Government of India confidently rely on all General and other officers to co-operate with them to this end.

Enforcement of a policy of severe retrenchment by the Government of India.

15. With regard to new administrative and other measures involving additional expenditure, Imperial or Provincial, the Secretary of State has ruled that "at the present time the only standard by which the propriety of introducing any measure involving increased expenditure can be judged must be its imperative and immediate necessity, or its immediately remunerative character." This decision has been communicated to Local Governments and Administrations with a request that instructions be issued to all spending officers for the strict observance of the tests laid down by the Secretary of State irrespective of whether it is, or is not, found possible to provide for the measures in the Budget estimates and whether they require the administrative sanction of the Secretary of State or of authorities in India.

Appointment of an Administrative Officer in Poona to deal with questions of war expenditure and field estimates.

16. A senior officer of the Military Accounts Department has been appointed as Administrative Officer in the office of the Controller of Military Accounts, 6th (Poona) Division, to deal with questions relating to the adjustment of War expenditure, etc. Under the direction of the Military Accountant General, this officer will issue instructions to Controllers of Military Accounts in respect to the procedure to be adopted in carrying out the orders of Government in matters relating to the preparation and submission of field estimates and accounts, so as to secure uniformity in procedure and correct classification and compilation.

17. The Controller of Military Accounts, 6th (Poona) Division, will continue to be in charge of the Central Account Office, in which all War receipts and expenditure will be compiled, but he will carry out those duties under the orders of the Administrative Officer who will be responsible for matters relating to the adjustment of field accounts, preparation of estimates, etc. In other respects the Controller of Military Accounts, 6th (Poona) Division, will exercise his ordinary functions as an independent Divisional Controller.

[Subsequently modified; see para. 18.]

Formation of a central office to deal with the accounts connected with the War, and the appointment of a Central War Controller.

18. In substitution of previous arrangements, under which the war receipts and expenditure were adjusted in the office of the Controller of Military Accounts, 6th (Poona) Division, and general questions in connection with war accounts dealt with by a senior Military Accounts officer, it has been decided to organise a separate and special office, in which the estimation of field expenditure and the adjustment of war accounts and all questions relating thereto, will be centralised under a whole-time officer with the designation of Central War Controller. The Central War Controller will be under the orders of the Military Accountant General and will also have free access to the Comptroller General and Finance Department. He will carry out the re-casting and re-adjustment of war accounts from the commencement of the War in accordance with the revised forms and instructions received from the Secretary of State, and will be in

Dept. letter No. 281-Accnts, dated the 9th April 1915 (See para. 18), sanctioning the appointment of a Controller of War Accounts, two gazetted appointments under him have been created, with the designations of "Deputy Controller of War Accounts" and "Assistant Controller of War Accounts", respectively.

Opening of a Central Accounts Office at Poona to deal with the pay accounts of Indian Expeditionary Force "D."

20. With effect from the 1st March 1916 a central office was opened at Poona 174-1916. for the preparation and audit of all pay accounts pertaining to Indian Expeditionary Force "D"; this office also compiles accounts relating to pay and supply expenditure under all headings of the above Force.

Correspondence relating to these matters will be addressed to the Deputy Field Accountant General, Indian Expeditionary Force "D," c/o Presidency Postmaster, Bombay.

All correspondence in connection with the accounts of Indian Expeditionary Force "D" should in future be addressed as follows:—

Letters from India for the Deputy Field Accountant General, Indian Expeditionary Force "D," C/o Presidency Postmaster, Bombay.

Settlement of accounts of officers and men of units that proceeded to Mesopotamia from Egypt or Home ports which were not on the Indian establishment.

145-1917.

See para. 36.

38.(1) In continuation of I. A. O. No. 848 of 1916*, it is notified that all matters affecting the pay of officers, non-commissioned officers and men of the 13th Division and of other units which proceeded to Mesopotamia from Egypt or Home ports (i.e., which were not on the Indian establishment), continue to be dealt with in the office of the Field Controller of Military Accounts, Indian Expeditionary Force "D," wherever they may be located when invalided or on leave from the Field, whether in India, Ceylon or Egypt. The field service system of accounting is continued in the case of these individuals, throughout such periods of temporary absence from the field.

(2) *Officers coming under the above category should on arrival in India comply with the provisions of para. 3 of I. A. O. 848 of 1916,* to enable the Divisional Disbursing Officer, 13th Division, Indian Expeditionary Force "D," Poona, or the Divisional Disbursing Officer, Staff, Indian Expeditionary Force "D," Poona, in the case of officers holding staff appointments, Royal Army Medical Corps officers and chaplains, to issue instructions for their guidance or to communicate with them as regards the state of their accounts, etc.*

(3) *Officers Commanding depôts and attached sections, to which individuals belonging to the units referred to in clause (1) ante may be attached, must requisition for cash required for making payments to them from the Divisional Disbursing Officer of the division in which area the dépôt or attached section is located, and record disbursements on acquittance rolls separately for each unit, entering the particulars of the payments in the individuals' Pay Books, (A. B. 64) which must be carefully maintained in accordance with the orders contained in Section 123, Field Service Regulations, Part II. *Institute or other regimental bills should be adjusted by recovering the amount thereof in cash from the individual concerned at the time of payment to him of an advance, the gross amount of which should be entered in the acquittance roll (A. F. N.-1513), and in the pay book (A. B.-64) [e.g., amount of cash required by soldier Rs. 5; bills due for settlement by him Rs. 3-12-0; amount to be drawn for him on a cash requisition Rs. 8-12-0; payment to be made to him Rs. 5, entry to be made in the acquittance roll and in the pay book Rs. 8-12-0]. It is most important that every payment made should, without exception, appear in a soldier's pay book as this is the basis upon which the correctness of his accounts while on active service depends, and any failure to maintain it correctly must cause great delay and inconvenience in the settlement of the accounts in the event of the soldier becoming non-effective.* The Divisional Disbursing Officer will expedite the transmission of all information in regard to these payments to the Field Disbursing Officer, 13th Division, Indian Expeditionary Force "D," Poona.*

(4) *Officers Commanding Hospitals, in which such individuals are being, or have in the past been, treated, are required to maintain separate hospital stoppages rolls (I. A. F. A.-55) for them, by units, showing (a) dates of admission and discharge, (b) whether on account of wounds received in action or illness contracted on field service, and (c) whether venereal or non-venereal. These conditions apply in the case of officers as well as non-commissioned officers and men. These rolls are to be rendered monthly to the Divisional Disbursing Officer, 13th Division, Indian Expeditionary Force "D," Poona. In case of death of a non-commissioned officer or man, a death report (A. F. B. A.-2090-A.), together with the pay book (A. B.-64) and particulars of any cash with the individual and how this and the kit have been disposed of, should be forwarded *without delay* to the Divisional Disbursing Officer above referred to. The death of an officer should be similarly notified. If a soldier has an advance from the Officer Commanding Hospital, the procedure laid down in paragraph (3) ante must be closely followed.*

(5) *The Embarkation Staff authorities at Bombay and Karachi will send a copy of all embarkation and disembarkation returns notifying the departure or arrival of individuals who come under the category above explained to the Divisional Disbursing Officer, 13th Division, Indian Expeditionary Force "D," Poona.*

(6) *Station Staff Officers, or others dealing with applications for advances under para. 42, A. R. I., Vol. III*, should not make such advances to these individuals unless in case of real emergency; if made the fact should be immediately reported to the Divisional Disbursing Officer, 13th Division. If time permits a reference (by telegram if necessary) should always be made to the Divisional Disbursing Officer before making the advance.

These orders must be very carefully observed, as any failure to do so must inevitably result in delay in settling the accounts particularly of those individuals who become non-effective.

Settlement of claims for arrears of pay and family allotments of individuals returning from service.

39. When individuals returning from field service overseas experience any difficulty in obtaining settlement of their claims to arrears of pay, they should forthwith apply to the Divisional Disbursing Officer of the Division in which they are residing, for advances representing amounts due to them up to date, supported by a certificate (as provided for in para. 78, A. R. I., Vol. III), signed by themselves in the case of officers (or from the Officer-Commanding the unit or department in the case of men serving under them), to the effect that to the best of their belief the advances applied for are actually due to them, giving rates of pay they were in receipt of, the date up to which they were last paid in the field, and the amount of any advances since received by them. These payments will be issued as advances and adjusted in the usual course by the Divisional Disbursing Officer on receipt of last-pay certificates from the Field Disbursing Officers concerned. All cases in which difficulty is experienced in obtaining payment of family allotments should be reported by the Officers Commanding, etc., concerned, to the Controller of Military Accounts, with a view to that officer taking such action as may be necessary in the matter.

480-1916.

Settlement of accounts of Invalids.

40. With a view to expediting the settlement of the pay accounts of invalids, Officers Commanding Convalescent Depôts, or Officers in charge of Hospitals will report, on each Monday morning, the arrival and departure during the previous week of all invalids, whether officers, warrant officers or rank and file, to the Divisional Disbursing Officer of the Division in which the depôts of the individuals' units are located. A report should also be submitted to the Divisional Disbursing Officer concerned immediately an individual is finally invalided to the United Kingdom or Egypt. In the case of invalids of units in the payment of the Divisional Disbursing Officer, 13th Division, Indian Expeditionary Force "D," Poona, the above reports should be submitted to that Divisional Disbursing Officer, direct.

15-1917.

Settlement of all pay accounts, etc., of men transferred to the Home establishment, invalids and deceased soldiers.

41. Special attention is drawn to I. A. Os., 318 and 677 of 1916, and 15 of 1917,* regarding the prompt settlement of last pay certificates, accounts, etc., of men transferred to the Home establishment, invalids and deceased soldiers. The Instructions contained in these orders should be strictly adhered to.

106-1917.

*See paras. 65 and 47.

Instruction of Territorial troops in military accounts duties.

42. In order to remove any difficulties which may be encountered by Territorial units in conducting their pay duties, the Divisional Controllers of Military Accounts are authorised to place themselves in communication with Officers Commanding those units, through the General Officers Commanding concerned, with a view to one non-commissioned officer or man who has a good knowledge of accounts in each artillery unit and two non-commissioned officers or men in each infantry regiment, being attached for duty

to the Military Accounts Department. These men will be under instruction in the first instance, and will subsequently be employed in the Military Accounts Department on duties connected with the actual preparation of the accounts of their own units. After the expiry of a period sufficient to enable them to master the rules on the subject, these men will relieve other non-commissioned officers or men of their units for purposes of undergoing similar instruction in the Military Accounts Department. The object in view is to place the accounts of Territorial units on a sound basis by the employment of some of their own men who can be instructed in the procedure which is in force in this country.

Controllers of Military Accounts will depute a senior clerk of the Military Accounts Department to each Territorial unit in turn to afford assistance to the Officer Commanding and company officers in pay and account duties.

The remuneration for non-commissioned officers and men of Territorial units deputed to the Military Accounts Department will be as follows:—

Extra duty pay.

In regiments of infantry (two non-commissioned officers or men each) Re. 1 per diem. In artillery units (one non-commissioned officer or man only) Re. 1 per diem.

NOTE.—The above allowance will be admissible under the same conditions as those laid down in para. 564, A. R. I., Vol. I.

Ration money in lieu of rations.

To a non-commissioned officer or man provided rations cannot be issued to him in kind.....Rs. 10 per mensem or Re. 0-5-3 per diem.

*As. 6 for each trip to and from Fort Lahore to the Military Accounts office.

(a) *At Lahore**.—12 annas a day for each day a non-commissioned officer or a man attends office.

(b) *At Maymyo*.—8 annas per diem for each non-commissioned officer or a man who attends office during the rainy season.

Instruction of non-commissioned officers and men of Regular units in duties connected with the preparation of regimental accounts.

(A.G.1), 6-5-15.
B. May 15, 1953.

43. In order to assist in the preparation of accounts of British regular units under the Divisional Disbursing Office system, one non-commissioned officer or man who has a good knowledge of accounts in each artillery unit, 2 non-commissioned officers or men in each British cavalry and infantry regiment, and one regimental clerk from each Indian cavalry and infantry unit will be attached to the Military Accounts Department for instruction in the first instance and subsequently on duties connected with the actual preparation of regimental accounts of their own units. The total number of men to be thus employed in each division will be settled by each Divisional Controller of Military Accounts in communication with the Military Accountant General.

The non-commissioned officers and men so deputed will receive extra duty pay at Re. 1 per day in the case of British units and annas 12 a day in the case of Indian units, in addition to their military pay and allowances, including rations and compensation for dearness of food as the case may be.

A conveyance allowance is authorised of 12 annas for each day on which a non-commissioned officer or man of a British regular unit, attends the Military Accounts Office in Lahore Cantonment.

Conveyance hire for soldier clerks in Military Accounts Offices at Poona.

Remittance of pay of Indian ranks on leave by Remittance Transfer Receipts.

44. The practice of remitting the pay of Indian officers and men absent on leave by postal money orders is opposed to rule and is open to grave objection; all concerned are therefore directed to remit such pay in future by Remittance Transfer Receipts.

298-1915.
472-1915.

In exceptional circumstances (*e.g.*, if ill health or the distance of his home from the nearest treasury renders it impracticable for a man to go to the treasury) the pay may, at the discretion of the Commanding Officer, if the remittee so desires and if he undertakes the risk of loss involved, be sent to him by postal money order, the commission charge being borne by him.

Payments of followers returning invalided to India.

45. To avoid the inconvenience experienced in settling the payment of followers returning to India invalided from service overseas, owing to the non-receipt of their last-pay certificates, the payment of the men should be arranged by means of advances, pending the receipt of the certificates.

Requisitions for money for payment of British units.

46. It has been brought to notice that the balance due to Divisional Disbursing Officers on the Pay and Mess Books of British units is in many cases largely in excess of the prescribed limit.

520-1916.

The attention of officers commanding is therefore directed to paragraph 10 "Instructions B. T." regarding estimates for weekly payments and the amount of cash balances.

Requisitions for cash for the weekly payment of soldiers should be submitted to the Divisional Disbursing Officer with an explanatory note showing the amount of cash in hand at the time of making the requisition.

Every care should be taken to avoid requisitioning for money before it is actually wanted.

Requisitions for money will be carefully scrutinised by the Divisional Disbursing Officer, special attention being given to the balance shown to be in the hands of the captain and to any explanatory note he may forward.

The Officer Commanding should impress upon all concerned the importance of compliance with these instructions.

47. The central audit check required by F. D. (M. F.) letter No. 1542-Accts, dated the 1st September 1905, is suspended for the period of the War in the case of the Indian Subordinate Medical Department and of the Supply and Transport Corps.

Units proceeding on service advised to convert their Indian money at Bombay.

49. There is a reserve of foreign money, chiefly English and French, in the Bombay Treasury, and the attention of Officers Commanding units and individuals proceeding on service is directed to the advantage of converting their Indian currency before embarking. If regiments or individuals so desire, arrangements can be made by them with the Divisional Disbursing Officer for cheques in their favour to be made out on the Bombay Treasury, where they can get either the equivalent in foreign coinage, or Indian currency if foreign coin is not available, sufficient to pay expenses on the voyage and on arrival at their destination.

Arrangements at Bombay and Karachi for exchange of foreign coinage brought to India by units and individuals returning from service.

387-1916.

50. With reference to Article 597, Civil Account Code, Volume I, arrangements have been made for the exchange by the Treasury Officers at Bombay and Karachi of foreign coinage brought back by units and individuals returning from field service overseas. Officers Commanding units, and individuals, are directed to avail themselves of this concession before leaving the port of disembarkation for their destination. In those exceptional cases where time does not admit of an exchange being effected at Bombay or Karachi, the money may be presented at any Treasury in India for exchange.

These orders are not applicable to exchange of notes other than English, French and Egyptian.

Departmental officers with honorary rank and warrant and non-commissioned officers and men of the Indian Unattached List permitted to purchase exchequer bonds and war savings certificates through Government accounts.

90-1917.

51. Departmental officers with honorary rank and warrant and non-commissioned officers and men of the Indian Unattached List, who do not belong to the British Army but who are serving in India or with the Indian Expeditionary Forces, are permitted to purchase exchequer bonds and war savings certificates through Government accounts. The rolls should be sent to the India Office simultaneously with the lists to the Comptroller General, Post Office, London.

Basis for preparing the annual Budget Estimate for each year's requirements in transport, grass and equipment mules.

9151-5 (Q. M. G. 7), 10-8-14.
B, Oct, 14, 1364-68;

52. The annual budget provision for each year's requirements in Government transport, grass and equipment mules, will be estimated for on the lines recommended in paragraph 21 of the report of the Committee on wastage in mule transport, issued with the letter referred to in the margin.

Regrant of funds to cover lapses in Schedule Expenditure.

53. It is recognised that it is not desirable to stop the progress of works financed through the Schedule, which could not be completed fully by the end of the year in which provision was made for them, and for which provision could not be made in the following year until formal re-appropriation from the schedule grant of the latter. The following procedure is therefore prescribed for the regrant of funds to cover lapses in the allotment for Schedule measures which occurred in the previous year, for work to be completed in the current year:—A report will be submitted by the Administrative Officer concerned to the Government of India early in April of each year through the Controller, specifying the particular measure or measures concerned and the amount of money required to complete them. At the same time funds should, if possible, be indicated in the event of savings being anticipated in the provision for any Schedule measure included in the current year's budget, from which the extra expenditure can be met. If it is not possible so early in the year to give such indication, it will rest with the Government of India to authorise the expenditure on the measure concerned pending an allotment of funds to be indicated later.

Leave allowances to be charged in accounts of Army Clothing, Ordnance, Medical Stores and Military Farms Departments.

56. A charge of 8 per cent. on the salaries of commissioned and warrant officers, and of 4 per cent. on the salaries of all other European personnel, will be debited in future in the annual accounts of the Army Clothing, Ordnance, Medical Stores and Military Farms Departments. 20121.1 (Q. Audit check to be applied to the travelling and transport allowance grant of the Cadet Colleges.

57. The travelling and transport allowance grant of the College may be expended wholly at the discretion of the Commandant in meeting travelling expenses incurred by professors and students when during the college term they may be engaged upon reconnaissances, staff rides, or other instructional duties. This sanction is subject to the following procedure:— 26901-1 (Q. M. G. 1), 14-7-16. B. July 18, 1978-81.

(a) The Commandant will forward at the end of each month to the Divisional Disbursing Officer concerned a tabulated statement showing all the journeys made by the staff and the students during the month; each entry particularising the journey made, the class of accommodation used, and the cost, and naming the officer or officers who travelled. The statement will contain at foot a certificate signed by the Commandant that the journeys thus charged for were performed *bonâ fide* on duty and under his authority, and that the details of the statement are correct. The aggregate amount shewn in each statement will, after arithmetical check in the audit-office, be charged against the grant referred to in a register maintained for this purpose.

(b) The Divisional Disbursing Officer will make such advances to the Commandant as he may require from time to time to pay travelling expenses which may have to be incurred immediately.

Each advance will be debited to the grant, in a separate column of the register, and will remain as a charge to the grant until cleared off by a monthly statement as above prescribed.

As the grant referred to does not run on from one term to another, any balance which may remain unexpended at the close of a term will lapse; and such balance must then be paid into the civil treasury to the credit of the Army Department.

It will not be permissible for the Commandants to draw money in general anticipation of requirements, i.e., irrespective of immediate needs, and keep it in their own custody or in a bank.

No part of the grant can be utilised otherwise than for the purpose indicated in para. 1 above and it cannot be exceeded under any circumstances.

59. With effect from the 1st December 1917, the percentage to be given as exchange compensation allowance on all salaries drawn on and after that date will be calculated by the Controller of Currency each quarter with reference to the market rate of exchange, and notified by him about the 15th day of the final month in the preceding quarter.

Procedure to be adopted when Government promissory notes are deposited with a Government officer.

Fin. Dept. 83-A., 9-2-16.
B, 31st Mar. 16, 47-48.

60. With reference to Articles 161-167-A. of the Civil Account Code, Vol. I, officers subordinate to the Local Government who have Government promissory notes in their possession as deposits (including Treasury Officers with whom such notes may be lodged under Article 167-A) should be instructed to examine them and to satisfy themselves that the rules referred to above have been fully complied with; and if any irregular endorsement is detected in the course of the examination, to take steps to correct it and to apply the procedure laid down in the rules. Any case in which the removal of an irregularity presents special difficulty may be referred to the Controller of Currency who has been given discretion to authorise the Public Debt Office, in cases where this is clearly necessary, to waive objections which might otherwise be raised.

61. The attention of Treasury Officers should be drawn to the fact that in the case of notes presented for payment of interest bearing irregular endorsements payment of interest should be refused under the rule in Article 183 of the Civil Account Code until the irregularities are removed. The proper course in such cases, when the irregularities cannot be removed, is that the holder of the note should be required (under the last note to Article 183) to receipt it for renewal; it will then be forwarded to the Public Debt Office and the necessary action taken.

62. The Public Debt Office will report periodically to the Controller of Currency cases in which departures from the procedure laid down in the Civil Account Code come to their notice. Particulars of these cases will be communicated by the latter to the Department or the Local Government concerned in order that suitable action may be taken.

Government paper tendered as security to the State and of which the market value is a fluctuating factor.

25441-1 (Q. M. G.-G), 14-3-16,
B: 1st Mar. 16, 997-1000.

63. In regard to the question whether Government paper tendered as security to the State should be taken, for purposes of furnishing security, at its market rate or at its face value, it has been decided that the exact amount of security to be taken from a contractor is (*vide* A. R. I., Vol. III, para. 118, 2nd clause) a matter in which the administrative officer concerned must exercise his discretion. If he is satisfied that the security afforded by the deposit of a Government promissory note of, say, Rs. 1,000 at its face value, is sufficient, there would be no reason to insist on the deposit being increased in view of its present value being less than the face value. Consequently, for security deposit purposes, only the face value of securities of the classes mentioned in A. R. I., Vol. III, para. 119, need be considered by the Military Accounts Department. A similar rule also applies in the case of the security deposits of individuals such as agents and storekeepers of the Supply and Transport Corps.

Last pay certificates not required in the case of retired officers whose payment is transferred from the War Office to India.

4210-G., 16-2-15.
B: 1st Mar. 15, 935-940.

64. As last pay certificates are not issued by the Paymaster General, they are not to be demanded from retired officers whose payment is transferred from the War Office to India.

Avoidance of delay in the preparation of last pay certificates.

65. To avoid delay in submitting last pay certificates to the Home authorities for men attached to various Indian Expeditionary Forces and for men of the Territorial Force serving in India who are sent Home for discharge or transfer, Commanding Officers will inform the Military Accounts Department immediately on the departure of any men for England. **318-1916.**

Where possible the last pay certificates should accompany the men who are returning to England, but where this is not practicable they should follow by an early mail.

Preparation and disposal of last pay certificates.

66. Attention is called to I. A. Os. 524 and 726, of 1912 detailing the procedure for the preparation and disposal of last pay certificates of men going Home, and it is enjoined that every effort be made to prepare them correctly and accelerate all references, etc., relating to them. **444-1914.**

The following points are to be especially noted :—

- (i) British rates of pay should in all cases be shown in last pay certificates of Unattached List ranks (para. 460, A. R. I., Vol. I).
- (ii) When the Accounts Department is responsible for the despatch of last pay certificates, copies should not be also forwarded from the unit. Dates, etc., given by the former seldom agree with those given by the latter.
- (iii). The prescribed India Army Forms only should be used.

Last-pay certificates of units and individuals coming to India to be sent to the Controller of Military Accounts, Poona.

67. Arrangements have been made for all last-pay certificates of units and individuals arriving in India to be sent to the Controller of Military Accounts, 6th (Poona) Division. **1370-1917.**

Officers Commanding should therefore not address Regimental Paymasters in regard to any wanting last-pay certificates, but their Divisional Disbursing Officers who, if necessary, will consult the Controller of Military Accounts, 6th (Poona) Division, or the Field Controller of Military Accounts, Poona.

Issue of duplicate copies of last pay certificates when originals have been lost at sea.

68. Divisional Disbursing Officers are always to issue duplicate copies of last pay certificates when the originals have been included in mails lost at sea. **S. of S. tel. 1943, 4-9-17. B. Oct. 17, 866.**

70. The maintenance of Audit Registers for Staff and Departmental Officers' pay bills in Divisional Audit Offices has been discontinued, as all information required is noted in the pay bills. **Fin. Dept. 140 Accts. 23-2-1914. B. Mar. 15, 2389.**

Enfacement of vouchers for receipts and charges relating to the Indian Detachment of the Mediterranean Force,

71. In order to admit of all receipts and charges, both in India and in the field, relating to the Indian Detachment, Mediterranean Force, being shown separately in the accounts, all vouchers connected with such receipts and charges should be clearly enfaced "War 1914—Indian Expeditionary Force 'G.'" **454-1915.**

- (ii) I. A. F. A-762.—Statement showing increases or decreases in the actual Army receipts and charges compared with budget allotments, under each minor head where the variation to the end of the month concerned is more than Rs. 10,000.

General Officers Commanding are not empowered to overrule the objections of Controllers of Military Accounts to pass claims they consider inadmissible.

9666-1 (A.D.), 8-5-15.
B. May 15, 383.

74. A Controller of Military Accounts is empowered to sustain an objection to expenditure considered inadmissible, until it is removed by the authority of the Government of India. The only conditions under which a Controller may be overruled locally are set forth in para. 8 (i), A. R. I., Vol. III, and such action must be immediately reported to the Government of India for consideration. The powers of a General Officer Commanding under para. 67, A. R. I., Vol. II, are limited to rejecting an application if a Controller maintains his objection to the expenditure, or to recommending the appeal for the consideration of higher authority.

Unusual transactions resulting in loss beyond the powers of local military authorities to write off, to be brought to notice by audit officers.

24977-3 (Q. M. G. 6), 29-3-16.
B. Apr. 1916, 858-863.

75. In connection with a contract for the exchange of 10,000 maunds of gram in mobilisation reserve for a similar quantity of the new crop under terms estimated by the Controller of Military Accounts to result in a loss to the State of approximately Rs. 15,570, it has been ruled that, although such exchange transactions are not specifically covered by regulations, they may at times be found to be administratively convenient, and financially not disadvantageous to Government, especially when the articles exchanged are perishable food stuffs. While, therefore, such transactions are not in themselves necessarily open to objection, audit officers are at liberty to bring to notice any transaction of an unusual nature which, in their opinion, appears to be markedly

disadvantageous to Government, or in which the loss, as estimated by them, is beyond the powers of the local military authorities to write-off.

Competence of officers vested with financial powers in the field to sanction expenditure in cases where purchases are not involved.

76. The reference to local purchase in para. 86, Accounts Manual (War), is not intended to deprive officers invested with the requisite authority to entertain labour or to hire country boats, etc. 12916, 8-11-16.

78. The A. D. letter quoted in the margin introduces an amended system of financial delegation which is embodied in its annexures, and lays down subsidiary instructions in regard to the exercise of the powers thus delegated. The annexures consist of :— 14341-1(A. D.), 21-11-17.

- (i) a revised edition of paras. 4 to 19, A. R., I., Vol. III, in which for convenience sake, all new matter of importance is indicated by thick black lines : and

Grant of enhanced powers to Controllers and Audit Officers to waive objections and write-off irrecoverable overpayments.

79. As a temporary War measure the limits laid down for Controllers of Military Accounts in clauses (II) and (III) of para. 87 A. R., I., Vol III, within which they may waive objections and write-off overpayments, have been raised to Rs. 100 in each case. 14703-1(A. D.), 22-11-17.
B. Dec. 17, 169-70.

The note to clause (ii) of the paragraph will be held in abeyance temporarily and assistant audit officers who are in immediate charge of audit branches of Controllers' offices will exercise powers of the nature described in clauses (ii) and (iii) up to a limit of Rs. 50 in each case. These powers will be exercised under the same conditions as those now laid down in clauses (ii) and (iii) of the paragraph. The limits laid down in clause (i) will remain unaltered. Full use will be made of these powers so as to minimise the number of references made to higher authorities.

Re-organization of the Military Accounts Department and standardizing of the clerical establishment.

F. D., 1252-Accts. 30-10-14.
B. Sep. 15, 2211.

80. Consequent on the re-organization of the Military Accounts Department the clerical establishments were standardized, and full instructions with regard to redistribution, etc., issued in the letter quoted in the margin which has been communicated to all concerned.

Special arrangements for accounts work connected with the War.

F. D.,—304-Accts. Camp,
23-2-15.

81. With reference to the previous paragraph the following measures^s have been authorised for so long as the War or the necessity for these special^l arrangements may last, in connection with:—

- (i) the formation of military account offices for service with the several Indian Expeditionary Forces;
- (ii) the redistribution of establishments in the military account centres in India;
- (iii) the manner in which the additional appointments which have been created as a result of the present War should be filled and the procedure which should be adopted generally in regulating the promotions of accountants and clerks in both the field account offices and the military account centres in India; and
- (iv) the rates of pay which should be drawn by the establishments of the Military Accounts Department who have been sent on field service, as in some cases men are in receipt of lower rates of pay than those drawn by others serving in the same office.

82. The orders issued by the Military Accountant General, from time to time in regard to the formation of field account offices for the several Indian Expeditionary Forces overseas and in providing them with the necessary gazetted staff and establishments are confirmed. The extent to which sub. *pro tem.* promotions should be allowed in the case of the officers on the superior staff of the Military Accounts Department, in consequence of these arrangements, is notified* in the *Gazette of India*. After providing for a reduction in the strength of the gazetted staff in certain military account offices in India where the normal garrison of troops has been depleted, a net addition of four temporary deputy examiners, 2nd grade, and four temporary superintendents has been found to be necessary and it has been decided that the places of the superintendents and the accountants selected for these additional appointments shall be filled by sub. *pro tem.* arrangements.

83. The revised establishment of each Divisional Controller's office in India, including the audit and the disbursing branches, is shown in statement "A" attached to the letter quoted in margin of paragraph 81. The additional appointments, which are shown in the statement separately, have been sanctioned on account of the extra work caused by calling out reservists, etc., and may be filled by making acting promotions, including those from the training reserve to the 6th grade, and appointing new men as acting training reserve clerks on the full pay of that grade.

84. It has been decided that sub. *pro tem.* promotions in the accountants[†] and the clerical grades should be made only to the extent that men holding special appointments necessitated by the War have to be replaced by fresh temporary appointments in India; where this condition does not arise and the Indian establishments remain depleted, sub. *pro tem.* promotions in the place of those who have proceeded on field service, etc., are not justified. The appointments[†] to be treated on the above basis as

special on account of the War and as creating sub. *pro tem.* vacancies, are shown in the margin, and details are given in statement "B" attached to letter above quoted. The appointments allotted to Divisional offices will be distributed under the Military Accountant General's orders according to the

numbers withdrawn for field service from those offices and those now required by them. The transfer of establishments necessary to provide each Divisional Controller's office with its adequate staff will be carried out under the orders of the Military Accountant General and he is also authorised to make any change in the establishments now fixed for each Division which may be necessitated by relief movements, etc., of troops from one Division to another for internal security, etc.

The appointments which have been allotted to the office of the Senior Controller of Military Supply Accounts will not be viewed as setting aside the condition regarding the reduction of establishment in that office, as explained in F. D., letter No. 1186-Accts., dated the 16th October 1914.

85. As regards the procedure to be followed in regulating the promotions of accountants and clerks, it has been decided that permanent and sub. *pro tem.* vacancies should benefit men in the field equally with those serving in India. The rules to be observed for filling vacancies will therefore be as follows:—

(a) The promotions in permanent and sub. *pro tem.* vacancies of accountants, whether serving in India or in the field, will be regulated with reference to their position on the rosters on which their names are borne.

(b) Promotions of the above nature among men in the clerical service will be made with reference to their position in the roster of the office in India to which they belong or from which they have proceeded on field service.

(c) Acting promotions in the place of men on leave will be made in the office in which the individual is actually serving whether in India

or with the Expeditionary Forces, the field account establishments being treated for the purpose as on separate lists† as shown on the margin.

86. With a view to there being no disparity in the rates of pay drawn by accountants and clerks who have been sent on field service with the Indian Expeditionary Forces, the Government of India have been pleased to decide that men in the field account offices who are in receipt of the lower rates of pay prevailing in some of the Divisions of the Southern Army should be allowed to draw the higher rates of pay authorised for stations in the Northern Army with field allowances calculated on such higher rates.

Creation of a reserve of clerks in the Military Accounts Department.

87. The following arrangements have been sanctioned with regard to the creation of a reserve of clerks in the Military Accounts Department so as to provide for the establishments which may be necessary at short notice if field operations are to be conducted on a larger scale than at present and at the same time to secure efficient supervision over the work of the establishments which have been augmented by a large number of temporary clerks:—

- (i) The number of supervisors employed in the divisional and the field accounts offices will temporarily be increased by 100, and seventy * out of the hundred additional supervisors' appointments will be filled by sub. *pro tem.* promotions in the accountants' grades on the rosters of the Northern and the

Southern Army and distributed, under the Military Accountant General's orders, according to the requirements of each divisional or field accounts office.

- (ii) For the remaining thirty appointments, men with superior educational or other exceptional qualifications will be selected under arrangements which may be made by the Military Accountant General

in communication with Controllers and distributed in the several divisional accounts offices. The candidates selected will receive consolidated pay at rates varying from Rs. 90 to Rs. 120 according to their qualifications and will be employed on the regular and ordinary duties of the department other than field accounts, the period of their employment being fixed at two years or such longer time as may be required on account of the War and the first six months being on probation. Those men who prove themselves deserving of permanent admission into the Military Accounts Department may, when their services are about to be terminated, be provided with appointments as 3rd grade accountants in that department subject to their passing the prescribed examination.

- (iii) The number of temporary clerks employed in the divisional and the field accounts offices will be increased so as to bring the total number to 700 and these 700 temporary appointments will be distributed to the several offices under the Military Accountant General's orders, according to anticipated requirements and paid at the rates shown below :—

200 men on Rs. 50 each per mensem.

200 men on Rs. 40 each per mensem.

300 men on Rs. 30 each per mensem.

Concessions to clerks of the Military Accounts Department deputed for duty with Indian units on colonial or foreign service.

88. The following concessions are allowed to clerks of the Military Accounts Department deputed for duty with Indian units on colonial or foreign service :—

- (a) Corresponding Northern Army rates of pay and, for purposes of precedence and discipline, grading as laid down in the Government of India Gazette Notification No. 860, dated the 19th September 1914.
- (b) Free rations and free issue of clothing, as laid down in War Establishments, India, 1913, Tables VII and VIII, pages 17, 18 and 23.
- (c) Privilege of making family allotments.
- (d) An allowance of 50 per cent. on pay, subject to the minimum of total pay and batta referred to in para. 90, Accounts Manual (War), from the date of embarkation to the date of return to India.

Clerks deputed for duty in North China receive the following concessions in addition to those detailed above :—

- (i) The option of drawing ration allowance at the rate fixed by the Command authorities in lieu of free rations.
- (ii) Fuel and light allowance at the rates fixed in the North China local regulations which at present are—
49 cents per diem during winter,
15 cents per diem during summer.
- (iii) Lodging allowance of 20 dollars per mensem when Government quarters are not available.

Additional concessions granted to accountants and clerks of the Military Accounts Department.

89. With reference to Fin. Dept. letter No. 304-^{Accts.}_{Camp}, dated the 23rd February 1915,* the following further concessions are sanctioned for the Military Accounts Department in view of the additional accounts and audit

have been placed at the disposal of Controllers who may, under the orders of the Military Accountant General grant money rewards to deserving clerks, including men of the temporary establishment as a recognition

of specially meritorious services. The intention is that a bonus may be granted to a man who distinguishes himself by undertaking duties in addition to those which would ordinarily fall to his lot, so as to dispose of an accumulation of arrears or to keep the work of an office in a current state. Controllers will, each month, submit for the approval of the Military Accountant General their proposals for the allotment of this money and, will state their reasons for the reward suggested by them. The maximum amount of bonus payable to each clerk monthly will not ordinarily exceed one-fifth of his salary, but in exceptional cases the Controller may, subject to the approval of the Military Accountant General remunerate a clerk by an award up to the extent of half his salary. Those members of the subordinate account service who render extraordinary assistance in taking up audit work in addition to their usual duties are also allowed to share in this concession of money rewards, under the special orders of the Military Accountant General.

- (iii) As a very special case, all clerks transferred from one Division to another as a result of arrangements made in connection with the War, will continue to draw the rates of pay which they drew at their old stations, where these rates are higher than those in force at their new stations; and clerks who draw Rs. 100 and less per mensem will be given compensation at the rate of one month's pay calculated on the actual amount they drew at the time of transfer. These concessions are not intended to form a precedent for any similar concession in the future.

Relations of military audit officers to the Military Accountant General, and the Comptroller and Auditor General.

90. Instructions on this subject are contained in Fin. Dept. letters No. 526-A., dated the 5th June 1914, and No. 881-Accts., dated the 4th August 1916, which have been communicated to all the Accounts Officers concerned. F. D. 881-Accts., 4-8-16.
B. Aug. 16-40.

When a military audit officer finds himself unable to give a satisfactory audit ruling on the regulations as they stand, and a reference has to be made to a superior authority, that reference should be made in the first instance to the Military Accountant General. If the latter is satisfied that the case admits of a clear ruling being given, he will issue such a ruling, the effect of which will be to override the doubts or views of the officer making the reference. If, however, the Military Accountant General is not prepared to decide the matter himself, he will refer it to the Comptroller and Auditor General, stating his views on the case.

Resumption of inspection duties by Military Deputy Auditors General.

F. D. 1204-Accts., 24-9-15.
B. Oct. 15-7-9.

91. The inspections of the Military Deputy Auditors General, which had been temporarily suspended, were resumed from the 1st October 1915, with the object of devoting special attention to the work of the Divisional Disbursing Offices in India so far as this concerns the accounts of men who have proceeded to or returned from the field and to the manner in which the account duties at depôts are being performed. They are required, after visiting some of the regimental depôts in two or three Divisions so as to investigate the procedure which is being adopted by the Field Controllers of the several Expeditionary Forces and the difficulties which are being experienced by officers in charge of depôts, to proceed on a systematic tour of inspection of all depôts formed in connection with the War, including those for the personnel of Departments of the Army, and to inspect the sections of each Divisional Disbursing Office which deal with the accounts referred to above; also to see that the instructions contained in the memorandum issued with A. D. letter No. H.-7984, dated the 24th September 1915,* are strictly observed, submitting to the Military Accountant General any suggestions which they may have to offer with a view to obtaining uniformity of procedure and the co-operation of the Field Controllers of Military Accounts.

* Superseded by A. D. letter No. 2493, dated 19-2-17, see para. 26.

92. The Military Deputy Auditors General will not exercise executive or administrative direction in carrying out these duties, and they will work in close association with the regimental officers deputed to carry out the inspection of depôt accounts under the orders in A. D. letter No. 29270-1 (A. G.-5), dated the 8th September 1915.

They will not for the present inspect the audit offices of the Military Accounts Department; and as the scope of their duties under the present orders will be much reduced, a Deputy Examiner will not be attached to their staff.

93. Whenever a gazetted officer cannot be deputed for the inspection of units without replacement in his Division, a Superintendent may be appointed, under the orders of the Military Accountant General, to officiate as a Deputy Examiner, 2nd grade, under the same conditions as when officers of the superior staff are granted privilege leave.

In matters of accounts, the Army Department and the Military Accountant General to correspond with the Accountant General, India Office direct.

3465, 2-11-17.
B. Jan. 18, 345-46.

94. It has been decided with the approval of the Secretary of State that in all accounts matters the Accountant General, India Office, and the Military Accountant General in India should correspond with each other direct, the same system being followed with regard to similar references which emanate from the Army Department. In cases where there has been some unusual feature which should be brought to the notice of the Government of India, a copy of the communication from the India Office to the Military Accountant General should be sent to the Army Department for information.

Reduction in the scope of audit of pay accounts prepared in Divisional Disbursing Offices.

F. D., 465-Accts., 25-5-16.

95. The scope of the audit carried out by Divisional Controllers' offices except in the 3rd (Lahore), the 6th (Poona) and the 7th Meerut Divisions, where no change will be made, on all purely personnel pay charges of a fixed nature is reduced to one-sixth, commencing with the accounts for April 1916. All first charges and claims of a fluctuating nature will continue to be audited in full. The reduction in audit now authorised will not absolve Controllers from responsibility for ensuring that the audit which they do apply is sufficient to safeguard generally the interests of the State. To this end they will exercise their discretion and deal specially with any accounts which have been carelessly prepared, by subjecting them to a rigid audit without reference to any standard percentages. In carrying out these orders, Controllers will direct the work of their audit staff with the object of testing the correctness of claims in those respects in which experience has shown that mistakes most often occur; but they will be careful to ensure that the time of the audit

staff is not wasted in giving minute attention to the observance of technical rules.

The scope of audit carried out in the office of the Field Controller of Military Accounts, Poona, has also been similarly reduced. F. D. 597-Accts., 17-6-16.

Extension of operations of Divisional Disbursing Offices.

96. I. A. O. 146 of 1914, is modified as follows:—

856-1916.

For the first clause of Section III—Accounts of Indian units—*substitute* the following:—

III.—Accounts of Indian Units.

“Instead of pay lists and muster rolls being prepared by a unit, the Divisional Disbursing Officer will prepare monthly the claims for pay and allowances of each squadron, battery or company of Indian units on I. A. F. A.-23 for silladar cavalry and on I. A. F. A.-156 (acquittance rolls) for non-silladar cavalry, Indian artillery, infantry and Indian personnel of sappers and miners, showing in detail the pay and allowances due to every individual, and will send a copy of the forms for completion and retention and use as acquittance rolls, together with a cheque for the amount due, to the squadron, battery or company commander.

Copies of regimental and other orders which affect pay and allowances will be sent weekly by units to the Divisional Disbursing Office.

To enable regimental and other deductions from pay to be posted expeditiously into those copies of the forms which are sent for regimental use, details of all deductions will be maintained by units throughout a month in forms designed for this purpose and the total deductions only which may be due from each individual will be posted into the Acquittance Rolls.”

97. It will be noticed that the main features of the scheme are that:—

(i) the accounts of Indian units will be prepared by the Divisional Disbursing Officers on a nominal basis giving the full details of pay and other allowances due to every individual;

(ii) the form of pay bill which is to be used by the Divisional Disbursing Officer for this purpose is an adaptation of the I. A. F. A.-23 for Cavalry. present acquittance roll forms and the I. A. F. A.-156 for the unit will thus be relieved of the work other arms. involved in determining the pay and allowances due to each officer, non-commissioned officer and man;

(iii) the copy of the form which will be prepared by the Divisional Disbursing Officer so far as the account I. A. F. A.-23 for Cavalry. with Government is concerned, and I. A. F. A.-156 for the other arms. which will be sent to the unit, will be used by the officers commanding squadrons, batteries and companies for taking the acquittance of the men;

(iv) the same documents as are now used under the normal cost system for introducing changes into the pay bill, viz., regimental orders, vouchers, etc., received from units will continue to be used under the proposed system for preparing the pay list on a nominal basis;

(v) a separate form, which has been devised for the purpose, will be maintained by Officers Commanding squadrons, batteries and companies for working out the regimental deductions of the men, and only the totals of the deductions shown in this form will be transferred to I. A. F. A.-156 or I. A. F. A.-23 as the case may be.

The Military Deputy Auditors General will not exercise executive or administrative direction in carrying out these duties, and they will work in close association with the regimental officers deputed to carry out the inspection of depôt accounts under the orders in A. D. letter No. 29270-1 (A. G.-5), dated the 8th September 1915.

They will not for the present inspect the audit offices of the Military Accounts Department; and as the scope of their duties under the present orders will be much reduced, a Deputy Examiner will not be attached to their staff.

Terms of appointment of lady clerks in Army offices in India.

10404, 13-10-17.
B. Jan. 18—1540-50.

182. With a view to the release of military clerks for service overseas or for regimental duty the Government of India have decided to replace such clerks by lady clerks.

In pursuance of this object lady clerks may be employed, for the period of the War, in Branches of Army Headquarters, Headquarters of the Northern and Southern Armies, Divisional and Brigade Staff offices and Departments under the control of the Government of India in the Army Department.

In the case of lady clerks who may be employed in appointments carrying consolidated rates of pay, the minimum rate of salary will be Rs. 100 per mensem. It will, however, be permissible for the head of an office to appoint such lady clerks to higher rates of pay, provided that the total amount of pay authorised for the consolidated appointments replaced is not thereby exceeded.

As regards lady clerks employed to replace men in receipt of salaries comprised of regimental pay and staff pay, a fixed rate of salary of Rs. 100 per mensem will be admissible.

In order that the work of offices may be dislocated as little as possible by this change of clerks the Government of India have further decided that men clerks replaced by lady clerks may, on replacement, be retained for a period not exceeding one month to allow of the latter learning their work.

The lady clerks to be employed under this scheme should be carefully selected so as to ensure that efficiency is maintained. They must be capable of dealing with office files, etc., after training.

Military "Reserve" clerks are intended eventually for service in the field, and are, therefore, not to be replaced by lady clerks.

Revised procedure for submission of indents for books.

4163-1 (A. D.), 14-12-17.
Special I. A. O. 26-12-17.

221. The following revised procedure will be adopted, as a tentative measure, for submission of indents for books required for the Army in India, with effect from the 1st January 1918 :—

Departments of the Government of India and officers, civil and military, having the powers of a local Government, will be allowed to indent direction the Superintendent of Government Printing, India, for all non-confidential Indian military publications of which a list is published in the advertisement to the Quarterly Indian Army List, and such War Office publications as are stocked in the Government Press Book Depot, Calcutta. The latter are shown as an annexure to the order quoted in the margin.

The military authorities thus empowered to indent direct on the Government Press include :—

Heads of Branches of Army Headquarters.

General Officers Commanding, Armies, Divisions and Independent Brigades.

In submitting indents it will be stated invariably by indenting officers whether future editions or issues of the books and of corrections thereto are required.

The Superintendent of Government Printing, India, will keep a record of all issues made, and submit quarterly to the Army Department a report of books and corrections issued and required in future.

Steps to replenish stocks will be taken by the Printing Department in the case of books printed by the Government Press, without reference to the Army Department or Branches of Army Headquarters. The Press will be kept informed by the Branches of the likelihood of a book being considered obsolete. Requisitions for any additional Home publications which it is desired to stock should be submitted by the Press to the Army Department for transmission to the India Office.

Those military officers who are empowered to obtain books will indent direct on the Superintendent of Government Printing, India, for copies of the

Civil Service Regulations, and on the Publisher of the *Gazette of India*, Simla or Delhi, as the case may be, for the *Gazette of India* or its Extracts. Other civil publications, including Acts of the Governor-General in Council and of the Local Governments, will continue to be obtained through the authorities responsible for their issue.

Indents for the War Office Monthly Army List will continue to be sent to the Army Department and those for the Indian Army List to the Military Secretary to H. E. the Commander-in-Chief.

Demands for books will be based on scales already authorised for each arm of the service. In cases where no scale exists at present indenting officers having the power of a Local Government will decide a scale of issue for books.

All responsibility for the correctness of demands for books will rest with indenting officers.

233-A. See Chapter "Pay and Allowances, General."—

Procedure under which civil pay is issued in India to members of the Indian Civil Service who hold commissions in the Indian Army Reserve of Officers.

234. An officer of the Indian Army Reserve is entitled while serving within Indian limits to pay at civil rates according to the "next below" rule, or military pay and allowance whichever is greater, and while employed in Europe or overseas, to military pay and allowances of rank *plus* civil furlough pay. The procedure adopted with regard to the issue of pay to these officers is as follows:—

45141-1 (A.G.1), 2-2-17.
B. Feb. 17, 710—11.

While serving within Indian limits.—The Civil Department under which the officer was serving prior to his reversion to military duty issues a last-pay certificate to the Divisional Disbursing Officer of the military Divisional area to which the officer is posted for duty. On receipt of the last-pay certificate the Divisional Disbursing Officer pays him either at the civil or military rate, as the case may be.

While serving outside Indian limits.—The payment of civil furlough pay due to officers is made by the Field Controllers of Military Accounts simultaneously with the issue of their military pay and allowances. In cases where the civil furlough pay is required to be paid in India, arrangements are made by the Field Controller concerned for payment to be made by the Controller of the military Divisional Area in which the officer was serving prior to his transfer to military duty, and in cases where payments are to be made at home the Field Controller concerned makes the necessary arrangements with the India Office.

Free passage to station in India to civil officers returning from service invalided.

235. Civilian gazetted officers of civil departments, including the Military Accounts Department, invalided from field service overseas, will be granted free passage on warrant to the station in India to which they are sent, and when returning therefrom on recovery, or on rejoining their civil appointments.

The case of civilian subordinates of the departments referred to, will be governed by para. 83 (iv), A. R., I., Vol. X.

Authority empowered to grant 2nd class railway fares to civilian subordinates drawing salaries of under Rs. 100 per mensem.

236. The expression "Head of department" used in I. A. O. 323 of 1914, regarding the grant of second class railway fares to civilian subordinates

in receipt of pay ranging between Rs. 50 and Rs. 100 per mensem, means the officer who controls the travelling allowance of the subordinate concerned.

"Field allowance" not to count as salary in calculating amount of pension admissible to non-combatants.

F. D. 200-P, 18-3-16.
B. Apl. 10, 2014.

237. For the purposes of paras. 1062 and 1073, A. R., I., Vol. I, a member of the Military Accounts Department is a departmental employé and, if drawing a salary of less than Rs. 200 per mensem, his pension is regulated by those Regulations. A field allowance will be regarded for this purpose as a compensatory local allowance and will not count as salary in calculating the amount of wound, injury or family pension admissible, but the rate of pension may be determined with reference to the pay (exclusive of field allowance) an individual was actually drawing at the time of his wound or injury, or immediately before the occurrence of his death, as the case may be. Except where it is otherwise expressly provided, this decision applies to all non-combatant departmental and regimental employés and followers referred to in paras. 1062 and 1073, A. R., I., Vol. I.

Rules governing the grant of wound and injury pensions to civilian superior subordinates.

H. 3452, 2-5-16.
573-1916.

238. The following rules govern the grant of wound and injury pensions to civilian superior subordinates whose pay is debitable to the Army estimates.

Civilian superior subordinates come under two categories, namely:—

- (i) Those who belong to the various departments of the Army, such as the Supply and Transport, Medical, Ordnance, Veterinary, Remount, Military Accounts, etc.
- (ii) Those who belong to purely civil departments, such as the Post Office, Telegraph, Railway, etc.

All men coming under (i), if their pay is less than Rs. 200 per mensem, are granted wound and injury pensions in accordance with the provisions of para. 1062, A. R., I., Vol. I; and such pensions to those drawing Rs. 50 per mensem and above require the sanction of the Government of India under item 3 against the entry "wound or injury pension or gratuity" in App. IX, A. R., I., Vol. III.

Men whose pay is Rs. 200 per mensem or more, and all those coming under (ii) above—whether drawing Rs. 200 per mensem or less—are dealt with under Chapter XXXVIII of the C. S. Regs. The mere fact that their pay when debited on military service is debited to the Army estimates, does not affect the question.

Grant of leave after the age of 55 years.

Scale of clothing and necessities for troops and followers in the Mesopotamia Expeditionary Force.

246. The authorized scale of clothing and necessities for all troops and Sp. I. A. O. 17-9-17, followers serving with the Mesopotamia Expeditionary Force, consolidated from Force Routine Orders, War Establishments, India, and A. R., I., Vol. XI, is published as an annexure to the I. A. O. noted opposite. The source of supply of the various articles is given in para 7 of that I. A. O., as amended by I. A. O. 1245 of 1917.

With effect from 1st October 1917, all troops and followers proceeding from India to join that Force will be equipped before departure on the winter scale notified in the annexure.

Such articles, detailed in the annexure, as are maintained by a man on the normal peace scale will be taken as part of his kit, and, if deficient, will be provided at his expense. Other articles not so maintained will be provided free before departure.

If a man, on being warned for field service, is already in possession of serviceable articles, which are of the kind mentioned in the annexure, and

which have been supplied free by Government, the free issues allowed him on scale will be correspondingly reduced.

The equipping officers will be responsible that drafts are fully equipped before departure and that—

- (i) a list of all the articles issued is attached to the documents of a man, or, in the case of those who have a service book, an entry made in the service book accordingly;
- (ii) a copy of the list of articles issued is handed over to the duty conducting officer;
- (iii) none of the articles are issued until the troops and followers actually being equipped for despatch.

1159-1917.

The above order does not apply to British and Indian troops and followers on leave in India from the Mesopotamia Force. These men will be equipped on the winter scale after return to Mesopotamia. They should not receive in India more articles of summer scale (including also drill clothing) than is absolutely necessary.

Issue of additional clothing on mobilization.

6926-1 (Q.M. G. 6), 20-3-17.

381-1917.

As amended by 1851-17,
98-1917, 613-1917.

247. Additional clothing on the scales shown in the annexure (Statement to the order quoted in the margin, will be issued on mobilization to personnel mentioned in the classification statement (B) of the annex. These statements supersede Table VIII of War Establishments, India (Provisional), 1916.

Renewals of clothing in the field will continue to be governed by A. R. Vol. XI, para. 38-B, the scales of clothing to regulate such renewals being scales of kit included in the field service manuals of the several units and services.

Any special orders regarding the issue of field service clothing during present War, which are not covered by the new scales now sanctioned, continue to remain operative for the period of the War.

Compensation for unserviceable and deficient articles of field service kit.

12911, 8-11-16.

945-1916.

248. See Chapter "Compensation, etc.," paras. 351 and 392.

Replacement of unserviceable and deficient kit.

H. 3986, 16-5-16.

1340-1917.

249. During the War the replacement is authorised of all articles of clothing and necessities forming part of the peace scale which a man is required to maintain, and included in the authorised field service kit laid down in Field Service Manuals, which have become unserviceable or deficient on service in the kits of all Indian officers, British and Indian soldiers and public followers as are in receipt of clothing allowance or free issues of clothing in peace, who return from service in the field.

In the case of British troops, such articles enumerated in A. R. Vol. XI, Ap. VI, VII and X, as are authorised to be taken on field service, be replaced by free issues in kind.

In the case of Indian troops and followers, only those articles which included in the annexure to I. A. O. 1340 of 1917, may be replaced at Government expense. The maximum scale at which articles may be replaced and source and manner of replacement, are given in the annexure. Compensation for the actual cost of regimental supply, may be drawn only for such articles forming part of the authorised field service scale of kit as are not supplied by Government agency. Stocks obtained under regimental arrangements before the publication of I. A. O. 184 of 1916,* may be issued, but compensation may be allowed only at Army Clothing Department rates.

Issues made under the authority of this order are subject to the condition that the individuals concerned have not been permanently invalidated from the service and that replacements are not necessitated by neglect on their part or on the part of the corps to which they belong.

* See para. 309.

Deficiencies, which may be made good as above, will be assessed under regimental arrangements, and the assembly of boards under A. R., I., Vol. I, para. 324, for this purpose, will not be required. The rules in A. R., I., Vol. XI, paras. 38-C, 38-D, and 38-F, are accordingly temporarily in abeyance.

These orders will have retrospective effect from the commencement of the War. In cases in which the compensation already drawn by Indian troops and followers, under the rules which are now temporarily in abeyance, is less than the cost of supply by the Army Clothing Department as notified in I. A. O. 739 of 1916,* the individuals concerned should be credited with a further sum representing the difference between the total value of the articles at departmental rates and the total compensations actually drawn.

* See para. 360.

Indents preferred on Army Clothing Factories on the authority of this order, to complete stocks maintained under the authority of I. A. O. 1192 of 1917† should be marked accordingly and submitted on the correct forms as indicated in A. R., I., Vol. XI, para. 6, accompanied by size rolls. Indents for boots should be addressed to the Government Inspector of Army Boots, Cawnpore.

† See para. 318.

(India Army Order No. 661 of 1916 is cancelled.)

Enhancement of the recovery rates of articles of field service clothing.

250. The recovery rates of articles of field service clothing, laid down in the Supply and Transport Manual, War, Appendix II, are enhanced, temporarily for the period of the War, by 20 per cent. In the case of the undermentioned articles of clothing, which are not included in that Appendix, the recovery rates are:—

15260, 20-12-16,
B. Janr 17, 726-3.

7729, 25-5-17,
B. Janr 17, 726-30.

	Rs.	A.	P.
Blanket, general service	9	0	0
Drawers, warm	2	12	0
Vest, warm	2	12	0
Shirt, flannel	4	7	6
Comforter, woollen	0	12	0

The enhanced rates will govern all outstanding and future recoveries for articles of field service clothing, issued in the field and in India, to officers and others during the period of the War.

Where this decision conflicts with the orders promulgated in I. A. O. 184 of 1916 as amended by I. A. O. 739 of 1916,‡ the rates sanctioned in the annexure to the latter order will hold good.

‡ See para. 309.

New pattern identity discs.

251. With reference to A. R., I., Vol. XI, paras. 35 to 38, identity discs made of red vulcanised asbestos fibre have been adopted, in lieu of aluminium discs, for British and Indian officers, troops and followers.

6038-5 (Q.M.G.8), 6-3-15,
B. Apl. 16-845-60.
147-1916.

The new discs will be issued by the Army Clothing Department and will be marked in exactly the same manner as the aluminium ones. They will be taken into use gradually as existing stocks of the latter in factories with units and in mobilisation reserves are exhausted.

Introduction of an additional identity disc (green) for the British and Indian Army.

252. With reference to A. R., I., Vol. XI, paras. 35 to 38, Mobilization Store Tables for the Field Army in India, and Mobilization and Concentration Regulations, paras. 43 and 44, a second (green) identity disc (with six inches of cord) has been introduced for British and Indian officers, troops and followers, to be worn in addition to the present red asbestos disc, referred to in I. A. O. 147 of 1915§ (or the aluminium disc, in the case of those still in possession of this pattern).

20170-1 (Q.M.G.8), 2-1-17,
B. Feb. 17-1185-1901.
101-1917.

§ See para. 251.

The green disc will be worn uppermost, and the present disc will be attached below the green one by a cord, allowing 14" between the two discs. The discs will in future be known respectively as:—

Disc, identity, No. 1 green.

Disc, identity, No. 2 red.

The present rules regarding the provision, maintenance and marking will apply to the new green disc, a first free issue being admissible to all officers and troops now serving, and 3 pice per disc allowed for discs marked regimentally.

Steps should be taken to ensure that all troops proceeding on service are in possession of two discs.

Supply of standard patterns of clothing, etc., not to be insisted on.

267-1917.

253. In order to make the best use of resources standard patterns are not to be insisted upon by officers commanding units who must accept such substitutes as departments of supply are able to provide.

Discretion in the matter is vested in Heads of Departments, subject to the following general conditions:—

- (a) Standard patterns are to be supplied whenever local resources allow of this.
- (b) No supplies are to be imported if an efficient local substitute is obtainable.
- (c) When substitutes are issued in lieu of standard patterns, descriptions of the former should be furnished to General Officers Commanding, by the department of supply, for the information of all concerned.

Economy in the wear of stocks and all articles of woollen manufacture.

254. Army Council Instruction No. 495 of 1917 on this subject is republished in the India Army Order noted opposito.

256. Fees charged for such inspection are credited entirely to the State, the grant of any remuneration to the examining staff being determined with sole reference to the question whether over-time work is involved or not.

Fees to the Textile Expert attached to the Army Clothing Department for the examination of textile goods purchased by Civil Departments.

257. With regard to the arrangements for examination by the Textile Expert attached to the Army Clothing Department of textile goods purchased by civil departments, it has been decided that no *ad valorem* fee for inspection by the Expert need be provided for. Issues made to the services at (a) above, will be treated as advance issues under I. A. O. 375 of 1916.*

437-1916.
• Cancelled; I. A. O. 661 of 1916, and 1340 of 1917; see para. 249.

Issues made under (b), (c), (d) and (e) should not be in excess either of deficiencies in authorised scales or of immediate needs.

Maintenance of clothing at Convalescent Sections.

290. Stocks of public and personal clothing and necessities on the scale detailed in the annexure to the order quoted in the margin will be maintained at Convalescent Sections, for issue, when necessary, to British troops who, on return from field service, are accommodated therein.

10335, 24-7-17.
988-1917.

Issues should in no case exceed actual requirements and are subject to the limitations and conditions indicated in the list. Requirements of blankets and of bedding generally will be obtained from the Army Clothing Department.

The General Officer Commanding, Bombay Brigade, will, from the stocks already authorised to be maintained by him for the purpose, under A. D. letter No. H.-3905, dated the 13th May 1916, provide clothing for—

- (a) British sick and wounded from War hospitals in Bombay.
- (b) British convalescents arriving at Bombay and proceeding direct to Convalescent Sections or to their regimental depôts or units.

291. Clothing and necessities maintained under the above authority will be in unit charge and will be issued under the authority of Officers Commanding Convalescent Sections. Issues of all articles marked (a) in the list will be treated as advance issues under A. D. letter No. H.-3986, dated the 16th May 1916,† and struck off charge accordingly by the issuing Sections. They will be brought on their books by Officers Commanding depôts or units, to whose men the issues are made, on the usual expense vouchers, copies of which will be sent to them and the Controller concerned by the issuing officer.

† See para. 249.

292. Indents for the formation and replenishment of stocks will be submitted as directed in A. R., I., Vol. XI, para. 5. The sizes of boots, proportions of patterns required for various branches of the service and any other details, will be decided by Officers Commanding Convalescent Sections, in direct communication with the Superintendents of Army Clothing Factories or the Government Inspector of Army Boots.

293. The basis for the minimum stock to be maintained will be the authorised strength of the Convalescent Section and not the actual strength at any time. Temporary reductions of strength will not entail reductions of the stock to be maintained, e.g., if the authorised strength is 1,000 the stock to be maintained should be on that basis, even though the actual strength should fall to, say, 500 men. But should the strength exceed that authorised by more than 25 per cent, a proportionate temporary increase of stocks would be permissible at the discretion of the Officer Commanding Convalescent Section.

Officers Commanding will be held personally responsible for the value of the stocks of personal clothing and necessities maintained by them, and, in the case of loss or damage, will be liable for the value thereof, *vide* A. * As amended by I. A. O.'s 50, 78, 145, 197, 254, 375, 453, 468 and 558 of 1915, and 25, 72, 100, 120, 332 and 378 of 1916.

† As amended by I. A. O.'s 364 and 370 of 1916.

respectively (see paras. 260 and 270):—

- (a) Public clothing.
- (b) Personal clothing.
- (c) Necessaries.

Articles of public and personal clothing will be supplied on free indents from the Army Clothing Department, according to the scales and conditions laid down in the above quoted I. A. O.

For articles of public clothing a ledger should be maintained in I. A. F. A.-74; this ledger should be closed on the 30th September of each year by infantry units and on the 31st March by artillery units, and forwarded, supported by vouchers, to the Controller of Military Supply Accounts for audit, as soon as possible after those dates.

For articles of personal clothing and necessities, separate records on I. A. F. C-821 and I. A. F. C-846, respectively, should be maintained regimentally to show receipts, issues, and balances, of these articles. These records are not required to be sent for audit to the Controller of Military Supply Accounts.

Necessaries will be supplied from the Army Clothing Department on payment only, and their value will be adjusted through the medium of liability certificates. The procedure indicated in paras. 2 and 3 of the notes† regarding the clothing accounts of British units in India should be followed in such adjustment.

The procedure indicated in I. A. O. 303 of 1916 (see para. 307,) should be followed with regard to units leaving India.

139-1917.

Public and personal clothing obtained on payment indents will be valued by the Controller of Military-Supply Accounts and their value should be credited in the accounts of the units immediately on receipt of valuation statements.

612-1917.

The procedure indicated in para. 121 *et seq.*, A. R., I., Vol. XI, should be followed with regard to the preparation and forwarding of Transfer Clothing Statements (I.A.F.—C.-838), whenever a soldier is transferred in India or leaves it on being struck off the Indian establishment, etc. A manuscript statement showing the articles of personal clothing with the dates of their issue, including articles of personal clothing, if any, for which compensation may have been drawn (with the date of payment of compensation) should always be prepared and attached to the Transfer Clothing Statement.

Indian Army.

Supply by the State of certain articles of clothing and necessities on payment to the Indian Army, except Silladar cavalry regiments.

309. During the period of the War, the wearing of all articles of full dress clothing in the Indian Army will be discontinued, the existing rates of kit-money and clothing allowance remaining unaltered and being utilised in the provision and maintenance of clothing on the scales shown in the annexure to I. A. O. 184 of 1916.* This order in the case of recruits will have effect from the 29th October 1915.

184-1916.
739-1916.
* As revised by I. A. O. 739 and 865 of 1916 and 161 of 1917.

The Army Clothing Department will take over the supply as soon as possible on an obligatory basis, and will continue the supply until 6 months after the War, of the articles of clothing (including boots) and necessities shown in the annexure as to be supplied by that department. Articles will be issued to units on payment at the rates shown against each item, freight charges for the clothing thus supplied being waived except in the case of units on colonial service, *vide* A. R., I., Volume XI, para. 162.

310. In furtherance of the above arrangements, the following procedure will be observed :—

- (i) Units may not, as heretofore, make regimental arrangements for the supply of the articles of kit shown in the annexure as to be supplied by the Army Clothing Department. Except as provided for below, they must obtain such articles from the above Government agency and from no other source.
- (ii) Units will be allowed to take delivery of articles of kit or of material for the manufacture of uniform which are already under order from other sources.
- (iii) Boots for Indian troops will be obtainable of two qualities and at prices noted in the statement; but it will not be open to any unit to insist upon the supply of either quality. The Government Inspector of Army Boots is authorised, within the above limits, to issue such qualities as he has in stock. Indents for boots should be accompanied by size rolls.
- (iv) As the Army Clothing Department could not immediately meet a large simultaneous demand from all units, Officers Commanding should restrict, as far as possible, their initial demand upon the Army Boot Depot, including therein only such quantities as are urgently required. Subsequent indents should distinguish between urgent requirements and boots required for stock.
- (v) "Followers N.-2" pattern boots will be supplied on payment from the Army Boot Depot, under the conditions notified in the second clause of paragraph 309 above, to Transport and Army Bearer Corps units at a cost of Rs. 5-7-4 per pair. [This rate was subject to alteration after the end of June 1916].

- (vi) The supply of socks or foot bandages and of jerseys or waistcoats is made alternative and it will not be open to any unit to insist upon the supply of either article. The available supply of jerseys and socks in India is not equal to requirements and it is probable that the Army Clothing Department will for some time not be able to meet demands for these articles in full.

[NOTE.—Paras. 309 and 310 do not apply to silladar cavalry regiments. For clothing for these regiments, see I. A. O. 40 of 1917 (para. 1789.)]

Free issue of uniform clothing to all establishments of mule transport units in substitution for kit money and clothing allowance.

311. In lieu of kit money and clothing allowance at present authorised by A. R., I., Vol. XI, paras. 149 and 151, all establishments of mule transport units will, during the War, receive on attestation a free issue of uniform clothing on the scale laid down in the statement attached to the letter quoted in the margin. The articles will be renewed only when worn out by fair wear and tear and condemned by the Officer Commanding the unit.

312. The following procedure will be adopted in regard to the accounts of the personnel of such mule units as have been raised for the duration of the War only:—

(a) Units will close their clothing accounts, any stocks of clothing remaining on hand being taken over by the Army Clothing Department.

(b) Commandants will render accounts of expenditure and its adjustment from any advances they may have received for the provision of kit for their personnel to the Accounts Officer concerned who will recover at once any unspent balances of the advances.

(c) Debit balances of individuals will be written off and Commandants will submit the gross amounts of the ledger debits of their units, stating the number of men concerned, to their Accounts Officers who will report the amounts for the information of Government.

313. As regards personnel of mule units of the standing peace complement, i.e., men engaged on ordinary peace terms, the procedure at 2 (a) will be adopted but the individual accounts will not be finally adjusted, and any balance debit or credit will remain standing until the end of the War, or until the individual is discharged.

314. The clothing issued to the personnel of mule transport units in accordance with this order is Government property, and the sale proceeds of any of the articles in the possession of men whose clothing accounts have not been finally adjusted will not be credited to their accounts when they become permanently non-effective.

Provision and maintenance of kit of mule transport reservists embodied for service during the War.

315. Mule transport reservists embodied for service during the War will receive their kit under the rules * applicable to mule establishments on the active list.

(i) On embodiment the kits will be supplemented by free issues at the expense of the State according to the scale † laid down for mule establishments.

(ii) The articles will be renewed when worn out by fair wear and tear and condemned by the Officer Commanding the unit.

(iii) When mobilised for field service the kits will be completed to the field service scale under the rules applicable to mule establishments on the active list.

(Y) on attestation.

(b) Articles shown under the various heads will be treated in the same manner as corresponding issues to British troops and will be accounted for accordingly.

Meanwhile, except in the case of men to whom free kits are issued under the authority of this order for whom no clothing allowance will be drawn pending settlement of the rates of maintenance allowance referred to above, the existing rules regarding clothing and boot allowances will remain in force.

The special attention of all concerned is drawn to the fact that under the sanction conveyed in this order, the provisions of para. 14, A. R., I., Vol. XI, are no longer operative.

This sanction is given as a temporary measure pending settlement of, and without prejudice to, the question of the future clothing allowance now under consideration.

Payment of advances made under the authority of this order will be adjusted in the accounts of units in the usual manner, being subsequently deducted from the allowance referred to above.

Abolition of kit money for transport units and free issue of uniform clothing in lieu.

1300-1917.

320. For the period of the War, the system of granting kit-money and clothing allowances to the establishments of Government transport units will be abolished and in its place a free issue of uniform clothing, as laid down in the annexures to the I. A. O. noted opposite substituted. The articles will be replaced when condemned by the officer commanding the unit as having been worn out by fair wear and tear.

The clothing accounts of all Government transport units, for whose personnel kit-money and clothing allowance are at present authorised, will be closed and the remaining stocks of clothing and materials in their possession will be taken over by the Army Clothing Department; but the individual clothing accounts will not be finally adjusted, and any balance debit or credit will remain standing until the end of the War, or until the individual is discharged or otherwise becomes permanently non-effective.

Clothing issued in accordance with these orders is Government property, and the sale proceeds of any of the articles in the possession of men whose clothing accounts have not been finally adjusted will not be credited to the accounts of the men in question when they become permanently non-effective.

The clothing arrangements of silladars in silladar transport units are not affected by these orders.

321. In lieu of the frontier kit-money and clothing allowance at present authorised by para. 164, A. R., I., Vol. XI, all transport personnel serving at the localities where these allowances are admissible will, during the period of the War, receive as a free annual issue per man, the following additional articles of warm clothing, *viz.*, 1 pair pyjamas warm, 1 jersey, and 1 blanket. Clothing allowance of Indian officers promoted from the ranks on field service.

322. The advance of six years' clothing allowance authorised under A. R., I., Vol. XI, para. 153, for Indian officers, may be drawn by an Indian officer promoted from the ranks while on field service.

The rule in A. R., I., Vol. XI, para. 38-A., as inserted by Oct. App.
I. A. O.

The intention is to give an Indian officer some help towards the purchase of the articles of kit noted which, though generally necessary, are not provided free by Government on service when the issue of clothing allowance is suspended.

Indian officers promoted from the ranks while in the field, entitled to free issues of clothing.

G. 5), dated the 21st August 1915, is issued to all Indian troops and followers, entitled to it, on disembarkation in India, when returning from overseas Expeditionary Forces. Should any man arrive at his unit or depot without suitable clothing, his case should be investigated at once, and the Embarkation Commandant at the port of disembarkation asked by wire for sanction to give the man the usual articles, as issued at Bombay and Karachi, up to a maximum value of Rs. for each fighting man and Rs. 8 for each follower.

The term "followers" is intended to include all Government followers and does not apply only to those who are enrolled, but also to followers under civil rules, drawing less than Rs. 30 per mensem, who are not in receipt of clothing allowance. Followers of these classes are accordingly eligible for the issue of hindustani clothing up to the value of Rs. 8 under the terms of A. D. letter No. H-4996, dated 20th May 1915. All sick and wounded attested followers, who are invalided from overseas forces will receive an issue of hindustani clothing to the value of Rs. 15 when this supply is considered necessary.

Compensation in lieu of an issue of Hindustani clothing is inadmissible.

3. The minimum limit of age for candidates competing for admission to the Royal Military Academy will be $17\frac{1}{2}$ (instead of 17), commencing with the Army Entrance Examination to be held in July 1917.

A candidate for admission to the Royal Military Academy, Royal Military College or a Training College in India, must have attained the age of $17\frac{1}{2}$, and must not have attained the age of $18\frac{1}{2}$, on the governing date. The only exception will be in the case of a

candidate who is serving, and has served satisfactorily, in the Royal Navy, Regular Army, Special Reserve, Indian Army Reserve of Officers, Militia, Territorial Force, or the Forces of the Overseas Dominions, and is recommended by his Commanding Officer as suitable in all respects for appointment to a permanent commission in the regular army, in which case the upper age limit will be 21.

4. The governing dates for age will be :—

Permanent commissions in the Indian Army to selected officers of the Special Reserve, Territorial Force and New Armies.

345. The grant of permanent commissions in the Indian Army, up to a limited number, to selected officers of the Special Reserve, Territorial Force and New Armies is sanctioned under the following conditions:—

5688, 21-4-17-

(b) A candidate will count for pension all service as a commissioned or warrant officer, and one-half of service in a lower rank rendered since the 5th August 1914, but only service in the regular forces before that date will count for pension as above. The period of service rendered *out of India* prior to joining the Indian Army, allowed to count for pension, is subject to the limit of 5 years laid down in para. 694 (a), A. R., I., Vol. I.

(c) A candidate will count for promotion the period of commissioned service which he is permitted to count for pension less nine months, and the date of his commission in the Indian Army will be regulated accordingly.

(d) An officer will join the Indian Army on probation in the rank to which his length of service, adjusted as above, would entitle him under Indian Army rules of promotion, any higher rank being relinquished. Readjustments of rank will be effected as follows:—

(i) In the case of an officer sent from England to India, from the date of landing in India.

(ii) In the case of an officer serving in India or on field service, from the date of joining an Indian unit.

(iii) In the case of an officer already attached to an Indian unit, from the date of his acceptance as a probationer for a commission in the Indian Army as notified in the *Gazette of India*; (but this will not affect any pay previously drawn, *vide* paragraph 318-A., Army Regulations, India, Volume II).

887-1917.

347. The Army Council has decided that the system of holding Army Entrance Examinations in India shall be abolished.

Chapter XII.—Compensation for losses, clothing, dearness of food, etc.

Compensation for extra expenditure caused to units and individuals by abnormal movements ordered since the outbreak of War.

233-33 (Q. M. G.-1), 11-10-16.
B. Nov. 16—658-727.

746-1917.

348. When a sudden or unexpected move necessitated by the War is followed by others before the normal periods of stay at the new stations have been completed, such moves may be regarded as 'abnormal' in order to entitle a unit or individual to claim the special concessions sanctioned in paragraph 350 below. Each case should, however, be considered on its merits and decided by the General Officer Commanding the Division or Independent Brigade, in consultation with his Controller; and only such cases as cannot be disposed of accordingly should be submitted for the orders of the Government of India.

349. The claims on this account include various items of expenditure, which may be classified under the following headings:—

- (i) Those due to the cost of actually moving regimental stores and baggage of individuals in excess of the authorised scales laid down in paras. 104 and 110, A. R., I., Vol. X.
- (ii) Those consequent on the abnormal movements, e.g., loss due to enforced sale of miscellaneous regimental or private property, and its replacement at the new station.
- (iii) Those due to breakages, damages to, or loss of, kit, etc.

350. In the case of units which have proceeded on field service officers commanding depôts are authorised, under A. D., letter No. H. S.-268, dated the 12th January 1915, to take with them the baggage and kit of officers and men left behind in India and such regimental property as would accompany the headquarters of the unit when moving in relief. This covers the legitimate claims of depôts, coming under heading (i) in the previous paragraph,

but it does not meet similar claims from units which have had abnormal moves in India, as distinct from those which went on field service.

The claims of such units, both existing and future, during the period of the War, will therefore be adjusted as follows :—

- (a) In the case of units which were moved prior to the 4th November 1915, the cost of moving, or loss involved by the enforced sale at the old station and replacement at the new station, of such articles as are referred to in A. D. letter No. 27654—1 (A. G. 1), dated the 4th November 1915, will be borne by the State, subject to the conditions stated at the foot of this clause.

The articles referred to in that letter are recapitulated below—

- (i) buildings, fixtures and semi-fixtures erected or purchased by units in connection with regimental training which would ordinarily be purchased by incoming units on relief;
- (ii) buildings, etc., of an unusual kind which would probably not be taken over by incoming units;
- (iii) portable articles and appliances which have only been left behind because the units have gone on field service, and would ordinarily have accompanied them to their new stations;
- (iv) appliances, etc., of a non-portable nature used in the institutes which are not Army Institute Fund property.

Condition I.—The State will not undertake any responsibility in regard to buildings, etc., of an unusual kind, which would probably not be taken over by incoming units on relief.

Condition II.—Claims for compensation on account of portable articles and appliances will be decided with reference to whether the articles in question are necessary in the interests of the service and are articles which regiments ordinarily possess, as distinct from those which no relieving unit can reasonably be expected to take over.

- (b) An extra allowance may be granted to cover all other claims for the actual cost of moving regimental property, stores, and baggage of individuals, subject to a maximum of 100 per cent. on the scales laid down in A. R., I., Vol. X, paras. 104 and 110. This extra allowance will not, however, be admissible in respect of those articles which come within the category of articles for which free conveyance is allowed under paragraph 110, *ibid*, or for which compensation is granted under clause (a).
- (c) Claims for conveyance of baggage under clause (b) when not booked by credit note, should be submitted on I. A. F. A.-115 to the Senior Controller of Military Supply Accounts, Calcutta, for audit and payment.
- (d) All claims for compensation for losses due to breakages, damages to, or loss of, kit, etc., will be dealt with by General Officers Commanding, Divisions and Independent Brigades, under existing rules (paras. 322—324, A. R., I., Vol. I.)

1317-1917.

The above concessions do not apply to Territorial and Garrison units which are provided by Government with all necessary regimental, mess and institute furniture and equipment.

Compensation to Indian Officers and British and Indian troops and followers for unserviceable and deficient articles of kit.

351. As a temporary war measure, cash compensation as follows will be granted for articles of clothing and necessaries which form part of the authorised field service-kit laid down in the Field Service Manuals, and which, through no fault of individuals or of the Corps to which they belong, become unserviceable or deficient in the kits of Indian officers, British and Indian

12911, 8-11-16.
945-1916.

soldiers, and of such public followers as are in receipt of clothing allowance in peace, who on return from field service are permanently invalided from the service:—

- (i) British troops will be granted cash compensation at the rates specified in the "Price List of clothing and necessaries" for those deficient or unserviceable articles of kit which in other circumstances would be replaceable in kind under I. A. O. 661 of 1916 (subsequently cancelled by I. A. O. 1340 of 1917, see para. 249).
- (ii) Indian officers, troops and followers will surrender for disposal to the best advantage of the State the articles of kit in their possession [except full dress (including pouch belt or sash), in the case of Indian officers], and be granted cash compensation at the rates laid down for the heirs of Indian ranks who die or are killed on active service, *vide* A. D. No. H.-8251, dated the 6th October 1915.*
- (iii) In addition to the concessions referred to at (ii) Indian officers will be allowed, with reference to A. R., I., Vol. II, para. 823, to retain their belts, swords and scabbards. In the case of those not in possession of these articles through causes beyond their control, a free issue in kind will be made to them by the Ordnance Department.

* See para. 320.

The above orders have retrospective effect from the commencement of the War, and exclude Indian troops and transport personnel who became non-effective within the minimum periods of their attestation, with reference to A. R., I., Vol. XI, para. 148.

Compensation for unserviceable or deficient kits.

3257, 5-3-17.
322-1917.

352. In continuation of I. A. O. 945 of 1916 (see para. 351), the grant of compensation for authorised field service kit sanctioned in A. D. letter No. H.-8251, dated the 6th October 1915, is extended to include the cases of the heirs of men who, while temporarily invalided from any of the Expeditionary Forces, die in a hospital ship, or in hospital in India, or while on sick leave at their homes. This sanction is subject to the usual conditions that the deceased drew clothing allowance in peace time, had completed 3 years' service at the time of death, and had not already received a re-issue of field service kit in accordance with I. A. O. 661 of 1916 (subsequently cancelled by I. A. O. 1340 of 1917, see para. 249.)

The special concessions granted to Indian ranks in I. A. O. 945 of 1916 are applicable to the above cases. The field service kits of such men should be surrendered for disposal to the best advantage of the State.

These orders have retrospective effect from the beginning of the War.

Compensation to officers for loss of kit on active service.

472-1916.

353. The second clause of Army Council Instruction No. 517 of 1916, printed below, is extended to India except that the claims for compensation preferred by officers thereunder will be dealt with in accordance with paras. 322 and 326, A. R., I., Vol. I:—

A. C. I. 517, dated the 6th March 1916.

With reference to A. O. 323 of 1915, cases have occurred in which officers who are in hospital or convalescent, and have not yet been found fit for service, have lost all their kit and have had to provide themselves with fresh uniform to meet their immediate requirements.

In such cases it has been decided, as a special concession, that compensation

* The following list may be taken as a guide:—1 cap, 1 great coat (or British warm), 1 khaki jacket, 1 pair khaki trousers, 2 khaki shirts, 2 khaki collars, 1 khaki tie and Sam Browne belt (when necessary).

may be granted to officers under Section 19, Allowance Regulations, in respect of *absolutely essential* * articles with which they re-equip themselves owing to their wearing uniform in a hospital or during convalescence.

As regards other articles which are not absolutely essential for officers while in hospital or convalescent, no claim for compensation can be considered until the officer is found fit for service necessitating the provision of these articles, as laid down in the A. O. referred to above.

It is particularly requested that officers will defer the reprovision of any articles of lost kit until they actually need the articles for use in hospital or during convalescence, in order to allow time for the lost kit to turn up. Many cases have occurred when kit supposed to be lost has turned up after three or four weeks.

Indemnification for loss of kit.

354. Detailed instructions with regard to claims for indemnification for loss of kit, are contained in Army Order 323 of 1915.

586-1915.

Indemnification for loss of officers' kits.

355. Attention is called to Army Order 323 of 1915, and paragraph 516 of the Allowance Regulations on the subject of indemnification for loss of kits.

14-1916.

The provisions of the above Army Order affecting claims for compensation in respect of kits, lost by invalided officers of the British service, have been adopted to govern similar claims by British Officers of the Indian Army who have been invalided to the United Kingdom or elsewhere. The instructions and notes are embodied in a "form of claim" issued by the India Office. A copy of the form is attached as an annexure to I. A. O. 14 of 1916 as amended by I. A. O. 232 of 1917.

An article of kit can only come within the scope of para. 322, A. R., I., Vol. I, when it is so extensively damaged on active service as to be beyond repair. If an article is repairable no compensation is admissible.

229-1916.

Under no circumstances is compensation admissible in respect of "wear and tear" of kit in the course of active service, including wear and tear in tranches as opposed to destruction or irremediable damage in active operations.

Claims for loss of kit on active service.

356. (a) With reference to I. A. O. 472 of 1916 (see para. 353), the instructions in A. C. I. 2510 of 1916 (reproduced below), will be followed as closely as possible in dealing with claims to compensation for loss of kit preferred by officers returned from the field.

155-1917.

Army Council Instruction No. 2510 of 1916.

Attention is drawn to the long delay that frequently occurs in connection with claims for loss of kit on active service. It is recognised that para. 562, Allowance Regulations, cannot be applied strictly in such cases, but it is obvious that unless losses are promptly reported it is impossible to investigate the claim or to take any steps to effect recovery of the lost articles.

2. Claims should therefore only be considered where it is shown that the loss was promptly reported, and, so far as the officer or the unit is concerned, every effort made to trace the missing articles, due consideration being given to any exceptional circumstance such as the physical condition of a wounded officer which may render delay unavoidable.

3. The actual claim for monetary compensation or replacement must, subject to A. C. I. 517 of 1916,* necessarily be deferred until the officer is fit for service (A. O. 323 of 1915), and has reprovided himself, but no delay should then be incurred in rendering the claim. * See para. 353.

4. In submitting the claim evidence should be given by the officer as to the steps taken to report the loss, and the claim should only be met subject to paragraph 2 above. Any undue delay in submitting a claim after the officer has been found fit and reprovided himself, would also, in the absence of satisfactory explanation, prevent consideration.

Compensation for, or replacement in kind of, revolvers, field glasses and saddlery lost by officers on service.

7120, 24-7-16.
564-1916.

357. The following procedure will be adopted for the replacement of revolvers, field glasses and saddlery, lost in the field by officers subsequently invalided to India.

* See para. 355.

Refund of cost of conveyance of officers' baggage to England.

23854-1 (Q. M. 1), 18-4-16.
 26854-2 (Q. M. G. 1), 13-5-16
355-1916.

369. The refund is allowed of the cost of conveyance to England by private steamer (when transport accommodation was not available at the time of despatch) of the baggage of officers who were ordered from India on field service, or with units which were transferred to the Home establishment on the outbreak of War.

Owing to the special circumstances attending the departure from India in these cases, the free carriage by land and sea at the public expense of a reasonable quantity of baggage of officers, warrant officers, non-commissioned officers and men in excess of the authorised scales, is authorised, whether conveyed from India by transport or by private steamer.

The term "reasonable quantity of baggage" used above is held to mean double the amount of baggage allowed by sea in para. 104, A. R., I., Vol. X.

Individuals who leave their baggage behind in India when proceeding on service will be allowed the same concession as those who send their baggage home in similar circumstances i.e., they will be allowed free conveyance for the baggage actually conveyed, subject to the maximum of double the sea scale, from the station from which they proceeded on service (or from any other station not involving additional expense) to the station to which they are posted on return from service.

The above decision will apply to all cases of the nature referred to, which may have occurred since the 4th August 1914, and will remain in force till the end of the War.

Free conveyance of baggage of officers, warrant officers and others ordered from France, the United Kingdom, etc., to India, Mesopotamia or elsewhere.

370. The baggage of officers, warrant officers and others who may have been ordered from France, the United Kingdom, etc., to India, Mesopotamia or any Field Force in East Africa or elsewhere, whether it is carried under arrangements made by Government or by the individual, will be conveyed at the public expense under the same conditions as apply to baggage sent from India, as stated in I. Rules for conveyance of military goods by railway.

374. The revised rules for the conveyance of Military Traffic by railways, mentioned in I. A. O. 660 of 1913 and published with special I. A. O., dated the 12th March 1914 have been embodied in A. R., I., Vol. X, as Appendix V.

43-917.

The above-quoted I. A. Os. are, therefore, cancelled.

With reference to clause 4 of the rules referred to it has been brought to notice that contractors are in the habit of consigning their goods "bearing" to military officers, who accept the consignment and give the railway authorities credit notes (I. A. F. T.-1711) in payment of the freight at military traffic rates. This procedure is incorrect. Military traffic rates only apply to goods of which Government is the unconditional owner at the time of despatch; that is, when Government has in actual fact accepted the goods and consequently there is no longer any possibility of their being rejected on examination. I. A. F. T.-1711 should therefore only be used for the despatch of goods which are the property of the Government in the Army Department at the time of despatch, and it will be tendered to the railway authorities with the consignment; such consignments cannot be sent "bearing."

1078-1917.

All consignments which are not the property of Government in the Army Department at the time of despatch will be paid for at public tariff rates and whether sent "bearing," or not, payment for freight will be arranged by the consignor or his agent.

In the case of consignments which are carried over military sidings, the cost of freight over the siding will be according to the Military Traffic Rules, clause 8, *viz.*, Rs. 5 per wagon; but it will be included in the freight for the whole journey and paid for by the consignor in the same manner as the rest of the freight is paid for. Also the same conditions as regards risk for loss, etc., will apply over the siding as over the rest of the journey.

Authorised rates for the conveyance of goods by troop specials and passenger trains.

375. Goods vehicles requisitioned to run on troop specials or passenger trains are to be charged for at the coaching vehicle rate.

Coaching and goods rates in the Military Traffic Rules, App. V, A. R., I., Vol. X., are based on the speed at which trains are run, and not on the class of vehicle, so that when goods vehicles are run at passenger or mixed train speed they are always charged for at coaching rates.

If goods are sent at goods train rates, it must be left to Railways to despatch the same at their convenience, at goods train speed.

Liability of Railway Companies for loss of, or damage to, Government military stores while in transit over their lines.

376. Although under the provisions of rule 3 of the Military Rates pamphlet Risk note Form B is not executed with reference to military stores, etc., its conditions nevertheless hold good and are applicable for the loss of a complete consignment, or one or more complete packages forming part of a consignment, due either to the wilful neglect of the railway administration, or to the theft or wilful neglect of its servants, transport agents, or carriers employed by them. The expression "wilful neglect" is not held to include fire, robbery from a running train, or any other unforeseen event or accident.

Instructions for the conveyance of troops, stores and animals by rail.

377. The attention of all officers who have to arrange for the despatch of troops, stores and animals by train is directed to paras. 157 to 202, A. R., I., Vol. X.

The provisions of para. 164 regarding the giving of due notice for troop extra trains and reserved accommodation are particularly to be noted; demands for troop extra trains should invariably be made to District Traffic Superintendents in writing.

Whenever a troop special train is made up at any station, the despatching officer at that station will make all the arrangements for the onward journey for all the troops joining the train at the starting station and at all intermediate stations throughout its journey.

In the case of parties of troops travelling by rail to join a troop special train, the despatching officer of each party is responsible for all arrangements for the journey up to and including the station at which the party is to join the troop special train.

The arrangements referred to above include all those laid down in the above quoted para. of A. R., I., Vol. X, and in I. A. O. 872 of 1916,* as to the duties of despatching officers, *e.g.*, furnishing time bills of journeys, giving notice of despatch to all concerned, provision of meals, rations, etc., and of the special hot weather comforts allowed between the 1st April and 30th September.

Despatching Officers must clearly understand that, unless adequate notice is given to all concerned, proper arrangements for rations and transport cannot

Telegrams handed in at Railway stations are not necessarily delivered beyond Railway precincts, hence telegrams to Supply Officers should be despatched from Government telegraph offices: they should be sent in ample time to allow of the rations being collected and sent—often long distances by train—to the station at which required, in accordance with App. II of the I. A. O. quoted above.

printed in red in one inch *block* type. Despatching officers will, at the time of tendering such urgent consignments for despatch, address a special letter to the station master of the station concerned, intimating that the consignments should be urgently despatched. Ordinarily such consignments will be despatched in baggage or luggage vans by mail or passenger trains; but when rapid transportation of military stores which have been loaded in goods vehicles is a matter of extreme urgency in connection with the successful prosecution of the War, despatching officers may demand that such goods vehicles are to be attached to mail or passenger trains.

Rates at which railway materials sent overseas for Expeditionary Forces should be charged.

Chapter XIV.—Correspondence.

Despatch of telegrams regarding mobilisation measures on the debit note system.

381. Under paragraph 24 of the "Orders for the organization of a force for operations overseas," Staff and Administrative Officers of the Force, etc., are empowered to despatch telegrams on O. H. M. S. forms.

Precautions to be taken in correspondence with persons and prisoners of war in enemy and neutral countries,

477-1916.

382. In correspondence with persons in neutral countries and to prisoners of war in enemy countries, officers and men are warned not to mention the unit to which they belong, nor to use note-paper that by crest or otherwise reveals its identity. Since the date-stamp on the envelope indicates the post-town of origin, failure to observe this precaution may betray the station of the unit and thus give information of value to the enemy, if the letter falls into hands for which it was not intended.

Letters which infringe this instruction are liable to be returned to the sender.

Enfacement of telegrams issued on War O. H. M. S. forms.

935-1917.

383. Telegrams issued on War O. H. M. S. forms will be enfaced with one stamp "War—Imperial," all other stamps now in use will be destroyed. All telegrams issued in connection with matters directly connected (i) with the Indian Expeditionary Forces in France, East Africa, Mesopotamia, Egypt and Salonica and with the Indian troops in various parts of Persia (e.g., Bushire, Bunder Abbas, Keirman, Seistan, etc.) and Oman, and (ii) with supplies to the War Office, should be enfaced with this stamp; but no enfacement should be made on telegrams dealing with any other questions whether connected with the "North-West Frontier," or other "War, India" operations or indirectly with the Indian Expeditionary Forces.

Discontinuance of demi-official letter writing.

384. The practice has obtained which is not recognised by the King's Regulations and is opposed to the customs of the Army, of substituting what is termed "demi-official" for official correspondence. Demi-official letters are often resorted to for the purpose of evading responsibility; moreover, they are unsoldierlike and unsuitable for use in military correspondence, in which definite decisions and precise orders are required. This practice which is entirely disapproved should cease.

O. need not be continuous, as combined service in the Regular Forces, Territorial Force and old Volunteers counts as qualifying service towards discharge.

717-1917.

416. The attention of all concerned is directed to the necessity for strict compliance with the instructions for the preparation of documents issued under Adjutant General's Memoranda No. 17-23-A.G.M., dated the 17th April and 17-28-A.G.M., dated the 24th July 1916, respectively.

When a man is *permanently* transferred to a new corps his new number and unit will be entered in his Pay Book and other documents before he is despatched to the overseas Force. If for any reason this cannot be done full particulars will be telegraphed to Army Headquarters as soon as possible so that the Assistant Adjutant General, 3rd Echelon, Basra, may be informed in time to enable the man's documents to be completed immediately on his arrival in Mesopotamia.

The above refers only to men *permanently transferred* and not to men temporarily detached from one unit for attachment to another, or for extra-regimental employment in a special or particular appointment not involving transfer to a new corps.

"A. C. I. 261 of 1917.

261. Attestations.

(1) With reference to A. O. 30, 1917 it has been decided that, in the case of regular soldiers now serving, a record shall be available with each man, showing the date of his enlistment and the terms of his service (*e.g.*, 7 years with the Colours and 5 with the Reserve).

(2) For this purpose Os. C. units at home, and units abroad but not with an Expeditionary Force, will satisfy themselves that in each case A. F. B. 103 has been correctly filled in.

(3) In the case of regular soldiers serving with an Expeditionary Force, the Base Record Officer concerned will, with all despatch, forward to Os. C. units rolls of all regular soldiers now serving in their units, showing both dates of enlistment and terms of service. If a man has re-engaged or enlisted into Section D, Army Reserve, the necessary particulars should be given.

On receipt of this information the O. C. the unit will, at the first opportunity, cause it to be entered on page 2 of each regular soldier's A. B. 64: the terms of service being shown under the entry "Date of Attestation....."

Disposal of documents of soldiers transferred to other units.

† See para. 1905.

A. C. I. 822 of 1917.

Disposal of documents, etc., of Regular and Territorial Force Infantry soldiers on being posted or transferred to other units of the same arm.

(1) It would appear that, since the re-numbering of T. F. personnel was carried out in accordance with A. C. I. 2414 of 1916, some doubt has existed in record offices as to the proper disposal of the documents, and the proper numbering, of soldiers who are posted or transferred to other infantry units.

(2) The various categories of postings and transfers in infantry corps (as defined by A. O. 250 of 1916) are as follows:—

- (a) A regular soldier posted from a regular unit to another unit (regular or T. F.) in the same corps.
- (b) A T. F. soldier posted from a T. F. unit to another unit (regular or T. F.) in the same corps.
- (c) A regular soldier transferred from a regular unit of one corps to a regular unit of another corps.
- (d) A T. F. soldier transferred from a T. F. unit of one corps to a T. F. unit of another corps.
- (e) A regular soldier transferred from a regular unit of one corps to a T. F. unit of another corps.
- (f) A T. F. soldier transferred from a T. F. unit of one corps to a regular unit of another corps.

(3) (i) Cases (a) and (b) mentioned in paragraph (2) require no change either in the man's regimental number, in the custody of his documents, or in the arrangements for his pay account and separation allowance payments.

(ii) In cases (c) and (d) the man receives a new regimental number from the series of numbers belonging to his new unit (regular or T. F., as the case may be) and his documents are kept by the record office of his new unit.

(iii) In case (e) the soldier is first of all transferred to, and receives a number from the series belonging to, a regular unit of his new corps, and he is then posted to the T. F. unit concerned. His documents are kept by the record office of the regular unit into which he is transferred.

(iv) In case (f) the soldier first of all is transferred to, and receives a number from the series belonging to a T. F. unit of his new corps, and he is then posted to the regular unit concerned. His documents are kept by the T. F. record office of the T. F. unit into which he is transferred.

499-1917.

427. Army Council Instruction No. 395 of 1917 is reproduced below :—

"395 of 1917. Dress of warrant officers.

The practice of permitting warrant officers to wear service dress of the pattern authorized for officers is contrary to regulations, and steps must be taken to prevent a continuance of this irregularity.

Attention is invited to para. 1688, King's Regulations.

929-1917.

This Army Council Instruction does not apply to warrant officers of Indian departments.

Wearing of uniform by retired officers and ex-officers.

A. C. I., 2353 of 1916 on this subject is reproduced below :—

195-1917.

428. (1.) It is notified for information that the general permission granted under regulations to officers who have retired from the Regular Army, to officers of the Reserve of Officers and to officers of the Special Reserve, and the permission granted by notification in the London Gazette to ex-officers of the Reserve of Officers, Militia, Special Reserve, Yeomanry, Volunteer and Territorial Forces, to wear uniform at discretion, are in abeyance during the continuance of the War. Until further orders, such officers and ex-officers will only be permitted to wear uniform when employed in a military capacity or on ceremonial occasions of a military nature.

(2) Whenever uniform is worn by these officers, the distinguishing letters "R.", "M.R.", "V.R." or "J.R." as the case may be, will always be worn on the collar of the service dress jacket, below the collar badges if the latter are worn.

(3) The wearing of uniform by officers of the Unattached List, T. F., officers of the T. F. Reserve and by Cadet officers, is governed by A. C. Is. 787 and 1401 of 1916.

(4) The above restriction also applies to those warrant officers to whom special permission to wear uniform after discharge has been given, and to ex-N.C.Os. of the late Volunteer Force and of the T.F. who have been granted permission to wear uniform after discharge under the Volunteer Regulations and under the Territorial Force Regulations.

(5) Clauses (1) and (2) do not apply to those retired officers who have been recalled to, and are still serving on, the active list.

429. The above order applies *mutatis mutandis* to all retired officers of the Indian Army, and is now made applicable to all retired, regular, territorial and volunteer officers residing in British India. Para. 237, A. R., I., Vol. VII, and para. 27, A. R., I., Vol. IX, in so far as the wearing of uniform by retired officers and ex-non-commissioned officers is concerned, will accordingly be held in abeyance for the period of the War.

Uniform to be worn by officer patients in hospital.

430. Officers while patients in hospital will, on all occasions when outside the precincts of the hospital, wear uniform.

A blue armlet will be worn on the sleeve of the outer garment. It will be made up in Army Clothing Factories and will form part of hospital equipment, being obtained by officers commanding hospitals in the same manner as other hospital clothing for British troops acquired by indent on the Supply and Transport Corps.

Military officers employed under the Munitions Board to wear plain clothes on duty.

431. Plain clothes will be worn while on duty by all military officers employed under the Munitions Board.

Temporary Brigadier Generals to wear mess dress of their corps with badges of temporary rank.

432. With reference to para. 75, A. R., I., Vol. VII, it will suffice if officers temporarily appointed to the rank of Brigadier General wear at mess the mess dress of their corps with the badges of their temporary rank, unless they desire to provide themselves with the uniform of that rank.

Officers recalled to service in a lower rank than that held in previous service will wear badges of the higher rank.

433. Officers recalled to the service, who may be temporarily serving in a rank lower than that conferred on them by previous service, will wear the badges of the higher rank.

Distinctive badges to be worn by all ranks who have been wounded in any of the campaigns since 4th August 1914.

434. With reference to Army Order No. 249 of 1916, the following distinctions in dress will be worn on the service dress jacket by all officers and soldiers (British and Indian) including Imperial Service Troops, who have been wounded in any of the campaigns since the 4th August 1914:—

The lower end of the first strip of gold braid will be immediately above the point of the cuff, or 3 inches from the bottom of the sleeve in the case of garments with no cuff attachment. In the case of officers wearing the home pattern drab sergo service jacket, the lower end of the first strip of gold braid will be immediately above the upper point of the flap on the cuff. The additional strips of gold braid, marking each subsequent occasion on which wounded, will be placed on either side of the original one at half-inch interval.

Gold braid and sewings will be obtained free on indent from the Army Clothing Department; the attachment will be carried out regimentally without expense to the State.

611-1917.

435. The term "wounded" refers only to those officers and soldiers whose names have appeared or may hereafter appear in casualty lists rendered by the Adjutant General's office at a base overseas, or by the General Officer Commanding any Force engaged in active operations.

Reports in hospital lists are not to be regarded as authoritative for this purpose.

Officers and men reported 'wounded—gas,' or "wounded—shock, shell," are entitled to the distinction.

Accidental or self-inflicted wounds or injuries do not qualify.

Where an officer or man has been wounded, and has not brought the fact to notice at the time, he should be required to abide by his action, unless it is clear that he was not in a position to report the casualty. In that case his application should be forwarded by his present Commanding Officer to the Officer Commanding the unit in which he was serving when the wound was received, with a view to its being forwarded through the proper channels, if approved.

In cases of doubt, and especially in cases not coming under the above definitions but known to have appeared in the lists published in the press, a Commanding Officer should refer to the Central Casualty Bureau, Army Headquarters, India.

Commanding Officers will ensure that the braid is not worn by those who are not entitled to it. Sufficient braid for one jacket will be supplied to officers and soldiers requiring it for khaki drill uniform only, and sufficient for two jackets will be supplied to those requiring it for khaki serge uniform in addition to khaki drill.

Distinctions in dress for wounded ranks of Military Police.

436. The provisions of para. 434 are extended to officers and men of Military Police, Militia and Levy Corps, and Frontier Constabulary, serving in the North-West Frontier Province and in Baluchistan, who have been wounded whilst serving with the regular army.

 The wearing of drab linen collars as an alternative to collars of drab flannel is also permitted.

Attendance at schools of musketry.

439. The following procedure is laid down as a temporary measure during the war:—

 This service qualification will not be insisted on, should there not be a sufficient number of qualified officers to fill the classes.

(ii) When officers cannot be obtained to fill all the vacancies, the commandants of the musketry schools may accept British non-commissioned officers instead, according to accommodation available.

440. Non-commissioned officers and men of artillery units, Territorial Force, will be exercised in musketry, and will fire a course similar in all respects to that defined in Musketry Regulations, Part I, 1909 (reprint 1914), Appendix II, "Elementary course for 1st year men and 3rd class shots."

- (c) Ecclesiastical equipment for Mesopotamia other than articles provided by chaplains personally, will be arranged by the War Office and a small stock maintained at Basra. Chaplains passing through Bombay should call on the Bishop's Chaplain for hints as regards personal equipment.
- (d) The Principal Chaplain will confer with the General Officer Commanding Force "D", for confirmations, etc., being taken by an Indian Bishop or any other Bishop available.
- (e) Indian chaplains in Mesopotamia and on the above hospital ships should, for the duration of the War, be regarded as transferred to the Army Chaplains' Department. This will avoid difficulty of relative rank and show that for the time being they are at the disposal of the Principal Chaplain. No individual chaplain will suffer disability as to status, pay or pension. Service will count as if he had continued on the Indian establishment. The word "pension" above applies only to Anglican and Presbyterian chaplains on the permanent establishment and not to Roman Catholic and Wesleyan chaplains.
- (f) The Principal Chaplain will be drawn from the Home establishment.

The services of such of the temporary chaplains as are now employed in War hospitals in or near Bombay or on hospital ships plying east of Suez having already been formally placed at the disposal of the Army Department, there is no objection to these chaplains wearing uniform while in military employ provided no claim is made for outfit allowance. The question of granting this allowance to chaplains of the Indian Establishment has been definitely decided in the negative by the Army Council.

In other words, the gratuity of a chaplain of this class should be based on a pay of Rs. 450 irrespective of whether he is employed in India or Mesopotamia or on a hospital ship serving in the area of operations east of Suez. 13230, 3-9-17.

This is in modification of the orders issued in A. D. letters Nos. 9011 and 1587, dated 29th August 1916 and 3rd February 1917, respectively. (See clauses I and II.)

Chaplains of the second, third and fourth classes on the Home establishment, who are attached to the Indian Expeditionary Force "D", will each receive a field allowance of Rs. 75 per mensem in addition to the consolidated pay sanctioned in letter No. A. D. 3205, dated the 3rd March 1917.* The allowance is admissible only when they are actually employed in Mesopotamia or on hospital ships. As deputation allowance is authorised for any period of duty in Bombay, the field allowance is not issuable to chaplains when they are in reserve at that station.

In modification of the orders in para. 2 of A. D. letter No. 14170,* dated the 20th September 1917, each of the Roman Catholic and Wesleyan Chaplains (including those who were not employed with troops in India), who are attached to Force "D" and are receiving pay and allowances under Indian rules† is authorised to draw a personal allowance equivalent to the difference between his present aggregate emoluments (pay, horse allowance and field allowance) and the sum of Rs. 525 which, in accordance with the decision in the foregoing clause, represents the minimum emoluments of a chaplain on the Home Establishment serving in Mesopotamia.

These orders have effect from the 22nd November 1917.

461. For the duration of the War, chaplains of the British and Indian services will be granted detention allowance at Rs. 5 per diem for any period during which they may be unavoidably detained at any place in India, other than their own stations, in the interests of the service, on the occasions specified in the margin.

This sanction is subject to the terms laid down in the definition of "detention allowance" in A. R. I., Vol. I, and the condition that the allowance will not be admitted for any day on which travelling or deputation allowance is drawn, and that suitable Government quarters or other accommodation cannot be provided during the period of detention.

Detention allowance at the rates laid down in paras. 255-56, A. R. I., Vol. I, will also be granted to temporary chaplains on the Home establishment while detained at any port in India awaiting passage to England on the expiration of their terms of service in India or Mesopotamia.

476. With reference to I. A. O. 59 of 1917,* the following procedure is laid down for the period of the War:—

- (i) The water bottles in possession of British units and details arriving in India will be taken by them to their respective stations and retained until worn out.
- (ii) The water bottles taken by home going units and details are to be, if possible, of the home pattern. If this is not possible, they may be of any other pattern.

regimentally, sufficient home pattern water bottles will be demanded from the arsenal prior to leaving the station for the port of embarkation.

The procedure laid down in A. R. I., Vol. II, Ap. XVI, as far as water bottles are concerned, is held in abeyance till further orders.

Transfer of mobilization equipment.

616-1917.

477. In no circumstances will a unit, once mobilized, hand over its mobilization equipment, or portion of such equipment, to another unit, without direct orders from Army Headquarters; nor will any transfer of mobilization equipment from one unit to another be carried out without prior reference to, and sanction from, Army Headquarters.

"Mobilization equipment" includes all machine guns (whether Maxims, Vickers, Lewis or Hotchkiss) and machine gun mules.

714-1917.

478. For the remaining period of the War the following procedure is to be adopted by all concerned:—

485. Orders on this subject are contained in Army Council Instruction No. 1977, dated the 17th October 1916, which is given below :—

1977. As some uncertainty appears to exist regarding the position of soldiers holding artificers' appointments, who become supernumerary to establishment owing to wounds, sickness, or other causes, it is notified that a soldier who has once been graded as an artificer, retains his appointment and continues in receipt of the pay thereof under any circumstances unless deprived of his appointment for misconduct or inefficiency.

Care should be taken that artificers are only posted to other units or drafted to Expeditionary Forces to fill vacancies for such, and arrangements made to absorb any supernumeraries in the establishment of artificers at the earliest possible opportunity.

This instruction does not apply to soldiers holding acting appointment carrying additional pay (e. g., under Art. 905 or 906, Pay Warrant); and where establishments are filled with acting rank a soldier holding an artificer appointment while in possession of such rank will, on reverting to his substantive rank, take up the corresponding artificer appointment, e. g., an acting corporal shoemaking will on reverting to his substantive rank take up the appointment and pay of shoemaking.

[NOTE.—Paras. 490 to 494 are superseded by para. 495 in so far as the increase in the number of non-commissioned officers for Indian cavalry regiments and depôts is concerned.]

Revision of extra promotions authorised for Indian Cavalry units and depôts.

495. The extra promotions authorised for Indian Cavalry units and depôts will in future be on the following scale:—

(a) *Indian cavalry regiments.*

(i) 1 extra jemadar for every complete 100 Indian ranks in excess of the present establishment of 800.

(ii) 2 extra lance dafadars for every 15 Indian ranks in excess of 750.

As far as it is compatible with efficiency, the extra Indian officers should be re-employed pensioned risaldars, ressaidars or jemadars, and the extra non-commissioned officers should be re-employed pensioned dafadars or lance dafadars, who will be re-employed in the ranks that they held on retirement on the terms stated in A. D. letter No. H.-4022, dated the 5th April 1915 see para. 490.

Increased establishment of Indian officers and non-commissioned officers of Infantry battalions and depôts.

496. The following revised scale of Indian officers and non-commissioned officers, required for the training and discipline of the extra establishments authorised for Indian infantry battalions and depôts, is sanctioned in substitution of the various scales allowed hitherto:—

H.-4023, 5-4-1915.
192-1915.

For unmobilised battalions.

For every complete 114 in excess of 912 (including recruits and embodied reservists), 1 jemadar.

For every complete 20 in excess of 912 (including recruits and embodied reservists), 1 havildar and 1 naick.

For depôts of infantry battalions.

The above are to be within the total establishment allowed for a battalion or depôt.

It is desirable that battalions and depôts shall employ pensioned Indian officers (subadars or jemadars), and pensioned havildars or naicks when ever such men are available and are in every way suitable, in lieu of the extra jemadars, havildars and naicks above sanctioned, respectively; and such men may be re-employed in the rank they held on retirement on the following terms:—

Chapter XXIV.—Estates.

Procedure for dealing with the wills of British soldiers.

497. When the Pay Book of an invalid soldier is received by the Officer Commanding the depôt in India, that officer will withdraw any Will contained therein, retain it, and inform the soldier, when making the first payment, that his Will has been retained and that he can have it on application.
Pay Books of invalid soldiers received by Divisional Disbursing Officers prior to this notification will be examined and any Wills found therein handed over to the Officer-in-Charge of the depôt. In these cases, men who are living need not be notified. The Wills of those who have died, or die subsequently, will be forwarded by the Officer-in-Charge of the depôt to the War Office.

In all cases, if the soldier has not described himself in the Will sufficiently clearly to ensure his identification at any future time, his name, regimental number, rank, and regiment will be noted by the Divisional Disbursing Officer or Officer Commanding depôt, as the case may be, on the back of the Will. If the Will has not been dated by the soldier, they will also note on the back thereof the date of issue of the Pay Book from which it is withdrawn.

In the case of soldiers who have been or may be discharged now or at the conclusion of active service, Wills in the possession of Officers-in-Charge of depôts will be sent to the men themselves.
On a soldier giving up his Pay Book, either after the conclusion of a term of active service, or on the book becoming full, any Will contained therein will be cut out and handed over to him for disposal as he may think fit.

If a soldier dies before his Pay Book has been given up any Will contained therein will be cut out and forwarded to the War Office with A. F. B.-2090-A or B.-2090, as the case may be the Pay Book being sent to the Divisional Disbursing Officer compiling the man's account.
Settlement of estates of deceased officers and despatch of their kits to relatives.

498. To avoid delay in dealing with the estates of deceased officers especially as regards despatch of their kits to relatives, Presidents of Committees of Adjustment, will note the following orders and they will be held strictly to account for any unnecessary delay in the settlement of estates:—
A monthly report of progress is to be submitted to the Secretary to the Government of India, Army Department, after the lapse of three months from

the receipt of instructions for the assembly of a Committee of Adjustment if the proceedings have not been rendered by that time.

In the case of estates of British Service officers dying out of India on which no Committees of Adjustment are held, a report of the receipt of any kit, and its disposal should at once be made to the Secretary to the Government of India, Army Department.

Attention is invited to I. A. O. 753 of 1916*, regarding the free despatch of kits to England or the Colonies. *See para. 365.

Those permitted to land under (a) may, if they desire it, be given packet return passages or continued passage to Europe at Government expense, by the first opportunity.

Only casual remittances should be included in the monthly list of Family Remittances sent to the India Office.

Continuance of family allotments by soldiers transferred from India to field service.

531. Officers Commanding units and others will carefully note that, when a soldier who has been in the habit of making regular family remittances is transferred from India to field service, it should be ascertained from him whether he wishes to make an allotment, and if so, the necessary intimation in the usual form should be sent to the Divisional Disbursing Officer in India or in the Field for communication to the Home authorities.

Casualties among Territorial Force troops affecting family allotments.

532. Instructions with regard to the reporting of casualties among Territorial troops, affecting the issue of family allotments, are contained in Army Order 265 of 1915.

Compulsory stoppages for support of families.

534. The powers vested in the Army Council under Sections 138 and 145 of the Army Act, in regard to stoppages from the pay of a soldier for the maintenance of his wife and children or illegitimate children are delegated to Officers in charge of Records, in the case of soldiers serving with the Expeditionary Force. Revised system of payment of family allotments of Indian troops and followers serving in I. E. Force "D."

537. The following revised system will be observed for the payment of family allotments of Indian troops and all followers serving in Indian Expeditionary Force "D" (for whom fixed depôts in India have been formed), commencing with the payments due on May 1st (from pay for April) 1916.

248-1916

538. The Officer Commanding the depôt will send a cash requisition to the Divisional Disbursing Officer, Indian Expeditionary Force "D", Poona, for the total amount he will require on the 1st of the following month for the payment of the family allotments of all men serving in Force "D" belonging to, and attached to, his unit from other units. For example, regiment "X" is in Mesopotamia. In addition to receiving reinforcements from its own depôt, it also receives reinforcements from regiments 'Y' and 'Z'. The Officer Commanding depôt, "X" regiment, will apply to the Divisional Disbursing Officer for sufficient cash to pay the allotments of the men of his own regiment as well as the allotments of the attached men of regiments 'Y' and 'Z' (in communication with the Officers Commanding depôts of the latter units). The principle to be adopted is that the Officer Commanding the depôt of the regiment on field service, to which men of other units are attached, will be responsible for the payment of the family allotments, not only of the men of his own regiment, but those of the men attached from other units as well.

Exception.—(1) In the case of Transport units the cash requisitions will be submitted by the Officer Commanding the depôt for allotments of men of his own unit only. Cash requisitions for allotments of men of other units sent as reinforcements to a unit in the field will be submitted by the Officer Commanding their own unit in India who will continue to maintain the individual accounts of such men and for the purposes of this order be considered as the Officer Commanding Depôt.

462-1916

(2) Cash requisitions for men of the Army Bearer Corps will be submitted by the Officer Commanding the Army Bearer Corps Company from which the men were detailed for service.

539. The requisition should reach the Divisional Disbursing Officer by the 15th of each month.

540. To prevent delay, the cheque or remittance transfer receipt will be issued as early as possible by the Divisional Disbursing Officer, but will be made payable on the 1st of the following month. On encashment, the amounts will be distributed by the Officers Commanding depôts to families as at present, and be debited to the men in the peace acquittance rolls (individual accounts) of the unit, maintained at the depôts. The total amount thus paid will be deducted in a lump sum from the total amount due to be paid by the Divisional Disbursing Officer to the Officer Commanding the depôt in the accounts of the concerned.

Commanding in India and the Field should send telegraphic intimation of the termination of the appointments of such officers to the Controllers of Military Accounts concerned.

528. Officers with overseas expeditions whose families are residing in India are permitted to make remittances through the Military Accounts Department.

Officers Commanding Depôts should send their cash requisitions to the Disbursing Officers of the Forces concerned.

Arrangements for payment of family allotments of men in Gurkha Regiments from Nepal.

547. As the issue and payment of money orders from and by the Nepal Post Office is restricted to members of the Residency, Officers Commanding units in which Gurkhas are serving are directed to arrange for the payment of family allotments of men on field service through the Resident in Nepal. An acquittance roll, giving full particulars of the names and addresses in Nepal of the persons to whom payments are to be made, should be sent to the Resident accompanied by a Remittance Transfer Receipt on the treasury, or Government currency notes or a money order addressed to the Resident for the amount involved. The Resident will then arrange for the payment of the allotments and obtain the receipts of the payees on the acquittance rolls which will be returned to the Officers Commanding concerned.

i.e., in an unimproved state. In the case of land specially acquired for the farms, valuation will present no difficulty as the value would be the cost of acquisition *plus* the capitalized value of Government revenue. In other cases in view of the difficulty, owing to the lapse of time, that may arise in ascertaining the value of the land at the time it was taken over by the military farms and of the possibility that the value of unimproved land has not appreciated considerably in the interim, it would seem sufficient to base the valuation on the present capital value *plus* the capitalized value of Government revenue of unimproved land in the neighbourhood, agricultural rental, if obtainable, being used for this purpose. Should any other method of arriving at the value of the land at the time it was taken by the military farms be considered more suitable to the local conditions, there would be no objection to its adoption.

War concessions to Frontier Militia Corps.

578. With effect from the 1st April 1916, the following War concessions are authorised for Frontier Corps and Frontier Constabulary in the North-West Frontier Province for the period of the War:—

- (a) Three annas a day per head in the South Waziristan Militia.
 (b) Two annas a day per head in the Frontier Constabulary and North Waziristan Militia.
 (c) One anna per day per head in the Kurram Militia and Khyber Rifles.
 (d) An addition of one anna a day per horse to the mounted men of the five Corps.

These War concessions are granted on the understanding that, in the event of an actual expedition occurring on the frontier and of any of the corps in question being called upon to co-operate with the military forces, such corps will cease to draw these concessions and will, for the time of such employment, receive the concessions granted to regular troops under such circumstances.

Concessions to men of Frontier Militia Corps, Frontier Constabulary or other civil corps, employed on the Mohmand blockade operations.

579. The concessions sanctioned in A. D. letter No. H-8273, dated the 7th October 1915 and subsequent letters on the subject,* for the regular troops employed on the North West Frontier, are admissible to the men of Frontier Militia Corps, Frontier Constabulary or any other Civil corps, actually employed in co-operation with regular troops on the Mohmand blockade operations.

Whilst in receipt of these concessions these men will forego the special War *batta* sanctioned in A. D. letter No. 30026-3 (A. G. 5), dated the 9th May 1916.†

Field service concessions allowed to troops employed at defended ports on embarkation duties.

580. The field service concessions provided for in paragraph 18 of the "Orders for the organisation of garrisons of defended ports in India, 1914," are admissible to troops employed at defended ports on embarkation duties, irrespective of whether those duties are of a purely clerical nature, provided that the officer commanding certifies that the men were employed at a distance from their barracks or lines on other than their normal peace duties.

Concessions to Frontier Militia and Frontier Constabulary and their followers when serving with regular troops in operations on the Frontier.

581. For the period of the War, the Frontier Militia and Frontier Constabulary and their followers, when serving conjointly with regular troops, in

operation connected with the defence of the frontiers of India, are given the same concessions (including the revised rates of batta referred to in I. A. Os. 534 and 850 of 1917*) that may be granted to regular troops whilst so employed, on the condition that they forego any special war batta or similar concession, that may have been sanctioned for the period of the War.

* See para. 1253.

Identification numbers for followers sent on service overseas.

585. Attention is called to the procedure laid down in F. S. Manual, S. and T. Corps, para. 15.

962-1916.
432-1917.

(1) As the field accounts of such followers are maintained in the office of the Field Controller of Military Accounts by Divisions, from which the men proceeded on field service, irrespective of the units to which attached, it is most essential that distinguishing letters, with numbers, should invariably be assigned to them thus:—

$\frac{117}{\text{Cal.}}$ $\frac{171}{\text{Cawn.}}$ $\frac{140}{\text{Bom.}}$ $\frac{640}{\text{Mhow}}$ and so on.

(2) In the case of men enrolled for field service by the Followers Central Depôts at Meerut and Ahmednagar, the abbreviated designations of the localities should be "Mt. C.D." or "An. C.D." thus:—

$\frac{1201}{\text{Mt. C. D.}}$ $\frac{1202}{\text{An. C. D.}}$

(3) It is most important that one set of serial numbers should be maintained for all men sent from one station from the beginning to the end, and not fresh sets of serial numbers started for each batch of men sent.

(4) An extract from the Long Roll (I. A. F. K.-1151), showing each man's general field number and distinguishing letter, referring to his station of enrolment, name, date of engagement, monthly pay, and advance given and date of leaving station (for purposes of batta) should be sent to the Field Divisional Disbursing Officer concerned, for all followers sent on field service. A separate extract should be prepared for men sent to Force "D," "A," or "E." The rolls for men pertaining to Force "D" should be sent to the Divisional Disbursing Officer "Staff," Indian Expeditionary Force "D," Poona, and those for Forces "A" or "E" to the Divisional Disbursing Officer, Indian Expeditionary Force "A" and "E," Poona.

(5) Care should also be taken to quote the distinguishing letters together with numbers of men in their pay books, to enable officers in the field to quote these in correspondence affecting the men, thus facilitating the tracing of names and disposal of correspondence in the Field Controller's and other offices.

(6) *Identification numbers* of followers sent overseas from Followers Depôts are on no account to be changed no matter to what unit or department they are eventually posted.

These followers remain on the books of Followers Depôts the Officers Commanding which are responsible for the maintenance of their documents and payment of family allotments, etc.

Should any man be permanently transferred to any unit or department in India, the Officer Commanding, Followers Central Depôt, concerned, will transfer all documents with the men and strike them off his books.

Description of non-combatants and followers proceeding on field service overseas.

586. It is notified for information that the description of each non-combatant and follower proceeding on field service overseas should be entered on the man's Field Conduct Sheet, and also in his Service Book. This should show height, colour of hair and eyes, any distinguishing permanent marks, and such other information as may be useful in identifying a man who may have deserted and taken his pay book with him.

Trans-Frontier or Trans-Indus Pathans prohibited from proceeding on service to Mesopotamia.

587. Trans-Frontier or Trans-Indus Pathans are prohibited from proceeding on field service to Mesopotamia in any capacity whatsoever.

Military.

Patriotic and Indian Heroes Fund.

592. The Patriotic Fund for the relief of families of British and Indian soldiers and followers who are killed or who die from the effect of wounds received or sickness contracted on active service, was opened with effect from the 5th August 1914.

Rules.

- (i) The Fund will be administered under the general superintendence of a central committee composed as under:—

Members.

The Secretary to the Government of India in the Army Department.
The Adjutant-General in India.
The Military Accountant-General.

Secretary to the Committee.

An officer of the Adjutant-General's Branch to be nominated by the Adjutant-General in India.

- (ii) For the purpose of considering claims for relief, Committees will be formed in each Brigade area or other portion of a Divisional area into which the Officer Commanding or General Officer Commanding desires to divide his command. These Committees will exercise particular care in considering claims put forward by persons describing themselves as dependent upon deceased soldiers or followers, so as to guard against money being given to those who are not really in need of it.
- (iii) Claims for relief will usually be submitted to Committees by Officers Commanding Depôts, Departmental Officers or the Civil Authorities of the Districts to which the claimants belong, though this rule does not preclude the consideration of any claim however submitted.
- (iv) The Committees will decide the allotments to be paid in each case in accordance with the limits laid down by the Central Committee. After coming to a decision they will communicate their requirements of cash to General Officers Commanding Divisions, Divisional areas or Independent Brigades, who will provide funds from the amounts placed at their disposal.
- (v) A statement, showing the names of the soldiers or followers whose families have been relieved and the amounts paid, will be submitted to the Secretary of the Central Committee, care of the Adjutant-General, on the last day of each month in which payment has been made.

Instructions for speedy payments from the Patriotic Fund.

593. The following instructions are laid down to ensure speedy payment of claims:—

182-1915.

Donations to families of British soldiers, who are killed or die on service and leave families in India, should be paid with as little delay as possible by the Committees referred to in the previous paragraph.

The sum of Rs. 50, which is the first instalment of donation to the nominated heir to pension of an Indian soldier or follower, who is killed or dies on service, should invariably be paid personally by the Investigating Officer for family pension before whom his heir appears. Immediately an investigation for family pension is ordered, the Convening Officer will arrange with the nearest Local Committee of the Patriotic Fund to provide the Investigating Officer with the necessary funds for this purpose.

If for any reason the Investigating Officer does not receive the money from the Patriotic Fund in time, the Commanding Officer of the regiment or depot to which he belongs or of any other unit in the station, is authorised to advance him the necessary sum from the balance at his disposal. This advance will be adjusted by the Local Committee of the Patriotic Fund without delay.

Similarly, as regards the payment of the donation to a permanently disabled soldier or follower, the Officer Commanding the hospital, regiment or depot, as the case may be, will arrange that the man is paid personally by an officer before he leaves for his home, obtaining the money from the nearest Local Committee of the Patriotic Fund or advancing it from funds at his disposal as in paragraph 2.

General.

Rules regarding leave during the War.

611. During the period of the War the ordinary rules regarding leave and furlough, both for British and Indian ranks, are suspended, and the following arrangements are sanctioned in their place :—

- (i) Leave or furlough may be granted to *all* (except Indian) ranks up to a maximum of 30 days in any one year. In the case of all Indian ranks leave or furlough may be granted up to a maximum of 60 days in any one year provided that the maximum number of trained soldiers absent at any one time never exceeds 20 per cent., but this percentage can only be absent provided all drafts can be arranged for and all duties properly found.
- (ii) With the above exception and those noted below, not more than 8 per cent. of the total of (a) British officers and (b) other ranks, trained soldiers including reservists, in any unit, may, under the orders of General Officers Commanding Divisions and Independent Brigades, be permitted to take leave at one time.

Exceptions :—

In the case of units in which this 8 per cent. limit, as far as British officers are concerned, would mean that no officer could get leave. General officers Commanding may use their discretion in allowing one British officer to be away at a time.

General Officers Commanding may use a similar discretion as regards both officers and other ranks in the case of staff, departments and services.

- (iii) Leave may be granted at any time throughout the year unless specially stopped under orders from Army Headquarters.
- (iv) Leave may be taken at one time, or in instalments.

(v) All British ranks must be within 48 hours' recall.

In the case of Indian ranks, whose homes are at some distance from their stations, this period may be extended at the discretion of General Officers Commanding.

612. *Subject to the conditions above referred to*, district (or temporary) leave (para. 225, A. R. I., Vol. II) is extended to 15 days.

British officers, warrant and non-commissioned officers and men wishing to proceed on leave for any period beyond 15 days must take privilege, general or ordinary leave, as the case may be, under ordinary rules.

The leave given to Indian ranks under the previous paragraph will be termed "War Furlough," and will entitle them to a free passage to and from their homes *once* in any one year. (It may be taken in instalments but free passage will only be admissible once.)

This special furlough will not count against the ordinary incidence of furlough when the War is over.

613. *In addition to* such leave as may be granted under paragraphs 611 and 612, 3 days' recreation leave may be granted to all British and Indian ranks at the discretion of officers commanding units, provided the individuals so granted leave are within 12 hours' recall.

614. The foregoing orders are extended to "dressers" engaged for the duration of the War under the terms of A. D. 11444, dated the 13th October 1916, *

729-1917.
* See para. 870.

615. War Leave granted under the above rules will not count against an officer's claim to accumulated privilege leave hereafter, *vide* para. 221, A. R. I., Vol. II.

250-1915.

616. All applications from Divisional and Brigade Commanders for the grant of leave under these rules should be forwarded to the Military Secretary to the Commander-in-Chief for approval by His Excellency.

433-1915.

[Note.—For the revised rules as regards British Officers, see para. 617.]

Rules for the grant of War leave to British officers.

617. The following rules for the grant of "War leave" have effect from the 19th March 1917, in supersession of all previous orders on the subject :—

291-1917.
398-1917.
1059-1917.
1060-1917.

(i) Leave, to be termed "War leave" and which is in substitution of privilege leave, will be granted in accordance with the rules for privilege leave contained in A. R. I., Vol. II, the existing rules in which for the grant of district or temporary, and recreation leave, will stand, but this leave will not be taken in combination with War leave.

(ii) War leave will not exceed 60 days in any case and may only be granted during the leave season, *i. e.*, between the 1st April and 15th October. [Subsequently decided that War leave may be granted all the year round instead of during the leave season only.]

451-1917.
1148-1917.

(iii) All officers must be within 60 hours of recall when on War leave [but see clause (iv)] and 24 hours of recall if on district or temporary and recreation leave.

(iv) Officers of the garrisons of Fort Sandeman, Loralai and Port Blair will not be allowed more than 60 days War leave, but for the purposes of recall, officers stationed at Fort Sandeman and Loralai are permitted to reckon the number of hours from Harnai railway station, and officers at Port Blair may reckon the time from the port of disembarkation in India or Burma. Officers stationed at Chaman are permitted to reckon the 60 hours period of recall from Quetta instead of from Chaman.

Leave is to be given solely with the object of keeping officers in a fit state of health and for purposes of recuperation.

The authority for the grant of leave is delegated to those officers who are responsible for training and for the maintenance of units and services in a

proper state of efficiency, and for maintenance of security and defence of their areas. For War leave, the General Officer Commanding the Division, Divisional Area or Independent Brigade will be the authority, except for personnel of the Army Clothing Department, the authority for the grant of War leave in their case being the Director of Army Clothing. For district or recreation leave see A. R. I., Vol. II, para. 224 and 225.

The number of officers who may be absent at the same time will be fixed by the General Officer Commanding the Division, Divisional Area or Independent Brigade.

Any leave granted under these rules will not count against an officer's claim to accumulated privilege leave hereafter, *vide* para. 221, A. R. I., Vol. II. (Reconstructed, A. I. I. 351 of 1918.)

Grant of sick leave to officers of the Special Reserve and Territorial Force and those holding temporary commissions in the British Service.

629. Sick leave is granted under the following rules to officers of the Special Reserve and Territorial Force and officers holding temporary commissions in the British Service, who are serving in India or with the Mesopotamia Expeditionary Force. The rules should be carefully followed by all officers responsible for the grant of sick leave :—

A.—Whether the disability is caused by the performance of military duty or not.

An officer, who on being invalided, whether in India or from Mesopotamia, is found to be *permanently* unfit for general service will be despatched at the earliest opportunity to England where his case will be dealt with by the War Office. Those officers in this category who are entitled under existing orders to full pay for three months while sick or wounded will continue to receive full pay for that period. Other officers will, from the date of being declared permanently unfit for general service till such time as their cases have been disposed of by the War Office, be placed on leave on medical certificate and will be eligible for pay under the provisions of para. 343, A. R. I., Vol. I, *i.e.*, while on leave *out of India* pending settlement of his case the officer will receive British rates of pay only, and while on leave *in India* pending embarkation, Indian rates of pay.

B.—When the disability is caused by performance of military duty.

An officer *temporarily* unfit for general service by reason of a disability contracted through the performance of military duty, as certified by a medical board, is eligible for sick leave up to 12 months [or 18 months under Article 305 (2), Royal Warrant]. To departmental officers the period laid down in Article 477, Royal Warrant, will apply. The rates of pay of officers granted leave under this rule will be governed by the provisions of para. 343, A. R. I., Vol. I, *i.e.*, if leave is taken *out of India*, the officer will receive British rates of pay only, and if taken *in India*, Indian rates of pay. An officer who is entitled under existing orders to full pay for three months while sick or wounded, will receive such pay for the first three months in lieu of the rates otherwise admissible under this rule.

This rule does not apply to Staff Officers of the categories in question. Separate instructions will be issued regarding such Staff Officers.

An officer *temporarily* unfit by reason of a disability *not* caused by the performance of military duty may be allowed sick leave with pay up to a maximum of three months. At the expiration of three months, or earlier if it appears to the medical board that the officer will not be fit to rejoin for duty, he will be sent to the United Kingdom with all convenient speed where his case will be decided by the War Office. The rates of pay of officers granted leave under this rule will be governed by the provisions of para. 343, A. R. I., Vol. I, *i.e.*, if leave is taken *out of India*, the officer will receive British rates of pay only, and if taken *in India*, Indian rates of pay.

This rule does not apply to officers invalided from field service overseas or on the North-West Frontier.

Indian Army officers who, having been invalided to this country, *have passed into the control of the India Office*, will not be brought before a medical board under the control of the War Office, except at the special request of the Under Secretary of State for India. When such an officer is discharged from hospital or at any time when the Under Secretary of State for India asks, a full report on his condition should be sent by the officer in charge of the hospital direct to the Under Secretary of State for India, Military Department, India Office, S. W.

Indian Army officers invalided to this country from overseas *pass into the control of the India Office* as follows :—

If from Mesopotamia or India—on arrival in this country.

If from any other Force—when they are passed unfit for general service for a period extending to three months from the date of their *first medical board*.

For this purpose, local medical boards held before departure for this country will count as the "*first medical board*" in the cases of officers from all Forces except France. In cases of officers invalided from France the "*first medical board*" will be the first held in this country.

639. Nurses of Queen Alexandra's Military Nursing Service for India invalided through war service during the War, may be allowed, if necessary, an extension of leave on two-thirds pay up to two years in all, with a proviso that half of any extension of leave thus specifically granted shall be deducted from the leave that would subsequently be admissible under the rules on re-engagement* for a further term of service.

Sick and convalescent leave to Indian officers and soldiers and sub-assistant surgeons who have returned from active service overseas.

640. (i) The Officer Commanding a regiment or depot on the recommendation of a single medical officer (when the convening of a Medical Board for this purpose is inconvenient having due regard to the public service) may grant sick leave to Indian officers and soldiers* (including sub-assistant surgeons) who have returned from active service overseas.

(ii) These ranks may, even if they have been reported fit for duty, be granted convalescent leave by the Officer Commanding the unit or depot up to a maximum of 4½ months in the case of Gurkha soldiers, and 3 months in the case of all other Indian soldiers. Such men will not be taken on the strength of their units until return from convalescent leave; those who have already been taken on the strength of units may similarly be granted this leave.

(iii) Men proceeding on the convalescent leave mentioned in clause (ii) will not be counted in the percentage laid down in I. A. O. 178 of 1915.†

(iv) The convalescent leave in clause (ii) cannot be combined with the sick leave in clause (i), nor can it be combined with the special leave sanctioned in I. A. O. 178 of 1915.†

(v) The leave granted to Indian ranks under clauses (i) and (ii) will entitle them to free passage to and from their homes *once* in any one year. It will not count against the ordinary incidence of furlough when the War is over.

641. I. A. O. 518 of 1915* is applicable to all permanent regimental and departmental Indian non-combatants and followers.

Temporary followers or Indian non-combatants (i.e., Indian civilians employed in any military department as overseers, mechanics, clerks, etc.) should, if invalided from active service overseas, be treated in the same manner as combatants.

Temporary followers who return from active service overseas on completion of their contracts may be granted leave on full pay for a period not exceeding one-twelfth of the period for which they were engaged, on condition that they re-engage for a further term of service. When the services of such temporary followers are no longer required and they are about to be discharged, they may be granted leave on full pay for one month, provided that their terms of service do not already include the grant of a gratuity or bonus, either on enrolment or on discharge.

Leave granted under these rules will commence from the date on which a follower is discharged from hospital after return to India.

The above orders do not apply to non-gazetted civil officers, whose cases will continue to be governed by the provisions of A. D. letters Nos. H.-4573 and H.-5532, dated the 30th April and 4th June 1915, respectively.

Revised rules for issue of railway tickets for all ranks of the Indian Army proceeding on leave.

1-1-16.

646. The following revised system for the issue of railway tickets for all ranks of the Indian Army when proceeding on leave or furlough at their own or Government expense, is authorised with effect from the 1st March 1916 :—

Officers commanding units will submit a requisition in duplicate on I. A. F. T.-1720,* for the tickets required, to the station master who will return both forms showing thereon the amount of the fares to be paid.

The officer commanding will return to the stationmaster one copy of the requisition together with completed vouchers (I. A. F. T.-1720-A)* for as many return tickets as may be wanted and the amount of money necessary, retaining the other copy for record.

The stationmaster will furnish the officer commanding with single tickets for the outward journey and signed vouchers (I. A. F. T.-1720-A)* for the return journey.

In stations where many men will be proceeding on furlough or leave at the same time, the stationmaster should be given ample time to issue tickets and return the vouchers.

Commanding officers will instruct their men that the ticket for the return journey will be issued by the booking clerk on presentation of I. A. F. T.-1720-A* by the individual. As no signing of papers is involved this transaction will occupy no more time than tendering cash for a ticket in the ordinary way.

No excuse of being afraid of missing the train and therefore using the voucher (I. A. F. T.-1720-A) instead of getting a ticket will be accepted. Men found travelling without tickets will be liable to the ordinary penalties of the travelling public.

If any man finds he has difficulty in getting his return railway ticket he should report the matter to the stationmaster at once.

In the case of men proceeding from Burma and Aden to India, the staff officer at the port of disembarkation will act for the officer commanding the unit, and obtain the railway tickets and the signed vouchers for the men's onward journey. The particulars and amount of money required for this purpose will be sent by the officer commanding the unit so as to reach the staff officer at the port of disembarkation in sufficient time to get the tickets and vouchers before the arrival of the men.

I. A. Forms T-1720* and T-1720 A* are being issued. The former will also be used for the railway journeys of reservists.

*[NOTE.—During the War these forms have been superseded by I. A. F. T.-1720-C, D, E, and F, which will be used under the instructions issued in I.A.O. 472 of 1917.]

Chapter XXXI.—Horses and Chargers.

Terms and conditions under which certain officers serving with Territorial battalions in India are supplied with chargers.

H. 2870, 15-1-15.

648. The officers specified below of Territorial Battalions in India, will be mounted free of cost, *viz.* :—

Commanding Officer.
Second in Command.
Senior Major.
Adjutant.
Machine Gun Officer.

Each officer will be charged an insurance fee of Rs. 48 per annum, which will be deducted at the rate of Rs. 4 per mensem from the horse allowance admissible under A. R. I., Vol. I, para. 261.

In the case of accidents, the Government of India undertake to bear the whole expense incidental to the complete recovery of the horse, or, in the case of total disablement, to supply another charger in its stead. Should, however, the injury be due to neglect, recklessness, or ill-treatment of any kind on the part of the officers, they will be liable for all expenses. This liability will be determined in the manner indicated below.

Accidents to horses which are likely to cause either a temporary or permanent disability, will be investigated by a Station Board, composed of senior combatant officers, and, where possible, an officer of the army veterinary corps. The board will obtain such evidence as may be necessary to assist in arriving at a correct conclusion as to the cause of the accident or injury. The proceedings of the board will be forwarded to the Quartermaster General through the usual channels for consideration by the Government of India, who will determine whether or not the officer is liable.

If, in any case, it is decided that the loss is due to accident caused in the performance of purely military duty and has in no way been caused by neglect, recklessness, etc., on the part of the hirer, the horse will be replaced by, and at the expense of, the State. Should, however, the loss be attributable to neglect, recklessness, etc., on the part of the hirer, he shall be called upon :—

- (a) to replace the casualty by a horse of his own choice, which horse, however, must first be accepted and passed as suitable, by the Brigade Commander, or
- (b) to pay, at a cost not exceeding Rs. 750, the price of the horse issued in replacement by the Army Remount Department.

Every officer concerned is to be made acquainted with these rules.

[NOTE.—See also A. I. I. 212 of 1918.]

- (ii) men who were due for discharge before the 25th May 1916.

II. By section 3 of the same Act, the exemption from service conferred on discharged soldiers by the Military Service Act of January 1916 has been withdrawn, *i.e.*, men whose time for discharge occurred before the 25th May 1916 are no longer exempted from serving again after being discharged, but come within the provisions of section 1 of the Act, and if ordinarily resident in Great Britain and under 41 years of age, are liable to be recalled to the colours, warrant and non-commissioned officers being restored to the rank held by them before discharge.

III. Section 14 of the amending Act provides :—

- (i) for the transfer of a man of the Territorial Force from the corps to which he belongs to another corps of that Force without his consent ;
- (ii) for his posting, without his consent, to a unit of the Regular Forces included in the corps to which he belongs or is transferred ; and
- (iii) for the drafting (*i.e.*, the posting or attaching) of any officer or man in that Force who is liable to serve outside the United Kingdom to any unit of the Territorial Force within the corps to which he belongs or to which he may be transferred, notwithstanding anything in any instrument defining the conditions of such service.

IV. Section 16 of the same Act further provides that where an officer or man of the Territorial Force has, before or after the passing of the Act, accepted liability to serve in any place out of the United Kingdom, that liability shall, notwithstanding anything in the conditions of the service, continue during the present War unless the competent military authority as defined for the purposes of Part II of the Army Act, otherwise directs.

The General Officers Commanding certain Divisions and Brigades invested with powers under the Army Act.

746. In pursuance of the provisions of section 57, sub-section (2), clause (b), section 73, sub-section (3) and section 183, sub-section (2) and proviso (b) of the Army Act (14 and 15 Vict., C. 58), and with the approval of the Governor-General of India in Council, the Commander-in-Chief of the Forces in India is pleased to appoint the General Officers Commanding 16th (Indian) Division, Meerut and Pooza Divisions and Karachi Brigade to exercise, within the limits of their several commands, the powers vested in the Commander-in-Chief of the Forces in India by the said provisions.

Grant of Judicial powers to Extra Assistant Cantonment Magistrates.

10-5-15. 747. As regards the qualifications required of Extra Assistant Cantonment Magistrates before higher powers are granted them, it has been decided that these officers should be required to qualify strictly according to the ordinary rules governing the examination of British officers of the department, and no facilities should be afforded to the former which would render the examination less difficult than that of the latter. The position of Extra Assistant Cantonment Magistrates, in relation to the Cantonment Magistrate, and the judicial and executive work of the Cantonment, points to the desirability of restricting their magisterial powers in ordinary circumstances, to those of the 3rd class. In special cases, if the Cantonment Magistrate is satisfied that this course will not be detrimental to the performance of the executive work of the Cantonment, 2nd class powers might be granted, but 1st class powers should only be granted in very exceptional circumstances. In no case should an extension of powers of any description be considered, until the officer has fully qualified, according to rule, for the exercise of enhanced powers.

Officer prescribed for the purposes of Section 102 of the Indian Army Act in respect of summary courts-martial for the trial of persons in Persia.

748. In exercise of the powers conferred by section 113 of the Indian Army Act, 1911 (VIII of 1911), the Governor General in Council is pleased to direct that the General Officer Commanding 4th (Quetta) Division, shall be the prescribed officer for the purpose of section 102 of the said Act in respect of summary courts-martial held for the trial of persons subject to that Act serving in Persia, other than those belonging to the Mesopotamia Expeditionary Force. *Gaz. of I. Notf: 1140, 22-9-18 B. Oct. 16, 1858.*

Obligations of officers of the Territorial Force.

749. An officer of the Territorial Force who has accepted the Imperial Service obligation, cannot withdraw from that obligation during the continuance of the War, except by leave of the competent military authority. Applications for withdrawal in India should be forwarded to the Adjutant General's Branch, Army Head-quarters, for disposal. In an Expeditionary Force, such applications will be dealt with by the General Officer Commanding the Force. **622-1916.**

Liability of an officer on service to attachment of pay by order of an Indian Court of Law.

750. There is no legal provision whereby the pay of an officer ceases to be attachable merely by reason of the fact that he has proceeded on field service out of India. If, however, the salary of the officer is not a charge on Indian revenues, then, under Rule 48 (3), Order XXI, Code of Civil Procedure, his salary would be no longer attachable from the date on which it ceased to be such a charge. **32955-1 (A. G. 10), 18-12-17 B. Jan. 18, 1877-82.**

Acting warrant officers of the Territorial Force.

751. Acting warrant officers of Territorial Force units will be dealt with under the special provisions of the Army Act, Section 182, relating to permanent warrant officers. **264-1916.**

Punishment for fraudulent enrolment.

752. The offence of fraudulent enrolment—Section 30 (c), Indian Army Act—has become prevalent in the Indian Army. Persons subject to the Indian Army Act are to be warned that offenders charged with committing, or attempting to commit, that offence will be tried by court-martial, and, if convicted, severely dealt with. **1402-1917.**

Such offences are invariably to be tried by court-martial, and whenever a person has by fraudulent enrolment obtained a bonus the words "and thereby fraudulently obtained a bonus, of rupees (Rs.)" will be added to the particulars of a charge under Section 30 (c), Indian Army Act, and, unless the accused pleads "guilty," proved in evidence, in order to enable the court to sentence him to stoppages for the amount of the bonus obtained.

As regards a charge for deserting the service, attention is invited to the notes to Section 30 (c), Indian Army Act, on page 117, Manual of Indian Military Law. An attempt to commit the offence of fraudulent enrolment is chargeable under Section 39(i), Indian Army Act.

Where an offender has undoubtedly committed the offence of deserting the service and has, by subsequent fraudulent enrolment, obtained a bonus, the particulars of a charge for the former offence only should contain an averment to the effect that by subsequently enrolling himself in * * * he fraudulently obtained a bonus of rupees * * * (Rs.).

Transmission of proceedings of general courts-martial.

753. With reference to Army Orders 110 and 111 of 1917, the instructions contained in para. 27, A. R. I. Vol. II, regarding the transmission of proceedings of general courts-martial are still to be followed in India. **930-1917.**

758. Under the Royal Warrant published with Army Order 13 of 1917, the Military Cross is placed on the same footing with regard to forfeiture as the Victoria Cross. So long as an individual retains the Military Cross he will also retain any emoluments attached to it, but if on submission to His Majesty it is ordained that the Military Cross will by reason of an offence be forfeited, then, the emoluments will under the 9th clause of the Warrant automatically cease.

ROYAL WARRANT.

II.—Meritorious Service Medal.

GEORGE, R. I.

WHEREAS by the Royal Warrant of the 19th December, 1845, a silver medal entitled "The Meritorious Service Medal", was created to be awarded to serjeants who rendered distinguished or meritorious service, and by the Royal Warrant of the 10th June, 1884, was extended to all soldiers above the rank of corporal, and by Our Warrant of the 4th October, 1916, was extended to non-commissioned officers below the rank of serjeant and to men for valuable and meritorious service.

And Whereas We are desirous of extending the conditions under which this medal may be awarded;

It is Our Will and Pleasure and we do hereby ordain that the Meritorious Service Medal may be awarded to warrant officers, non-commissioned officers and men who are duly recommended for the grant in respect of gallant conduct in the performance of military duty otherwise than in action against the enemy, or in saving or attempting to save the life of an officer or soldier, or for devotion to duty in a theatre of war.

It is Our Further Will and Pleasure that Our Warrant dated the 1st December, 1914, governing the Pay, Appointment, Promotion and Non-effective Pay of Our Army shall be amended, with effect as from the 4th October, 1916, as follows:—

* * * * *

(See revised articles 1157, 1227, 1228.)

Army Order 47 of 1917.

IV.—KING'S REGULATIONS—AMENDMENTS.

*Meritorious Service Medal.**See revised paragraph 1747.*

Instructions have been received from the War Office that the grant of the Meritorious Service Medal for services rendered *outside a theatre of war*, is, by reason of the above amendments, limited to :—

- (a) Meritorious service under the conditions laid down in King's Regulations, para. 1747 ;
- (b) Gallant conduct in the performance of military duty, or in saving or attempting to save the life of an officer or soldier.

Recommendations for the medal and annuity under (a) must be accompanied as heretofore by the documents specified in para 1747, King's Regulations.

Recommendations under (b) will be submitted on Army Form W.-3121, in duplicate. The medal if awarded under this heading, carries no annuity or gratuity, but as the grant may qualify for additional pension under Article 1157, Royal Warrant, it should be recorded on Army Form W.-3121, whether the act of gallantry is of a character to merit that pension, should the soldier eventually be discharged with a pension.

In this connection it is to be noted that additional pension is no longer admissible for acts of gallantry as described in (b) above, unless the act was at the time or subsequently, recognised by the award of the Meritorious Service Medal, and in recommending that a soldier who has earned the medal in these circumstances be considered for additional pension if discharged to pension, General Officers Commanding should bear in mind that a high standard is desired and it by no means follows that every award of the Meritorious Service Medal for gallantry merits additional pension.

The Army Council at the same time consider that the interests of the soldier should be fully protected, as it is not desired that under the amended regulations the individual should suffer any disadvantage consequent on the extension of the Warrant of the Meritorious Service Medal.

The grant of the Meritorious Service Medal under the extensions of the Warrant should be limited to :—

- (i) Devotion to duty in the theatre of War.
- (ii) Gallant conduct in the performance of military duty, or in saving or attempting to save the life of an officer or soldier, otherwise than in action.

It is *not* to be granted for devoted or gallant conduct in action.

Grant of the Meritorious Service medal to departmental and non-departmental sections of the Unattached List and assistant surgeons of warrant rank.

762. The award of meritorious Service Medals, without limit is authorised in the case of British warrant and non-commissioned officers and men of departmental and non-departmental sections of the Unattached List and assistant surgeons of warrant rank of the Indian Subordinate Medical Department, for distinctly meritorious service or devotion to duty, not necessarily in the presence of the enemy, in any theatre of the War since August 1914.

12. Any individuals of the classes specified above, irrespective of period of service, will be eligible for the Meritorious Service medal. The award of the medal will not, however, carry with it the annuity which usually accompanies the medal, *vide* para. 609, A. R. I. Vol. I, but in the case of those belonging to the non-departmental sections of the Unattached List, recipients of the medal will be eligible for the annuities mentioned in para. 610, A. R. I. Vol. I, provided that they are qualified under the rules in force.

13. The grant of the medal will be limited to cases of :—

- (a) devotion to duty in the theatre of war ;

- (b) gallant conduct in the performance of military duty, or in saving or attempting to save the life of an officer or soldier, otherwise than in action.

It will *not* be granted for devoted or gallant conduct in action.

14. The award of the bar to this medal to members of the Unattached List as specified above is also authorised. This bar may be granted either (a) for a second act of gallantry, or (b) for such an act performed by a soldier who has already obtained the medal for long and meritorious service. It will be limited to specific acts of gallantry and granted only in exceptional cases.

15. Authority to award the Meritorious Service medal and bar is vested in the Commander-in-Chief, and such authority may be delegated by His Excellency to the General Officer Commanding, Mesopotamia Expeditionary Force, or other General Officers Commanding in the field under whom individuals of the classes specified are serving.

Award of the Meritorious Service medal without limit to Indian troops under commissioned rank.

763. Meritorious Service Medals may be awarded without limit to Indian troops under commissioned rank (*i.e.*, non-commissioned officers and men) for distinctly meritorious service or devotion to duty not necessarily in the presence of the enemy, in any theatre of the War since August 1914.

10891 (A. G. 10) 20-11-16.
74-1917.

Under this concession, any Indian soldier under commissioned rank, irrespective of period of service, will be eligible for the Meritorious Service Medal. The award of the medal will not, however, carry with it the annuity which usually accompanies the medal, but recipients of the medal will be eligible for consideration for the annuity if they eventually qualify under para. 995, A. R. I. Vol. I.

764. The grant of the medal to Indian ranks should be limited to:—

- (i) Devotion to duty in the theatre of War.
- (ii) Gallant conduct in the performance of military duty, or in saving or attempting to save the life of an officer or soldier, otherwise than in action.

324-1917.

It is not to be granted for devoted or gallant conduct in action.

Grant of the Meritorious Service medal without gratuity to men of the Supply and Transport Corps and Army Bearer Corps.

765. With reference to I. A. Os. 74 and 324 of 1917, (see paras. 763 and 764) the Meritorious Service medal, without annuity, may be granted to all Indian ranks of the Supply and Transport Corps (exclusive of Indian officers) and the Army Bearer Corps, as a reward for distinctly meritorious service or devotion to duty in the field under the same conditions as to combatants of the Indian Army.

435, 24-3-17.
673-1917.

This concession does not render the non-combatants of these corps eligible under any circumstances for the annuity attached to the Meritorious Service Medal.

Grant of the Meritorious Service medal without annuity to Imperial Service Troops.

766. With reference to I. A. Os. 74, 324 and 673 of 1917, (see paras. 763, 764 and 765) the Meritorious Service Medal, without annuity, may be granted to Imperial Service Troops, including the personnel of the Imperial Service Transport and Dhoolie Bearers, on the conditions laid down in the orders quoted.

12905, 30-8-17.
1085-1917

This concession does not render non-commissioned officers or men of the Imperial Service Troops eligible under any circumstances for the annuity attached to the Meritorious Service Medal, under para. 993, A. R. I. Vol. I.

Meritorious service annuities.

767. A fixed sum of £305 a year is at the disposal of H. E. the Commander-in-Chief from 1st April 1915 for five years for disbursement in meritorious

Restoration of forfeited Distinguished Conduct and War medals of re-enlisted men.

772. The following are the rules for the restoration of forfeited Distinguished Conduct and War medals of re-enlisted men published in Army Order 383 of 1915 :—

(1) The Army Council have decided that in the case of men who have re-enlisted since 5th August 1914, or may re-enlist prior to the cessation of hostilities, for service during the present emergency distinguished conduct or

war medals forfeited prior to such re-enlistment may be restored, provided that on re-enlistment the men in question declare truthfully the particulars of their former service, and that since re-enlistment they have not again rendered themselves liable to forfeiture.

(2) In the case of men re-enlisted without declaring their former service, medals will only be restored on the recommendation of the General Officer Commanding-in-Chief.

(3) Medals restored under (1) or (2) will be re-issued after the conclusion of hostilities—

(a) To men whose forfeited medals were recovered, free of charge.

(b) To men whose forfeited medals were not recovered, and are not in the possession of the soldier, on payment at the rate laid down in Article 1241, Pay Warrant. In such cases, a statutory declaration as to the circumstances in which the medal was lost will be required from the soldier.

(4) In the case of soldiers who have been killed or have died from wounds or from disease contracted during the present war, but who would have been eligible under 3 (a) and (b) above for re-issue, a duplicate medal will be issued after the cessation of hostilities to the next-of-kin, free of charge in all cases.

(5) Such restoration will be noted in the man's documents.

(6) Men whose medals have been noted for restoration will be entitled to wear the ribands.

(7) The above conditions as to restoration of medals will not affect the regulations regarding restitution of service.

In applying the terms of the above order to India the subsidiary instructions given below will be followed:—

(i) The authority to sanction the restoration of medals referred to in clause (2) above will be the General Officer Commanding the Division, Divisional Area or Independent Brigade.

(ii) With respect to paragraph 3 (b), should the war medal to be restored have been manufactured and issued in India the rates charged will be those laid down in A. R. I. Vol. I, para. 648.

Gratuity attached to the Distinguished Conduct medal awarded to Territorial soldiers.

773. With reference to Army Council Instruction No. 1608 of 1916, reproduced below, regarding the award of the Distinguished Conduct medal to Territorial soldiers and the issue of the gratuity of £20 attached to the medal, it has been decided that whether the medal is granted for service in or out of India, all payments of gratuity should be debited to the War Office in the first instance in the same way as similar payments to soldiers of the regular forces. Any further adjustment necessary will be made by the India Office through the Army Non-Effective Account with the War Office. Payments on this account should be included in the monthly statements on I.A.F. A-644 which are furnished by Divisional Controllers, supported by the War Office authority and the soldier's receipt.

Army Council Instruction No. 1608 of 1916.

It is notified for the information of all concerned that the gratuity of £20 that is attached to the Distinguished Conduct medal may be paid to a T. F. soldier who has been awarded that distinction, on promotion to a commission, on disembodiment or discharge on termination of engagement without a pension, whichever occurs first. In the event of the soldier's death while serving, the £20 should be credited to the estate.

2. If a T. F. soldier who has been awarded the Distinguished Conduct medal is discharged with a pension, the gratuity of £20 will not be issued but in lieu thereof an additional pension of 3s. 6d. a week for gallant conduct will be granted. Should the pension, being temporary, expire, or should a soldier in receipt of such pension die before a total amount of £20 has been paid in respect of the award of the Distinguished Conduct medal, the difference will be issued to the soldier in a lump sum or credited to his estate, as the case may be, by the Central Army Pension Issue Office.

Scheme for the distribution of sick and wounded, especially those classified as convalescents.

795. The following scheme has been introduced in connection with the modification of the system of distribution of sick and wounded more especially of those classified as convalescents:—

H-4058, 19-5-16
H-6128, 7-7-16.
B. War, 1916-17, 21657-60.

The distribution and disposal of sick and wounded from Overseas Forces has hitherto been governed by the instructions issued in Director, Medical Service's letter No. 9217—8 (D.M.S.I.), dated 15th October 1915. They are dealt with in three classes, viz:—

Class I.—Cases requiring special nursing, early surgical treatment or from any cause unfit to travel at once.

Class II.—Cases able to travel, but still requiring hospital accommodation and treatment.

Class III.—Convalescents.—The convalescent class, always numerous, is further increased in the hot weather by men sent to India from Mesopotamia for change of climate and rest.

Cases of Class I are received into hospitals at the port of disembarkation, and kept there until fit to travel elsewhere.

Cases of Class II, if British, are distributed to Station hospitals, and if Indian to War hospitals, as far as possible in their own Divisional areas.

British convalescents have hitherto been distributed to Station hospitals, and occupy beds that would otherwise be available for more serious cases.

Indian convalescents are distributed to their Depot hospitals, either as primary distribution from the port, or, on leaving War hospitals, before final disposal.

All convalescents will now be accommodated in Special Convalescent Sections at selected stations under arrangements adapted to the care and ultimate disposal of cases of this class.

In the case of British troops, Convalescent Sections will be established at each of the following stations:—

Deolali for	1,000 men.
Mhow* „	500 „
Poona „	500 „
Secunderabad for	500 „

* H. 6128, 7-7-16.

Commandants of Sections will draw an additional ration allowance of four annas per diem for each man, to be expended upon extra diet over and above the

ordinary rations and extras purchased by other messing allowances. This allowance will also be drawn for cases of Classes I and II, who on becoming convalescent, may be transferred from Station Hospitals to the ordinary Convalescent Depots in hill stations prior to transfer to their Regimental depots or units.

For Indian troops, Sections for 2,000 men each will be established at—

Karachi.

Dehra Dun (for Gurkhas).

* Lucknow and

Secunderabad.

Convalescents in these Sections will be treated as attending hospital, but for purposes of discipline, pay, dieting and clothing, they will be under the orders of the Commandant, who will be a combatant officer, and who will be responsible for all matters relating to their subsequent distribution.

In stations where barrack accommodation is not available, the erection of temporary buildings is necessary, and orders have been issued for the erection of huts at Secunderabad and Bombay to the required extent for British convalescents. Similar arrangements have been made for huts at Karachi for Indian convalescents.

Certain buildings in the Police Training College at Nasik have been placed at the disposal of the Medical Department by the Government of Bombay and will form a nucleus for the Convalescent Section at that place.

The staff and establishments, other than medical, authorised for these convalescent Sections are detailed in A. D. letters No. H-4058, dated 19th May 1916 and No. H-6128, dated 7th July 1916.

Where possible, pensioners will be employed for the Indian combatant personnel on the following terms:—

- (i) Rank held on retirement.
- (ii) Full pay of rank in addition to pension or other allowances they may be in receipt of as pensioners, *plus* compensation for dearness of food and good conduct and good service pay.
- (iii) Free clothing as allowed for reservists called up for service.

Classification of British soldiers as to their fitness for service.

796. Army Council Instruction 1023, dated 19th May 1916 directs that on and after 1st June 1916, all warrant officers, non-commissioned officers and men serving at home, both Regular and Territorial Forces, either recruits on enlistment or on being called up from class B. Army Reserve, or serving soldiers, or men who have been or may be sent home sick or wounded from an Expeditionary Force or from a garrison abroad, will be classified in the categories detailed in reference to their fitness for service.

In furtherance of the above orders General Officers Commanding in India will arrange to have the men serving in British units or depôts in their commands classified accordingly.

Men on command will be classified in the stations in which they are serving and the result communicated to the Officer Commanding their unit or depôt.

Returned Expeditionary Force men will not be classified until they have joined their units or depôts in India after discharge from hospitals, or from the Convalescent Sections at Deolali, Mhow, Poona, and Secunderabad sanctioned in Army Department letter No. H-4058, dated 18th May 1916.*

A return on the prescribed form will be submitted by Officers Commanding units direct to reach the Adjutant-General in India not later than the 1st of each month. Instructions for the disposal or transfer of men will be issued periodically from Army Headquarters.

[For subsequent amendments to the A. C. I., see I. A. O. 648 of 1916.]

Classification of officers for fitness for service.

797. With reference to Army Council Instruction 1023, dated the 19th May 1916, republished with I. A. O. 590 of 1916,* officers in India will in future be classified under the categories mentioned below.

The classification of officers serving with units or depots in India should be shown on the nominal rolls submitted monthly by Commanding Officers.

All other officers returning from Expeditionary Forces should be classified on discharge from hospital and subsequently when passed by a medical board as fit for duty under one of the categories mentioned below.

798. Army Council Instruction, No. 1779, dated the 13th September 1916, is reproduced below :—

823-1916.

Many instances having occurred in which invaliding Medical Boards have, in the history of the case on Army Form B-179, credited men with wounds or other disabilities of which there is no evidence beyond the man's own statement which statement in some cases has not been in accordance with facts, Boards are directed, in all cases in which they record wounds or other disabilities in the course of the history, to be most careful to say whether their statement is founded merely on the man's assertion, or whether there is any other evidence in support.

Scheme for improving the standard of cooking in Station Hospitals.

805. The following scheme has been introduced with a view to improving the standard of cooking in Station Hospitals :—

17321-17 (D.M.S.-2), 30-10-17.
A. Jan. 18, 2558-2564.

I.—Without increasing the authorised establishment of Army Hospital Corps cooks as a whole,

(a) each 1st Class Station Hospital will have 1 first grade and 2 second grade head cooks ;

(b) each 2nd Class Station Hospital will have 1 first grade and 1 second grade head cooks ;

(c) each 3rd Class Station Hospital will have 1 first grade head cook ;

(d) each 4th Class Station Hospital will have 1 second grade head cook ;

(e) unclassified Station Hospitals will remain as at present.

II.—This will necessitate the provision of 58 additional head cooks, viz., 33 first grade, and 25 second grade, and the authorised number of assistant cooks will be decreased accordingly.

III.—The additional head cooks will be fully trained cooks and will be enrolled direct into the head cook class of the Army Hospital Corps, but will only be retained if fully qualified after a six months' period of probation. They will receive pay at the rates laid down for head cooks, in para. 909, A. R. I. Vol. I, *plus* the highest rates of additional allowances laid down in note (f) to that para., viz., annas 6 per diem for 1st grade and annas 3 per diem for 2nd grade head cooks.

IV.—To be eligible for retention as a head cook, a man must :—

- (i) be able to read and write his vernacular;
- (ii) possess a fair knowledge of English;
- (iii) hold a Superintending Sister's certificate of being efficient* in cooking for invalids after a 6 months' course of training;
- (iv) be recommended by his Commanding Officer.

*NOTE.—The standard of efficiency to be required in the case of the directly enrolled head cooks should be higher than that required in the existing head cooks.

V.—The two grades of head cook will be open only to Mohamedans and Christians, and of the former, munsallis or sweepers or chamars who have embraced the Mohamedan faith should be excepted.

VI.—In addition to direct enrolment promotions may be made from cooks at present serving in the Army Hospital Corps to make up the total number of 1st and 2nd grade head cooks required, provided, of course, that they are in every respect suitable. The cooks so promoted will receive, on promotion, the lowest rate of additional allowance shown in Note (f) to A. R. I. Vol. I, para. 909.

VII.—Vacancies which occur in the future in the head cook class will be filled either by direct enrolment or by promotion of a cook already serving, as indicated above.

VIII.—The age limit for enrolment direct into the head cook class will be 40 years, and the rule in para. 20, A. R. I. Vol. VI, will be relaxed to this extent.

IX.—All extra allowances, batta and good conduct pay for which head cooks are ordinarily eligible, will be drawn by the directly enrolled head cooks.

X.—They will be subject to the same rules for acceleration, reduction and forfeiture of the additional* allowances as in the Corps pay of Royal Army Medical Corps rank and file.

* Note (f) to para. 909, A. R. I. Vol. I.

Conservancy arrangements for Indian troops and followers of newly raised units.

806. The procedure indicated below will be adopted, with effect from the 1st April 1917, in regard to the provision of conservancy arrangements for "Indian troops, and public and private followers of British and Indian troops" falling under the following categories :—

- (a) newly raised units,
- (b) expansion of existing units, and
- (c) increased garrison over and above pre-war strength.

(a) The conservancy arrangements will be provided through the agency of the cantonment authority where such exists. Initial expenses incurred will be recovered on contingent bill forms, countersigned by the General Officer Commanding Brigade and submitted to the Officer Commanding Station and sub-mitted to the Divisional Disbursing Officer for payment. All contingent bills will be endorsed "War."

(b) Recurring expenditure will be similarly claimed and recovered monthly.

(c) The cantonment authority will be given an imprest equal to one month's estimate of the recurring expenditure.

(d) All plant provided must be clearly marked to distinguish it from ordinary cantonment-owned plant.

When no longer needed for the special purpose for which it has been acquired it will be handed over to the Military Works Services, or taken over by the cantonment fund on such valuation as may be agreed upon at the time. In cases where the cantonment fund appliances are in such condition as to render it undesirable to take over the plant in question, opportunity will be given to other cantonments to purchase it instead of purchasing new plant.

Where no cantonment fund exists, establishments will be entertained under the provisions of para. 7, A. R. I. Vol. III, and the necessary plant will be provided in accordance with paras. 433-435, A. R. I. Vol. II.

I.—Recruitment.

(a) The standard of preliminary education of candidates for admission into Medical Colleges shall be raised to, or be equivalent to, that required by the General Medical Council of Great Britain; and the present course of professional study shall be extended from four to five years.

(b) Candidates selected for admission as military medical pupils shall be on probation for six months, and shall be liable, at any time, to removal from the College, if in the opinion of the Director-General, Indian Medical Service, they are, for any reasons, unlikely to become efficient assistant surgeons.

Any military medical pupil failing to obtain his qualification on the completion of his five years' course of study will, at the discretion of the Director-General, Indian Medical Service, either be remanded for a definite period, at his own expense, or he may be summarily removed if the results of the examination show that he is not likely to become an efficient Assistant Surgeon.

II.—Pay and promotion.

(i) The rates of grade pay of Assistant Surgeons are laid down in para. 398, A. R., I., Vol. I.

(ii) Subject to good-conduct and efficiency, and in the case of 3rd class Assistant Surgeons, to the passing of a professional examination also, as detailed in the next clause, a service of seven years in the 4th class and five years in the 3rd and 2nd classes respectively, will render an Assistant Surgeon eligible for promotion to the next higher class.

(iii) Third class Assistant Surgeons will, before being eligible for promotion be required to pass an examination in certain subjects, at any time before their twelfth year of service. This examination will be held annually under the orders of the Director-General, Indian Medical Service. No allowance will be made for failure to pass; and a candidate may be remanded by the Director-General, Indian Medical Service, to a further course of study for a period not exceeding two years, if the results of this examination are unsatisfactory.

(iv) Promotion to the grade of Senior Assistant Surgeon with the honorary ranks of lieutenant, captain or major will be made by selection, in accordance with the Royal Warrant dated the 26th September 1911.

(v) Assistant Surgeons in the service on the 11th November 1914 (including those who have been specially promoted, degraded or passed over for promotion, during their service) will be classified from that date according to their length of service as follows:—

III.—English furlough pay.

The rates of English furlough pay are laid down in para. 435, A. R., I., Vol. I.

IV.—Study leave.

(See the following para.)

Rules for the grant of study leave to Assistant Surgeons of the Indian Subordinate Medical Department.

868. With reference to A. D. Notification No. 39, dated the 2nd January 1915,* the following are the rules for the grant of study-leave to military assistant surgeons of the Indian Subordinate Medical Department:—

A. D. Notn. 137, 4-2-1
18-8-16.
A. Sep. 10, 76-77.
*See para. 867.

(1) Extra furlough for the purpose of study may be granted to assistant surgeons of the Indian Subordinate Medical Department on the recommendation of the Director-General, Indian Medical Service.

(2) The period of such study leave will be calculated at the rate of one-twelfth of pension service, up to a total of 12 months in all during an assistant surgeon's service.

(3) Study leave may be taken at any time, but will not be granted more than twice during the whole period of service. The conversion under Rule (8) of part of an assistant surgeon's furlough into study leave does not count as a grant of study leave within the meaning of this rule.

(4) The minimum period of study, which will render an assistant surgeon eligible for study leave, will be two months out of, or one month in, India. The minimum period of leave granted solely as study leave shall be six months out of, and six weeks in, India. Time spent on the journey to, from, and in India, by an assistant surgeon whose study leave is not combined with any other kind of leave, will reckon as study leave, but the allowances specified in Rule (10) will be granted during the period of study and of the examination (if any) at its conclusion only. An assistant surgeon whose study leave is combined with any other kind of leave will, however, be required to take his period of study leave at such a time as to retain at its conclusion a balance of other previously sanctioned leave, sufficient to cover his return journey to rejoin his appointment.

(5) When an assistant surgeon has been granted a definite period of study leave and finds after arrival in England that his course of study will fall short of the sanctioned period to any considerable extent, his absence from India will be reduced by the excess period of study leave, unless he produces the assent of the authorities in India to his taking it as ordinary furlough.

(6) Study leave can be combined with any other kind of leave, provided the period occupied in study is not less than one month and, in case of leave on medical certificate, provided the Medical Board at the India Office certifies that the assistant surgeon is fit for study. Study leave cannot be prefixed or affixed to combined privilege leave and furlough if the total period would thereby exceed eight months, but study leave may be so taken provided such leave is for not less than one month and the total period of combined privilege leave, furlough and study leave does not exceed eight months; this limitation to eight months does not, however, apply in the case of study leave combined with privilege leave alone. The total period of absence from duty in India will be strictly limited to two years.

(7) Except as provided in Rule (8), all applications for study leave shall be submitted, with the Audit Officer's certificate, to the Director General, Indian

Medical Service, through the prescribed channel, and the course or courses of study contemplated and any examination the candidate proposes to undergo shall be clearly specified therein.

(8) Assistant surgeons on furlough who wish to have part of their furlough converted into study leave, should address the Under Secretary of State, India Office, and should furnish a statement showing how it is proposed to spend the study leave. Similarly, assistant surgeons on furlough or other leave, who desire to have it extended for purposes of study, should address the Under Secretary of State; but, in addition to the statement of proposed study, they must support their applications with documentary evidence of their having obtained the approval of the authorities concerned in India to their applying for an extension of leave.

(9) An assistant surgeon who is at home on combined leave may be permitted to commence a course of study before the end of his privilege leave and to draw for such period the allowance admissible under Rule (10), without forfeiting his privilege leave allowances during such period.

For all purposes of record and subsequent calculation of leave, the full amount of study leave taken shall in such cases be post-dated, as if it commenced at the end of the privilege leave.

(10) The rates of pay and allowances admissible to assistant surgeons while on study leave (including the period covered by any examination at the end of the course) will be as follows:—

(i) *Out of India*.—Furlough pay *plus* an allowance of 4 shillings per diem.

(ii) *In India*.—Grade pay *plus* an allowance of Rs. 50 per mensem.

The allowances of 4 shillings per diem and Rs. 50 per mensem noted above will be granted on production of the certificates referred to in Rule (12).

(11) It is to be understood that, in order to qualify for the grant of study leave and for the receipt of the allowances referred to above, a definite course of study at a recognised institution, which will occupy the time of the assistant surgeon for 5 or 6 days a week, must be pursued. The allowances referred to above will be admissible up to 14 days for any period of vacation. A period during which an assistant surgeon interrupts his course for his own convenience cannot be considered as vacation. In the case of an assistant surgeon retiring from the service without returning to India after a period of study leave, the allowances will be forfeited.

(12) On completion of a course of study in Great Britain, a certificate on the proper form (which may be obtained from the India Office), together with any certificates of special study, should be forwarded to the Under Secretary of State, India Office, who will arrange for the transmission of copies of the documents to the Director General, Indian Medical Service. Assistant surgeons may also be called upon to report themselves in person to the President of the Medical Board, India Office, on the conclusion of their course of study. In the case of assistant surgeons who have undergone a course of study in India, the certificates referred to above will be forwarded through the Principal of the institution concerned.

(13) Study leave will count as service for promotion and pension.

Provision of meals for officers and others of the Embarkation Staff, detained on duty on board transports.

899. B. Jan. 17, 728-732.

Such charges cannot, however, be met from public funds. All such meals should therefore be paid for, when supplied, by officers and other ranks.

But where an officer has necessarily to live in a hotel which insists on a daily tariff inclusive of all meals and makes no allowance for meals not consumed, the amount expended on meals on board may be refunded to him on the production of a certificate from the Embarkation, or Assistant Embarkation, Commandant (or other competent military authority where no Embarkation Staff exists as such) that the above condition was fulfilled and that it was necessary for the due performance of duty that the meals in question should be taken on board.

Such refunds should be debited to His Majesty's Imperial Government through the Controller of War Accounts.

The term "Embarkation Staff" used above is intended to cover all military personnel from the shore doing duty on board during the stay of a transport in port.

902. The Rawalpindi Military Works District has been divided into two separate districts designated the "Rawalpindi District" and the "Sialkot District" respectively. Each district is in charge of an Assistant Commanding Royal Engineer, the number of permanent A. C. R. Es. sanctioned for the M. W. S. being increased from 31 to 32, but the sanctioned cadre of R. E. The order of the General Officer Commanding the port will in each case be communicated to the audit officer, by whom it will be accepted as sufficient authority for the expenditure. In the case of works falling under clause (a) above, the General Officer Commanding will also state that the work forms part of the approved port defence scheme.

The preparation of the usual estimate may be dispensed with when the urgency of the work demands it, but the expenditure will be subject to the usual audit.

Delegation of special financial powers to the General Officers Commanding Bombay and Karachi Brigades in respect of expenditure upon Military Works, etc., connected with the War.

905. See Chapter "Accounts, General."

Procedure to be adopted for remedying the causes of heavy expenditure in the Military Works Services during the month of March each year.

906. The following are extracts from the orders of the Government of India on the subject of the disproportionately heavy expenditure in the Military Works Services during the month of March in each year, and the remedial measures necessary :—

11186-1 (M. W. B.), 20-3-16.
A. Apl. 16, 2632-33.

* * * * *

The congestion of expenditure in March may easily tend to impair the degree of supervision exercised over it, and this factor, combined with the desire of disbursing officers to clear all liabilities against the current year's grant, may afford opportunities for fraud. Another objection is that, although March is one of the busiest months of the working season, officers cannot devote the necessary attention to construction work on account of the continuous office attendance entailed on them by the rush of payments. Again, if new works are to be started sufficiently early in April with a view to utilising fully the best working months of the year, previous preparation is necessary, and attention to such preliminaries in March is impossible if officers are burdened with an abnormal amount of measurements and accounts work in that month.

It appears that the following reasons mainly contribute to the incurring of heavy expenditure in March :—

- (1) Taking India as a whole, the winter months are those in which building work can be best and most economically carried out.
- (2) The Government of India not infrequently make additional allotments towards the close of the financial year.
- (3) The provision of funds in the Budget Estimates for works, the preliminaries of which have not sufficiently advanced, and the provision of excessive amounts for works in progress.
- (4) The attempt made by officers to pay in March for all the work done in that month, and the strenuous efforts made by them to spend the whole of the allotment for the year at their disposal before the month is over, so as not to allow any lapses to occur.
- (5) The difficulty of forecasting, until the end of the year, the work required under the head "Establishments."

desirable that, during the latter months of the year, all work should be paid for promptly, and that the payment of bills should not be held over for settlement in March to a greater extent or to a greater amount than is absolutely necessary. No payment should be made in the month of March which would not be made in any other month of the year on the same facts.

Another factor which tends to result in heavy expenditure in March is the tradition that an officer's efficiency is measured, to some extent, by his ability to utilise fully all the grants at his disposal so as to avoid any lapses. It is scarcely necessary to point out that this doctrine is opposed to all rules and principles on the subject, but, as the impression may prevail in the Military Works Services, steps should be taken to make it clear that it is bad administration to retain funds which are not likely to be spent within the financial year on the work for which they were allotted, and which, if surrendered in time, could be usefully diverted to other works.

- (5) The Examiner of Accounts, Military Works, will be asked to look into the matter of the establishment charges in order to effect an improvement in the existing system of swelling the outlay in March.

Steps should be taken to effect an improvement in the present state of affairs by adopting such changes of procedure as are indicated above, and any other means that may appear desirable and feasible.

Audit objections to expenditure incurred in the Military Works Services.

907. In connection with the Appropriation Report the Comptroller and Auditor-General on the accounts of the Government of India for 1913-14, bringing to notice that over 21 per cent. of the expenditure incurred in the Military Works Services comes under objection, it appears that the principal directions in which the irregularities occur are as follows:—

D-G.M.W. 4 F, 17-4-10.
B. *Appl.* 16, 1619.

- (a) Expenditure without, or in excess of, sanctioned estimates, and without or in excess of allotments.

Though expenditure open to objection under these heads cannot always be avoided a strict observance of the rules in P. W. D. Code, Vols. I and II, paras. 675, 675-A, 1875-I and 1922, whenever possible, will help materially towards a reduction of the figures reported.

- (b) Miscellaneous Advances.

Advances of Government money for contribution works are prohibited under A. R. I. Vol. III, para. 364, and neglect of this regulation is mainly responsible for objections under this head. These irregularities should not occur. Where there is a probability of shortage of funds work should be stopped if no material damage is likely to result. This can, however, be generally obviated by timely notice being given to the depositor.

Items are sometimes allowed to remain in this schedule for months instead of steps being taken for early adjustment. No item should ordinarily take more than three months to adjust.

Attention is invited to note 3 on P. W. D. Form No. 32-R.

- (c) Rents and taxes and contractors' outstandings.

Rents and taxes should be recovered monthly (A. R. I. Vol. II, para. 447) except in very special cases when the reason for delay should be noted on the Rent Return. If rent bills remain outstanding without adequate explanation, prompt action should be taken to bring the matter to the attention of Commanding Officers. Outstandings against contractors should be recovered, if possible, from the next bills submitted.

- (d) Unvouched outlay.

Instructions have been issued in D. G. M. W.'s circular letter

No. 12244-1 (M.W.-5), dated the 7th May 1915, for the prompt submission of vouchers and there is room for considerable improvement in this respect.

The Government of India have called attention to the importance of checking these irregularities. It is therefore enjoined upon all officers to exercise a closer check and to maintain a more vigilant supervision in order to arrest objectionable outlay, avoid irregular transactions and obviate the necessity for such disciplinary action as is referred to in Fin. Dept. Memorandum No. 881-A., dated the 13th October 1915.

* See para. 926.

- (a) The payment of rent for *equipment* issued to officers' and sergeants' messes will cease with effect from the 1st August 1916. The rent to be recovered for officers' mess furniture from that date will be twelve annas per officer per mensem, or such less sum as may be fixed by the Director-General of Military Works in exceptional cases. Rent for sergeants' mess furniture will continue to be recovered in accordance with the existing rules.
- (b) Equipment already issued to officers' and sergeants' messes, and mugs and plates issued to men's dining halls, will, with effect from the 1st August 1916, be considered the private property of the unit with which the State has no longer any concern. No further replacements will be made nor any fresh issues made except of mugs and plates to drafts on arriving in the country.
- (c) In the case of future arrivals, or of units to which the Government of India may hereafter determine that these concessions shall be granted, a fixed allowance will be given in lieu of the issue of equipment. The amount will be Rs. 1,500 (representing the average actual cost of the authorised articles) in the case of a battalion officers' mess, and a proportionate amount, to be determined by the Director-General of Military Works, in the case of other units and of sergeants' messes. This sum will be held to cover the cost of equipping all detachment messes of the unit.
- (d) As regards units already equipped, no claims will be considered after the issue of these orders either for renewals, or for refund of barrack damages already recovered on account of missing or broken equipment.
- (e) If, under the orders of the Divisional Commander, arrangements are made locally to hire equipment temporarily for the messes of a unit arriving from overseas, the cost incurred will be recovered from the amount payable to the unit on arrival under clause (c).
- (f) In cases where units now in India have not received any equipment, either from the War Office or from the Military Works Services, or have received only a portion of the authorised articles, and have made their own arrangements for the remainder, the fixed allowance referred to in clause (c), or such less sum as the Director-General of Military Works may approve in any particular case, may be paid to the unit.

(Note.—No payment will be made under this clause except in cases where the unit has provided all its equipment, or all but certain *clauses* of equipment, *e. g.*, cutlery, linen, plate, etc.)

- (g) If, in the future, units arriving from home should bring with them equipment supplied free by the War Office, no allowance will be paid, but the cost of any essential articles omitted in the outfit will be allowed to the unit under the orders of the Director-General of Military Works.
- (h) Any cases not covered by the preceding rules will be dealt with as the Director-General of Military Works may decide.

The provision of furniture and equipment for the Royal Army Medical Corps officers' mess at Secunderabad and the officers' mess of the 1st Divisional Signal Company at Peshawar should be dealt with in accordance with the rules sanctioned in A. D. letter No. 11603 (M. W. 2),* dated the 24th November 1914, as modified by these orders.

D. letter No. 15788-1 (M. W. 2),‡ dated the 29th August 1916, may be reissued subsequently to units or individuals not entitled to them, on the distinct understanding that the furniture is at the time surplus to requirements and that should it subsequently be required for officers' messes or quarters entitled to the same, it will be withdrawn from those to whom it has been issued under this authority.

D. letters Nos. 11603 (M. W. 2), and 15788-1 (M. Instructions regarding the correct allotment and recovery of the rent of officers' quarters in India.

- 10-10. **932.** The correct assessment and recovery of the rent of officers' quarters has, in recent years, given rise to considerable unnecessary correspondence and numerous audit objections evidently through a misapprehension of the rules on the subject. It is, therefore, considered desirable to re-affirm and promulgate certain principles for the guidance of the officers concerned.

933. The provision of officers' quarters in India is not recognised as an obligation of the State, since it is the policy of Government to encourage private enterprise to provide houses suitable for occupation by military officers, and the pay of rank of such officers includes an item for house rent. Where, however, private enterprise is not forthcoming, officers' quarters are provided by Government on the understanding (except in the case of those built in forts and at presidency towns) that an adequate return in rent is recovered on the capital cost.

934. It follows that, when quarters are specially provided by the State for batteries, regiments, miscellaneous units or for the staff or departments of the Army, the officers concerned must be held individually responsible for the rents of these quarters as allotted to them by competent authority whether they occupy them or not. In the allotment of quarters this principle should, therefore, be borne in mind and quarters should be distributed, as far as possible, in accordance with the rank and appointment for which they have been specially built, in order to ensure the highest possible return of rent. Having regard to these considerations, any device to avoid paying the full rent, such as the temporary vacation of public quarters for short periods during station leave, the occupation by senior or married officers of quarters provided for junior ranks or for single officers, respectively, or the partial occupation of a quarter by an officer who is

liable to have the whole quarter allotted to him and to pay full rent for it, is inadmissible. Occupation of public quarters, as in the case of private houses, is on the basis of a monthly tenancy, and, unless an officer vacates his appointment or is transferred to another unit or station, rent should be recovered for periods of absence on temporary duty or leave of less than one month.

935. The Government of India have no desire to interfere with the discretionary powers vested in Officers Commanding stations; and where the above principles cannot, in exceptional cases, be followed, owing to disciplinary or other reasons, the audit officer is authorised at his discretion to waive objections raised on the score of loss of revenue. The reasons for doing so should in such cases be communicated to the Assistant Commanding Royal Engineer concerned, to enable him to record them in the rent return which is submitted with his monthly accounts for audit.

Position of soldiers promoted to commissioned rank.

959. With regard to the Insurance Act, the position of soldiers promoted to commissioned rank is fully explained in the circulars from the Adjutant-General in India quoted in the margin.

A suggestion was subsequently made that soldiers promoted to commissioned rank within five years from the commencement of the National

Insurance, Act, 1911, might have the option of becoming voluntary contributors, to which the National Health Insurance Commission replied as follows in their letter No. 41698, dated the 6th July 1915:—

“This question was considered before the amending Act of 1913 was introduced and it was found impracticable to give effect to the proposal owing to the difficulties which would arise in connection with civilian insurance * * * * . It would not be possible to give this privilege to soldiers without extending it to the other classes of insured persons. The Act of 1911 provides that before a person who is no longer ordinarily insurable can continue his insurance as a voluntary contributor he must have acquired a substantial interest in the insurance fund. The intentions of the Act would be defeated if after a comparatively short period in insurance a person, for whom the act was never intended to provide, could continue indefinitely to obtain its advantages at considerable cost to public funds.

“While the numbers of soldiers who are promoted to commissioned rank are small the numbers of civilians who cease and have ceased to be insurable are exceedingly large, and no revision of the general conditions governing the limitations of insurance could be introduced, especially at the present time, without giving rise to widespread grounds of complaint. * * *

* * * * With reference to the hardship (which it is suggested is) imposed upon the soldier who on promotion is compelled to terminate his insurance, in so far as any financial loss results to him, such loss must be extremely small in view of the fact that during his period of service he has been entitled (a) to maternity benefit (b) to all the ordinary benefits at the cost of the Navy and Army Insurance Fund, or his Society, in the event of his discharge from service on the ground of health. The contingency of invalidity is of substantial value from an actuarial point of view, and the fact, established after the event, that in a particular case the contingency has not materialised into an actual claim does not of course affect the fact that the risk has been run by the Insurance Funds, and that its actuarial value may legitimately be set off against the contributions which the soldier has paid.”

Position of men recruited under the Group System, or Military Service Act, 1916.

960. The following Army Council Instruction, No. 496, dated the 4th March 1916, is reproduced:—

1. “Men who join for duty from their groups, if under the Group System, or from their class, if under the Military Service Act, 1916, are treated for insurance purposes as if they had enlisted directly into the New Army: i.e., if uninsured before the date of joining for duty, on being called up they should be given the option of remaining uninsured during their army service; if insured before such date, they must be insured while serving (see paras. 6 and 7 of A. O. 332 of 1915).
2. “While they are in the Reserve waiting to be called up, these men are treated as civilians for insurance purposes. They are not, when called up, to be treated like reservists of the Regular Army called up on mobilization, who are insured as soldiers in all cases on joining.”

Soldiers erroneously exempted from payment of insurance contributions, and contributions erroneously omitted to be paid.

961. Army Council Instruction No. 746 of 1916, modified to suit Indian conditions, is reproduced below:—

A. C. I. 746 of 1916.

National Health Insurance—I. Soldiers erroneously exempted from the payment of insurance contributions, and II, Insurance contributions erroneously omitted to be paid.

1. It has been ascertained that in many instances men enlisted for the period of the war or serving in the T. F. who were insured persons under the

National Insurance Act while civilians, and who in consequence must continue to be insured while soldiers (*see* A. O. 378 of 1914), are not being debited with the insurance contributions properly payable in such cases. This may have arisen in the case of men enlisted before 3rd January 1916, either by the men wrongly representing that they were not insured as civilians and therefore entitled to exercise an option to remain uninsured while soldiers, or from the men's company officers having omitted to carry out their instructions to stamp insurance cards for all men who are required to be insured as soldiers. Similarly in the case of men enlisted after the 3rd January 1916, cases occur when the man is being treated as not insured whereas in fact he should be insured.

2. Instead of as heretofore each individual case of omission to stamp cards or of omission to make the necessary deduction being notified by the National Insurance Commissioners as it comes to light, it has been arranged that in future the several Commissions will forward to the Officers Commanding units concerned, monthly lists of men whose right to exemption from insurance is open to question.

3. On receipt of these lists, the following procedure will be carried out :—

A brief note of the circumstance will be made and attached to the list and steps will at once be taken, subject to the restriction of the next paragraph (4), to debit provisionally the man's pay account with a sum equal to the amount of insurance contributions (*i.e.*, 1½*d.* a week) due by him from the date from which pay was first credited, and to recover from him provisionally the weekly contribution in the future.

4. The following rules should be observed with regard to the limitation of the amount which can, under the circumstances given, be deducted from a soldier's pay in respect of insurance contributions due for a past period :—

(a) If at any time the soldier has received a payment in specific settlement of his creditor balance to a particular date or if a debtor balance to any date has actually been recorded in his account, he will be regarded as having been settled with to the date on which the account showed the creditor or debtor balance in question, and no arrears of insurance contributions in respect of any period before that date will be recoverable from him.

(b) No deduction should be made from any allowances, gratuities, etc., or from any sum due to the soldier other than his *pay*. If that *pay* is not in credit at the date of the settlement no recovery is to be made. If the amount of pay available is less than the amount of contributions due, deduction should only be made up to the amount of such pay.

5. The insurance contributions recovered from the soldier with the equivalent Government of India's contributions will be credited to the "National Health Insurance Commission" in the ordinary course. The contributions of 3*d.* a week for the period (including the period, if any, previous to the 3rd January 1916) for which, under the restriction in paragraph 4, recovery cannot be made from the soldier will be charged against the Grant and head affected in the Army Accounts, and credit to the "National Health Insurance Commission" as laid down in I. A. O 694 of 1915.* The charge will be supported by a statement of the circumstances. * See para. 964.

6. *Omitted.*

7. (a) If the soldier states that he was so insured, no difficulty arises, as in this case there is no doubt that he is insurable in respect of his army service, and the provisional deductions for insurance can be made permanent forthwith.

(b) If on the other hand the soldier states that he was not insured as a civilian, the provisional deductions from pay should continue to be made until the soldier establishes his claim to exemption from insurance. If, whether while serving or on return to civil life, the soldier can rebut the contention of the Society, etc., that he is insured, repayment will be made to him by the Divisional Disbursing Officer of all the insurance contributions that have been

provisionally from his pay. In cases of repayment a charge will be made under the head "National Health Insurance Commission" for the total amount provisionally credited under that head, and the difference between that amount and the portion repaid to the man will be compiled by deduction from the expenditure under the Grant and head to which the Government contribution was originally charged. The charge against the National Health Insurance Commission will be supported by a certificate from the Divisional Disbursing Officer that the circumstances of the case have been reported by him to the Insurance Commissioners.

8. In all cases dealt with under this instruction, except those in which circumstances may admit of the man establishing at once that he should not be insured, a fresh Army Form O-1847 will be despatched to the man's Society or to the Insurance Commissioners as the case may be.

If the man is serving at home, the despatch of the Army Form, completed as far as practicable, will be ensured by his C. O. after the man has had an opportunity of admitting insurance. If insurance is not admitted, the Army Form will be marked "Provisional." If the man is serving abroad the Army Form will be despatched by the Officer Commanding marked "Provisional."

9. It has been brought to the notice of the Insurance Commissioners that in some cases in which men have properly been treated as insurable for some period of service, cards do not appear to have been stamped for all the contributions due before the 3rd January 1916.

Monthly lists of these cases will also be forwarded to the Officer Commanding units concerned, and the following procedure will be carried out:—

The Officer Commanding will ascertain whether deductions were made for the period for which a card does not appear to have been stamped.

If deductions were not made, the man's pay account will be debited with the deductions due for the period in question (subject to the restriction in para. 4), and the contributions due will be credited to the Insurance Commissioners as explained in para. 5.

If it appears that deductions were made but a card was in error not stamped, the contributions of 3d. a week will be credited to the Commissioners, as explained in para. 5, and charged against the grant and head affected.

Completion and issue of Army Forms O-1844, 1845 and 1847.

962. I. A. Os. 385 and 509 of 1916 invite attention to Army Council Instructions 884 and 1152 of 1916 conveying detailed instructions with regard to the completion and issue of Army Forms O-1844, O-1845 and O-1847.

Instructions for working the National Insurance Act in respect of Territorial units in India.

963. Instructions with regard to the application of the National Insurance Acts, 1911-14, (i) to soldiers enlisted for the period of the War, and (ii) the application of the National Insurance Act, 1911, to the embodied Territorial Force, and memoranda summarising the regulations governing their insurance under the Acts, as well as subsidiary instructions thereon, are contained in the letter noted opposite.

Discontinuance of the use of stamps and cards for insurance contributions, and procedure for recording contributions.

964. The use of stamps and cards for insurance contributions of soldiers ceased with effect from the 3rd January 1916, but all stamping outstanding for any period prior to that date is to be completed. G C P

The procedure for recording the contributions will then be as laid down in I. A. O. No. 694 of 1915 as amended by 127 of 1916.

Amendments to para. 9 of the Provisional Regulations for the application of the National Health Insurance Act to soldiers serving in India are also contained in that order.

As regards issue of enlistment post cards referred to in I. A. O. 694 of 1915, attention is directed to Army Order 28 of 1916.

Maternity benefit. National Health Insurance Act.

965. Army Order 281 of 1915 on this subject is republished in I. A. O. 530 of 1915.

Claim for maternity benefit by a soldier's wife.

966. With reference to I. A. O. 455 of 1915 introducing a revised A. F. O.-1834 "Claim for Maternity benefit by a soldier's wife", the following important points should be observed:—

A. G. 21523-3 (A.G.-1),
10-8-15.
B. Sept. 15, 1914-1901.

- (a) Maternity benefit is the *mother's benefit* and can only be paid to the husband if he holds his wife's authority to receive it on her behalf in which case his receipt will be a sufficient discharge.
- (b) If during her confinement a soldier's wife is accommodated in a military or other hospital, or in an infirmary or any other institution supported by any public authority, or out of any public funds, or by charity or by voluntary contributions, maternity benefit is not payable until she actually leaves the hospital or institution, and will then be payable to her.
- (c) A. F. O.-1834 is at present only applicable to the wives of members of the Navy and Army Insurance Fund. The wife of a soldier who is a member of an approved society will claim the benefit from the society concerned, in accordance with its rules. This is a matter of personal arrangement between the soldier and his Insurance society.

Maternity benefit payable abroad.

967. Attention is directed to Army Order No. IX, dated the 18th October 1915, National Insurance Act, 1911-15, Maternity Benefit payable Abroad.

723-1915.

Steps are being taken to revise Army Form O.-1834 (modified for India), and meanwhile the amendments ordered by para. 2 of the Army Order [especially para. 2 (b)] should be carried out in manuscript.

The necessary amendments to the Provisional Regulations for the application of the National Insurance Act to British soldiers serving in India will be made in due course.

Payment of maternity benefits to wives of soldiers.

968. With reference to I. A. C. 723 of 1915,* claims preferred in India in regard to maternity benefit on behalf of wives of soldiers who are members of approved societies, will be disposed of in the same manner as laid down in the "Provisional Regulations for the application of the National Insurance Act to soldiers serving in India" for members of the Navy and Army Insurance Fund, i.e., if the claim is in order, it will be paid by the officer commanding the company, etc., and the amount charged in the Pay and Mess Book, Pay List, etc., supporting the entry by the completed Army Form O-1834 and the payee's receipt. On no account are such claims to be made direct to approved societies.

510-1916.

*See para. 607.

Maternity benefit to be paid to the soldier's wife and not to the soldier.

969. The following is an extract from a despatch from the Secretary of State for India, dated the 22nd June 1917, on this subject:—

S. of S. Des. 22-6-17
965-1917.

"It is to be observed that maternity benefit should in all cases be paid to the soldier's wife and not to the soldier."

(See para. 966.)

National Health insurance not obligatory for Anglo-Indian soldiers.

970. Anglo-Indians who enlist in the British Army are allowed the option of not becoming insured under the National Health Insurance Acts during service.

Men already enlisted when this order was issued were to have exercised the option within a month of its receipt, the election of those enlisted subsequently being made within a month of enlistment.

The men exercising this option cease to be entitled to the benefits of the Insurance on discharge unless they took up their residence in the United Kingdom and became ordinary insured persons. The only benefit to which they would therefore be entitled if they became insured, would be maternity benefit during service.

National Health Insurance certificate not to be issued to men transferred to Home establishment.

971. Men transferred from India to the Home establishment need not be furnished with A. F. O.-1845 [certificate that a soldier was insured for the purposes of National Health Insurance up to the date of discharge (or demobilisation.)]

All known savings and modifications in the estimates will be reported to the Senior Controller of Military Supply Accounts quarterly, but any modifications of the value of £500 will be reported immediately and any saving of £500 or over surrendered to the Finance Department.

Indents.—Immediately after the despatch of the Home indents to the Secretary of State, copies will be sent to the Senior Controller of Military Supply Accounts, who will, in the case of all items, the demand for which exceeds £250, verify the stocks on which the demands are based and bring any discrepancy to the notice of the Director General of Ordnance. The Senior Controller of Military Supply Accounts will, if stores of a type ineligible for inclusion in an Ordnance indent are so included, or whenever from circumstances within his knowledge he is doubtful regarding the extent of a demand, bring the fact to the notice of the Director General of Ordnance and, if necessary, to that of the Government of India. Copies of all supplementary indents will be furnished to the Senior Controller of Military Supply Accounts immediately after despatch to the India Office.

The Senior Controller of Military Supply Accounts is not required to make a detailed examination of all the entries in the estimates and indents, but to carry out a general review on broad lines, bringing to notice such matters as the inclusion of unauthorised demands in indents, the undue accumulation of stocks, the non-issue of articles demanded for any length of time, etc. He should not, except in very exceptional cases, raise questions regarding the detailed calculations of requirements, which may be generally accepted as entered in the indents.

At a convenient date annually a list of all items of stock of Rs. 5,000 or over in value, and of which there has been no expenditure during the three previous years, will be furnished by the Director General of Ordnance to the

Senior Controller of Military Supply Accounts, full information being afforded why such stocks have become surplus and how it is proposed to dispose of them.

General, and Commands and Staff.

Creation of the Indian Munitions Board.

988. For the duration of the War, a Board* has been created, designated the Indian Munitions Board, whose functions are to control and develop Indian industries with special reference to the needs created by the War, to regulate contracts, to limit and co-ordinate demands for articles not manufactured or produced in India, and to apply the manufacturing resources of India to war purposes, with the special object of reducing demands on shipping.

All applications for priority certificates, whether from Government Departments or private firms, will be submitted to the Munitions Board for disposal.

The Board entered upon its duties from 1st March 1917.

Functions of the Indian Munitions Board.

989. The President of the Munitions Board is empowered to act in the name of the Board; but otherwise the position of the Board in its relation to other Departments of Government will be, in general, analogous to that of the Railway Board in so far as the President will be responsible direct to a Member of Government, namely, H. E. the Commander-in-Chief in his capacity as Army Member; and, subject to H. E.'s approval, the President will be empowered to act on behalf of Government by general or specific delegation of powers in respect of the functions for which the Board has been created. Authority so granted in specific cases will be converted into general authority, as and when the necessity arises. To commence with, the President will have power, and corresponding responsibility, to act on behalf of Government in the following respects:—

- (a) To grant certificates recommending that priority be given by the Ministry of Munitions in England for the export to India of materials required by manufacturing firms for war purposes or other necessary works.
- (b) To place orders in India for the purchase and supply of locally obtainable munitions and stores, other than medical stores, food, forage supplies and stationery, required for the Army and Civil Departments. For this purpose, such personnel of the Department of Commerce and Industry, Railway Department (Railway Board), and Branches at Army Headquarters now working under the Quartermaster General in India, Director General of Ordnance, in India and Director General of Military Works, as may be found necessary, will be transferred to the Munitions Board as

well as certain special officers who are now entrusted with the purchase and inspection of stores.

- (c) To arrange for the purchase of munitions and stores in the United Kingdom, or, when necessary elsewhere, required by Government Departments, Local Governments and Administrations. For this purpose, they will communicate to the Munitions Board all indents for stores, made after the 31st March 1917, which ordinarily have been imported from overseas. They will report at the same time as to what other stores can be purchased from locally available stocks and at what prices. The Board will then make the necessary purchases either in India or abroad.
- (d) To obtain from Government Departments, Local Governments and Administrations, information regarding the kind, quality and prices of stores that are usually obtained in this country, either in the natural or manufactured state.
- (e) To advise the Government of India from time to time, regarding the measures necessary to control the import, export and internal consumption, by non-government agencies and institutions, of all forms of stores other than food and forage supplies, required for war purposes or for essential civil works.
- (f) To advise the Government of India as to the measures necessary to encourage and increase the local manufacture of supplies, and in some cases directly to control the actual manufacture of munitions, stores and machinery required for the Army and Civil Departments of Government.

Army Commands in temporary abeyance.

990. Consequent upon the assumption by both General Officers Commanding Armies of their duties as Army Corps Commanders in the field, General Officers Commanding Divisions, Independent Brigades and Divisional Areas will now (and until further orders) correspond direct with Army Headquarters on all subjects that have hitherto been dealt with by Army Commanders. 167-1915.

The officers of the Deputy Judge Advocate Generals, Northern and Southern Armies, will remain at Murree and Ootacamund, respectively, and General Officer Commanding will continue to deal with these officers as heretofore.

Certain appointments may be sanctioned by Divisional Commanders while the Army Commands are in abeyance.

991. With reference to Ap. XXII, A. R. I., Vol. II, and I. A. O. 167 of 1915, the appointments enumerated below may be sanctioned by General Officers Commanding Divisions, Divisional Areas and Independent Brigades, during such time as the Northern and Southern Army Commands are in abeyance. 297-1916.

In the lines, each of the two subadars of a company will command two platoons; thus in "A" Company, one subadar will command Nos. 1 and 2 platoons, the second subadar Nos. 3 and 4 platoons and so on throughout the battalion; each subadar being, as at present, assisted by his jemādar.

The application should give full particulars of destination, and should be accompanied by a certificate that this is the place whence he came, and by a statement showing whether he is prepared to embark by the first available opportunity. Application for passage should not be made too long in advance.

First class accommodation will be provided in all cases except as stated in paragraph (3), or where a lower class has been agreed upon at the commencement of the individual's employment.

(3) (a) Those whose services are terminated on account of misconduct, and (b) those who voluntarily resign their commissions before the end of the war, will forfeit right to return passage. Exceptional cases will, however, be considered by the War Office when, if granted, passages under (a) will be second class, and under (b) first class.

Pay of sick or wounded officers of Indian Expeditionary Forces.

1121. Officers (both of the British and Indian Services) serving with the Indian Expeditionary Forces and the force in Scistan, who are in receipt of Indian rates of pay, will receive, while sick or wounded, the full pay (including horse allowance) which they were drawing before being struck off duty for a period of three months, and thereafter the rates of pay ordinarily admissible on sick leave under Indian regulations. If an officer was holding an officiating or field appointment at the time of being struck off duty, the pay of such appointment is admissible for three months. The allowances of the officers concerned, if in India after the first three months, will be regulated by paras. 343 and 358, A. R. I. Vol. I.

An officer in receipt of Indian rates of pay holding temporary rank at the time of being placed on the sick list, is entitled to pay of such temporary rank for a period of three months irrespective of whether the temporary rank is relinquished under rule.

This order has effect from the date of the outbreak of War in the case of officers of the Indian Expeditionary Forces, and from the 1st February 1916 in the case of officers serving with the force in Scistan.

The orders regarding the grant of full pay for three months to individuals while sick as a result of field service do not apply in the case of those who are placed on the sick list on account of venereal disease.

This decision has effect from the 1st June 1917.

(See also A. I. I. 149 of 1918.)

1122. With reference to I. A. O.'s 75 and 273 of 1915, see above, in so far as British service regimental officers are concerned, the full pay for three months is not to include command allowance which will cease on the date of being struck off duty. In the case of an adjutant who is invalided owing to wounds or sickness in the area of operations, both the invalided and officiating adjutant will continue to draw the allowance. An adjutant who is invalided for other reasons will draw pay and allowances as adjutant for 61 days only, after which the officiating adjutant will be entitled to the full pay and allowances of the appointment. These orders have effect from the 1st January 1916, and are applicable to all the Indian Expeditionary Forces.

Staff pay of an officer on field service acting in the place of a sick or wounded staff or administrative officer.

1123. With reference to I. A. Os. 75 and 273 of 1915, it has been decided that an acting incumbent on field service, *vice* a sick or wounded staff or administrative officer holding a permanent appointment on the staff of a division or brigade sent on field service as a complete unit from the peace organization, will commence to draw the full staff pay of the acting appointment after the expiration of three months, notwithstanding that the half staff pay of the appointment is held to be included in the absentee's leave pay. This decision will also apply in the case of an officer permanently holding any of the marginally noted appointments in an Indian unit on field service.

In cases where an appointment may have been held by more than one acting incumbent within the period of three months, the full staff pay will be held to have become available three months from the date on which the original permanent incumbent was incapacitated.

In the case of a specially created or temporary staff or administrative appointment in an Army Corps, Division, Brigade, etc., that has been formed for service—i.e., an appointment outside the ordinary units of the peace organization sent on active service—an officer will vacate it absolutely on the expiration of three months from the date of incapacitation, and the full staff pay will then become available for the officer who succeeds to the appointment. The emoluments of officers thus displaced after three months from these specially created or temporary field appointments and of the acting incumbents in India, will then be dealt with under the ordinary regulations on the subject.

In all the cases referred to above, half staff pay will be admissible under ordinary rules for the first three months, notwithstanding the fact that the sick or wounded officer receives full staff pay during this period. This decision took effect from 1st February 1916.

1124. The provisions of I. A. O. 138* of 1916 are extended to British officers (both of the British and Indian services) serving with the force in Seistan, with effect from the 1st February 1916, the date from which the force was declared to be on field service.

The word "allowance" or "salary" in connection with the pay and allowances of a civil officer in military employ, or a military officer in civil employ who has reverted to military duty, does not include a duty, or other civil allowance of this character, which being attached to a particular appointment (his civil appointment), an officer ceases to draw on vacating that appointment when he is transferred to another not carrying a similar allowance.

Pay of military officers in civil employ recalled to military duty during the War.

12503, 1-11-16.
877-1916.

1133. (1) Military officers of the Indian Army in permanent civil employ not on the supernumerary list, who have been, or may be, recalled to temporary military duty during the War, are paid as follows:—

(a) *While on military duty within Indian limits.*—At their option their salary under the "next below" rule, or in cases to which that rule is not applicable, the salary which they would have drawn if they had not left their civil employment, or military pay and allowances of their rank and appointment. In determining the salary which they would have drawn in their civil employment, special rates of pay allowed to officers for temporary duty or while on foreign service should not be taken into account.

(b) *On leaving Indian limits for active service.*—The out-of-India furlough pay to which they are entitled under their leave rules, plus the military pay and allowances of their army rank and appointments.

(2) This sanction refers to those officers who have completed the periods of probation indicated in para. 324, A. R. I. Vol. II, and been permanently appointed to the departments mentioned in that paragraph.

(3) The concessions do not apply to officers of the Royal Engineers and of the Indian Medical Service, as the liability of such officers, when in civil employ, to recall to military duty has never been in question.

(4) Military officers who were in civil employ for a specified period, *e.g.*, in appointments of limited tenure, at the time of being recalled to military duty, will be granted the terms specified in clause I above up to the end of the specified period, after which they will receive their ordinary rates of military pay and allowances.

(5) Language allowances are not included in the term "salary" used in these rules unless an officer is serving in any area where such an allowance is admissible and unless he was drawing the allowance immediately prior to his reversion to military duty.

(6) Clauses 1, (a) and (b), and 5 are also applicable to officers in permanent civil employ on the supernumerary list.

732-1917.

The above rules apply to officers of the Cantonment Magistrates' Department on the Supernumerary List, whose services have been, or may be, utilised for temporary military duty during the period of the War.

Calculation of furlough allowances drawn in India of military officers recalled from civil employ, civil volunteers and officers of the Indian Army Reserve on military service out of India.

1135. When military officers recalled from civil employ, civil volunteers and officers of the Indian Army Reserve are on military service out of India (though not in Europe) and desire to draw their furlough allowances in India, such allowances may be calculated at sterling rates and converted at Rs. 15 to the pound. The effect of this decision is that when furlough allowances are subject to different minima according as they are paid in India or in England, (*vide* Article 314, C. S. R.), payment will be made in India at the latter rates converted into rupees at Rs. 15 to the pound. In other cases payments will be at the privileged rate of Rs. 6d. to the rupee mentioned in Article 868 *ibid.*, reconverted at the above rate. This decision has retrospective effect to cover past cases of the kind and applies only to those officers who are entitled to civil furlough pay while on military service, if they satisfy the other conditions mentioned above.

Exchange compensation allowance for Military clerical establishments.

4754-5 (A. G. 1), 21-1-16.
B. Mar. 16-1929-34.

1182 (i). With reference to Fin. Dept. Resolution No. 4584-Ex., dated the 15th August 1905, para. 2, and to the interpretation applied to that Resolution in Fin. Dept. (M. F.) letter No. 173-P., dated the 11th May 1906, especially as regards the sentence "others were drawing it unconditionally, and will continue to draw it" used in the last clause of para. 3 of that letter, the intention is that only European soldiers, who continue to hold appointments in which they were eligible for exchange compensation allowance under para. 38 of Fin. and Com. Dept. Resolution No. 4847-Ex., dated the 5th November 1898, and to which they were appointed before the issue of Fin. Dept. Resolution No. 4584-Ex., dated the 15th August 1905, are eligible to draw exchange compensation allowance, provided the appointments are still of the nature referred to in the former Resolution. Such persons will also continue to be eligible to draw the allowance when transferred to another office so long as they remain soldiers, and the appointment to which they are transferred is of the nature described in para. 38 of the Fin. and Com. Dept. Resolution of the 5th November 1898.

(ii) A European soldier, eligible to draw exchange compensation allowance under para. 38 of Fin. and Com. Dept. Resolution No. 4847-Ex., dated the 5th November 1898, who is substantively transferred, whether prior or subsequent to the issue of Fin. Dept. Resolution No. 4584-Ex., dated the 15th August 1905, from an eligible to a non-eligible appointment, within the meaning of para. 39 of the former Resolution, would not be entitled to draw the allowance with effect from the date of such transfer and for so long as he continues to serve in a non-eligible appointment.

(iii) The decision contained in clause (i) above is subject to the following qualification. If the pay of an appointment of the nature described in that clause has been revised since 1905 so as to merge exchange compensation allowance in higher pay, or as part of a revision of establishment in circumstances which required the absorption of the allowance as contemplated by para. 2 of the Fin. Dept. Resolution No. 4584-Ex., dated the 15th August 1905, then all claim to that allowance lapses while the individual concerned holds the appointment referred to.

The revised rates of pay of clerical establishments at Army Headquarters are inclusive of exchange compensation allowance.

1183. The revised rates of pay sanctioned in A. D. Resolution No. 1075-1 (A.D.), dated the 25th April 1911, for the clerical establishments of the several branches of Army Headquarters were intended to be inclusive of exchange compensation allowance. 11604-1 (A. D.) 11-9-16.
B, Oct. 16—1443-43.

Recovery of exchange compensation allowance overdrawn by clerical establishments of branches of Army Headquarters.

1184. As the revised rates of pay sanctioned in A. D. Resolution No. 1075-1 (A. D.), dated the 25th April 1911, for the clerical establishments of the several Branches of Army Headquarters were intended to be inclusive of compensation allowance, such of these clerks as have been erroneously drawing the allowance since the revision of their pay in 1911 could, under a strict observance of the order, be required to refund the amounts overdrawn and the further grant of exchange compensation to them could moreover be discontinued forthwith. But it has been decided:— 11604-3 (A. D.) 9-1-17.
A, Jan. 17—77-28.

(i) to waive recovery of all sums that may have been erroneously admitted to the clerks on this account; and

(ii) to sanction the continuance of exchange compensation allowance to those clerks employed at Army Headquarters who may have been drawing the allowance erroneously since the revision of their pay in 1911, until it is absorbed in their next grade promotion. This concession will not be applicable to those clerks who have received promotion during the course of the last year.

The decision at (ii) must not be considered as opening the door to the extension of a similar concession to those clerks employed at Army Headquarters who have been correctly disallowed exchange compensation allowance since the revision of their pay in 1911; and no claim of this kind will, under any circumstances, be entertained.

to the concession to meet the extra expense involved during the winter months on account of the provision of warm clothing, fuel, etc.; whereas the latter is intended to compensate the clerks belonging to offices of Army Headquarters for the extra expense to which they are put when absent from their permanent headquarters, e.g., on account of the maintenance of separate establishments at Simla and Delhi. These two allowances should, therefore, be treated as separate and distinct from each other, and should not be combined when determining whether any extra expense is involved on account of the grant of local allowance to a clerk on privilege leave. The winter allowance of a clerk on privilege leave is governed by the provisions of Rule 29(a) of the Simla Allowance Code. Under that rule, an absentee is entitled to draw his full winter allowance provided no portion of it is granted to any other clerk belonging to the same establishment in respect of his acting allowance.

12145-3 (A. D.), 7-12-10.

1188. The following rules govern the grant of the Simla minimum wage allowance to girl clerks, temporary or permanent, employed in Secretariat and other Government offices in Simla :—

- (1) A girl clerk will receive a minimum wage of Rs. 65 a month during the first three months of her employment and thereafter of Rs. 80.
- (2) A girl clerk who is appointed to a post on the sanctioned cadre of an office the pay of which is less than Rs. 50 a month is eligible for the minimum wage of Rs. 65 or Rs. 80 a month as the case may be.
- (3) The difference between the pay of the post held by a girl clerk and the amounts stated in rule (1) will be made up by an allowance called "The Simla minimum wage allowance".
- (4) The allowance will be given both in Delhi and Simla.
- (5) (a) On promotion of a girl clerk to a higher rate of salary, whether permanent or officiating, the allowance will be partially absorbed as shown below, being discontinued altogether on her receiving a salary of Rs. 100 a month ;

<i>Pay.</i>	<i>Minimum wage allowance.</i>	<i>Total.</i>

60	25	85
70	20	90
80	15	95
90	10	100

12145-4 (A. D.), 9-5-17.

- (b) A girl clerk officiating in a higher grade will be allowed to draw in addition to salary the minimum wage allowance of her substantive grade, subject as regards aggregate of salary and minimum wage allowance to the limits imposed by Article 96, C. S. R., and the rates shown in the last column above. The manner in which this rule will be applied is indicated below :—

<i>Substantive pay plus minimum wage allowance.</i>	<i>Pay of officiating appointment plus minimum wage allowance.</i>	<i>Officiating salary plus minimum wage allowance.</i>
<i>Rs.</i>	<i>Rs.</i>	<i>Rs.</i>
Example 50	60	50 plus 12

80	85	92
		<i>limited to 85.</i>
Example 50	90	50 plus 18
2 30	10	30
80	100	98

- (c) If a girl clerk is appointed to an office the pay of which exceeds Rs. 65 a month, she will receive the former for the first 3 months and thereafter the head of the office will use his discretion whether to apply the scheme or not, provided that the permanent salary must not be less than Rs. 80 per mensem.
- (6) The allowance will count towards pension and leave allowances and for calculation of contribution to the General Provident Fund: contribution to that fund at the minimum rate will be compulsory only when the emoluments of a girl clerk exceed Rs. 80 per mensem.
- (7) The allowance will (so long as it is drawn) absorb all other special allowances including the allowance drawn in the local Post and Telegraph offices, but excluding the war allowance.
- (8) The grant of the allowance will be conditional on a girl clerk satisfying the head of her department or office that she resides either with her parents or near relatives or in the Young Women's Christian Association premises, or in some other place which appears to him suitable.
- (9) Girl clerks who are third class officers for the purpose of travelling allowance are entitled to second class accommodation when required to make the journeys between Delhi and Simla.

(b) the vacancy for the temporary appointment is caused by extra-regimental employment, in India or with Indian Expeditionary Forces, of an officer of the regiment, or by the death of an officer senior in the regiment;

(c) the vacancy for the junior officer would still exist if the regiment were rejoined by all its officers serving on the Home Establishment who are senior to the officer whose pay is in question (if there be such).

The provisions of this order are applicable to India :—

Army Order 211 of 1915.

Royal Warrant.

GEORGE R. I.

WHEREAS WE deem it expedient to provide for the pay and allowances of soldiers of Our Regular Army and Special Reserve who may be transferred to another corps from the corps for which they enlisted, or in which they are now serving ;

Our Will and Pleasure is that a soldier so transferred shall, notwithstanding his transfer, retain while serving in the rank in which he was transferred, the rates of pay and allowances of which he was in receipt in that rank in his former corps, unless the emoluments of his rank in the corps to which he is transferred are more advantageous, in which case he shall be eligible for those emoluments.

On promotion to a higher rank or appointment he shall be eligible for the emoluments appropriate to that rank or appointment in his new corps, if more advantageous than those of which he was in receipt immediately prior to his transfer.

It is Our Further Will and Pleasure that the above conditions shall apply also to officers and soldiers of Our Territorial Force who have voluntarily entered into an undertaking to serve in the Territorial Force during the period of the present embodiment in any corps or any unit of a corps to which they may be transferred or drafted with a view to service overseas.

Given at Our Court at St. James's, this 21st day of May 1915, in the 6th year of Our Reign.

Pay on transfer from one corps to another.

1232. With reference to I. A. O. 414 of 1915,* the retention of existing rates of pay on transfer to another corps is applicable only :—

(a) To the case of a soldier of the Regular Army or Special Reserve who is transferred without his consent under the provisions of the Army (Transfers) Act, 1915.

(b) To the case of an officer or soldier of the Territorial Force who is transferred in virtue of an undertaking into which he has voluntarily entered to serve in the Territorial Force during the period of the present embodiment in any corps or any unit of a corps to which he may be transferred or drafted with a view to service overseas.

331-1916.

*See para. 1231.

Pay of soldiers on transfer from one corps to another.

1233. With reference to I. A. O. 608 of 1916, † the following rules will apply to soldiers serving on the Indian establishment in receipt of ordinary rates of pay (i.e., those not in receipt of special rates of pay laid down in Army Order 283 of 1914.)

192-1917.

† See para. 1917.

Soldiers compulsorily transferred from one corps to another owing to the exigencies of the service, or on grounds of medical unfitness contracted in and by military service, will retain the rates of pay and allowances of which they are in receipt at the time of transfer, if more advantageous than those of their new corps, under the conditions of Army Orders 210 of 1916, and 211§ of 1915, as amplified by I. A. O. 331 of 1916. (See previous para.)

§ See para. 1232.

§ Vide I. A. O. 414-1015.
(para. 1231)

Similarly with the other rates of engineer pay, except the 2s. rate for men who remain under the old conditions as to which see paragraph 1 above.

A soldier may, subject to Article 848 Royal Warrant, retain the rate which he was drawing at the time of the publication of the revised test, without having to re-qualify for that rate according to the revised test.

Payment of deferred pay and gratuity due to British soldiers.

Service and Proficiency pay.

Tests for qualification for Class I proficiency pay dispensed with during the War.

701-1915.

1268. In the case of troops serving with Indian Forces on field service, the classification tests laid down in paragraph 683, King's Regulations, as modified by para. 920, A. R. I., Vol. II, are dispensed with for the period of the War, and certificates of proficiency will be issued by commanding officers.

1269. All non-commissioned officers who are not qualified by rank for Class I proficiency pay, and all men eligible by reason of length of service to receive proficiency pay, and also those who will complete their service qualification before the 1st May of the following year, will be rated by their commanding officers at convenient dates between 1st May and 30th September in each year and nominal rolls on India Army Form A-48 completed for such men as, in the opinion of their commanding officers, are in every way qualified for the higher rate. In forming his opinion a commanding officer will take as his standard the soldier's general efficiency in his arm of the service on active service. The qualification of all men already in receipt of the Class I rate will also be reviewed and only those whom the commanding officer considers fit to retain the rate will be included in the list. Men in receipt of Class I service pay will be similarly dealt with; the remainder will be classified as Class 2.

1270. A man will not be certified by his commanding officer as qualified for Class I proficiency pay until he has completed 2 months' service in his unit. A special certificate will be given in the case of men who in consequence of this rule have not been rated by the 30th September, when they have been 2 months in the unit.

1271. Those who are certified as qualified for Class I will draw that rate as from 1st July in the year in which the certificate is given provided that they had then completed 2 years' service (including prior service as defined in Army Order No. 96 of 1915 and I. A. O. 204* of 1915). If not so qualified on the 1st July they will draw the higher rate from the date of completion of 2 years' service. Similarly those who have been in receipt of the Class I rate and are not certified as qualified will revert to the lower rate, Class 2, as from the 1st July and their accounts be adjusted accordingly.

*See para. 1262.

1272. On return to peace stations in India soldiers who have been rated for proficiency pay under a commanding officer's certificate will be re-classified under the conditions in force in India as soon as an opportunity occurs, and after re-classification will be dealt with in accordance with the conditions in force for those serving in India. In no case will the certificate granted as from 1st July be valid for more than 12 months.

1273. Men who were serving with Indian Forces on field service and have been sent to India sick or wounded at any time since the 4th August 1914, without having been classified as laid down in these rules will be classified by the commanding officer under whom they are serving in India with effect from the 1st July if otherwise qualified. This classification will be valid in the same way as that of men who return home after classification.

Classification for Class I proficiency pay.

1274. Instructions for the classification of men for Class I proficiency pay, in reference to musketry qualification, are contained in Army Order 433 of 1915; see I. A. O. 45 of 1916.

Procedure for continuance of proficiency pay, Class I, to men considered fit to retain it.

1275. With reference to the last five lines of para. 2 of I. A. O. 701 of 1915,* in lieu of including in the nominal roll a list of non-commissioned officers and men already in receipt of the Class I rate of service or proficiency pay, who are considered fit to retain it, it will suffice if the officer commanding renders a certificate in respect of these non-commissioned officers and men in the following terms, viz. :—

849-1916.

*See para. 1268.

"Certified that the qualification of non-commissioned officers and men already in receipt of service or proficiency pay Class I, have been reviewed, and that they are qualified to retain that rate for the year commencing 1st July 1916, with the following exceptions,"

and attaches a list of those who are not considered fit to retain the Class I rate. The non-commissioned officers and men included in this list will then be

reverted to Class II as from 1st July 1916, in accordance with para. 4 of I. A. O. 701 of 1915.

Regulations for grant of proficiency pay.

4049-1 (A. G.1), 26-2-16.
165-1916.

1277. Under para. 492-F., A. R. I. Vol. I, a soldier is entitled to proficiency pay, Class II, on mobilisation, irrespective of the qualifications required under para. 488 *ibid*, provided he has two years' service. Such a soldier cannot, however, be advanced to proficiency pay, Class I, unless fully qualified, *vide* clause (c) of para. 492-F.

Classification for proficiency pay for the period of the War.

494-1917.

1278. The following modifications have been made in the rules governing classification for proficiency pay, for the period of the War:—

(i) Any man eligible for proficiency pay under the provisions of para. 486, A. R. I. Vol. I, in order to be eligible for proficiency pay must:—

- (a) have at least two years' service with the colours, previous service as defined in para. 491, A. R. I. Vol. I, and Army Order 96 and I. A. O. 204* of 1915 counting;
- (b) if enlisted as a boy, have attained the age of 20 years except as provided in I. A. O. 583† of 1916; and
- (c) be certified by his Commanding Officer as efficient in the duties of his rank in the arm of the service to which he belongs, having regard to the functions to which his unit is assigned.

The fact that the Officer Commanding puts the man in orders as qualified for proficiency pay will be taken as certifying him under this sub-paragraph. When a Commanding Officer considers that a man is no longer qualified under this sub-paragraph he will withdraw the grant of proficiency pay in regimental orders.

(ii) If the conditions of the above clause are fulfilled the man is entitled to Class II rate.

(iii) A man serving in India will be eligible for Class I rate, if, in addition to fulfilling the conditions in paragraph 1, he is:—

- (a) a warrant officer or non-commissioned officer of or above the rank of serjeant; or
- (b) in possession of qualifications entitling to Class I rate as laid down in para. 683, King's Regulations, as modified for India by para. 920, A. R. I. Vol. II; or
- (c) entitled by virtue of previous classification, subject to clause V below, *i.e.*, entitled under para. 492 (c) and (f), A. R. I. Vol. I, or classified for Class I, since mobilization and not subsequently disrated; or
- (d) returned from an expeditionary force in receipt of Class I rate, subject to clause VI.

(iv) A man serving with an expeditionary force will continue to be classified for Class I rate as laid down in I. A. O. 701* of 1915 subject to the conditions of 1 of this Order being fulfilled.

(v) Men who are qualified for the Class I rate under clause (iii) (c) will retain that rate until an opportunity occurs of carrying out the tests in para. 683, King's Regulations, as modified for India by para. 920, A. R. I. Vol. II, when they will be reclassified.

*See para. 1269.

(vi) (a) Men rated as Class I, who, having served with an expeditionary force, return to India (or are classed "Permanent Base") owing to wounds, injuries or sunstroke, received in the performance of military duty, or to sickness due directly or indirectly and wholly to war service, will retain Class I rate until the end of the War notwithstanding that they may not be able to reach the Class I standard if tested.

(b) Men similarly situated but not already in receipt of Class I will not draw Class I unless they qualify under clause (iii) (a) or (b) above.

(c) Men rated as Class I, who have served with an expeditionary force and have returned to India for reasons other than wounds, sickness, etc., referred to above, will be dealt with as under clause (v).

(vii) Men serving on an engagement which entitles them to draw service pay will be similarly dealt with as regards rating for Class I.

(viii) A man who fires his classification with both the 1914 and the S. M. I. E. rifles will be allowed to count his best score towards his musketry classification.

(ix) As the grant of proficiency pay Class I will in future depend upon the results of actual classification, except in the case of men serving with an expeditionary force and the cases mentioned in clauses (xi) and (xiii) of this Order, no man other than these will be eligible for Class I unless he attains the standard by actual classification. If for any exceptional reason a man cannot be classified he cannot be granted Class I proficiency pay.

(x) The above conditions apply equally to men of the Cavalry and Royal Artillery and to qualifications other than musketry.

(xi) Paragraphs 492-A. and 492-B, A. R., I., Vol. I, will continue to apply to all classes of men except that para. 492-B will not apply to men under clause (vi) (a).

(xii) I. A. O. 102† of 1917 will remain in force for prisoners of war.

†See para. 1507.

(xiii) Cases where men in receipt of Class I proficiency pay are compulsorily transferred to corps not entitled to proficiency pay and are permitted to retain Class I indefinitely under I. A. O. 192‡ of 1917 will be specially authorised by the Government of India in each case.

‡See para. 1233.

- (i) All Unattached List and Indian Subordinate Medical warrant and non-commissioned officers who proceed on field service outside India, whether such families were previously eligible for subsistence allowance under the rules in A. R. I., Vol. I, or not.
- (ii) All regimental warrant and non-commissioned officers and men of British units, on the married establishment, who proceed on field service outside Indian limits.

Higher rate.—To families leaving India, or in the case of those remaining in India who may have been required to vacate public quarters, or have not been provided with such quarters, or who may elect to provide their own accommodation.

Lower rate.—To families provided with public quarters. No rent will be charged for such quarters. Those receiving this rate will be entitled, in addition, to free rations under para. 697, A. R. 1268-1917.

1353. Separation allowance is admissible to the families of departmental warrant and non-commissioned officers on field service in India, under the same conditions as for field service overseas. This decision has retrospective effect to cover the case of warrant officers and non-commissioned officers of the India Unattached List separated from their families in consequence of the concentration of the Waziristan Field Force, the allowance being granted from the date of separation.

Separation allowance is also admissible to the family of a soldier (including a warrant officer and non-commissioned officer of the India Unattached List) prohibited by military authority, on military grounds, from accompanying him on a move within India. This will include cases where a soldier to whom free quarters are admissible moves to a station where public quarters are not available. The provision of para. 2 of I. A. O. 24-I of 1915, will apply to these cases.

[The above concessions will be admissible only during the War; A. I. I. 375 of 1918.]

For families and dependants in the United Kingdom of British Units in India.

1357. The wives and families resident in the United Kingdom of soldiers belonging to British units serving in India since the beginning of the War, are now eligible for separation allowance with effect from the 1st February 1915. It is presumed that in the great majority of cases paymasters in the United Kingdom are already issuing allotments of pay and will be able to take the necessary steps forthwith to effect the payment of separation allowance to the wives and families in the ordinary way. This applies to all wives and families resident in the United Kingdom, whether on the married establishment or not. In order to avoid omissions and to secure the usual verification of particulars, instructions have been issued for complete rolls to be rendered by officers commanding in India to paymasters in the United Kingdom.

266-1915.
391-1915.

Allotments, unless already being paid at the standard or higher rate, will also be issuable at the standard rate from the above date. The issuing paymaster will notify the India Office of such issues on Army Form O-1795 in the manner laid down in para. 7(b) of Army Order 1 of 1915. The amounts recoverable from the soldier's pay will be refunded by the India Office direct to the War Office.

65-1915.

The following procedure will be followed:—

(a) *Boys attending State-aided schools.*—Between the 1st and 15th days of December, March, June and

Modified by I. A. O. 266 of 1915. See para. 1370.

(b) *Children who are physically or mentally infirm.*—Similarly, between the 1st and 15th days of December, March, June and September, the recipient of separation allowance on behalf of a soldier's child who is prevented from earning his or her own living owing to physical or mental infirmity, and who is over the regulated age for separation allowance but under the age of 21, must furnish to the Divisional Disbursing Officer a certificate signed by the child's regular medical attendant, stating the nature of the infirmity and that the patient is prevented by such infirmity from earning his or her own living.

The separation allowance will be admissible from the 19th November 1914, inclusive, and will be at the ordinary rate for an additional child or at the motherless rate, according as one or other of these rates would be issuable if the child were within the ordinary limits of age.

For motherless children, under 14 years of age, of soldiers of all ranks, an addition shall be made of 2s. for each child living singly, and where two or more children of the same family live together, of 2s. for the first and of 1s. for each other child.

The grants for children over the age of 14 shall continue at the same rates and under the same conditions as at present.

(Revised rates for families remaining in public quarters have been sanctioned. See A. I. I. 36 of 1918.)

Conditions of issue of separation allowance for dependants.

266-1915.

1363. In continuation of I. A. O. 7 of 1915 (see above) attention is invited to Army Order XIII of the 26th February 1915, regarding the definition of "dependant" in para. 2 (a) of Army Order 440 of 1914 being extended in certain cases.

(See A. I. I. 36 of 1918 for revised rates of separation allowance for families remaining in public quarters.)

Separation allowance for dependants of soldiers of British Units and army reservists in India.

215-1915.

1364. The grant of separation allowance to dependants of soldiers of British units and army reservists serving in India is authorised with effect from the 1st March 1915. The ordinary rules governing the grant of separation allowance to dependants will apply.

391-1915.

1365. The issue of separation allowance to dependants of soldiers of British units and army reservists serving in India will be made with effect from the 1st March 1915 if application has been made before the last day of April by the dependant or before the last day of May by the soldier. In other cases the issue will be made, if admissible, from the date of the first application.

— Miscellaneous instructions relating to the issue of separation allowance and allotments of pay.

266 1915.

1366. In continuation of I. A. O. 7 of 1915,† attention is invited to Army Order V of the 11th March 1915, the provisions of paragraphs 10 to 13 of which are applicable to India.

†See para. 1362.

Payment of separation allowance and allotments of pay; Territorial Force.

415-1915.

1367. Instructions on this subject are contained in Army Order 241 of 1915 (II of 5th June 1915), to which attention is called in I. A. O. 415 of 1915.

Issue of Separation Allowance Regulations.

644-1915.

1368. The attention of all concerned is invited to Army Orders Nos. 350 and 351 of 1915 and No. IV of the 16th September 1915. Arrangements have been made for the issue to all concerned of copies of the Separation Allowance Regulations referred to in the first quoted Army Order.

Attention is also invited to Army Order No. V of the 16th September 1915, superseding the instructions contained in I. A. O. No. 263 of 1915,‡ which should be amended accordingly.

‡See para. 1373.

Procedure to be followed in respect to women married off the strength who may be residing in India.

1369. (2) Such women will be invited by public advertisement to apply to the officer commanding the regiment or depot of a regiment, to which

their husbands belong, giving the soldier's name, rank, number and regiment, with the date and place of marriage and the names, ages and sexes of their children, if any. Marriage and birth or baptismal certificates are required, and should, if possible, be enclosed with their applications to save delay in the issue of separation allowance. If the husband's regiment and depot have both left the country, application should be made to the Divisional Disbursing Officer of the Division in which the wife is residing.

- (ii) The officer commanding a regiment, or depot of a regiment, will notify the Divisional Disbursing Officer upon A. F. O.-1794, adapting it to serve for soldiers not on the married roll, of all cases in which the woman furnishes the requisite certificates, or provisionally satisfies him by other evidence of her claim. (Subsequent verification to be made in this case.)
- (iii) If any difficulty arises in obtaining the certificates of marriage or of birth, a representation should be made to the Adjutant-General in India, giving particulars of date and place. Steps will then be taken to verify them. The production of certificates (for verification as above) is necessary in all cases.

Extension of age limit for children.

1370. With effect from the 1st February 1915, separation allowance is admissible for all children up to the age of sixteen years. The certificates required by I. A. O. 65 of 1915* for boys between the ages of 14 and 16 attending State-aided schools, will no longer be necessary.

(ii) With effect from the 1st February 1915, the allowance will also be admissible, on production of a certificate from the local civil Administrative officer, for young persons between the ages of 16 and 21, while they are apprentices receiving only a nominal wage, or are day pupils† at a secondary school, technical school or university. The certificate should continue to be obtained for each quarter subsequent to the first issue, in support of claims for separation allowance.

Payment under the two previous clauses may be made in one sum as soon as the application has been duly certified and approved.

These separation allowances will, in any case cease, on the conclusion of the War.

For dependants of married men.

1371. Separation allowance will be admissible for dependants in cases in which the wife of the soldier was separated from him prior to mobilization (or enlistment, if later) and is not in receipt of separation allowance; and will have effect from the 1st February 1915 for men serving on the 26th February 1915, and from date of application in other cases. It will apply only in those cases in which separation allowance is not admissible for the soldier's wife. Payments under a maintenance order will not prevent the issue of separation allowance for a dependant if such payments are made entirely from the soldier's pay. The ordinary terms and procedure of Army Order 440 of 1914 will be followed in cases coming under this paragraph.

For adopted children, etc. of married men.

1372. In the case of a married soldier separation allowance will be admissible under the usual conditions and at the usual rates, for any children whom he had been permanently maintaining as members of his household; this will admit adopted children and illegitimate children or step-children. Separation allowance in such cases will be admissible from the 1st February 1915, and any sum due in this respect up to the date of publication of this order (17th May 1915) may be issued in one sum. Claims made should be carefully verified by Divisional Disbursing Officers, through the Committee of the Local Branch of the Soldiers' and Sailors' Families Association.

For persons in State-aided institutions.

266-1915.

1373. Separation allowance will not ordinarily be admissible for persons in State-aided institutions. In cases, however, where a soldier, prior to mobilization or enlistment, made regular payments for the maintenance of a person in a lunatic asylum or sanitarium (or of a child boarded out by a local authority), who would otherwise be entitled to separation allowance, the separation allowance otherwise issuable may be admitted up to the actual amount previously paid by the soldier, provided that he allots at least the proportion, if any payable by him. If a person already drawing separation allowance enters a lunatic asylum or sanitarium where contributions are normally paid (or if a child is boarded out by a local authority), the issue of separation allowance may be continued towards the cost of maintenance as above; but in the cases of children in an asylum, 5s. a week for each child will first be issued for their maintenance, and only the balance will be available for payment to the asylum.

Payment in such cases will be made direct by the Divisional Disbursing Officer to the authorities of the institution. With reference to I. A. O. 65 of 1915, para. 14 of Army Order 12 of 1915 has been cancelled.

For families of soldiers married after 13th August 1914 (or date of enlistment if later).

266-1915.

1374. During the period of the War, the wives and children of all soldiers who are otherwise entitled shall be eligible for separation allowance and pensions, although the marriage of the soldier did not take place till after mobilization or enlistment. In cases of this kind in which approval for the issue of separation allowance has not already been given, under instructions in force prior to date of receipt of this order, the issue of separation allowance will begin from date of marriage or from the 1st February 1915, whichever is later. In all such cases the usual conditions as to payment of allotments will apply.

Procedure to be observed with respect to separation allowance when a soldier intends to marry.

533-1916.

1375. In future, with reference to para. 78 of the Separation Allowance Regulations promulgated with Army Order 365 of 1915, any soldier who intends to get married will be required to inform his commanding officer of the fact two weeks in advance of the event, and to state at the same time whether separation allowance is being paid to any of his dependants, and if so, to whom.

On receipt of the information the commanding officer will hand to the man a copy of Army Form D. 418c with instructions as to its completion and return; and if dependant's allowance is being issued (but not otherwise) will at once notify the probable date of the man's marriage and also the name and address of his dependant, to the paymaster (or Secretary of the Territorial Force Association) concerned, in order that steps may be taken to prevent the issue of dependant's allowance beyond the date of intended marriage. (Army Order 157 of 1916.)

Separation allowance inadmissible to soldiers of Territorial and New Army Units who marry in India.

1376. Separation allowance is not admissible in the case of soldiers of Territorial and New Army units who have been, or may be, married while serving in India, except where public quarters are not available for the family in the station where the soldier is serving.

2. This order applies only to service in India. Should the soldier be sent on field service out of India, the issue of separation allowance to his family will be subject to the general rules governing the grant of separation allowance to regular soldiers.

Date of cessation of separation allowance in case of a family residing in India of a soldier discharged in England.

1377. In the case of a family residing in India of a soldier discharged in England, separation allowance should continue to be issued until the end of the week in which the discharge occurs, or in which the notification is received by the Divisional Disbursing Officer, whichever is later. [But see A. I. I. 353 and 520 of 1918.]

Continuance of separation allowance to families in India of men discharged in the United Kingdom.

1378. Separation allowance and allotment will be continued in the case of families residing in India of men discharged from the Army, in the United Kingdom, as no longer physically fit for war service, until the date of disembarkation in India of the men who elect to return to India on discharge. This order has effect from the 4th December 1916.

766 1917.

Notification of discharge of soldiers in India whose families are in England.

1379. With a view to the cessation of separation allowance to families residing in the United Kingdom of soldiers discharged in India, the officer confirming the discharge of such a soldier will report to the Adjutant-General in India, for communication to the India Office, the name and address of the family in the United Kingdom and the date of the soldier's discharge.

Instructions for the guidance of Paymasters when separation allowances are transferred from one Paymaster to another.

1380. Army Council Instruction No. 300 of 1916 on this subject is reproduced below :—

380-1916.

“When payment of separation allowance is transferred from one paymaster to another the original documents in support of the claim should accompany the statement of particulars referred to in para. 99 of the Separation Allowance Regulations.

2. The new paymaster will acknowledge receipt of the documents and this acknowledgment will be filed with the records of the former paymaster.”

Abolition of time limit for applications for separation allowances.

1381. Attention is invited to Special Army Order dated 1st September 1916, regarding the abolition of the time limit for applications for separation allowance. This order is applicable to India, with the modification that claims will be scrutinised by the Divisional Disbursing Officer concerned, instead of by the paymaster referred to in the Army Order.

898-1916.

Rules regarding forfeiture of separation allowance.

1382. Army Council Instruction 1860, dated the 26th September 1916, is reproduced below :—

899-1916.

1860. Separation Allowances : reference of questions involving forfeiture, to the War Pensions, etc., Statutory Committee.

1383. From the 1st October 1916, the decision as to whether the issue of separation allowance to the wives or dependants of soldiers shall be stopped on account of serious misconduct will be vested in the War Pensions, etc., Statutory Committee, and all communications in connection with these cases will, on and after 30th September 1916, be addressed to :—

The Secretary,

War Pensions, etc., Statutory Committee,

22, Abingdon Street,

London, S. W.

In all cases in which the Committee decide—

- (a) to stop an issue of separation allowance ; or
- (b) to restore an allowance previously forfeited ; or
- (c) that an allowance shall be paid, for administration in trust, to some person other than the wife or dependant, the Secretary will advise the Paymaster or T. F. Association concerned, and at the same time inform the Officer i-c Records, so that the Committee's decision may be communicated to the soldier.

On receipt of a notification from the police authorities that a soldier's wife or dependant has been sentenced to a term of imprisonment, the Secretary of the Committee will furnish particulars to the Paymaster or T. F. Association so that the issue of separation allowance may be stopped for the period of imprisonment, in accordance with paragraph 61, Separation Allowance Regulations.

All letters containing charges of misconduct against a wife or dependant should be at once forwarded to the Secretary, together with a memorandum stating—

- “(a) the name and address of the wife or dependant ;
- (b) regimental particulars of the soldier ;
- (c) the number of children for whom separation allowance is being issued.”

Payee to be informed of reductions made in separation allowance.

122-1917.

1384. In cases where the weekly rate of separation allowance of a soldier's wife or dependant is reduced in order to effect recovery of an overpayment, information should invariably be furnished to the payee, of the nature and the total amount of overpayment and the amount that will be deducted from the weekly allowance until recovery has been effected.

Separation allowance to families and dependants of men enlisted in India, including the Anglo-Indian Force.

1385. Separation allowance will be granted, under the ordinary rules governing the grant of the allowance, but with effect from the date of enlistment, in the case of families and dependants of men enlisted in India for the duration of the War, including those enlisted for the Anglo-Indian Force. This allowance will be in lieu of all privileges of the married establishment.

Separation allowance for soldiers' families detained in India.

1386. Separation allowance at the usual rates is admissible during the period of separation, to the families of soldiers sent to the United Kingdom, when such families are detained in India consequent on the present passage restrictions.

Continuance of separation allowance to families of men on sick leave in India.

1887. The issue of separation allowance to families who have been drawing it will be continued for a period not exceeding 12 months from the date on which the husband rejoins them on leave after being invalided from field service.

The period of twelve months counts from the date on which the soldier rejoins his family on leave after having been invalided from field service, and not from the date of the commencement of his leave; the allowance will, however, cease from the date on which the soldier returns to duty in India if this occurs within the period of one year.

1390. The fact that government quarters are available in a station for occupation by a family of a British Army reservist recalled to the colours does not affect the grant of separation allowance to such a family if they are not desirous of occupying the quarters available; nor is the grant of the allowance affected if the reservist should be living in private quarters with his family.

Dependants' separation allowance; procedure for dealing with appeals.

1395. Army Council Instruction No. 1784, dated the 13th September 1916, is reproduced below:—

56-1917.

1784. Dependants' Separation Allowance appeals.

(i) While it is not possible to lay down any definite rules to determine whether an appeal coming under paragraph 84, Separation Allowance Regulations, is to be resubmitted to the Pension Authorities, great care should be exercised by Paymasters and Secretaries, T. F. Associations, before an appeal is

rejected solely on grounds that no new facts or further evidence have been disclosed or that the reasons for dissatisfaction set out on Army Form O. 1840A are insufficient to justify a request for further investigation.

(ii) When a decision under paragraph 76 (f) has been accompanied by a notification that the assessment is subject to reconsideration in the event of an appeal, an application for consideration should be invariably resubmitted to the Pension Authorities.

Facilities to be given to recruits to claim separation allowance for dependants.

452-1916.

1396. A recruit who has not on enlistment claimed separation allowance for a dependant is entitled to make a claim within one month of enlistment, or of joining from the Army Reserve, Class B (see Army Order No. 1 of 1916). Every facility should be given to recruits who desire to make a claim during this period, and in order to bring the concession prominently to their notice, arrangements have been made for a supply of Army Form O.-1838 to be available at the pay table on the weekly pay day. (See Army Council Instruction No. 1002 of 1906.)

Notification of casualties affecting the issue of separation allowance, Territorial Force.

504-1915.

1397. Instructions in regard to the notification of casualties are contained in Army Order 265 of 1915, to which attention is called in I. A. O. 504 of 1915.

Notification of casualties affecting separation allowance.

88-1917.

1398. All casualties, such as forfeiture of pay beyond 7 days, promotions reductions, etc., affecting the issue of allotments and separation allowance in respect of soldiers in Indian payment, should be promptly reported to the Regimental Paymasters in the United Kingdom.

Transfer of dependant's separation allowance on death of payee.

86-1916.

1399. Army Order 2 of 1916 contains instructions in reference to the transfer of a dependant's separation allowance to another payee on the death of a person to whom the original grant was made,—I. A. O. 86 of 1916.

Adjustment of separation allowances in cases of casualties in India.

911-1916.

1400. Casualties affecting soldiers in Indian payment should be notified by Officers Commanding units to the Regimental Paymaster for the purpose of effecting any necessary adjustments of separation allowance (see para. 10 of Army Order 1 of 1915).

Notification of death for reckoning continuance of separation allowance.

121-1915.

1401. I. A. O. 121 of 1915 calls attention to Army Order 61 of 1915 (X of January 1915), regarding the date of notification of death for reckoning continuance of separation allowance.

Disposal of separation allowance remaining unissued.

274-1915.

1402. The provisions of Army Order 128 of 1915 (VII of March 1915), regarding the disposal of separation allowance and allotments remaining unissued on the death of the wife, child or dependant of a soldier, are applicable to India. The Divisional Disbursing Officer concerned will satisfy himself by inspection of bills, etc., of the correctness of the claims.

Importance of ascertaining that families on whose behalf separation allowances are paid are in existence.

1403. The attention of Officers Commanding depôts and units, and other officers who pay separation allowances and family allotments, is drawn to the

importance of their satisfying themselves periodically by independent means that the families and dependants to whom they are making payments are actually alive at the time of payment.

Compulsory Stoppages.

1404. Compulsory stoppages as laid down in para. 986, Royal Warrant for Pay, etc., will be made with effect from the 1st October 1914, in respect to all married soldiers, including reservists, on whose behalf separation allowance is admissible under para. 1 of I. A. O. 24* of 1915.

British Officers, British and Indian Services (including families).

Payment of gratuities in the case of death or termination of service of retired officers re-employed, officers of the Special Reserve, Territorial Forces and New Armies, and those holding temporary commissions.

1425. The following Army Order 406 of 1915 is applicable to all officers of the categories named therein serving under the Indian Government.

716-1916.

Special attention is drawn to the fact that under paragraph (8) of the Army Order the amount of the gratuity will be based on British rates of pay in the case of officers holding British Service commissions even if at the time of death they were in receipt of Indian rates of pay :—

406. Gratuity to Officers.

(1.) It has been decided that the gratuity provided in Article 497 of the Pay Warrant is issuable to retired officers re-employed, to officers of the Special Reserve, the Territorial Force, and the New Armies, and to officers holding temporary commissions generally, with certain exceptions specified below.

(2.) The gratuity is not issuable to officers—

- (a) Re-employed before the war and who continue in their peace employment during the present emergency.
- (b) Granted commissions *pro forma*. These officers will normally fall also under category (d).
- (c) Serving under special contracts which provide for the issue of a gratuity. For transferred officers, see paragraph (3).
- (d) Not in receipt of Army rates of pay as laid down in the Pay Warrant.
- (e) Not in receipt of pay from Army funds.
- (f) Transferred to permanent commissions in the Regular Army.
- (g) Of the Unattached List, Territorial Force (serving with the Officers Training Corps), who have been in receipt of Army rates of pay for a period of less than 9 months, whether continuous or otherwise.
- (h) Selected for continuous service in the Royal Flying Corps.
- (i) Who voluntarily resign their commissions or voluntarily revert to unemployment before the expiration of the period of emergency.
- (k) Whose services are dispensed with for misconduct or inefficiency, or for other causes which, in the opinion of the Army Council, disqualify them from the grant of the gratuity.

Category (a) includes retired medical officers, retired recruiting officers, officers in record offices, etc., in receipt of consolidated rates of pay. Category (b) includes the War Department land agents and officials similarly situated, acting chaplains* employed at home, officials of the Government departments lent by their departments in their official capacity and granted commissions. Also officials of Board of Control—Poor Law Institutions who continue in their posts on the institutions being taken over for military purposes. Category (c) includes medical officers, veterinary officers, and chaplains (including those of the Territorial Force not mobilized as such) serving under a contract. Category (d) includes dentists, acting paymasters, temporary inspectors of works, secretaries of Territorial Force County Associations, and engineers, surveyors, etc., employed with the Royal Engineers. Category (e) includes officers of the Red Cross Society, the Field Force canteens and similar organizations.

* Separate instructions have been issued regarding acting chaplains.

(3.) The gratuity is issuable on termination of service, and will be calculated at the rate of pay issuable on the last day of service. The period of service forming the basis of the gratuity will be confined to full pay service.

Officers of the Royal Army Medical Corps, Territorial Force, employed for alternate periods in Territorial Force General Hospitals will, for example, reckon only the actual periods of employment for which pay has been issued. Officers eligible for the gratuity under this Army Order who are transferred to posts held under contracts providing for a different rate of gratuity (see paragraph (2) (c)), and *vice versa*, will count the period of full pay service

the former capacity towards the gratuity earned in the latter capacity, the rate of gratuity being calculated in the latter capacity only.

(4.) The gratuity will be issued to officers, otherwise eligible, who, on account of ill-health, relinquish their commissions or cease to be re-employed, provided that, if the disability which resulted in cessation of service was not caused in and by the performance of military duty, not less than 6 months' service on full pay has been rendered. Authority for payment will be given on application to the War Office.

(5.) The gratuity is issuable to the estates of officers who die while serving in the capacities referred to in paragraph (1), subject to a deduction of any pay issued beyond the date of death under the provisions of Army Order 92 of 1915.

In all cases of deaths occurring after the 31st July 1915, agents and paymasters issuing pay will prepare Army Form W 3136 and transmit the completed form to the War Office. No entries in agents' or paymasters' accounts will be made in respect of the gratuities or any refund of pay, the necessary adjustments being carried out at the War Office.

(6.) The general issue will be made by agents and paymasters from whom officers last receive pay. Claims will be preferred to such agents or paymasters by officers on Army Form W 3136, which will be issued in due course. In order to verify the period of service, it will usually be necessary, when an officer has changed the medium of payment since first employment, for the claim to be transmitted to each paying authority from whom he has received pay. The transmission will be done by each paying authority in turn, when he receives it and has inserted the particulars in his possession, and the paying authority who last dealt with it will return it duly completed to the agent or paymaster to whom it was sent by the officer. The claim form will provide for a declaration to be signed by the officer when making the claim showing whether the officer formerly retired with retired pay or a gratuity, and this certificate will be accepted, subject to such verification as may be possible from the Quarterly Army List, as determining whether the gratuity is issuable under (a) or (b) of Article 497 of the Pay Warrant. In the absence of further instructions to the contrary, the gratuity of officers who retired with temporary retired pay under Article 559 of the Pay Warrant will be assessed under (a) of Article 497 of the Pay Warrant whether they are actually in receipt of the retired pay or have ceased to draw it, on the date on which the gratuity is payable.

(7.) The gratuity is subject to the payment of income tax and should be classified to Vote 1 FF.

(8.) It is notified, for information, that in the case of temporary officers of the British Service, Special Reserve and Territorial Force Officers who have served in India or elsewhere, where Indian rates of pay are drawn during the war the gratuity will be based on the British rate of pay of the appointment or rank held on cessation of service and not on the Indian rate.

417-1916.

ROYAL WARRANT.

GEORGE, R. I.

WHEREAS WE deem it expedient to make provision by way of pensions or gratuities for the dependants (other than widows and legitimate children) of British soldiers whose deaths result from the present war.

OUR WILL AND PLEASURE is that such dependants as may have been in receipt of Separation Allowance, or were eligible for such allowances, or who would have been eligible if the existing Regulations had been in force from the commencement of the war, may be granted pensions or gratuities as stated hereunder :—

I. General Conditions.

1. A pension or gratuity for the dependant of a deceased soldier shall not be claimed as a right. It shall not be granted or continued when the applicant is proved to be unworthy, in the opinion of Our Army Council, of the award, or unless the soldier's services were in their judgment, such as to justify the grant.

No grant shall be made unless the circumstances of the soldier's death were such as would have qualified his widow for a pension, had he left one.

Our Army Council shall have power to vary or revoke any grant, and their decision in any case shall be final.

2. Any separation allowance and allotment paid to a dependant for any period in excess of the normal continuation of 26 weeks from the date of notification of the soldier's death shall be deemed to be part of the gratuity or weekly payment payable under Article 9 or 11 of this Our Warrant.

3. In cases in which a gratuity has been awarded no claim to a pension shall be admitted subsequently.

4. If the recipient of a pension, being a female, should marry, she may be awarded a gratuity not exceeding the amount of 26 weeks' pension; the payment of her pension shall be terminated and shall not be renewed on widowhood or continued to any other dependant of the soldier.

5. If the recipient of a pension should become an inmate of a workhouse or other institution supported or partly supported by rates or taxes the pension shall be suspended.

6. A pension may be reduced or discontinued at any time by reason of a change in the earning capacity or circumstances of the recipient, including the grant of an old age pension.

Rates of Pension and Gratuity.**II. Dependants, Class A.—Parents and others.**

7. A parent or parents who were wholly dependent on the deceased soldier may be granted (a) a pension not exceeding in any case (whether for one parent or two) the amount of ascertained dependence on the soldier prior to mobilization, or enlistment if later, or (b) the widow's pension appropriate to the soldier's rank according to the scale laid down in Our Warrant of the 21st May, 1915 (but without increase on account of age), whichever be less.

8. Any other dependant, Class A (including a parent or parents who were partly dependent), who is wholly or partly incapable of self-support and in

pecuniary need, may be granted a pension not exceeding 5s. a week or the amount of ascertained dependence on the soldier prior to mobilization or enlistment if later, whichever be less, so long as the incapacity continues. If it ceases, a terminal gratuity may be given, not exceeding the amount of 26 weeks' pension, or the balance of such gratuity as might have been issued under Article 9, if there had been no incapacity.

9. Other dependants, Class A, not entitled to pension under Article 7 or 8, may receive a grant by way of gratuity or weekly payment, not exceeding in all a year's pay of the deceased soldier, or a year's allowance at the rate to which separation allowance and allotment were last paid or payable, to be awarded at the discretion of Our Army Council.

III. Dependents, Class B.—Women who have been entirely dependent on a soldier for their maintenance and who would otherwise be destitute, and children of the soldier in their charge.

10. If there are no children of the deceased soldier and the woman is wholly or partly incapable of supporting herself from infirmity or age, she may be granted a pension of from 5s. to 10s. a week, according to circumstances, subject to periodical review as to the continuance of the infirmity. When the disability ceases a final gratuity may be given not exceeding the amount of 26 weeks of such pension or the balance of each gratuity as might have been issued under Article 11 if there had been no incapacity.

11. If there are no children of the deceased soldier under the age of 16 and the woman is not qualified for pension under Article 10, a grant may be made to her by way of gratuity or weekly payment, not exceeding in all the amount of a year's allowance at the rate at which Separation Allowance and allotment were last paid or payable.

12. If there are children of the deceased soldier in her care, a pension of 10s a week may be given together with pension for the children as laid down in Our Warrant of the 21st May, 1915. When the last child ceases to be eligible for pension, the woman, if in good health, may receive a final gratuity of 13/. But if she is then wholly or partly incapable of self-support from infirmity or age, and in pecuniary need, she may be granted, instead of the gratuity, a pension of from 5s. to 10s. a week, according to circumstances, so long as the incapacity continues, and on its cessation a final gratuity not exceeding the amount of 26 weeks of such pension.

13. In the event of the children being motherless or if the mother has forfeited her pension through misconduct and the children are removed from her control, a pension of 5s. a week may be granted to each child.

Given at Our Court at St. James's this 15th day of February, 1916, in the 6th year of Our Reign.

Conditions of service governing the admission of pensions to Military Upper Subordinates of the Military Works Services and the Public Works Department, and warrant and non-commissioned officers of Sappers and Miners granted R. E. commissions.

1450. The following conditions will govern the admission of pension to Military Upper Subordinates in the Military Works Services and Public Works

31413-1 (A. G. 7), 25-1-16.
84-1916.

Department, and warrant and non-commissioned officers of Sappers and Miners, granted commissions in the Royal Engineers:—

- (i) These officers will be eligible for the additional pension in respect of Indian service as provided for in para. 719, A. R. I., Vol. I.
- (ii) In calculating service for pension under para. 720, *ibid*, clause (a) will not apply. All warrant service and half service in the lower ranks [in accordance with Article 540 (11) (g) of the Royal Warrant for Pay], wherever such service has been spent, will be counted as service towards Indian pension.
- (iii) As in the case of officers of the Indian Army, there will be no compulsory retirement on account of age up to 55 years.

Allowances for the children of disabled soldiers.

955-1916.

1451. A Royal Warrant on the subject of allowances for the children of disabled soldiers, is published in Army Order 364 of 1916, to which attention is invited in I. A. O. 955 of 1916.

Indian officers and other ranks (including non-combatants), followers and families.

Pensions and gratuities to Indian ranks on account of disabilities caused by special conditions.

6003, 17-7-16.
10260, 4-10-16.
620-1916.
804-1916.

1452. Wound gratuities and pensions will be granted to Indian officers under the provisions of para. 748, *et seq*, and para. 1059, A. R. I., Vol. I, on account of disabilities which have been caused by, or are attributable to, certain methods of warfare, such as shock to the nervous system caused by the bursting of shells, the effects of the inhalation of poisonous gases, and tetanus directly attributable to wounds.

This order applies also to Indian rank and file and followers. It will have effect from the commencement of the War, and will apply to any rejected claims for gratuity or pension which are now considered to be admissible under these orders.

Grant of injury and family pensions to Indian soldiers on account of injuries or death caused by accidents received in the performance of military duty.

50088-1 (A.G.10), 24-8-16.
B. Sept. 16, 1902-03.

1453. (1) The following instructions are laid down as a guide to the correct interpretation of the rules governing the grant of injury and family pensions to Indian soldiers on account of injuries or death caused by accidents in the performance of military duty.

(2) There are two guiding principles which apply in all such cases, *viz.*:—

- (a) Death or injury must occur in the performance of military duty.
- (b) The man must incur a risk to which he would not have been liable under the ordinary conditions of civil life.

Provided that these two conditions are fulfilled, there should be no hesitation on the part of Controllers of Military Accounts in admitting pensions of this nature. In order to establish a claim for the grant of an injury or family pension it is not sufficient to show that, if the officer had not been on duty or going to or from duty, he would not have suffered the particular injury for which compensation may be claimed. If it is of a kind which, like the falling of a tree or the upsetting of a vehicle, is an accident that might well happen under ordinary conditions of civil life, or if it is an injury the risk of which is not materially increased by the fact of the man being on duty at the time, a gratuity or pension should not be given. A further example would be the case of a regimental bhisti who, when drawing water for the men, falls into the well and is drowned. In this case the first condition at (a) is fulfilled, while the question whether the second condition is fulfilled would depend on the circumstances of the case. If the man fell in from sheer carelessness then the second

condition would not be fulfilled, since he might have been liable to a similar mishap in civil life and there would be, in addition, the element of personal carelessness. Circumstances, however, can be conceived when the act of drawing water was attended with unusual risk, *e.g.*, the bhisti might have been called upon, while in camp, to draw water at a strange well in the dark, and the parapet might have been weak and given way. In these circumstances, the second condition would be fulfilled and a pension would be admissible. A case recently occurred where a sepoy was cooking his food in the company cook house. A round of blank ammunition which had been buried by some person unknown under the "chula" exploded through the heat of the fire and the man lost the sight of an eye. In this case pension was not admitted as neither condition was correctly fulfilled.

(3) The following further instances (which have actually occurred) serve to illustrate cases where pensions should be admitted :—

- (i) A sepoy was shot dead by two other sepoys who had run amok, as he was "falling in" in response to the sounding of the alarm.
- (ii) A store lascar was accidentally killed by the bursting of a shell at a practice camp.
- (iii) An Indian officer died from the effects of a bullet wound caused by a sepoy who was attempting to commit suicide. The Indian officer was falling in the regiment at the time.
- (iv) Two sowars were killed on a field day by colliding with each other.
- (v) A sepoy died from heat apoplexy while supervising repairs to butts.

These instructions and examples will probably remove the difficulties experienced in deciding the class of accidents on account of which pension is admissible.

"Frost-bite" to be regarded as an injury for purposes of injury pensions to Indian officers and men of the Indian Army.

1454. For the purpose of the rules regarding the grant of injury pensions to Indian officers, non-commissioned officers and men of the Indian Army, frost-bite is regarded as an "injury." This decision has retrospective effect from the commencement of the War.

[NOTE.—See A. I. I. 364 of 1918]

Wound and injury pensions to combatants of the Indian Army invalided for disabilities aggravated by field service.

1455. Combatant ranks of the Indian Army invalided from the service on account of disabilities which, though not contracted on, nor attributable to, field or foreign service, have been aggravated thereby, will be dealt with in the matter of pensions as follows :—

- (i) With effect from the 1st March 1916, injury pensions as detailed in (ii) below will be granted to Indian combatant ranks who are pronounced by medical boards to be unfit for further service owing to illness or incapacity which, though not contracted on or solely attributable to field service, has been so aggravated by the exigencies of such service as to necessitate invaliding from the army.

Pension will not ordinarily be granted unless a man has spent at least three months on field service. If he has served less than this period, the sanction of the Government of India will be necessary, which will not be accorded unless it can be clearly proved that the disability would not have been incurred under ordinary peace conditions to such an extent as to necessitate invaliding from the service.

Pending a decision in cases of this nature, ordinary pensions or gratuities will be issued to those entitled to them. A man with less than five years' service will receive provisionally a gratuity of three months' pay, subject to adjustment in the event of a pension being subsequently granted. If a pension is not granted, no recovery of the gratuity already given will be made.

10741, 29-9-10.
827-1916.

1825, 7-2-17.
797-1917.

- (ii) The rates of pension for disabilities which have been classed as of the 3rd or 2nd degree will be Re. 1 less than the injury rates of pension for those degrees laid down in para. 1061, A. R. I., Vol. I; and the rates for disabilities of the 1st degree will be a uniform addition of Rs. 3 to the rate now sanctioned for the 2nd degree.
- (iii) All pensions sanctioned under the foregoing conditions will be provisional in the first instance. If the disability still exists at the end of three years the pension will be made permanent.

[NOTE.—See also A. I. I., 173 of 1918.]

Wound, injury and family pensions to non-combatant employes who serve with Expeditionary Forces overseas.

530, 20-22-17.
A. Feb. 18, 1896-99.

1456. The following are the rules governing the grant of wound, injury and family pensions to those non-combatant employes who have been, or may hereafter be, engaged for service with the Expeditionary Forces overseas, who are not enrolled or attested, and for whom the existing regulations do not already provide:—

(1) The rates of wound and injury pensions of non-combatant departmental and regimental employes and followers of the supplemental services (i.e., supply and transport, medical, ordnance, veterinary, remount, etc., not being commissioned officers) are laid down in para. 1062, A. R. I., Vol. I. The chief feature of this rule is that the individuals concerned are divided into two main classes:—

*Vide F. D. 206-P., 18-3-16.
See para. 1406.

- (a) Those drawing pay (exclusive* of field allowance) of Rs. 200 per mensem and upwards, who are dealt with in accordance with the Civil Service Regulations, Article 730, *et seq.*
- (b) Those drawing pay (exclusive of field allowance) below Rs. 200 per mensem, who are dealt with in accordance with the several Indian military ranks.

The individuals referred to in (b) are further divided into (1) permanent servants of Government and others who belong to classes ordinarily on the Indian establishment, and (2) special classes not ordinarily on the Indian establishment engaged for, or during, a war or for special service, such as men in coolie corps, boatmen, watchmen, guides, etc. In the case of those mentioned in (1) who receive a specially high local rate of pay in peace or who have been given extra pay to secure their services, the wound and injury pensions are determined by the rate of pay admissible to employes of a corresponding class when serving in peace in the Punjab. In the case of those mentioned in (2), as well as private followers of the servant class authorised to be taken on service, the rate admissible is half that laid down under para. 1061 (c), A. R. I., Vol. I, for a sepoy, with a minimum of Rs. 3 per mensem.

28773-1 (A. G. 10), 20-9-15.

(2) The rates of family pension of non-combatant departmental and regimental employes, etc., classified as above 3 are laid down in paras. 1073-1075, A. R. I., Vol. I, which apply as follows:—

para. 1073—to all followers of the ordinary classes such as bhisties, cooks, sweepers, etc., enumerated in Appx. XXVIII, A. R. I., Vol. II, and to all followers who are engaged on ordinary rates of pay;

para. 1074—to all followers belonging to classes not as a rule represented in the Army in peace time, who are engaged on specially high rates of pay for the performance of particular duties, such as coolies, guides, boatman, watchmen, etc.

H.-3817, 23-3-15.
H.-6913, 10-7-15.
12472, 1-11-16.

(3) The case of crews of Royal Indian Marine vessels exposed to War risks, and warrant officers of the Royal Indian Marine, is covered by the orders issued in the letters noted opposite.

(4) Other classes of individuals specially engaged for service during the War who are not enrolled or attested, but who do not correspond to classes already represented in the army [see clause (1) *ante*] and cannot, therefore, be dealt with under the existing regulations and orders as indicated above, will be granted wound, injury and family pensions at the rates prescribed in Article 730 (iii); Civil Service Regulations, subject to the usual conditions being fulfilled in each case. The schedule below shows the rates for individuals drawing pay of less than Rs. 200 as determined by A. R. I., Vol. I, paras. 1052 and 1073. The classification in Marine Department letter No. H.-6913, dated the 10th July 1915, will apply in the case of similar ratings employed in services other than the Royal Indian Marine. In the case of all these individuals a wound or injury pension will not be admissible for an injury of the 3rd degree, i.e., a wound or injury rendering the recipient unfit for the service, but not preventing him from contributing materially towards his livelihood (see para. 1058, A. R. I., Vol. I).

Rules for the grant of compassionate allowances to widows of Indian officers and soldiers.

1457. The grant of compassionate allowances to widows of Indian officers and soldiers of the Indian Army will be regulated by the following general rules:—

28052-1 (A. G. 10), 30-10-15,
A. June 10, 1964-71.

- (i) The widow must be proved beyond doubt to be in straitened circumstances having regard to her late husband's rank. Absolute destitution will not be a necessary condition for the widow of any person above the rank of a private soldier.

- (ii) The deceased husband must have performed really good service. Gallant action on the part of the man's regiment will be held to constitute good ground for such a conclusion, as every man in a regiment or company cannot hope to be named, although he may have undoubtedly performed excellent service. Other considerations to be taken into account in establishing really good service generally will be (a) the rank subsequently attained, (b) the character and conduct of the deceased, and (c) the length of his service.
- (iii) The date of marriage will be an important consideration, and widows who married after their husbands had retired from the service will not ordinarily be eligible for these allowances.

1458. All applications for compassionate allowances will be most carefully and strictly scrutinised with reference to the above conditions, and cases in which those conditions are held to be fulfilled will be submitted to the Adjutant General in India, who has been empowered to sanction the grant of such allowances under the foregoing rules. No application will be forwarded unless the General Officer Commanding concerned is personally satisfied that the case is a very deserving one and complies, both in the spirit and in the letter, with the conditions indicated above.

1459. A compassionate allowance granted under these rules will in no instance exceed Rs. 10 per mensem; and the total of such allowances that may be awarded in any one year will be restricted to a maximum sum of Rs. 1,500, with effect from the 1st April 1915. In cases in which the deceased Indian officer or soldier may have rendered service under the Imperial Government, the Government of India have decided to waive recovery from the War Office of the British service share of a compassionate allowance that may be granted to the widow.

may be in receipt of, in addition to the pay of the appointment in which they are re-employed, with effect from the date of such re-employment.

*See para 389.

In the case of Indian ranks already re-employed under the terms of A. Family pensions are admissible under the provisions of para. 1073, A. R. I., Vol. I, to the heirs of those pensioners who may die in circumstances connected with their re-employment, as provided for in para. 1070, *ibid.* The family pensions will be regulated by the rank held by the individual in accordance with paras. 1056 and 1072, *ibid.*

British and Indian prisoners in enemy hands.

Issue of pay and family remittances of prisoners of war.

1486. The following are the rules for dealing with persons subject to the Indian Army Act who are prisoners of war with the enemy or are reported missing.

- (a) *Prisoners of War*.—With reference to para. 947, A. R. I., Vol. I, authority has been given for the remission of the forfeiture of pay

and allowances, and the continuation of family remittances, of persons subject to the Indian Army Act (Act VIII of 1911), who may be taken prisoners of war, unless and until it shall be proved before the court of inquiry referred to in Section 136, Field Service Regulations, Part II, that such persons were taken prisoners through neglect or misconduct on their own part. The decision on the report of the court of inquiry will be communicated without delay to the Divisional Disbursing Officer at the base of operations and the Officer Commanding the Depot.

- (b) *Persons subject to the Indian Army Act reported missing.*—Pay and family remittances will be dealt with as for prisoners of war until the opinion of the court of inquiry is received by the Divisional Disbursing Officer at the base and the Officer Commanding the Depot respectively, who will be guided by the opinion of the court as to the circumstances of the casualty.

Family remittances made to the family or to a relative of a person subject to the Indian Army Act found by the court of inquiry to be dead will not be recoverable, but any pension granted to his widow or children will commence from a date subsequent to that to which the family remittances have been made.

The procedure laid down in Section 136, Field Service Regulations, Part II, for soldiers who are prisoners of war or missing, will be carried out by all concerned with the utmost promptitude after the receipt of the opinion of the court.

1487. In modification of the instructions contained in I. A. O. 671 of 1914, the following regulations will govern the issue of pay and payment of family allotments and pensions of persons subject to the Indian Army Act who may be reported missing.

It should be understood that the person's estate will not be legally wound up until he has been declared officially to be dead or until one year has elapsed from the date on which intimation was received at the depot that the man was missing.

(1) The pay of a person subject to the Indian Army Act, who is reported missing while on field service with any of the Expeditionary Forces during the present War, should be credited in his pay account for a period of two months only from the date on which intimation is received at the unit or depot in India that the man is missing. In the case of a man who was making a family allotment, the man's family will, however, continue to be paid, up to a period not exceeding seven months [but see last clause of paragraph (5)], the rate of family allotment which the man was making at the time when he was reported missing. These payments will be made even though pay has ceased to be credited to the man's account, the amount being drawn monthly and remitted by the Officer Commanding the depot or unit in India.

(2) If the news of the man's death is received before the expiry of the two months, his pay should be credited only up to the date of his death.

(3) If there is definite evidence that a missing man was alive on a date subsequent to the expiry of the two months, his pay should be credited up to and including that date.

(4) If a man reported missing afterwards rejoins, or is found to be a prisoner of war or interned in a neutral country not by his own fault, the arrears of pay will be credited to his account.

(5) Death will be presumed after a period of six months from the date on which intimation was received by the unit or at the depot in India that the man was missing, and steps will be taken for the admission of family pension. This pension will in all cases be granted at the higher (killed in action) rate unless any evidence is forthcoming to the contrary. Unless family pension has been previously admitted, the allotment will be continued up to a period of seven months.

B, War 1914-16—
12229-33,
428-1916.

* See para. 1498.

(6) As the family allotment may be more or less than the family pension admissible, the latter should be granted from the original date of the casualty, any allotment paid in excess being waived, and any deficiency between the allotment and the family pension being paid to the heir; in cases where the allottee and the heir to family pension are different persons, the recovery of any family allotment paid for period beyond the date of casualty will be waived, and pension will be paid to the heir from the day following that of the casualty.

(7) This order will apply retrospectively to the cases of soldiers already reported missing during the present War.

[NOTE.—As regards civilian subordinates see A. I. I. 82 of 1918].

Continuance of payment of family allotments of missing men.

1488. The authorities in the field will declare whether men reported missing from their units on service should be regarded as "deserters," "missing," or "dead." Pending a definite report, the men will be treated as "missing" and the payment of their family allotments continued under the provisions of I. A. O. 428 of 1915,* or any orders that may be subsequently issued on this subject.

Pay and allowances of British officers and soldiers who are prisoners of war or missing.

1489. Officers of the Indian Expeditionary Forces (both of the British and Indian Services), who are prisoners of war with the enemy or are reported missing, receive their full pay and allowances for the first sixty-one days, and thereafter as follows:—

(i) *British Service.*

- (a) General and Staff Officers drawing leave pay under para. 226, A. R. I., Vol. II.—Half pay of their Indian appointments subject to a maximum of £1,000 and a minimum of £250 a year up to a limit of eight months' absence in all from their appointments. Thereafter, British half pay or pay of rank and field allowance.
- (b) Regimental officers.—British pay of rank (or half pay) *plus* field lodging, fuel and light allowance.

(ii) *Indian Service.*

- (a) Divisional and Brigade Commanders.—Half pay of their appointments subject to a maximum of £1,000 and a minimum of £250 a year up to a limit of eight months; thereafter, unemployed pay.
- (b) Other officers.—At their option, either Indian Army leave pay, British pay of rank (or half pay) *plus* field, lodging, fuel and light allowances; but see para. 1493.

The cessation of pay of missing officers will be governed by Army Order No. IV, dated the 14th February 1915, with the modification that in case (b) of the A. O. the period will be taken as 61 days instead of two months. With reference to paragraph 3 of that order, enquiries from those in India should be addressed to the Controller of Military Accounts concerned, and from those outside India to the Military Secretary, India Office.

As regards British soldiers who are prisoners of war with the enemy or are reported missing, the provisions of the Army Orders quoted in the margin will apply to them.

Army Order No. XIII, dated the 11th September 1914, as amended by the following Army Orders:—

No. II (paragraph 4), dated the 4th October 1914.

No. V, dated the 15th February 1915.

War Office letter No. 0103—1183 (F. 2), dated the 29th November 1915, on the subject of the present arrangements regarding the pay of British officers and men who are prisoners of war in enemy hands, and a memorandum No. M. 18459-15 regarding certain points in connection with payments to families of missing officers, are published with A. Pay of regimental officers of the Indian Army who are prisoners of war.

1493. In lieu of the rates of pay mentioned in I. A. O. 241 of 1915 and in subsequent orders, regimental officers of the Indian Army who are prisoners of war will receive their full pay and allowances for the first 61 days, and thereafter Indian Army pay of rank *plus* half regimental, or departmental staff pay.

* See para 1489.

Continuance of engineer and armament pay to officer prisoners.

1494. With reference to I. A. O. 241 of 1915, † engineer and armament pay will continue to be credited to officers who are prisoners of war, or who are interned or reported missing, during the whole period for which regimental pay is issuable, irrespective of whether this period exceeds the 61 or 91 days for which the continuance of such pay is normally admissible for officers when not employed on the duties of their corps. Engineer and armament pay will be credited at British rates in cases where the officers concerned are in receipt of British pay of rank, and at Indian rates so long as an officer is in receipt of Indian pay of rank.

H. 7033, 14-8-15.
480-1915.

† See para 1489.

After 61 days, flying pay at Rs. 6 per diem will be drawn by British and Indian Service officers of the Flying Corps in addition to the pay admissible under the provisions of the I. A. O. referred to in the previous paragraph.

Command pay and the staff pay of regimental staff, and any additional pay granted for the performance of specific duties, will cease to be issuable to officers from the date on which they become prisoners of war, or are interned or reported missing.

Staff pay of an officer acting in the place of a staff or administrative officer taken prisoner or reported missing.

1496. An acting incumbent on field service, *vice* a staff or administrative officer, who is a prisoner of war with the enemy or is reported missing, and who holds a permanent appointment on the staff of a division or brigade sent on field service as a complete unit from the peace organization, will commence to draw the full staff pay of the acting appointment after the expiration of sixty-one days, notwithstanding that the half staff pay of the appointment is held to be included in the absentee's leave pay. This decision also applies in the case of an officer permanently holding any of the marginally noted appointments in an Indian unit on field service.

Quartermaster.

In cases where an appointment may have been held by more than one acting incumbent within the period of sixty-one days, the full staff will be held to have become available sixty-one days from the date on which the original permanent incumbent was made a prisoner of war or was reported missing.

1497. In the case of a specially created or temporary staff or administrative appointment in an Army Corps, Division, Brigade, etc., that has been formed for service—i.e., an appointment outside the ordinary units of the peace organization sent on active service—an officer will vacate it absolutely on the expiration of sixty-one days from the date of being made a prisoner of war or being reported missing, and the full staff pay will then become available for the officer who succeeds to the appointment. The emoluments of officers thus displaced after sixty-one days from these specially created or temporary field appointments, and of the acting incumbents in India, will then be dealt with under the ordinary regulations on the subject.

1498. In all the cases referred to above, half staff pay will be admissible under ordinary rules for the first sixty-one days, notwithstanding the fact that the officer who is a prisoner of war or who is reported missing, receives full staff pay during this period.

1499. These orders also apply to officers officiating for those released on parole and returned to India, except in the case of officers who have been re-employed by the Government of India in appointments the work connected with which is not inconsistent with the terms of their parole. An officer officiating for the latter will receive full staff pay if the parole officer is holding an appointment the incumbent of which would ordinarily be seconded. In any other case, the officiating officer will receive half staff pay.

1500. The foregoing orders have effect from the 1st April 1916.

Rules for credit of pay to missing soldiers, who are subsequently reported dead, or whose death is presumed.

1501. With reference to Army Order 122 of 1915 and I. A. O. 241 of 1915* regarding the credit of pay to missing soldiers who are subsequently reported as dead or whose death is subsequently presumed, the following instructions are given on points on which doubt has in some instances been found to exist:—

- (1) The general rule is that pay should be credited to the actual date of death where this is definitely ascertained, but that where this date is not known pay can only be credited to a date four weeks after that on which the next-of-kin was notified that the soldier was missing. The guiding principle is that a man is entitled to pay while he is alive and no longer; where a man is missing he is for purposes, assumed to be dead if he is not heard of for four pay weeks after the date on which notification of his being missing was sent to his relatives. If actual evidence is forthcoming that he died on a certain date, either earlier or later than the date of expiration of the four weeks, pay is admissible to the date on which he is shown to have died. If any pay has already been credited to his account beyond that date under the four weeks' rule, it will be recredited to the public. Mere *presumption* that death took place on a certain date is not definite evidence for this purpose. If this guiding principle is borne in mind there should be no difficulty in dealing with cases. The following paragraphs are merely deductions from this guiding principle and illustrative.
- (2) If there is *definite evidence* that the man was alive after the four weeks (although date of death is unknown) pay may be credited up to the date when the soldier was last known to be alive.
- (3) If death is reported as having occurred on a definite date, pay can only be credited up to that date whether the report is made during the currency of the four weeks or subsequently. This rule holds good whether the date of death is before, during or after the

300-1916,

* See para, 1499.

- period of four weeks, and any adjustment of credits already made should be effected when making up the man's final account.
- (4) If death is reported during the currency of the four weeks but no definite date is given, pay should only be credited up to the date of the casualty report.
 - (5) When death of a missing soldier is presumed for official purposes, pay may be credited for the four weeks after the next-of-kin was informed that the soldier was missing, but for no longer period, unless of course he was known to be alive at a later date.
 - (6) If the soldier reported missing is subsequently reported a prisoner of war his pay is credited as directed in such cases (*vide* paragraph 4 of Army Order 122 of 1915), and, if he is subsequently reported dead, pay is credited up to date of death.
 - (7) The rules as to the issue of *allotments* of pay in the case of missing soldiers are stated in the Separation Allowance Regulations and these rules are not affected in any way by the foregoing instructions.

Lodging fuel, light and field allowances for officer prisoners.

1502. Officers who are prisoners of war with the enemy and who are being credited with British pay of rank (or half-pay) after the first 61 days, are entitled to lodging, fuel and light, and field allowances. Officers who are reported missing will not be credited with field allowance, but it will be issuable for the period of absence on their rejoining.

431-1916.

Income tax and exchange compensation allowance in case of officers who are prisoners of war.

1503. Income tax (British or Indian) is not recoverable on the pay and half regimental staff pay admissible under I. A. O. 606 of 1916* after the first 61 days to officers of the Indian Army who are prisoners of war with the enemy.

1504. A medical officer of the British or Indian service who, during the period of his captivity, was fully occupied on duties in connection with the care of British or Indian sick and wounded, shall be granted the full Indian pay of his substantive appointment. He will retain a right for the first 61 days to the pay that he was receiving when captured, if he was then holding a higher officiating appointment. The full pay of his substantive appointment will be admissible to an officer who has been released or exchanged if he furnishes a certificate to the effect that during the period of his captivity he was fully occupied on duties in connection with the care of British or Indian sick or wounded.

1493, 1-2-17.
1123-1917.

In the case of an officer still a prisoner of war with the enemy, no steps will be taken, until he is eventually released, to determine whether he is entitled to full pay on the ground that his services are being used during captivity, and pay will be issued provisionally in accordance with existing orders on the subject, officers of the Indian Medical Service being paid in accordance with I. A. O. 606 of 1916.‡

Remittances for British prisoners of war in Turkey and Bulgaria.

461-1916.
300-1917.

1516. In view of the difficulty experienced in sending remittances to British prisoners of war in Turkey and Bulgaria, the Prisoners of War Department, Downing Street, is prepared to arrange for payments to British prisoners of war in those countries through Diplomatic Representatives.

Requests for such remittances should be addressed to the Secretary, Prisoners of War Department, Downing Street, and should be accompanied by full particulars, full name, rank, regiment, number (and address, when known)

of the prisoner of war to whom the payment is to be made, as well as by a cheque for the amount in favour of the Chief Clerk, Foreign Office.

A single request may be made for a series of periodical payments, in which case a cheque should be sent for the total amount of the series.

Periodical payments can also be arranged at the request of a bank, or firm of army agents subject to their undertaking to make regular repayment to the Chief Clerk, Foreign Office, and to give one month's notice of discontinuance.

It is suggested that in such cases it would be to the convenience of all concerned that bankers or army agents should send to the Prisoners of War Department, Downing Street, at the beginning of each month or quarter, a cheque for the total of all the payments requested by them for such period, whether to one or more prisoners of war, together with a schedule of the payments to be made, showing the date of their letter by which each payment or series of payments was requested.

It would be convenient that requests for payments to more than one prisoner should take the form of a letter enclosing a list, in triplicate, of the payments to be made.

The receipts given for remittances by the payees are retained by the Diplomatic Representatives concerned for the purposes of their accounts, but endeavour will be made to obtain, and furnish to those remitting, statements that payment in accordance with their wishes has been effected.

Procedure for adjusting the accounts of officer prisoners of war.

1517. A record of the payments made to prisoners of war by enemy Governments, should be kept, and only the actual amounts paid by such Governments, should be deducted from the prisoners' pay in finally adjusting their accounts. Recovery should, however, continue to be effected at the rates prescribed in A. D. letter No. H-4814, dated the 7th June 1916,* and re-adjustment should be effected on the release of an officer. The claims for re-adjustment should be admitted on the officers' statements and, in the case of deceased officers, by such contemporary evidence as may be available.

They will be given the same pay as is given to officers of corresponding rank in the medical service of the British Army provided they continue to carry on their duties as medical officers when and so long as they may be required to do so. They may be detained for service with the sick and wounded and be sent to any place where their services are required.
- (2) Other medical officers and practitioners of enemy nationality who are interned will be treated as prisoners of war and will not be entitled to any pay except in the circumstances referred to below. They will not be required to exercise their profession for the benefit of their fellow prisoners.

An officer reported missing is not eligible for promotion with effect from a date later than that on which he was missing.

(para. 33), 4-6-15.
B. July 15, 439.

1525. An officer reported missing is not eligible for promotion in a vacancy on the establishment which occurs after the date on which he became missing, nor is he eligible for a step in rank by reason of length of service, where such service is completed after the date on which he was missing. In the event of the officer returning to duty, or being found to be a prisoner of war, this decision would be inapplicable.

In the case of a vacancy occurring for a commanding officer, a major (second-in-command) or a captain commanding a squadron, company or other equivalent body—in the Indian Army for a commandant, second-in-command, squadron or company commander or commander of an equivalent body—acting promotion, with corresponding increase of pay, will be made after the vacancy has existed for fifteen days, provided that the vacancy is due to one or other of the following causes :—

- (a) An officer being withdrawn from India for service elsewhere.
- (b) An officer being invalided out of India.
- (c) An officer being extra-regimentally employed in India, provided that he is doing the duty of a definite extra-regimental appointment.
- (d) An officer being absent on sick leave in India, provided that he has been certified by a medical board as unfit for any duty for a period of not less than sixty days.
- (e) The death of an officer whose substantive successor is not available at the time.

Recommendations for the grant, and reports of the relinquishment, of acting rank will be forwarded to the Military Secretary to H. E. the Commander-in-Chief without delay, stating the cause and date of the vacancy or relinquishment.

Rules for permanent promotion of officers in Territorial Infantry.

312-1917.

1530. The rules on the subject of the permanent promotion of officers in Territorial infantry are contained in A. C. I. No. 2336 of 1916, which is reproduced below :—

A. C. I. 2336 of 1916.

Subsequent to mobilization, the units of the Territorial Force, a part of the Standing Army, were expanded by the formation of 2nd, 3rd, and in some cases a fourth line for the period of the War.

There were practically no officers in the T. F. Reserve, the New Army was being formed at the time, and the consequence was that not only was promotion very rapid in the newly formed units, but it was frequently necessary to commission officers to higher rank than that of 2nd-lieutenant. At least 75 per cent. of the original Territorial officers immediately volunteered for service overseas, and it was necessary to safeguard the interests of those who remained with their 1st line units; the officer cadre therefore of the Territorial Force was expanded by the system of temporary promotion laid down in W. O. letter No. 9/Gen. No./4650 (T. F. 3), dated 15th February, 1915, as amended by that of 15th August, 1915, in order that when a 1st line officer was posted to the 2nd line or 3rd line of his unit he should not suffer loss of seniority by having volunteered for service abroad, but should take his proper precedence in whatever line he was posted to according to the date on which he was originally appointed to the regiment, battery, battalion, etc.

This system of expansion by temporary promotion was the only possible solution at the time, but it was recognised to be cumbersome and most difficult to carry out under active service conditions.

As the original officers of the Territorial Force have now been distributed over the various lines, it has become possible to establish a system of permanent promotion without loss of efficiency and with a minimum of hardship to the individual. A certain amount of cross posting will be necessary when permanent promotion takes place. It will be impossible to carry out the permanent promotion in all units simultaneously. Temporary promotions under W. O. letter 9/Gen. No./4650 already gazetted will therefore obtain in units until such time as the permanent promotion and relinquishment of temporary rank appear in the London Gazette; the permanent promotions will all bear the date of 1st June, 1916, but pay and allowances will only take effect from the date of appearance in the London Gazette.

The following regulations will be observed in permanent promotion in the Territorial Force :—

(1.) Substantive promotions to complete the 1st and 2nd lines will be made.

(2.) No officer will be promoted to substantive rank who has not been recommended for promotion through the usual channel, unless he holds temporary rank, in which case he will be promoted to permanent rank without further recommendation.

(3.) Promotion will be by seniority, unless the officer due for promotion is considered unfit for promotion to the next higher rank, in which case full

reasons for supersession must be given and the adverse report must be communicated to and be initialled by the officer concerned. If this is not possible, a copy of the report will be sent to the officer and a certificate that this has been done will be attached to the correspondence.

(4.) Officers permanently unfit for general service, medically or on account of age, and all officers dealt with in paras. (5) and (6), cannot be considered for permanent promotion unless there exists a vacancy within the establishment of the unit in which the officer concerned is actually serving and he is recommended to fill that vacancy.

(5.) Officer serving on and within the establishment of the permanent cadre of Reserve Units will be held supernumerary to establishment of their 1st and 2nd line units.

(6.) Officers serving with Provincial Battalions, Garrison Battalions, Labour Battalions, or Works Companies, will be seconded from their units.

(7.) Seconded officers will be promoted in their turn if recommended and will remain seconded if below the rank of major. Other extra regimentally employed officers who are filling vacancies in a recognised establishment will be held supernumerary to establishment of the 1st and 2nd lines.

(8.) Temporary promotion as distinguished from acting rank will be given for purposes of command when necessary.

(9.) Regular officers on being employed with a Territorial Force unit may be given higher temporary rank within the establishment, and are eligible for temporary promotion within the unit.

(10.) Officers appointed to units of the Territorial Force from the Territorial Force Reserve or Retired List will be absorbed into their unit as from the date of their present rank in the Territorial Force and will be eligible for promotion according to their seniority.

(11.) Officers who have not previously held commissions and have been appointed to direct commissions above that of 2nd-lieut. will be absorbed into their unit as permanent officers from 1st June, 1916, but all officers who joined the unit at a prior date and in a lower rank to the officers above-mentioned will supersede them on promotion.

(12.) Permanent promotion will come into effect as from 1st February, 1917.

Promotion of temporary 2nd-lieutenants to temporary lieutenants in the Army Service Corps.

1531. Recommendations for promotion of temporary 2nd-lieutenants to temporary lieutenants in the Army Service Corps, other than for very exceptional reasons which should be specifically stated, should not be forwarded to the War Office. As vacancies occur in the temporary rank of lieutenant, reports will be called for on the senior 2nd-lieutenants, and their advancement will be considered on the general establishment of the Army Service Corps.

1535. Promotions in units of the Territorial Force serving in India, or sent on field service from India, are governed by the following rules :—

- (i) *Units serving in India.*—In accordance with War Office letter No. 9 Gen. No. 4274 (A. G.-1.), dated the 1st February 1915, all appointments shall be acting and within the unit (unit as defined on page 9, Territorial Force Regulations). Vacancies in the Class II warrant and non-commissioned ranks, occasioned by casualties, will be filled at once though the casualty may involve temporary absence only. Class II warrant and non-commissioned officers thus appointed will receive the emoluments attaching to the rank in which they are appointed to act during the period for which they perform the duties. (Detachments sent on field service will be considered as supernumerary to establishment whilst away, and acting promotions will be made in the unit in India in place of Class II warrant officers and non-commissioned officers detached). These orders have effect from the date of the War Office letter quoted above.
- (ii) *Units which have proceeded on field service from India.*—In accordance with the conditions given in the enclosure to War Office letter No. 9 Gen. No. 4274 (A. G.-1.), dated the 24th April 1915, vacancies in the ranks of warrant officers, Class II, and non-commissioned officers, will be filled by promotions to substantive rank when the vacancy is due to the warrant or non-commissioned officer having—
 - (a) died ;
 - (b) been discharged from the service ;
 - (c) been made a prisoner of war and reported officially as such ;
 - (d) been declared missing and reported officially as such ;
 - (e) been sent home or to India wounded or sick, and being likely to be away from duty for not less than a month ;
 - (f) been sent home or to India as inefficient in the field.

These orders have effect from the date of the War Office letter quoted above ; previous to that date the orders in (i) above will apply.

* See para. 1537.

1536. Men of drafts sent from units of the Territorial Force serving in India to reinforce units in the field are regarded for the purposes of promotion as belonging to the unit with which they are serving and their promotions therefore will be governed by the orders which apply to such units. (See I. A. O. 699 of 1915*.)

1539. If, in any case prior to the promulgation of I. A. O. 224 of 1916 (since cancelled) a vacancy in categories (e) and (f) was filled by substantive promotion under the authority of I. A. O. 699 of 1915, (see para. 1537) the promotion will be allowed to stand; but the rules in the above Order must be observed in future in filling vacancies in the rank of warrant officer, class I.

Unembodied service in the Territorial Force to count towards promotion, but not increase of pay, dependent on length of service.

400-1916.

1543. Service in the Territorial Force before mobilization, which need not have been continuous, counts for promotion when promotion is dependent upon length of service, and in such cases the promotion carries with it the pay of the higher rank. On the other hand, unembodied service in the Territorial Force will not be reckoned towards an increase of pay in a particular rank when such increase depends upon length of service.

For example, under para. 555, A. R. I. Vol. I, unembodied service in the Territorial Force counts towards the periods which qualify for the promotion of an orderly room sergeant to the ranks of colour sergeant and quartermaster sergeant, but *not* towards the increase in the pay of the quartermaster sergeant after 3 years' service in the rank.

Re-enlisted warrant officers and non-commissioned officers to be given substantive rank corresponding to the rank held on discharge.

7-1917.

1544. The following Army Council Instruction on this subject is applicable to India :—

A. C. I. 2028 of 1916.

"Ex-warrant officers and non-commissioned officers, who re-enlisted for the duration of the War previous to the passing of the Military Service Acts and who were promoted forthwith to acting rank corresponding to the rank they held on discharge, will be given substantive rank corresponding to the rank they held on discharge, provided they are still serving in that or in a higher rank.

Non-commissioned officers who re-enlisted under Army Order 384 of 1914, and were only promoted acting corporal, will be given that substantive rank, provided they are still serving in that or in a higher rank."

483-1917.

1545. A. C. I. 337 of 1917 on this subject, is reproduced below :—

(1) A non-commissioned officer holding a paid lance appointment as lance-serjeant, lance-corporal or paid acting bombardier will retain his lance appointment and seniority for promotion when transferred under the following circumstances :—

- (a) In an Expeditionary Force.
- (b) Abroad, but not in an Expeditionary Force.
- (c) At home.

To a Unit serving—

He will, however, if supernumerary to the establishment of paid lance appointments in the unit which he joins, revert to the pay of his rank and will cease to draw lance pay in accordance with Article 974, Pay Warrant.

He should be absorbed again in his new unit into the establishment of paid lance appointments at the first opportunity.

(2) A non-commissioned officer holding a paid lance appointment as lance-serjeant, lance-corporal or paid acting bombardier will retain his lance rank

and pay notwithstanding the provisions of Article 974, Pay Warrant, when transferred under the following circumstances :—

From a Unit serving—

- (a) In an Expeditionary Force.
- (b) Abroad, but not in an Expeditionary Force.
- (c) At home.

To a Unit Serving—

In an Expeditionary Force.

He should be absorbed into the first vacancy for the lance appointment which he holds.

(3) An *acting* paid lance appointment will be relinquished as soon as the vacancy is permanently filled or the holder ceases to perform the specific duties for which the *acting* appointment was given, and will not be retained after the holder leaves his unit.

(4.) Unpaid lance appointments made under the conditions of paragraph 204. King's Regulations, will, under no circumstances be retained on transfer from one unit to another. The appointment will be given up as soon as the holder ceases to perform the specific duties for which the appointment was given.

1548. Army Council Instructions No. 1071 of 1917 is reproduced below :—

(1) The question having arisen as to the rank and emoluments of a warrant officer, Class II, who may be promoted to a higher rank or appointment which does not, under A. O. 70 of 1915, qualify for the rank of warrant officer, Class II, the following decision is notified for the information of all concerned.

1316-1917.

(2) A soldier who is already holding the rank of warrant officer, Class II, under the conditions of A. O. 70 of 1915, on promotion to a higher rank or higher appointment which under that A. O. does not qualify for the rank of warrant officer, Class II, *e.g.*, a company serjeant major of Royal Engineers promoted to the rank of quartermaster serjeant, Royal Engineers, or appointed quartermaster serjeant instructor, will retain his warrant and the financial advantages of his warrant rank as promulgated in A. O. 168 of 1915.

(3) This concession will not apply to warrant officers, Class II, who may be posted to equivalent appointments to those which they already hold, *e.g.*, a battery or company serjeant major will not be appointed battery or company serjeant major instructor, nor will a company serjeant major of infantry be appointed company quartermaster serjeant, unless he first signifies his willingness to relinquish his rank of warrant officer, Class II. Similarly a company serjeant major or regimental quartermaster serjeant (warrant officer, Class II) if he is to be appointed orderly room serjeant, will first be required to relinquish his rank of warrant officer, Class II.

14-6-15.
B. July 15, 2753-55.
365-1915.

1549. Non-commissioned officers of the British Army retained in India after the individuals detailed to relieve them have arrived from Home are borne as supernumeraries pending embarkation for Home, but should vacancies in their rank occur in their unit (brigade or group in the case of artillery) before they embark, they are to fill such vacancies temporarily. If passage to the United Kingdom cannot be made available for the non-commissioned officers during the trooping season in which the reliefs were arranged, they are to be absorbed in the first vacancy in their unit (in the case of artillery, any unit of the brigade or group) pending allotment of passage.

It should be clearly understood that the administrative authority concerned will be held liable for any extra expense on account of overpayments resulting from the disregard of the above rule.

The term "temporary" to be discontinued in connection with the promotion of British warrant officers and non-commissioned officers.

A. C. I. 1080, 27-5-16.
639-1916.

1553. The use of the term "temporary" in reference to the ranks and appointments of British warrant officers and non-commissioned officers is to be discontinued. The word "temporary" relates only to the soldier's term of service, i.e., whether for the duration of the War or otherwise.

Promotions or appointments must be either "substantive" or "acting," and, where necessary, steps will be taken to correct promotions and appointments so that they may appear either as "substantive" or "acting" as the case may be.

Promotions in a Territorial Force unit made substantive when proceeding on field service.

451-1916.

1554. When a Territorial Force unit proceeds on field service all acting promotions (except acting sergeant majors) will be made substantive within its establishment.

Vacancies which are caused by the casualties mentioned in I. A. O. 483 of 1915, paragraph 1 (ii),* will be filled by promotion to substantive rank; in other cases promotions will be to acting rank only.

*See para. 1435.

Indian Army; British Officers and other ranks.

System of temporary promotion for officers of the Indian Army serving with various Expeditionary Forces.

1556. The following scheme for the temporary promotion of officers of units of the Indian Army serving with the various Expeditionary Forces took effect from the 19th January 1916:—

I. 726, 20-3-16.
B. Aug. 16, 1916-53.

Temporary rank may be granted to regimental officers of Indian units as follows:—

- (a) One temporary step of rank will be given to an officer below the rank of lieutenant-colonel who has acted for a complete 30 days or more in a regimental vacancy for a Commandant, when the vacancy is due to the appointment of a lieutenant-colonel to an extra-regimental appointment, or to sickness or wounds, or when the permanent incumbent is a prisoner or missing.
- (b) One temporary step of rank will be given to an officer below the rank of major who has acted as second-in-command of an Indian cavalry or infantry unit, for a complete 30 days or more when the permanent incumbent is absent for reasons similar to those stated under (a).
- (c) One temporary step of rank will be given to an officer below the rank of captain who has acted as a squadron or double company commander, for a complete 30 days or more when the permanent commander is absent for reasons similar to those stated under (a).
- (d) The General Officer Commanding the Force will have discretionary power to grant temporary rank before the completion of the 30 days in any case where he considers it necessary in the interests of the service that an officer should be given the higher rank at once, and when it is obvious that the vacancy will continue for more than 30 days. This discretionary power will not apply to cases in which the grant of temporary rank is given with retrospective effect, but will only be exercised in any special cases which may occur in the future.
- (e) In all the above cases the pay of advanced rank will be admissible from the date of such temporary promotion.
- (f) This temporary promotion is merely an expedient to meet the exigencies of the service for the period of the War and will only be given to officers who are actually serving with their units in the various Expeditionary Forces. The fact that an officer who is otherwise employed is not given temporary promotion, though his juniors are selected for it, should therefore not be regarded as a supersession.

Promotions in Indian ranks on field service.

561-1914.
100-1915.
568-1915.
642-1915.

1568. The following are the rules for promotions in Indian ranks in units on field service during the War:—

- I. The Officer Commanding a unit in the field will make all promotions in his unit. In the case of promotions to and in the rank of Indian officer, his action must be approved by the General Officer Commanding the War Division. This approval (together with the name of the Indian officer in whose place the promotion is made, and the date from which it is to have effect) will be reported to the Adjutant-General in India as early as possible with a view to the publication of the promotion in the *Gazette of India*.
- II. Men of a linked (or other) regiment or battalion attached to, and which proceeded with, a unit on field service, will be regarded, for purposes of promotion, as belonging to the unit in the field. The Officer Commanding the unit in the field will consider these men, with his own, for this purpose.
- III. Similarly men of a unit which proceeded on field service, sent to a linked (or other) regiment or battalion in return for a draft

supplied to it on mobilization, will be held to belong to such regiment or battalion for purposes of promotion.

IV. Promotions which may be permanent will be made under the following circumstances:—

- (a) On definite information of a death vacancy.
- (b) On definite information of a man being made a prisoner of war.

V. Temporary promotions may be made in the case of non-commissioned officers as follows:—

- (c) In place of a wounded man.
- (d) In place of a missing man.
- (e) In place of a sick man.

When one month has elapsed, and if the vacancy still exists, these temporary promotions will be made permanent. Temporary promotions cannot be made in the case of Indian officers, but vacancies due to causes (c), (d) and (e) may be filled by permanent promotions after the lapse of one month. Temporary promotions will carry full pay. All promotions will take effect from the date following that of the casualty.

VI. The Officer Commanding a unit in the field, as generally responsible for the promotions of men left at his depot, is empowered to adjust these, as far as lies in his power, with those made in the field, and may make such antedates, without pay, as he may consider necessary to safeguard the interests of men left behind or to adjust any obvious anomaly.

VII. A surplus of Indian officers and non-commissioned officers, due to the arrival of a draft or the return to duty of missing or wounded men, will be absorbed into the first vacancies that may occur in the unit concerned. In the case of companies or double companies sent as drafts to battalions with a class composition other than that of the draft, the companies or double companies of which the latter may consist will be kept intact and promotions in such companies or double companies will not be affected by the absorption of surplus Indian officers and non-commissioned officers in the battalion to which they are attached. Similarly, the absorption of surplus Indian officers and non-commissioned officers in the companies or double companies of the draft will not affect, but be independent of, promotions in the battalion.

VIII. An Indian officer or non-commissioned officer who, under the provisions of this order, accepts promotion in a unit other than his own, may, if required, be held to serve permanently in that unit. In cases of doubt H. E. the Commander-in-Chief will decide in which unit such officer or non-commissioned officer shall serve.

1569. With reference to I. A. O. 561 of 1914,* immediate promotions may be made in the field in cases where Indian officers or non-commissioned officers are returned to India for discharge owing to inefficiency.

In the case of contemplated promotion of a seconded non-commissioned officer to commissioned rank, the officer commanding his unit will, before submission of the promotion roll, refer to the officer under whom he is serving. Similarly, on the occurrence of a vacancy for promotion to or in commissioned rank in the unit to which a seconded man is attached the officer commanding that unit will refer to the officer commanding the seconded man's regiment before forwarding his recommendation to higher authority. Where mutual agreement is not arrived at on any point, the officer commanding the unit from which a man is seconded will decide it, as it is to his command that the seconded man will eventually return.

Promotions in inferior ranks will be made only in the unit in which the casualty necessitating replacement has occurred, but men seconded and employed on duties which are unsuited to commissioned officers should be returned to their original units for promotion with as little delay as possible.

In selecting volunteers for Colonial and other contingents, it is preferable, as far as possible, to select only men who are unlikely to come up for promotion during their term of service with the contingent. A sowar or sepoy promoted to non-commissioned rank may still be required to perform the duties of the rank from which promoted.

These orders refer exclusively to the promotion of seconded men and not to regimental promotions, which are governed by I. A. O. 561 of 1914* as subsequently amended.

30-1917.

*See para. 1568.

After the lapse of one month from the date of casualty in the field of a subadar-major (or risaldar-major) an acting promotion may be made to fill the vacancy so caused and pay as for the permanent rank will be admissible. Promotions in inferior ranks consequent on acting promotion to subadar-major (or risaldar-major) may, however, be permanent.

- for an Indian officer, he will be relieved as soon as possible and will rejoin his own unit or depôt. In all other cases, men promoted will continue in their detached employment.

(b) Officers of the Indian Army Reserve and temporary officers of the Indian Medical Service may be granted the privilege of retaining their honorary rank, corresponding to the substantive or "temporary commission" rank held by them on retirement, or may be granted further honorary rank equivalent to any higher "temporary" or "acting" rank which they may have held during the War.

Commanding will fix the hour of ration delivery. The time, place and method of issues will be determined in the manner best suited to the common convenience of the troops, etc., and the supply service.

(5.) Every brigade and divisional troops supply officer will deal with the troops and services of his own brigade, and such others located in the area assigned to him as may be allotted for the time being to his responsibility by the divisional commander: changes in allotment of troops must be duly communicated to brigade and divisional troops supply officers by the staff.

(6.) Each brigade and divisional troops supply officer will be provided with the following personnel from the complement of the Supply and Transport Corps in the Division in which he is serving :—

1 warrant and 1 non-commissioned officer, or } whichever rank may be

The existing bakery and butchery personnel together with the warrant or non-commissioned officers in charge in each case.

Victualling agents of British units, and hospital store-keepers in respect of ration supplies will be under his orders.

(7.) The above arrangement is intended to distinguish the supply duties of mobile field units from depôt supply work, and the principle underlying it is that the officers (as a rule comparatively junior men) appointed to perform those duties with brigades and divisional troops, will be responsible to the respective General Officers Commanding :—

(a) for the supervision and inspection of all ration articles issued to the troops in the brigade or other areas ;

(b) for checking all demands received for ration and other articles supplied to troops by the Supply and Transport Corps ;

(c) for arranging that demands are complied with in due time.

(8.) Brigade and divisional troops supply officers are required in every possible case to accompany their troops in movement ; in cases of doubt they will, in consultation with the Assistant Director of Supplies, take the orders of the General Officer Commanding. Where there is no transport officer in a station they will receive and dispose of indents for transport for local duties, otherwise they are not required to deal with the provision of transport.

(9.) Brigade supply officers will be provided with office accommodation in offices of the Supply and Transport Corps or at the headquarters of brigade commanders.

Stationery, forms and office requisites and furniture will be allotted in the required proportions from existing stocks according to regulations.

Grant of free rations to officers, warrant officers, lady nurses and others with Expeditionary Forces and their servants and horses.

1601. (1) During the continuance of the War, free rations for themselves, their authorised number of servants and their authorised number of chargers and ponies, will be granted to the following officers, etc., employed with the overseas Expeditionary Forces :—

D. Feb. 17, 1917.

1600. (1.) The following system of control has been introduced in the Supply and Transport services in respect of all supplies and stores issued by them to British and Indian troops.

(2.) In each cavalry and infantry brigade, in the divisional troops of each division and in each independent brigade, a Supply and Transport Corps officer designated "Brigade Supply Officer,—th Brigade" or "Supply Officer,—th Divisional Troops" will be in charge of supply duties.

He will be attached to the staff of the General Officer Commanding the troops he serves and will be directly under his orders in his relation to the troops, while in respect of his departmental duties and compliance with departmental orders, he will be controlled by the Assistant Director of Supplies or Assistant Director of Supplies and Transport of the division.

These officers are the representatives of the Supply service in respect of rations and supplies at the headquarters of brigade and divisional troops, as well as with the troops, administrative services and departments located in the areas assigned to them.

(3.) The brigade supply officer will be the agency through which all demands for supplies will be made by the troops, and he will be responsible for foreseeing as far as possible all their requirements and arranging for timely compliance. He will control and inspect the issue of rations and will be in charge of the Government bakery and butchery. The functions of the orderly officer of a British unit in regard to inspection of rations remain, however, unchanged.

In an Indian unit the functions of the orderly officer will be performed by the British officer appointed by the officer commanding to superintend the drawing of rations; he will be accompanied on this duty by an Indian officer.

(4.) The brigade and divisional troops supply officer will receive and check all indents for rations and supplies submitted by the troops in his charge, and pass them for compliance to the supply depôt or other agency appointed by the assistant director of supplies and transport for that purpose.

He will arrange with the supply depôt, etc., the time and place at which supplies will be drawn by the troops and under the orders of General Officers

Re-enlistment of ex-soldiers to complete 21 years' service for pension.

1633. Army Order 79 of 1916 is applicable to India with the undermentioned modifications.

261-1916.

Ex-soldiers who have not re-enlisted may be permitted to re-enlist under the provisions of the Army Order referred to, in order to enable them to complete 21 years' service, in the corps in which they formerly served, if a unit of that corps is serving on the Indian establishment at the time; otherwise they may re-enlist in a corps of their own branch of the service, a unit of which is serving on the Indian establishment. The Commanding Officer will decide whether the soldier is suitable for re-enlistment, without reference to the Officer-in-charge of Records.

Ex-soldiers re-enlisted for the duration of the War.—Notice must be given within three months from the 1st May 1916.

General conditions—(a) War Office letter No. 49-Artificers-1966 (F.-2), dated 1st November 1915, does not apply to India.

Vide para. 4 of the Army Order.

(c) Any warrant officer class II, non-commissioned officer, or man discharged after the *1st March 1916* (instead of 14th January) who re-enlists under (2) of the Army Order will be required to refund any gratuity drawn by him on discharge.

[But see I. A. O. 381 of 1916.]

Re-engagement of non-commissioned officers and men of the regular army permitted under certain conditions.

1634. Instructions on this subject are contained in Army Order 49 of 1916 which is re-produced below *A. O. 49 of 1916*:—

204-1916.

“(1) It has been decided in certain cases and under certain conditions to allow non-commissioned officers and men of the regular army to re-engage so as to enable them to complete 21 years' service with a view to pension.

(2) *Re-engagement*—

(a) Warrant officers, staff serjeants and serjeants, other than mobilized Section “D” reservists, will be dealt with under the conditions laid down in King's Regulations, paragraph 264.

- (b) Other soldiers, including mobilized Section "D" reservists, may be allowed to re-engage at the discretion of their commanding officer when within three months of completing their present engagement including the extra year's service to which they are liable under Section 87 (1) of the Army Act.
- (c) Non-commissioned officers or men whose continuance in the service has been approved under Army Order 252 of 1915 for the duration of the war may be permitted at the discretion of their commanding officers to re-engage to complete a period of 21 years' army service, provided they give notice within three months of date of this order.
- (3) *Conditions—*
- (a) No non-commissioned officers or men will be allowed to re-engage under this order unless it is possible for them to complete 14 years' qualifying service and at least 18 years' total service before attaining the age of 45, and no soldier who re-engages as above will be eligible for the special privileges as to pay and gratuity granted by War Office letters 30-Gen. No. 5244-F.-2, dated 30th October 1915, and 49-Artificers-1966-F.-2, dated 1st November 1915.
- (b) All service with the colours or in the reserve will count under Article 1135 of the Pay Warrant for the purpose of establishing the date on which the soldier will be assessed for pension, but service in the reserve will not count as qualifying service for fixing the rate of pension unless the soldier was mobilized from Sections "A" or "B" of the reserve. Soldiers mobilized from Section "D" of the reserve may only count their reserve service as qualifying service if they are invalided through army duty. Privates who re-engage are not eligible for pension unless they have completed 14 years' qualifying service on completion of 21 years' service."

With reference to the Army Order reproduced above, the period in clause 2 (c) within which notice may be given in India is three months from the 25th March 1916.

With reference to clause (3) (a) above, War Office letter 30-Gen. No. 5244-F.-2, dated 30th October 1915, will shortly be promulgated in I. A. Os.* but War Office letter 49-Artificers-1966-F.-2, dated 1st November 1915, will not be republished as it is not applicable to India.

[But see I. A. O. 381 of 1916.]

Terms and conditions of re-engagement and re-enlistment into the Regular Army.

1635. General instructions on this subject are contained in War Office letter No. 30-General-5244 (F.2), dated 30th October 1915, which is reproduced below.

"I am commanded by the Army Council to notify the following decisions affecting men who on completion of the periods of service for which they have been retained under the Army Act, Section 87, further extend their service in accordance with Army Order 252 of 1915 or take their discharge and re-enlist for the duration of the war.

- (1) Soldiers who have completed the period of their original enlistment (12 years) and the further year under Section 87 (1) of the Army Act and become due for discharge on completion of their thirteenth year, will, if they voluntarily continue in the service under Army Order 252 of 1915, be eligible for gratuity of £1 under Article 1117, Pay Warrant, for every year or portion of a year of such extended service.
- (2) Any man voluntarily continuing in the service who at the time is in receipt of service pay shall be allowed to remain under service pay conditions during the period of his continued service, instead of coming on to proficiency pay if in the Cavalry, Artillery, Infantry, etc., or dropping service pay without drawing proficiency pay if in the Royal Engineers, Army Service Corps, Army Ordnance Depart-

ment, etc. This privilege will also be granted to men who take their discharge and re-enlist for the period of the war.

- (3) Men serving on a 21 years' engagement who have been retained for a year beyond that period will, if they remain in the service, retain their prospects of promotion to permanent higher rank, and the extra time served will account for increased pension (1*d.* per day for each extra year in the case of Serjeants and Warrant Officers, Class II, $\frac{1}{2}$ *d.* per day for each extra year for ranks lower than Serjeant).

In the case of a Warrant Officer, Class I, he may be able to complete another period (*vide* Article 771, Pay Warrant), entitling him to an extra 6*d.* a day pension.

- (4) Men who take their discharge and re-enlist for the period of the war will draw the pension then earned together with the pay of the rank in which they re-enlist, under Article 1158, Pay Warrant, but will only obtain temporary promotion and will lose all chance of a future career in higher rank or of serving on after the war. The extra service on a temporary re-enlistment will not entitle them to increased pension.

- (5) Men who elect to take their discharge will not resume their present rank on re-enlisting unless there is a vacancy in that rank in the establishment.

- (6) I am to point out that men who prior to the date of mobilization had already applied to continue beyond 21 years under Section 85, Army Act, and been allowed to do so, are now, on giving notice of their wish to be discharged under that section, liable under Section 87 (1) to serve for 15 months from the date on which they give notice.

- (7) With regard to men who were serving in the Army Reserve when mobilized, I am to inform you that it has been decided that none of these men will be allowed to re-engage to complete 21 years' total service.

- (8) Arrangements should be made for the discharge and re-enlistment of men who elect this course at the place where they are now serving. The necessary supply of forms will be sent to the base offices in the case of men serving with the expeditionary forces. It is very desirable that such men, if agreeable, should be dealt with on the spot, to avoid the waste of time and accommodation involved in bringing them home and sending them out again.

- (9) The above decision will have retrospective effect in the case of any men who have already undertaken to continue in the service under Army Order 252 of 1915 or who, having taken their discharge on termination of their engagement (including the extra year) since the 4th August 1915, have re-enlisted to serve for the period of the war.

- (10) A separate letter is being issued with regard to the continuance in the service of men filling positions for which special rates of pay are admissible for new enlistments.

I am to request that you will be good enough to give the information conveyed in this letter sufficient publicity to ensure that all men concerned shall be in possession thereof, to assist them in arriving at a decision in considering their position with regard to Army Order 252 of 1915."

- II. The provisions of this letter are made applicable to India retrospectively, except that paragraph 5 will not be regarded as modifying the provisions of I. A. Os. 669 of 1914 and 170 of 1916.* The letter referred to in the first clause of paragraph 10 above is not applicable to India.

- III. This order should be republished in Divisional and Brigade Orders and should be given all possible publicity.

applicable to British soldiers serving in India and the following procedure is accordingly to be followed by all concerned in submitting claims to bounties :—

- (1) *For Regular soldiers whose duplicate attestation papers are maintained in India.*

The Officer Commanding unit, for the officer in possession of the men's duplicate attestation papers, will forward nominal rolls of all men now entitled, or who may in future become entitled, to the bounty to Officers in Charge Records concerned. This officer will then complete Sections I and II of Army Form W.-3458 and return the form to the submitting officer, who will immediately pass it to the Divisional Disbursing Officer for action as shown in Sections III and IV.

- (2) *For Territorial soldiers, and Regular soldiers whose duplicate attestation papers are not maintained in India.*

Officers in Charge Records will forward nominal rolls of men entitled to bounty, as they become due, with Army Form W.-3458 completed in Sections I and II direct to Officers Commanding Units. Further action will then be taken as shown above.

Army Council-Instruction No. 1670 of 1916.

Decisions as to eligibility for Bounty under Army Order 209 of 1916.

Questions having been asked on the following points with reference to A. O. 209 of 1916, the following decisions are notified :—

(1) In the case of a man who had qualified for bounty under para. 1 (iii) or (iv) of the A. O., but become non-effective before the date of the A. O., the amount due should be paid to him or credited to his estate. Bounty will not of course be due in the case of a man who had agreed to continue in the service under A. O. 252 or 253 of 1915, or had re-engaged, if he became non-effective before entering upon the extended period of his service.

(2) A man who re-engaged to complete 21 years' service since the 4th August, 1914, and before the issue of A. O. 49 of 1914, is eligible for bounty under the provisions of paras. 1 (iv) and 5 of the A. O.

(3) A man who has been permitted, before the discontinuance of discharges on termination of engagement under A. O. 202 of 1916, to continue in the service beyond 21 years under para. 270, King's Regulations, will only be eligible for bounty if he gives 3 months' notice under para. 272, King's Regulations, and is retained in the service, under the Military Service Acts, after completing a year's service (A. O. 76 of 1915) beyond the expiration of the 3 months' notice. To obtain a bounty such a man will therefore require to give notice of his wish to be discharged and not to have attained the age of 41 on completing 15 months' further service.

(4) A man permitted to continue beyond 21 years under para. 270, King's Regulations, since discontinuance of discharge on termination of engagement under A. O. 202 of 1916, will be eligible for bounty, on completion of 22 years' service, if he has not then attained the age of 41, and is therefore liable to retention in the Service for the duration of the war under the Military Service Acts.

(5) A man who re-engaged or agreed to continue in the Service and has subsequently been released from the colours for employment on munitions work remains eligible for bounty under the conditions of A. O. 209 of 1916, although still a munition worker when the bounty becomes due.

(6) A man who while released for munition work reaches the end of his current engagement (together with the extra year under section 87 (1), Army Act or IX (5) of the Territorial and Reserve Forces Act) and is retained in the service under the Military Service Act, is eligible for bounty. Bounty will

not, however, be admissible for an ex-soldier engaged as a civilian on munition work who becomes liable for recall under the Military Service Acts but is not actually recalled to the colours.

(7) A man who became due for discharge on termination of engagement before mobilisation, but continued to serve without re-engaging and has since claimed his discharge, will be eligible for bounty if on completing one year from date of claiming discharge he is further retained in the service under the Military Service Acts.

(8) A man who became due for discharge on termination of engagement before mobilization and continued to serve without re-engaging, and has not since claimed his discharge, will be eligible for bounty subject to the condition of the A. O. if he claims his discharge and is retained in the service under the Military Service Acts beyond twelve months from the date of claiming discharge.

(9) Service in the National Reserve on 4th August, 1914, is not to be regarded as service on an Army engagement for the purpose of the bounty (para. 7 of A. O. 209 of 1916). Service in the T. F. Reserve on 4th August, 1914, is service on an Army engagement for purpose of the bounty.

Bounties to certain ranks of the India Unattached List.

1637. The undermentioned ranks of the India Unattached List are eligible for the bounty sanctioned in I. A. O. 841 of 1916 (see para. 1636):—

(1) All members of the non-departmental section.

(2) Departmental non-commissioned officers.

(3) Departmental warrant officers who have been retained in the service beyond the age of 55.

Bounties to regular soldiers retained or recalled to the colours in India.

1638. The procedure adopted in the case of soldiers of the Territorial Force serving in India who are entitled to the bounty under A. O. No. 209 of 1916, is now extended to regular soldiers serving in India.

23-1917.

A. C. I. 2099 of 1916.

* See para. 1636.

"With reference to Army Order 209 of 1916, certain cases have come to light where men were enlisted on a war engagement (and in some cases a one year engagement) on 4th August, 1914, instead of the 5th August, 1914. It is the intention that no man enlisted for a war engagement or one year engagement (other than Category C. of the Special Reserve) should get the bounty on the expiration of that engagement during the war under the condition of Army Order 209 of 1916, and the Army Order quoted above should be given effect to accordingly."

(1) A soldier retained in the Service or recalled to the Colours under the Military Service Acts, 1916, who is otherwise eligible for bounty under A. O. 209 of 1916, does not forfeit his claim thereto if he is transferred to or joins the Royal Naval Division, notwithstanding that he then joins the R. N. V. R.

or R. Marines and not the Army in consequence of being drafted to the R. N. D.

(2) The bounty is not, however, admissible for an ex-soldier who on recall to service under the above Acts elects to serve in a Naval unit (other than the Royal Naval Division), e.g., Royal Navy, Royal Marines, R. Naval Air Service or R. Naval Volunteer Reserve, nor is it admissible for an ex-soldier who joined the Naval Services above mentioned before being recalled to the colours, or to an ex-soldier who has voluntarily enlisted in a R. N. V. R. or R. M. unit of the R. N. D.

(3) Payment will be made through the Accountant Officers R. N. D. or Divisional Paymaster, R. M. Depot, Deal, who will refer in every case to the Regimental Paymaster of the unit in which the man last served, before he became time-expired, for decision as to whether the man is entitled to the bounty and if so to what amount.

(4) The Regimental Paymaster will arrange for payment of the amount due in each case by draft from the Command Cashier to the R. N. D. Accountant Officer concerned. The latter on paying the bounty will obtain the man's receipt and return it forthwith to the Regimental Paymaster, to support the charge in his account.

- (iii) These measures apply only to men discharged at their own request and not to those pensioned, invalided or discharged on public grounds.

In the case of Artillery units, however, a British officer may accompany a recruiting party whenever more than 20 recruits are required whether this number is exclusively composed of one class or not. Travelling and detention allowances will be admissible to these officers as allowed for Assistant Recruiting Officers.
- (b) Payment of Rs. 3 per head for each approved recruit. The establishment in horses of the Bangalore Depôt is temporarily increased from 550 to 1,950 horses. The entertainment of the following establishments is also authorised at the rates of pay stated against each, for the purpose of looking after the additional horses:—

Upper subordinates of Military Works Services not eligible for Presidency house rent.

15456-1 (M. W. 5) 31-5-10.
A. June 16, 2199-201.

1695. The reason for the exclusion of supervisors and overseers from the provisions of Public Works Department Code, Vol. I, para. 923, clause II, is that these men pay rent at concession rates, and so long as they continue to do so they remain ineligible for presidency house rent when provided with government accommodation.

The rule in Public Works Department Code, Vol. I, para. 923—II and III, as amended by Standing Orders Nos. 259 and 391, dated the 6th June 1911, and 3rd June 1914, respectively, applies therefore to all Upper Subordinates of the Military Works Services, except supervisors and overseers who were in the service on 19th May 1911.

Procedure on transfer of soldiers to class P. Army Reserve and to class P. (T), Territorial Force Reserve.

24-1917.

1705. See Army Order IV, dated 10th October 1916, regarding the formation of new classes of the Army Reserve and the Territorial Force Reserve. Army Council Instruction No. 1955 of 1916 on the subject is reproduced below:—

A. C. I., No. 1955 of 1916.—With reference to A. O. IV of 10th October 1916, the following procedure to be adopted in transferring soldiers of the Regular Army to Class P., Army Reserve, and soldiers of the T. F., to Class P. (T.), Territorial Force Reserve, is notified for the guidance of all concerned.

After transfer to Class P. (T.), Territorial Force Reserve, T. F. soldiers will be at once demobilized.

- (1) The soldier's transfer will be carried out by his C. O.
- (2) On transfer, the following entry will be made in the soldier's attestation or record of service paper:—
"Transferred to Class P., Army Reserve [in case of the T. F. to Class P. (T.), T. F. Reserve]. Date"

The soldier's documents will be forwarded to the Officer i/c Records concerned, and the transfer will be notified in Part II Orders.

* These Army forms will amended where necessary.

(3) Each man on transfer will be given a certificate, Army Form W-3455.* He will also be given Army Form W-3456* to enable him to notify any change in his address.

(4) The Officer i/c Records will register the reservist's name and address. In the event of Army Form W-3456 being received from the man notifying any change in his address, another copy of this Army Form is to be sent to him.

(5) All such transfers will be authorized by the G. O. C.-in-C. of the Command in which the man is serving.

(6) Conveyance to his home or place of employment as in para. 363 (a) Allowance Regulations, and travelling allowance (if admissible) under para. 402, Allowance Regulations, will be granted to a man transferred to Class "P." Reserve.

(7) On receipt of orders to recall the reservist to the colours the Officer i/c Records will despatch to the man either A. F. D. 463 or D. 463B. suitably amended to suit the requirements of this class of reservist, together with a travelling warrant and money order for three shillings.

(8) A man transferred to Class P. Army Reserve, or Class P. (T.) T. F. Reserve, will be allowed to retain his necessaries, drawers and one pair of boots; all other uniform will be returned to store. He will also receive a suit of plain clothes or the allowance of 17s. 7d. in lieu, as in the case of a discharged soldier. He will not receive any further plain clothes, or allowance in lieu, on final

discharge unless he has been subsequently recalled to the colours and is discharged while serving with them, when a gratuity in respect of such further service with the colours will be payable, and he will be given a second suit of plain clothes or the allowance in lieu.

(9) Although Class "P." reservists are legally liable at any time to be recalled for service with the colours under para. 3 of A. O. 203 of 1916, there is no intention of carrying this into effect, except in the case of grave national danger.

Grant of subsistence allowance when separation allowance ceases on a reservist and his family occupying Government quarters.

1706. When a British Army reservist occupies Government quarters together with his family and separation allowance ceases to be admissible, subsistence allowance at the rate laid down in paras. 651 and 656, A. R. I. Vol. I, will be issued.

Renewal of any articles during the period between the dates of the reservists being embodied and mobilised will be made at the public expense by the Commanding Officer, subject to the minimum periods of duration given in the statement. Condemned articles will be sold and the proceeds credited to the State.

On demobilisation any of the articles included in the statement which are in excess of the scales laid down in A. R. I. Vol. XI, paras. 167 and 169, will be disposed of and the sale proceeds credited to the State. Should any of the other articles be unserviceable or deficient, they will be replaced at the public expense by the Officer Commanding the reserve centre or training unit in accordance with the rule in paragraph 170, *ibid*.

With reference to the foregoing instructions, the kits of these reservists will be *supplemented*, under regimental arrangements, by free issues at the public expense. In other words, the scale of kit authorised under A. R. I. Vol. XI, paras. 167 and 169, *plus* the additional articles denoted by footnote (b) in the statement above are to be kept up at Government expense, as is the case when reservists are called up for their annual peace training, the only difference being that the conditions as regards replacements, specified in A. R. I. Vol. XI, para. 170, are modified to the extent noted in the Army Department letter.* The men should not, therefore, refund the unexpired value of the kits.

For the same reasons, and also because reservists are not required to maintain full dress clothing (the annual value of which is included in the clothing allowances), clothing allowance is inadmissible.

The orders apply to all reservists embodied during the War.

Instructions in regard to the condemnation and replacement of kits of Indian Army reservists.

1708. The intention of the orders issued in A. D. letter No. H. 1317, dated the 6th October 1914,* is that, subject to the periods of duration laid down in the annexure to that letter, the condemnation and replacement of kits of Indian Army reservists embodied for service will, when necessary, be made under the orders of the officers commanding without reference to Brigade Commanders. [See also A. D. letter No. H. S. 644, dated 25th March 1915.*]

In order to reduce correspondence charges on account of kit issued to reservists embodied for service will be supported by officers commanding with a certificate to the effect:—

- (a) that the articles replaced have lasted the prescribed period of wear;
- (b) that they have been issued only to men rightly entitled to receive them; and
- (c) that credit has been or will be afforded to the sale proceeds of condemned articles, stating where it has been, or will be, afforded.

Grant of a special allowance to embodied reservists, and supply of warm clothing.

1709. With reference to A. D. letter No. H. 1317, dated 6th October 1914,* each reservist of the Indian Army embodied for service is allowed Rs. 1-3-0† for the

1 ration receptacle.

1 tin dubbing.

1 boot brush.

† Subsequently altered to 8 annas a month, see entry below. margin.

At the discretion of General Officers Commanding, 1 blanket (or compensation in lieu), 1 jersey and 1 pair of pyjamas, warm, may also be issued in anticipation of the issue to which the men would be entitled on mobilisation. Should they not be mobilised the articles of warm clothing will be withdrawn at the commencement of the hot weather and disposed of to the best advantage.

For the maintenance of their kits reservists re-transferring to the colours will draw clothing allowance, under A. R. I., Vol. XI, para. 151, from the date of their transfer.

Men who have already been re-transferred to the colours should be refunded any amounts paid by them as the unexpired value of their kits on re-transfer and on the purchase of any of the additional articles detailed in the annexure.

Pay of Indian Army reservists in civil employ recalled to the colours.

1713. Indian Army reservists employed in Government departments who, on recall to the colours, have been found medically fit and are retained for military duty, will, if they so desire, be allowed the pecuniary benefit of any privilege leave due to them under civil rules. They will draw full civil pay, in addition to military pay and allowances, for the full period of privilege leave admissible up to a limit of one month after recall to the colours, and half civil pay in addition to military pay and allowances, for the period of privilege leave admissible in excess of one month. These concessions are admissible irrespective of whether a substitute is engaged or not.

1719. (1) The three Corps of Sappers and Miners have been re-organised as below, as temporary measure, during the War.

(3) From the establishment to be maintained in India, after deducting the number present with the field companies, the 23rd Fortress Company, the defence light, and other special sections remaining in India, dépôt companies, each of the same establishment of fighting men and followers as a field company of Sappers and Miners, will be formed in accordance with the following instructions.

(4) The present dépôt companies ("B," "D" and "F") will, after adjustment to the new establishment of a dépôt company, be called :—

"B. 1" (Depôt) Company, 1st King George's Own Sappers and Miners.

"D. 1" (Depôt) Company, 2nd Queen Victoria's Own Sappers and Miners.

"F. 1" (Depôt) Company, 3rd Sappers and Miners.

(5) The bridging train, printing and photo-litho sections, the 23rd Fortress Company, and the defence light sections, will be in addition to the depôt companies, and if present at headquarters will be regarded as separate units; but should be attached to depôt companies for administrative convenience.

(6) Of the 150 sappers and 18 drivers in such a depôt company, all except 10 should be recruits. These 10 are those required for the duties of storemen, clerks, assistant to armourer, and schoolmasters, orderlies, etc., *vide* I. A. O. 587 of 1914. At the discretion of the Commandant the number of trained sappers per depôt company may be increased to 20 when necessary.

(7) As soon as the establishment of a depôt company as above, is exceeded by the arrival of recruits, a second depôt company called "B. 2," "D. 2" or "F. 2," as the case may be, will be started. This company should again have the same establishment as a field company and should like "B. 1," "D. 1" and "F. 1," have all its sappers recruits, except a maximum of 20 trained men for the duties mentioned in clause (6). As soon as 40 recruits over those required for the first depôt company are enlisted, half the full establishment of the Indian officers and non-commissioned officers of a depôt company should be appointed, and, as soon as 120 recruits are procured, the whole. The subadar will be appointed when 120 recruits have been procured.

(8) As soon as the second depôt company is complete, another ("B. 3," "D. 3," "F. 3") will be formed under the same conditions as the second depôt company, and the formation of additional companies will be continued until the full necessary number of recruits is provided for.

(9) A new depôt company may be formed without a driver establishment if the full number of drivers is either not wanted or not forthcoming.

(10) The establishment of each depôt company will include two British officers and two British non-commissioned officers if available. The company commander and one British non-commissioned officer will be appointed as soon as the new company numbers 40 recruits, the company officer and the junior British non-commissioned officer being added when the number of recruits has risen to 120. Staff pay as company commander and company officer respectively will be admissible to the two officers.

(11) The following personnel, which is at present authorised for the existing depôt companies, will be distributed among the new depôt companies within their new establishments :—

1 Subadar major	as a subadar.
1 Jemadar adjutant	as a jemadar.
1 Havildar major	as a havildar.
1 Armourer	as a havildar.
1 Schoolmaster	as a havildar.

(12) The Indian officers appointed in order to complete establishments will be permanently promoted. The Indian non-commissioned officers in "B. 1," "D. 1" and "F. 1," companies will be permanently promoted, but those in the additional depôt companies will hold temporary rank only, but will draw full pay of the rank. The permanent non-commissioned officers of "B. 1," "D. 1" and "F. 1," companies may, at the discretion of the Commandants, be distributed through the other depôt companies.

(13) Pensioners may be employed, at the discretion of the Officer Commanding a Corps of Sappers and Miners, to fill the position of Indian officers, non-commissioned officers or trained sappers in the depôt companies, or reservists unfit for active service, but fit for such work, may be retained.

(14) If, owing to drafts having been taken from it, a field company remaining in India is under strength to the extent of one section, the non-commissioned officers of one section or as many of them as have not gone to join the units on active service, must join the depôt and be included in a depôt company as part of its establishment. Instructions for the guidance of silladar cavalry regiments maintaining horse runs on Colony Canals in the Punjab.

311-8 (A.G. 5), 4-3-14.
167-1914.

1775. (i) Silladar cavalry regiments wherever stationed may be granted runs, to be started on capital borrowed from Government, for the purpose of improving the indigenous horse supply.
- (ii) In the case of an application for a grant of land from a regiment serving outside the Punjab, the financial aspect involved by the transfer of remounts from the run to regimental headquarters will be carefully considered before the grant is sanctioned.
- (iii) All land will remain the property of Government and cannot be alienated or sub-let for more than two consecutive years without the sanction of the Local Government.
- (iv) Runs are to be used for maturing young stock and the amount of land utilized for agricultural purposes will be kept as low as possible.
- (r) All profits derived from agriculture will be devoted to the maintenance of the run and towards reducing the cost of production of horses, and will on no account be utilized for any extraneous purpose.
- (vi) Regiments are exempted from payments of *nazarana*. They will however, pay cesses, * *i.e.*, local rates for upkeep of roads, etc., and also the ordinary occupier's water rate according to the schedule in force from time to time on every acre actually irrigated. The latter charge will be remitted in the case of harvests of the first year of occupation. Regiments having runs on the Chenab Canal will, after 11 years' occupation, also pay an owner's rate at Re. 1 per irrigated acre. In the case of regiments allotted horse runs prior to 1st April 1911, cesses will not be leviable with retrospective effect, but with effect from the 31st December 1915 only.
- Malikana* and land revenue will not be levied on land allotted prior to the 1st April 1911. In the case of land allotted since that date regiments are required to pay these rates but they will receive a cash grant from Government to assist them to meet these charges. These cash grants will be subject to revision by the Government of India every five years.
- (vii) No fixed minimum of young stock to be maintained on a run will be laid down, but Government will expect a run to be fully stocked on completion of three years' occupation.
- (viii) All horses raised on the run will be sold to the horse fund, but the horse run accounts will be kept entirely separate from all other Government and regimental accounts which are kept by the regiment. General Officers Commanding when carrying out their annual inspection of regimental funds will see that this order has been complied with.
- (ix) On the 15th April annually all regiments possessing horse runs will submit to the Adjutant-General in India, through the usual channel, a statement on the prescribed form * showing the financial condition of the run for the preceding twelve months.

The rules contained in paras. 9 and 10, Field Service Manual, Silladar Cavalry, 1913, both as regards renewals of clothing, tents, saddlery and line gear or other equipment and replacements of animals, are made applicable to all silladar cavalry regiments which are about to proceed on active service beyond the seas.

The above rules are applicable not only to the regiments themselves but also, as an experimental measure, to their depôts. To give effect to this experiment, committees, on which the Army Remount Department and the Supply and Transport Corps should if possible be represented, will be assembled by the General Officer Commanding immediately on the departure of the regiment from its station, for the purpose of making an inventory of the animals, equipment, etc., left behind by the regiment at its depôt. Renewals and replacements of the property which is borne on these inventories only will be made at the expense of the State. Deficiencies in the regiments will be replaced after investigation by the committees which will assemble under the orders in para. 247, Mobilization Regulations, India. Deficiencies in depôts will be made good as they occur.

With reference to "A" above it has been decided to allow the regiments returning from field service overseas to draw compensation for all Indian ranks who return with their regiments, at the rates and in the manner laid down in A. D. letter No. H. S. 488,* dated the 12th February 1916. Officers Commanding should draw compensation only for Indian ranks who actually belong to the regiments which they command. In determining the amount of compensation admissible on behalf of each Indian officer, non-commissioned officer and man, Officers Commanding will observe the recommendations made by the committees assembled in accordance with para. 247, Mobilization Regulations, India.

Renewals and replacements of armourer's and farrier's tools, the property of regiments, will be made either by issue free from the Ordnance Department or under regimental arrangements at the expense of the State.

Disposal of saddlery, equipment, etc. of Indian ranks of Silladar Cavalry who die on service, or are invalided to India.

1778. The following are the rules, which have effect from the commencement of the War, for the disposal of the saddlery, line gear, arms, equipment and clothing belonging to Indian ranks of silladar cavalry who, while serving with any of the overseas Expeditionary Forces, are killed in action, or die of wounds or disease, or are invalided to India. (In the latter case it is immaterial, for the purposes of the following rules whether they are subsequently invalided out of the service altogether or eventually return to duty):—

(i) All articles of saddlery, line gear, arms, equipment and clothing left in the various theatres of operations become government property and will be sold or re-issued as replacements to other silladars remaining on field service, the money realised being credited to His Majesty's Imperial Government.

(ii) Indian ranks, or the heirs in the case of deceased men, will receive from Government the undermentioned fixed amounts as compensation:—

Indian officers—

If pack saddlery and line gear of baggage animal were taken on service	Rs. 215
If pack saddlery and line gear of baggage animal were not taken on service	202

Non-commissioned officers and men—

If pack saddlery and line gear of baggage animal were taken on service	Rs. 160
If pack saddlery and line gear of baggage animal were not taken on service	153

(iii) If any article specified in clause (i) above, which ordinarily forms part of an Indian officer's, or non-commissioned officer's, or sowar's field service kit, was not taken on service, no compensation will

be paid for it and 75 per cent. of its original cost will be deducted from the fixed amounts noted above.

- (iv) If a man who is invalided back to India for duty, or is eventually invalided from the service, brings with him a portion of his kit, the value of the articles brought back will be assessed by the commanding officer of the depôt or unit to which he belongs, and such compensation will be paid on these articles as is necessary to make good deficiencies due to wear and tear, up to a total of 75 per cent. of the value of the article when new. A deduction of 75 per cent. of the original cost of the article when new will then be made from the fixed amounts of compensation indicated above.
- (v) The introduction of this system of compensation cancels the orders in paras. 1, 2 and 3 of A. D. letter No. H-1606, dated the 21st October 1914, under which officer commanding regiments of Indian silladar cavalry in India were authorised to indent on the Ordnance Department for free sets of saddlery and to recover from Government the cost of the replacement of the personal equipment, including clothing and line gear, taken by men sent as reinforcements. The cost of any sets of saddlery drawn from the Ordnance Department and the cost recovered from Government on account of any articles of personal equipment, including clothing and line gear, should be refunded to Government. The refund in both cases may be made either at once in one payment, or by instalments, as convenient to the regiments concerned.
- (vi) These provisions do not apply to reservists of Indian silladar cavalry regiments.
- (vii) The equipment of men proceeding on service as reinforcements from depôts of regiments in the field will be replaced under the orders contained in A. D. letters No. 22217-1 (A. G. 5), dated the 15th August 1914, * and No. H.-1186, dated the 29th September 1914.
- (viii) With regard to the replacement of horses, the Remount Department will send regiments Government remounts in place of all horses which are sent as reinforcements in the field.

[NOTE.—The above provisions are applicable to Imperial Service Troops, see A. I. I. 277 of 1918.]

Admissibility of compensation for saddlery, line gear, etc., to silladar cavalry ranks returning from field service as escorts to prisoners of war.

1779. Indian ranks of silladar cavalry who have returned from field service as escorts to prisoners of war, etc., are eligible for the compensation mentioned in A. D. letter No. H. S. 488, * dated the 12th February 1916, only when they are retained in India and not immediately returned to the force in the field.

Writing off of debit balances of assamis due from recruits becoming non-effective.

1780. General Officers Commanding Divisions, Divisional Areas and Independent Brigades are empowered, as a temporary measure for the period of the War, to write off, under their financial powers, as a charge against the State, the debit balances of assamis due from silladar cavalry recruits who may, from various causes, become non-effective before liquidating their liabilities in this respect.

In exercising their powers, General Officers Commanding will treat each case carefully on its merits and ensure that all realisable assets and any balance of pay due are credited to the man's estate, before writing off any balance debt as a charge against the State.

This decision has retrospective effect from the commencement of the War.

Regularisation of issues made to silladar animals in the Peshawar Division.

1782. The issues of rations made under the orders of the General Officer Commanding to the animals of all silladar units in the 1st (Peshawar) Division, since the commencement of the disturbances in August 1915, will be regularised as follows :—

The amount to be recovered from silladar cavalry regiments on the North-West Frontier for grain rations already issued, and to be issued hereafter by the Supply and Transport Corps, should be limited to the cost at nerrick rates of the standard grain ration up to a limit of Rs. 9-8-0 per mensem for the one horse and half mule of non-commissioned officers and men and for the one horse and one mule of Indian officers. The Indian officer should, however, be granted, as a separate transaction, the sum of Rs. 4 per mensem on account of half the wages of a syce.

If the silladar grass mules have been withdrawn from the unit, then the limit of recovery for the grain of one horse will be Rs. 7-9-7 per mensem, *vide* para. 2 (iii) of A. D. letter No. H.-2239, dated 25th March 1916. *

In the case of silladar camel corps serving on the North West Frontier the rate of recovery for grain rations issued by the Supply and Transport Corps should be Rs. 3 per mensem per camel.

Recoveries on account of issues of grain to silladar cavalry animals serving at and beyond Idak.

1783. Recoveries on account of the issues of grain on payment to silladar cavalry animals serving at and beyond Idak should be made at the rates laid down in A. D. letter No. H.-2320, dated the 28th March 1916.†

Withdrawal of grass mules and grass cutters from silladar cavalry regiments and new arrangements for provision of fodder, etc.

1784. In connection with the withdrawal from silladar cavalry regiments of grass mules and grass cutters required for the expansion of mule cadres during the present War, the following arrangements are authorised :—

(i) *Provision of fodder.*—Silladar cavalry regiments, or depôts of such regiments, from which grass mules are withdrawn, will relinquish the grass farm lands in their possession, together with the unexpended portions of working grants and, unless famine conditions are declared to prevail, fodder sufficient to complete the liability of the farm. The supply of fodder to such regiments will then be arranged under the orders of General Officers Commanding Divisions. If considered desirable, however, a regiment may be allowed to retain control of its farm up to the close of the current financial year.

Where suitable, cavalry grass farm lands relinquished will be taken over, and worked, by the Military Farms Department. In cases where this is considered undesirable, arrangements should be made by General Officers Commanding Divisions for the temporary disposal of the lands pending the return of normal conditions.

(ii) *Employment of syces.*—Silladar cavalry regiments will be allowed to employ syces, in lieu of regimental grass-cutters, on the non-silladar scale. The syces, will be enrolled public followers and paid by Government the same wages as laid down in A. R. I. Vol. I, para. 912, for syces of non-silladar cavalry, *plus* compensation for dearness of food under App. V, clause II, *ibid.* Any suitable men now serving as grass-cutters, who do not volunteer for service in the Supply and Transport Corps, may be retained as syces on the terms stated above (but see Note below), the remainder required being arranged for by the Officer Commanding the regiment.

NOTE.—Suitable *ex*-grass-cutters of silladar cavalry units will be allowed to enrol as syces without the liability to serve with the Supply and Transport Corps on mobilization being insisted on as a condition of their enrolment. This concession is subject to the condition that it will be taken advantage of only in cases of absolute necessity and that Officers Commanding will use every endeavour to induce men to subscribe to I. A. F. K.-1166 without omitting question 12.

(iii) *Pay of Indian officers and men.*—Indian officers, non-commissioned officers and men of silladar cavalry regiments from which grass mules and grass-cutters have been withdrawn will be allowed full consolidated pay.

Since, however, they will be relieved of the obligation of maintaining grass mules and grass-cutters, each silladar will be charged at the rate of Rs. 5-14-5 per mensem as a contribution towards the expenditure by Government on these heads.

When otherwise admissible under existing regulations, compensation for dearness of forage will be drawn by each silladar when the monthly cost of the horse's daily standard grain ration exceeds Rs. 7-9-7 (i.e., Rs. 13-8-0 less the sum of Rs. 5-14-5).

Method of supply of supplementary fodder to silladar cavalry regiments, and grants of advances for purchase of fodder.

26245-1 (Q. M. G. 9), 23-3-16
B. Oct. 10, 1970-74.

1784A. The supplementary fodder requirements of silladar cavalry regiments should be arranged for either regimentally or by the Military Farms Department as may be decided by General Officers Commanding Divisions or Independent Brigades.

When silladar cavalry regiments are permitted to make their own arrangements for fodder, the provisions of A. R. I. Vol. III, para. 227, regarding the grant of advances will not apply. In such cases General Officers Commanding Divisions and Independent Brigades are authorised to place funds at the disposal of Commanding Officers for the purchase of fodder, subject to the condition that the amount is limited to actual requirements in each case and can be met from the cash requirement estimates of the Controllers of Military Accounts concerned.

Issue of extra grain to silladar cavalry horses.

18309, 11-12-17.
B. Feb. 18, 1903.
22-1018.

1785. In consequence of the increase of work thrown on silladar cavalry horses, owing to continuous training, the issue, when necessary, of extra grain up to 2 lbs. daily is authorised for these horses.

This extra grain is issuable on the authority of a station order and only to those animals for which extra feeding is actually necessary. At stations where issues of forage are made by the Supply and Transport Corps, it will be issued in kind under arrangements made by that Corps; at other stations, it will be bought by the Officer Commanding the unit, who will pass the bill for it to the Military Accounts Department after countersignature as regards rates by the supply officer indicated for the purpose by the officer in charge of Divisional Supply Depôts.

No entry regarding this extra issue of grain will be made in the accounts of the silladar whose horse receives it.

Free supply of carriage in their stations to silladar cavalry regiments whose mules have been withdrawn.

11704, 9-3-17.
B. Oct. 17, 1849-50.

1786. Silladar cavalry regiments and depôts, which are deprived of regimental transport owing to the withdrawal of regimental mules for the expansion of mule cadres during the present War, are given free carriage for the conveyance of public regimental stores in the station, on application to the Supply and Transport Corps. Where there is no representative of the Supply and Transport Corps the Officer Commanding will hire the carriage required and recover the cost.

Maintenance of Government remounts sent for training to silladar cavalry regiments.

H. 3102, 30-1-15.

1787. The following are the arrangements for the maintenance of Government remounts sent for training purposes to silladar cavalry regiments not on Field service, and which are extra to the authorised temporarily increased establishment:—

*See para. 1702.

(a) *Provision of forage.*—To be supplied under regimental arrangements and on the scale authorised in A. D. letter No. H.-1374*

dated the 9th October 1914. The cost to be recovered from Government on monthly bills certified by officers commanding as representing actual expenditure.

(b) *Provision of fodder*.—As arranged by the Quartermaster General in India in his No. 22039—1 (Q. M. G. 9), dated the 9th January 1915.

(c) *Provision of horse clothing and line gear*.—To be supplied under regimental arrangements and the sums shown below recovered from Government on a contingent bill :—

(i) Rupees 25 for *each* remount received between the period 15th October to 31st March.

(ii) Rupees 13-8-0 for *each* remount received between the period 1st April to 14th October.

(d) A sum of Rs. 10-8-0 per remount per mensem on account of attendance, veterinary treatment, shoeing and clipping, wear and tear of saddlery and clothing, extra clerical work and incidental expenses, will be allowed, and will be recovered from Government on a contingent bill.

Temporary shelters will be provided by the Military Works Services (by the P. W. D. in the case of Agar) for these remounts. E

Temporary accommodation for the increased establishment of Indian cavalry regiments.

1788. The Military Works Services will provide temporary accommodation for the increased establishment of men and horses of Indian cavalry regiments where they cannot be accommodated in existing lines.

2. As the extra establishment of silladar cavalry regiments is enlisted on the same terms as regards pay as the ordinary silladar and the recruits are, therefore, under an obligation to hut themselves and their horses, the subscriptions referred to in para. 427, A. R. I. Vol. II, are recoverable from the men concerned in the manner indicated below :—

(a) when accommodation is provided by Government for the man and his horse, the full subscription will be paid by the man ;

(b) when accommodation is provided by Government for the horse only, half of the subscription will be paid by the man ;

(c) men drawing the dismounted rate of pay should, if accommodation is provided by Government, pay half of the subscriptions only, but when they draw full mounted pay, full subscriptions will be recovered from them.

The expenditure involved should be debited to Grant 14 of the Army Accounts under the head "War—1914—Debitable to Indian Government—Excess expenditure connected with the state of war which is not chargeable to Imperial Government," and the subscriptions received, together with the value of the materials when the shelters are finally dismantled, should be credited to the Army Estimates.

Supply of clothing and equipment to silladar cavalry regiments

1789. During the War, and for six months after, silladar cavalry regiments may obtain their clothing (including boots) and necessaries, other than articles of full dress clothing, on payment from the Army Clothing Department on the following conditions :—

(i) Articles of standard Army Clothing Department pattern only, will be issued at the rates laid down for non-silladar cavalry in the annexure to I. A. O. 739 of 1916. (See para. 309.)

(ii) Freight charges for articles so supplied will be borne by the regiments.

- (iii) Existing stocks with units, of all articles may be expended and those in possession of individuals retained in use until worn out.
- (iv) Where contracts have been entered into for the supply of regimental patterns, prior to the issue of the Army Department letter quoted on the margin, such contracts should, if possible, be cancelled, or arrangements made for the supply by contractors of standard pattern, *vide* clause (i) above, instead.
- (v) Subject to the foregoing modifications, issues from the Army Clothing Department will be made under the conditions prescribed for other units of the Indian Army in para. 2 of I. A. O. No. 184 of 1916. (See para. 309.)

In the case of articles laid down in the annexure to I. A. O. 739 of 1916, as to be supplied by the Army Clothing Department, indents therefor should be submitted on Superintendents of Army Clothing Factories concerned and the Government Inspector of Army Boots, Cawnpore. In submitting indents for their requirements indenting officers should clearly distinguish between urgent demands for field service and ordinary demands to complete peace issues. They should also endeavour to foresee and submit indents for the latter as far ahead as possible.

*See para. 318.

(See A. I. I. 368 of 1918 making provisions of I. A. O. 1192 of 1917* applicable to silladar cavalry regiments.)

5163-2 (O. 5), 24-4-17.
B. May 17, 1930.

1791 The exchange of saddlery on charge of silladar cavalry for universal saddlery is authorised to the extent to which demands for saddlery for miscellaneous services may be received.

The silladar pattern saddlery thus withdrawn should be utilized to meet demands for miscellaneous services for which the pattern is not a matter of importance, and any balance remaining should be utilized as far as possible in meeting demands from cavalry regiments still in possession of silladar pattern saddlery.

20680-3 (Q.M.G. 9), 7-11-14.
B. Nov. 14, 1948-50.

1793. In the letter quoted in the margin authority was given for the farm at Bareilly being worked by the Military Farms Department during the absence of the 4th Cavalry on service, and it was decided that when the farm lands allotted to a silladar cavalry regiment, which has proceeded on field service, are surrendered to the Military Farms Department, the unexpended portion of the annual working grant will be transferred to that Department, the animals remaining at the depot being supplied with fodder free from the Government Farm, and the services of the regimental syces and mules at the depot utilised as far as possible in cutting and carrying fodder.

General Officers Commanding are not empowered to issue orders for the disposal of farm lands; but such cases will be submitted for the decision of Government in accordance with the spirit of para. 3 of A. D. letter No. 10439-1 (Q. M. G. 9), dated 11th December 1912.

The regimental grass farms at the following stations are being worked by the Military Farms Department :—

Lucknow.

Ambala.

Rawalpindi.

Jhelum.

At Sialkot and Bolarum the grass farms are being worked under special arrangements by other cavalry regiments.

At Kohat the following revised arrangements for working the farm are sanctioned for a period of two years with effect from the 1st April 1916 :—

- (i) The farm to be considered as capable of producing fodder for a ten month's supply to the regiment, the requirement for that period being reckoned as approximately 3,000,000 lbs.
- (ii) The working grant for the farm to be fixed at Rs. 8,300 per annum. The whole of this amount is intended to be spent on the working of the farm and in improving it generally.

Rules regarding the management of Silladar Cavalry Farms during the absence of regiments on manœuvres, etc.

1795. The rules on this subject, contained in A. D. letter No. 10439-1 (Q. M. G. 9), dated the 11th December 1912, regarding the management of Silladar Cavalry Farms during the absence of regiments on manœuvres, etc., are permanently adopted, paragraph 2, clause (ii) of that letter being modified as shown below :—

- “(ii) When an additional grant is given to an Indian cavalry regiment under the conditions stated in (i) above, the regiment should, in the case of a twelve-months' farm, make over to Government an amount of fodder equivalent to the free issues it has received during its absence from cantonments; or the grant-in-aid, whichever is less in value. In the case of a farm producing less than a year's requirements, if the period of absence is less than the accepted deficiency of the farm, the period of absence should be held as falling within the normal deficiency period, i.e., the normal deficiency period should be reduced by the period of absence. In cases where the period of absence is greater than the accepted deficiency of the farm the regiment should make over to Government an amount of fodder equivalent to the free issues in excess of the deficiency period which it has received, or the grant-in-aid, whichever is less in value.”

G. 9), dated 20th September 1913, it has been decided that when fodder famine is declared in respect of an Indian cavalry farm, the assistance from Government is to cover all free issues of fodder made to the regiment, until the next harvest is available, and that such issues will be made without liability on the profits on the working of the farm during the financial year succeeding a year of famine. The reserve profits actually in hand at the time when famine is declared will continue* to be utilized to meet deficiencies due to famine before assistance from Government can be claimed.

*Vide para. 2, clause (1V) A.D. letter 10439-1 (Q. M. G. 9), dated 11th December 1912.

1799. The payment by the State is authorised, of charges on account of the actual funeral expenses, up to a maximum limit of Rs. 13 in each case, of Indian soldiers and public followers (including Imperial Service Troops) who return invalided to India from field service and die in hospitals in this country.

This concession has effect from the commencement of the War.

From the 7th March 1917, General Officers Commanding Brigades are empowered to sanction any extra necessary charges incurred over and above the maximum of Rs. 13 in each case.

For the funeral expenses of Indian *Christian* soldiers or followers, the maximum allowance in each case is Rs. 25*, but with effect from the 14th June 1917, General Officers Commanding Brigades are authorised to sanction any necessary charges that may be incurred over and above the maximum of Rs. 25 in connection with the funerals of Indian *Christian* troops who die in hospitals.

These charges are subject to a maximum of Rs. 20 in all cases.

Amplification of rules relating to the employment of troops on contract work for Native States, private employers or Government departments.

1801. The orders contained in A. D. letter No. 562-A., dated the 28th July 1910, regarding the employment of troops on contract work for Native States, private employers, or Government departments are amplified as under :—

(i) When contract work of the above nature is offered to military units by Native States or private employers, the application, accompanied by the proposed terms of agreement, must be submitted to the Government of India for approval, which will be given only when such State or employer definitely accepts liability for injury pensions, or gratuities, when injuries sustained are due to the contract work, and family pensions in the case of fatalities, for both British and Indian ranks.

(ii) In the case of contracts with Government departments, *viz.*, the Railway Administration, the P. W. D. and the M. W. S., General Officers Commanding Divisions and Independent Brigades are

empowered to give sanction to work being undertaken, subject to the following conditions :—

- (a) that the total number of men required to perform the work does not exceed 10 per cent. of the total strength of the unit ;
- (b) that the party is within 24 hours' recall of the headquarters of the unit ;
- (c) that the work is in the nature of piece-work, *i.e.*, can be terminated by 48 hours' notice on either side.

A report is to be made to the Chief of the General Staff indicating the place and nature of the work, the number of men employed and the period of employment. Applications in connection with all contracts with Government departments other than those of the nature alluded to above are to be submitted to the Chief of the General Staff through the usual channels, for the sanction of the Commander-in-Chief in India. When, however, there are special circumstances connected with the contract, the matter is to be referred to the Government of India.

These rules apply during normal times only and the proposed employment of any mobilized unit must invariably be referred to the Chief of the General Staff.

Supply of motor cars to officers at Government expense.

Fin. Dept. 1614 F. B.
9-11-14.
B. Jan. 15, 1915.

1802. In his despatch No. 6726, dated 21st December 1910, the Secretary of State enunciated the principle that the supply of a motor car at the public expense should be regarded as an exceptional measure, and that the concession should be jealously restricted.

In 1914 the Government of India, with a view to observing the instructions of the Secretary of State and obviating submission of applications which could not be supported, laid down the following principles as a general guide for local Governments in dealing with applications :—

The supply of cars should be limited to two classes of officials ; the first, to consist of Heads of Provinces and Administrations and Commissioners of Police in the Presidency towns and Rangoon ; and the second, of officers who hold appointments *sui generis* which are exceptional not only in their duties but in their nature ; for example an officer specially appointed to the charge of a large famine area, whose circumstances are such that no claim could be based by others on the analogy of the supply of a car to him.

It is realized that there are many appointments in which the maintenance of a private motor car and its use in the work of the appointment render an officer a more efficient and valuable servant of Government, and in his despatch referred to above the Secretary of State expressed his willingness to adopt a more liberal policy with regard to advances for the purchase of cars by these officers. The rules on this point have since been made wider, and the purchase of a motor car is now within the means of most officers. In cases therefore where an officer provides himself with a car, should the allowance which he would earn in the travelling incidental to the proper discharge of his duties not be sufficient adequately to meet the expenses incurred by the use of the car on those duties, or should he hold an appointment in which the limited area of his charge precludes the earning of travelling allowances, the Government of India will be prepared to sanction some suitable fixed travelling or conveyance allowance so as to ensure that the utilization of the car on his public work throws no additional burden on the officer, and they will be glad to consider any proposals which local Governments may make to meet such cases.

The Government of India cannot support proposals for the supply at the public expense of a car for the joint use of several officers. Leaving aside the point that the supply of cars to such officers would depend on whether they all fall under either of the classes mentioned, it is rarely possible to arrange for the economical joint use of a car by a number of officers, and the result is generally individual use without individual responsibility.

Method of dealing with claims in regard to actual age of soldiers.

1803. Army Council Instructions, No. 832 of 1917 on this subject, is reproduced below :—

(1) It is notified for general information that the following procedure will be followed for the future in cases in which a claim of actual age, as opposed to age according to attestation, has been made by or on behalf of a soldier.

(2) The age recorded on voluntary enlistment, or on enrolment under the Military Service Acts, will not be amended, but the following entry will be made in red ink on the first page of the man's attestation or record of service paper :—

“ Actual age claimed on 191..... (date.)
Birth certificate shows date of birth 191..... ”

This entry will be initialled by an officer.

(3) The soldier's actual age as verified by his birth certificate will be taken for all purposes, including mustering as a private (see A. C. I. 1207 of 1916), from the date on which his actual age was claimed.

(4) In cases where no claim of actual age is made, the soldier's official age will continue to be reckoned from that given on voluntary enlistment, or on enrolment under the Military Service Acts.

Contemporary information in connection with the historical records of units.

1805. The following instructions are issued in order to ensure that accurate contemporary information on the subjects referred to in King's Regulations, para. 1931 (iii), (iv), (v), (ix) and (x) shall be at the disposal of Commanding Officers at the end of the War in order that the historical records of units may be brought up to date.

Duplicate copies of War diaries kept in accordance with Field Service Regulations, Part II, Section 140, will be forwarded to Officers in Charge Records for safe custody, as confidential documents and for preservation, to be returned at the end of the War to the Officer Commanding the unit. It will thus be possible to dispense with the necessity of calling on units in the field for reports under paras. 1930 to 1932, King's Regulations, and at the same time to attain the objects those paragraphs have in view.

As, however, Commanding Officers frequently desire to refer to recent entries in their diaries they may retain the duplicate copies for a period of three months before sending them to the Record Office.

Branches whose refreshment bars are thus on contract to tenants will pay 15 per cent. of the monthly amounts realised to the Regimental or Battery Funds of the corps.

They will be printed on separate sheets, numbered consecutively, over the signature of the Secretary to the Government of India, Army Department, and issued regularly once a week to all authorities, civil and military, from the Government Press; the distribution list corresponding approximately to that of India Army Orders.

A bound copy of the "Instructions" with an index will be issued monthly.

"Army Instructions (India)" will be acted upon by all whom they concern in the same manner as India Army Orders, and will be referred to in correspondence as the authority for the decisions which they convey.

Army Council Instructions and Army Orders issued by the War Office are not applicable to the Army in India unless they are republished under the orders of the Government of India or of H. E. the Commander-in-Chief.

- (a) those effected under Rule 6 of the Stores Rules;
- (b) those made by contractors for Government works; and
- (c) those invariably made in India such as bricks, Indian lime and mortar, Indian timber, etc. [Purchases made under the provisions of Rule 4 of the Stores Rules are not covered by this exception; and should be included in the return under the appropriate item to which they belong, *e. g.*, explosives, metals, wines and spirits, etc.]

9629-1 (A. D.), 19-5-15.
A. July 15, 2134-44.

A revised form of Abstract Return with instructions for filling it in forms an enclosure to the letter quoted in margin above. Except in the case of the abstract returns of *military* (including *marine*) expenditure on stores purchased in India, which should be prepared by the Controllers of Military Accounts and submitted to the Military Accountant General, heads of the purchasing departments subordinate to the various Local Governments and Administrations should be instructed to submit in the revised from the annual

returns of expenditure on stores locally purchased beginning with the year 1914-15. They should compile the return from materials supplied to them by subordinate officers on the Detailed Return form which may be altered to suit local conditions, where necessary. The figures for all departments should be included in one consolidated statement for the whole Province, which should be forwarded to the Commerce and Industry Department not later than the 31st August each year.

Submission of indents for English stores prior to the issue of the provisional orders for the preparation of budget estimate of the Military Works Services.

As a temporary measure and during the period of War, indents for English stores required in connection with repairs, etc., or for use on sanctioned projects, may be submitted to the Director-General of Stores, prior to the issue of the provisional orders for the preparation of the preliminary budget estimate of the Military Works Services, if they are accompanied by instructions that the indents are for the coming year and that payment for the stores will not be made until after the 1st April following.

Restriction of demands for stores from England, and utilisation of stores produced locally.

1812. In connection with the supply of stores during the War on indent from the United Kingdom, it is necessary to reduce the volume of orders placed at Home for material, the production of which competes in any way with the requirements of the Department of Munitions of War, to the smallest possible proportions. It should be ascertained before indents are submitted whether suitable stores cannot be obtained in India. Stores which can be produced in India should as far as possible be obtained locally. With regard to the indents which it is found absolutely necessary to send out of the country, it will probably be desirable to place a larger proportion of the orders abroad, preferably in British possessions, than has been the case hitherto.

Indenting officers are, however, at the same time, warned that owing to the very great increase of prices in India for such articles as are available here, they must reduce, to the lowest possible figure, their consumption of imported materials which are stocked in this country.

Local purchase of stores during the War.

1813. It has been decided that during the period of the War, the local purchase of stores shall be resorted to whenever possible.

Procedure for the supply of technical and non-technical stores required by the Royal Flying Corps in India.

months' indents (in quadruplicate) of stores required to make good wastage. These indents will be sent to the Director-General of Ordnance in India for disposal. Demands may be made in the same manner at any time in cases of great urgency, when the necessity for the demand could not have been foreseen and submission of the next list cannot be awaited. When stores are required to be demanded by cable, the indent should be sent to the Director-General of Ordnance in India, for necessary action.

- (ii) With regard to *non-technical* stores, the Officer Commanding, Royal Flying Corps, Risalpur and Lahore, and the Officer Commanding, Aircrafts Park, Royal Flying Corps, will draw on the Ordnance Department, Supply and Transport Corps, Military Works Services, and Mathematical Instrument Department, for stocks of articles of the kind which are already supplies to the Army from these sources; other articles the Officer Commanding, Aircraft Park, Royal Flying Corps, will obtain by local purchase, the cost being recovered on contingent bills in the usual manner. When the several kinds of these additional articles required by the Royal Flying Corps are known, the question of their allotment to the various departments will be considered.

Re-organisation of the clerical establishments of the Supply and Transport Corps.

1849. The following are the details of the reorganisation of the clerical establishments of the Supply and Transport Corps introduced with effect from the 1st June 1916 :—

From that date the clerical cadre will consist of 618 clerks. This number includes a leave reserve of 8 per cent and consequently no officiating promotions in leave vacancies will be admissible.

The grading and pay of this reconstituted cadre are shown in statement "A".

The local allowances now admissible to clerks serving at certain stations are shown in statement "B". The clerks serving in Burma and at Aden will continue to receive the local allowances authorized in A. R. I., Vol. V, A. 11-B.

The reconstituted cadre will consist of an "upper" and "lower" Division as shown in statement "C," and the qualifications required of clerks for admission to these Divisions will be decided by the Q. M. G. in India.

Clerks will be borne for purposes of promotion upon one all-India list, instead of upon separate Divisional lists as heretofore. All appointments, promotions and reductions in grade or standing will be made by the Q. M. G. in India upon the recommendation of General Officers Commanding Divisions. In disciplinary cases, supersession, discharge or dismissal may be ordered by General Officers Commanding Divisions and Independent Brigades, subject to confirmation by the appointing authority.

The allotment of clerks to the several Divisions and Independent Brigades, will rest with the Q. M. G. in India, subject to the condition that the total sanctioned complement in each grade is not exceeded.

The Q. M. G. in India will furnish full information to all Divisional Controllers and to General Officers Commanding Divisions and Independent Brigades concerned upon the following points :—

(a) the allotment of the total establishment and any alteration in that allotment ;

(b) appointments, promotions, reductions, casualties or interdivisional transfers among the establishment.

The distribution, within Divisions and Independent Brigades, of the establishment allotted by the Q. M. G. in India will rest with General Officers Commanding concerned.

Transfers within Divisional and Brigade areas will be communicated to Controllers by General Officers Commanding concerned, and all casualties whether by death or from other causes will be reported by them both to the Q. M. G. in India and to the Divisional Controller.

During the War such portion of the leave reserve as is not required for the replacement of men actually on leave should be utilised to reduce the number of temporary men employed under the terms of A. D. letter No. H-1410, dated the 23rd February 1916.

Clerks and others of the Supply and Transport Corps serving in the Wellington District will continue to receive the local allowances authorised in A. D. letters 16790-1 (A. G. 2), dated 19th September 1913 and 18929-2 (Q. M. G. 5), dated the 5th September 1914 and those at Bombay and Karachi the local allowances authorised in A. D. letters No. 1071-F., dated the 8th October 1909, and No. 10183-1 (A. G.), dated the 24th July 1912, respectively.

Owing to delay in obtaining information required for the preparation of an amalgamated list of clerks, it was not possible to carry out the reorganization at the time. An all-India list showing the relative positions of clerks, based on their standings on 1st June 1916, has since been drawn up, and the reorganization scheme introduced with retrospective effect from that date. The grant of retrospective effect will only affect the grading and pay of the permanent incumbents who were serving on 1st June 1916.

The grading allotted to the clerks in the all-India list has been fixed with reference to their standings on 1st June 1916, and all officiating promotions among Supply and Transport clerks after 31st May 1916 have been stopped. In the case of clerks who have been placed in grades carrying less pay than that which they were actually drawing, the difference will be made good to them by means of personal allowances, which will be absorbed in accordance with the provisions of Civil Service Regulations, article 61.

* See para. 1849.

On transfer to the general clerical list the clerks will be given the option of either—

(i) taking the gratuity to which they are entitled for their past service at the rate of Rs. 30 for each year's completed service, in which case they will reckon their service for standing and pension in the general list from the date of appointment to that list, any excess of age at this date being condoned, or

(ii) counting their past attested service towards pension under the Civil Service Regulations, in which case they will reckon their service for pension, on the superior scale, from the date from which their past attested service has been continuous, and their standing for promotion on the general clerical list will be regulated by the date of appointment to that list, any excess of age at this date being condoned.

† See para. 1849.

The procedure in regard to appointments, promotions, transfers, etc., sanctioned in A. D. letter No. 6904,† dated the 20th July 1916, will apply to these clerks on their transfer to the general clerical list of the Supply and Transport Corps. The local allowances sanctioned in that letter will also be admissible to them. In all other respects these clerks will be on the same footing as the permanent clerks of the Supply and Transport Corps.

(NOTE.—It was originally decided that appointments to commissioned rank should be on probation for a year,—I. A. O. 54 of 1915, but this was subsequently cancelled,—I. A. O. 148 of 1915.)

- (b) In the event of a vacancy occurring in the field among Indian officers holding the rank of *ressaidar*†, the fact will be reported to the Quartermaster-General in India who will

continue to make promotions to this rank from the general list of Indian officers of transport units maintained at Army Headquarters.

- (c) Appointments to commissioned rank will be made from the transport ranks, but in the case of Silladar Camel Corps they may also be made from the combatant branches of the Indian Army. In both cases the appointments will be substantive.

The consequential changes in the conditions of service of these ranks are detailed in the annexure to the letter quoted in the margin and have effect from the 21st March 1917.

II. Except where otherwise specifically stated in the annexure, the conditions attaching to the grant of ordinary, special, family, wound and injury pensions, as well as invalid gratuities, will be the same as for combatant units of the Indian Army.

Men who have already been paid gratuities may elect for the new pension rules by refunding any gratuity already paid to them. The recovery will be made in 20 equal monthly instalments, but a man may deposit the whole or a portion in a lump sum if he so prefers, in which case the number of monthly instalments of any balance which may remain will be reduced accordingly. In the event of death before the instalments are completed the money refunded will be re-drawn and credited to the man's estate.

V. Men engaged under the terms of A. D. letter No. 12997, dated the 9th November 1916, for the period of the War will forego the war-time batta of Rs. 2 per mensem drawn while in India, and compensation for dearness of provisions, and, in lieu of both, receive free rations in kind.

VII. Men engaged under the terms of A. D. letter No. 3983, * dated the 16th May 1916, who elect the new rules, will forego the 50 per cent. batta drawn in addition to pay, and come under the ordinary batta rules sanctioned in this letter.

VIII. Men of the mule transport service, who are at present seconded for the period of the War as Indian officers, kot and quartermaster dafadars and naiks with newly raised transport units, will come under the provisions of this order.

[NOTE.—See A. I. I. 96 of 1898 regarding rates of pay for educational and conservancy establishments of mule transport units and grant of school allowance; also A. I. I. 292 of 1918 allowing mule transport personnel to reckon periods of former service for pension.]

Procedure for submission of claims to gratuities for transport personnel.

1868. The following procedure for the submission of claims for gratuities for transport personnel, sanctioned tentatively for 6 months in A. D. letter No. 18988-7 (Q. M. G.-7), dated the 2nd June 1915, is adopted permanently :—

- (iii) On payment of the gratuity, the payee's receipt (*vide* para. 84, A. R. I., Vol. III), stamped when necessary, will be taken in the column of remarks.
- (iv) In the case of a man not present with the unit, the receipt form I. A. F. A-370, will be sent to the individual for presentation at the post office or treasury, which will at the same time be informed of the payment required, and will take over and dispose of the receipt when completed by the payee. (The necessity for this course should very seldom occur if the Commandants of Transport units anticipate such payments and take necessary action in time.)

- (v) In the case of men invalided from the service, it will be sufficient to attach to the sheet re^l the proceedings of the medical board and forward it to the Comptroller of Military Accounts. The use of I. A. F. Y-1948 will thus be obviated.

(2) The conditions under which ponies have been selected and branded for sale to the Government of India on mobilisation will be set forth in the authorised agreement form which will be executed in the presence of the S. and T. Officer, and will bear the consenting signature or seal of the owner or owners of the selected and branded ponies.

(3) The S. and T. Officer, will maintain a Descriptive Register of the ponies selected and branded by him annually, in which will be entered the purchase price of all branded ponies.

(4) Ponies purchased will be paid for at the prices recorded in the Register maintained by the S. and T. Officer, i.e., at the value agreed to by their owners at the time the agreements were concluded in the presence of the S. and T. Officer. That Officer may, when circumstances warrant it, add 10 per cent. to a pony's registered price, but the maximum-price recorded will, in no case, exceed Rs. 100.

(5) The purchasing officer, or the committee deputed for that purpose, may, on mobilisation, reject any branded ponies considered unfit for purchase at the time of sale, but may not alter the purchase price recorded in the S. and T. Officer's Descriptive Register of branded ponies.

(6) The number of ponies to be regarded as available for despatch from Baramula, out of the ponies on the S. and T. Officer's Register, on mobilisation is 600. Between the 1st November and 31st May these ponies will be found in the different districts to which they belong. They will be available within 42 days of receipt of orders to mobilise.

(7) Rupees 300 annually will be distributed as prize money to carriers owning the class of ponies in the largest number. The awarding of the prizes will be at the discretion of the Supply and Transport Officer, Kashmir.

(8) In addition to the above, a special committee, composed as under, will, on mobilisation being ordered, purchase ponies estimated at 700 within 42 days, making, with the 600 ponies originally branded by the Supply and Transport Officer, a total of 1,300. The prices of these 700 ponies will be fixed at the time of purchase by the committee and will be approximately the ordinary market price of the ponies with an addition of 15 per cent. All payments will be made by a British Officer.

(10) Temporary men engaged in Kashmir by the durbar or by the S. and T. If entertained for this duty between the 1st November and 31st March each man will receive 2 followers' blankets free of cost.

Such of the establishments detailed from Rawalpindi, as are temporary, will be engaged on such rates of pay as may be considered suitable with due regard to local circumstances prevailing at the time, and the minimum period of their engagement will be one month.

(11) The S. and T. Officer, Kashmir, will be provided with a Purchasing Officer's equipment.

(12) The marches between Kashmir and Rawalpindi, will be :—

Calculation of compensation for dearness of gram for camels of Silladar Camel Corps.

1877. When animals are quartered at the headquarters of the corps, compensation is to be based on prices prevailing at the nearest civil station. In all other cases (i.e., when the animals are on the line of march, etc.), the prices prevailing at the nearest civil station to the place of issue, should be adopted.

Casting and sale of animals.

1878. The following modifications in the rules, for the disposal of animals east from the Army in India, have been approved in order to prevent the purchase, at auctions, of animals physically unfit for light work in civil life :—

(a) that the reserve prices placed on them under A. R., I., Vols. II and V, paras. 740 and 74, are to be increased as under :—

Horse or ordnance mule	to be raised from Rs. 25 to Rs. 80
Camel or transport mule	„ „ „ „ 15 to „ 50
Pony or bullock	„ „ „ „ 10 to „ 30
Donkey	„ „ „ „ 7 to „ 20

(b) to admit of the immediate disposal of animals considered unfit for further work on account of being old and worn out, incurably vicious, lame or diseased, the last sentence of para. 740, A. R., I., Vol. II, is being amended to read :—

“If dangerously vicious, permanently unfit for work in civil life by reason of lameness or disease, other than contagious (see para. 722) the animal should be destroyed at once in the presence of the Officer Commanding the unit.”

These new rules are to be given effect to at once.

It is recognised that these rules cannot be enforced rigidly as regards silladar animals, but His Excellency the Commander-in-Chief trusts that Commanding Officers of all Silladar units will conform as far as possible with

them, and will endeavour, in the interests of humanity, to discourage the sale to the public of any animal unfit for light work.

777-1917.

1879. The Supply and Transport Corps will take over on an obligatory basis and will continue, the supply until six months after the War, of emergency ration tins and water bottles to men of the Indian Army. The articles will be issued to units at the following maximum rates, freight charges being waived except in the case of units on colonial service, *vide* A. R. I., Vol. XI, para. 162 :—

The actual purchase price will be charged if lower than the above quoted price.

Units may not as heretofore make regimental arrangements for the supply of these articles, but must obtain them from the Supply and Transport Corps, and from no other source. Units will, however, be allowed to take delivery of articles which are already on order from other sources.

It will not be open to any unit to question the quality of the articles supplied.

Supply of blankets to Indian troops to be taken over by the S. and T. Corps.

8911, 18-6-17.
B. War 1916-17, 34310-11
772-1917.

1880. The Supply and Transport Corps will take over on an obligatory basis and will continue, the supply until six months after the War, of blankets to Indian troops serving in India, Burma and the colonies. They will be issued to units at the maximum rate of Rs. 3-8-3, freight charges being waived except in the case of units on colonial service, *vide* A. R. I., Vol. XI, para. 162. The actual purchase price will be charged if lower than the rate given above.

Blankets will be supplied to the extent necessary, at the time of indenting, to complete the authorised scale of kit or to replace deficiencies or condemnations only when such deficiencies or condemnations have not been caused or necessitated through the fault of the individuals concerned. On no account will they be demanded with a view to creating regimental stocks, and indenting officers should be required to furnish a certificate with each indent to the effect that the number demanded is limited to the number actually required.

Issues of blankets on payment as above will commence at once. Woollen blankets will be issued on payment to Indian units in Divisions, Divisional

It is to be understood that the patterns of blankets to be supplied will vary very considerably and that units must accept whatever pattern is available.

Obtaining of fodder by means of contracts.

4853-2 (Q. M. G.-9), 18-2-16.
B. Mar. 16, 1911-16.

1881. When the best method of obtaining fodder is by means of contracts, the conclusion of such contracts is not opposed to the rules issued with A. D. letter No. 9723-6 (Q. M. G.-9), dated the 5th July 1913, relating to the administration of grass farms.

Submission of vendors' receipts in support of purchases.

0824-1 (Q. M. G. 6), 28-11-14.
B. Jan. 16, 1258-1261.

1882. The vendor's receipt referred to in para. 84, A. R. I., Vol. III, should be that of the vendor with whom Government deals directly, and not that of a vendor who has sold articles to a second individual, who in turn sells them to Government.

When purchases are made by supply agents, their relation to Government is that of vendors. Consequently, the receipt of the agent who is the vendor should be accepted as the "vendor's receipt". In cases where troops on the march are not accompanied by a supply agent, the Officer Commanding is either permitted to purchase whatever is not carried with the detachment, or is authorized to provide whatever is required at a previously agreed upon fixed rate. In the former case the officer merely purchases on behalf of Government, and vendors' receipts are demandable. In the latter case—which is exceptional—Government deals with the officer as "vendor" and, therefore, his receipt for the money paid by Government should be considered the "vendor's receipt".

Procedure for prompt payment for supplies and stores despatched direct by suppliers to several supply officers on contracts arranged by one officer.

1883. The following is the procedure for payment of supplies despatched to several supply officers on a contract arranged by one officer:—

The supply officer arranging for a supply will, as soon as he has received satisfactory evidence that the articles ordered have actually been surveyed by a representative of the Supply and Transport Corps and despatched to their destination, receipt the supply order, noting thereon the distribution by stations of the several articles. This receipted supply order will be returned to the suppliers who will submit it in support of the bill, which will then be paid by the Divisional Disbursing Officer concerned. The Military Accounts Department will take the subsequent necessary steps to raise debits against the receiving Divisions.

During the War, it will not be necessary to raise debits against the receiving Divisions, as under the system of adjustment now prevailing on account of the War, charges for supplies to other Divisions, except those debitable to the Supply Circle, should be finally compiled in the accounts of the Divisions in which they are purchased, any excess over the budget allotment being passed on to the Controller of War Accounts for necessary adjustment.

[See also detailed interpretation of above orders given in Q. M. G.'s letters quoted in the margin.]

Instructions for the care of Mechanical Transport vehicles.

1884. These vehicles are in no circumstances to be used for other than purely military purposes.

Mechanical Transport other than motor ambulances may be used for the carriage of military stores or of stores required for military purposes such as building material. But the officer in charge of the vehicles must satisfy himself that the load is suitable and that the road to be traversed is fit for the passage of Mechanical Transport. The decision of the officer in charge of the vehicles will be final on these points.

Except in cases of emergency a motor transport vehicle is not to be used on more than five days in each week or to run more than 80 miles in the 24 hours.

This exemption is also admissible in respect of salaries earned on service with the Expeditionary Forces but paid in British India.

Portions paid in India of salaries of Government employes outside Indian limits liable to income tax.

1894. With reference to the instructions in I. A. O. 730 of 1912, that income tax should not be levied on the salaries of employes of the Government of India serving in places beyond the geographical limits of India where the Income Tax Act, 1886, is not in force, it has been decided that, if a portion of the salary of an officer serving beyond the geographical limits of India is paid in British India, such portion is clearly liable to the tax under Part I of the second schedule of the Income Tax Act, and should be assessed to the tax in future.

This decision does not affect the orders issued in I. A. O. 109 of 1915 regarding the exemption from income tax of members of Expeditionary Forces.

I.—Regular Army.

1. In the case of a transfer of a soldier of the Regular Forces, the procedure laid down in paragraphs 323-332a, King's Regulations, will not be carried out except as regards the disposal of the soldier's documents and the notification of the transfer to the Officer-in-charge Records of the man's new Corps.

2. Cancelled—See A. C. I. 822 of 1917.*

* See para. 43

3. The following entry will be made in the soldier's attestation or record of service :—

"Transferred under authority of-----"

"and to maintain his former rate of pay of-----"
(or otherwise if so authorized.)

The transfer will be notified in Part II of Orders, and the man will receive a new identity disc.

II.—Territorial Force.

4 and 5. Cancelled—See A. C. I. 822 of 1917.*

6. The following entry will be made in the attestation paper, according as the soldier is transferred to another corps or is posted to another unit of the same corps :—

"Transferred or posted to-----"

"under the authority of-----"

"and to maintain his former rate of pay of-----"
(or otherwise if so authorized.)

7, 8 and 9. Cancelled—See A. C. I. 822 of 1917.*

10. Service with regular unit will reckon towards the qualifying service for the T. F. efficiency medal.

11. A man who is merely *attached* to another unit remains a member of his original unit and his documents are retained by the Officer i/c T. F. Records of that unit.

12. It is thus a matter of great importance that C. Os. of units, having men attached thereto from other units, should be careful to send copies in accordance with A. O. 348 of 1915 of part II of Orders to Officers i/c T. F. Records, Regimental Paymasters and T. F. Associations responsible for the documents and accounts of the attached men, in order that these authorities may be aware of casualties affecting these soldiers.

13. A. C. Is. 797 and 858 of 1916 are cancelled.

Transfers of British non-commissioned officers and men.

1918. Army Council Instruction No. 1643, dated the 22nd August 1916, on the subject of transfers of British soldiers is reproduced below :—

1315-1917.

A. C. I. 1643 of 1916.

A. C. I. 1643 of 1916. It has been decided that applications for individual transfers of N. C. Os. and men will not for the future be entertained unless it is clearly in the interests of the services as a whole, or, unless the circumstances brought forward are of a most exceptional nature.

Transfer of Territorial Force soldiers to regular corps.

1919. Instructions on this subject are contained in A. C. I. 978, dated the 19th June 1917, which is reproduced below :—

A. C. I. 978 of 1917.

Attestation or Record of Service Paper. Entry to be made on F. B. 103 Active Service Casualty form showing the A. F. number of the Attestation or Record of Service Paper on which a soldier is serving.

1. As the procedure in connection with the transfer of T. F. soldiers to regular corps does not appear to be generally understood, the following instructions are issued for the guidance of all concerned.

2. Soldiers serving on T. F. attestations* cannot be transferred direct to regular corps† which are not shown in the Corps Warrant as containing T. F. units or personnel. Soldiers serving on any other than a T. F. attestation, and those serving on a record of service paper, whether serving with regular or T. F. units, are regular soldiers, and can be transferred direct to any corps. It should be noted that special reservists become regular soldiers on mobilization.

3. In order that information as to whether a man serving at home is a regular or T. F. soldier may be readily accessible for purposes of transfer, the A. F. number of the attestation or record of service paper on which he is serving will be entered on the left-hand top corner of A. F. B. 103.

This entry will be carried out as follows :—

(a) As soon as possible by Os. C. units, in the case of every soldier serving at home.

(b) For the future by the O. C. the Recruiting Area at the time of enlistment or acceptance of the man.

4. In order to facilitate transfers in the case of soldiers serving with Expeditionary Forces, Officers i/c Base Records will apply to the Officer i/c Records concerned (at home), when information is required to enable the endorsement on A. F. B. 103 to be carried out, as in para. 3 above.

* The following is a complete list of T. F. attestations :—

Army Forms E.-501, E.-502, E.-503 and E.-514.

† When a corps includes soldiers of the T. F., (e.g., The Labour Corps, Machine Gun Corps, &c.), regular and T. F. soldiers can be transferred to that corps direct irrespective of the attestation (or record of service paper) on which they are serving.

Interchange of special men employed with, or required by, Forces overseas.

1920. All requests for the return of special men to India, or for their despatch to Forces overseas, must receive the sanction of Army Headquarters, India.

Attachment, posting, transfer and drafting of soldiers of the Regular Army and Territorial Force.

1921. Army Council Instruction No. 1840, dated the 23rd September 1916, on this subject is re-produced below :—

A. C. I. 1840 of 1916. Procedure in connection with the Attachment, Posting, Transfer and Drafting of Soldiers of the Regular Army and the Territorial Force.

The procedure to be followed in dealing with cases of "attachment," "posting," "transfer" and "drafting," and the precise significance of these terms do not appear to be generally understood. The following particulars are accordingly notified for the information of all concerned, with special reference to A. O. 204 of 1916.

Attachments.

1. *Definition.*—The term "attachment" denotes the movement, of a more or less temporary character, of a soldier to another unit either belonging to the same or to a different corps or to the same or to another arm of the service,

Regular or T. F. A Regular or T. F. soldier who is "attached" to another unit remains a member of the unit from which he is detached.

2. A soldier so attached remains on the strength of his old unit, but is borne supernumerary to its establishment and is eligible for such promotion in it as he would have been entitled to had he not been attached to another unit. Except in certain cases where special instructions have been issued he is not eligible for promotion in the unit to which he is attached. The attachment of a man to another unit does not involve any change in the custody of his documents, or in connection with his pay account, or the issue of his separation, &c., allowances. Moreover, as he remains a member of his old unit, he does not require new identity discs, nor should any change in dress distinctions be made.

3. In some cases such attached men are provided for in the establishment of a unit, as an ordinary incidence of army service, in order to provide for the performance of certain specialised duties in the unit (*e.g.*, R. A. M. C. water-duty men and A. S. C. drivers, &c., attached to units of other arms). In other cases it is necessary to form temporary or provisional units composed entirely of "attached" men from permanent units, *e.g.*, Cadet Schools and Command Depôts, T. F. Provisional units, &c. Other attachments may arise from casual circumstances which may necessitate the soldier being detached from his own unit and some provision being made in the circumstances for him to be temporarily fed, paid, and disciplined by another unit.

4. The fact of the attachment of a soldier, Regular or T. F., in either of these ways is notified in Part II of Orders of the unit which he leaves and also in those of the unit to which he is attached.

5. It is most important that the C. O. of a unit having a soldier attached thereto from another unit should be careful to send daily copies of Part II of Orders to the Officer i/c Records, the Regimental Paymaster, and in the case of a T. F. soldier, the T. F. Association, who are responsible for the documents and accounts of the attached soldier, in order that these authorities may be aware of casualties affecting him.

6. It is also most important that C. Os. and others should always show on casualty returns, sick reports, &c., in the case of an attached soldier, the fact that he is so attached, indicating in addition, the unit to which the man actually belongs.

Postings.

7. *Definition.*—The term "posting" is used in this A. C. I. to denote only the movement (posting) of a soldier *from one unit to another of the same corps* as defined by the Corps Warrant (Army Order 250 of 1916). It excludes the allotment (posting) of a recruit to a corps or his appointment to a corps after approval.

As explained below, a soldier "posted" to another unit becomes a member of that unit, and is treated for administrative and other purposes similarly to other members of the unit.

8. When a soldier is posted to another unit, the fact is notified in Part II of the Orders of the unit which he leaves, and also in those of the unit to which he is posted. On posting, the soldier is borne on the strength of the new unit according to his permanent rank and seniority. He is consequently struck off the strength of his former unit, and the vacancy he creates in that unit can be filled by any necessary promotion.

9. When a T. F. soldier is posted to another T. F. unit his attestation, pay account, and payment of separation allowance and allotment of pay will be transferred to the Officer i/c T. F. Records, Regimental Paymaster and T. F. Association, respectively, of the new unit in cases where any or all of these authorities differ from those of the soldier's old unit; otherwise no change is necessary as regards these matters. In this connection the last sentence of paragraph 11 will be borne in mind. The soldier is allotted a regimental number in his new unit, receives new identity discs, and his dress distinctions are assimilated to those of his new unit.

10. When a T. F. soldier is posted to a Regular unit, a copy of his original attestation is prepared by the Officer i/c T. F. Records, both being then sent to the Officer i/c Regular Records concerned, with the fact of the posting noted on page 3. The soldier is then given a new (Regular) regimental number and new identity discs, and his dress distinctions are assimilated to those of his new unit. The soldier's pay account will be transferred where necessary to the Regimental Paymaster of the Regular unit, to whom also the payment of separation allowance and allotment of pay will be transferred from the T. F. Association formerly responsible therefor.

11. When a soldier of the Regular Army is posted to a T. F. unit, both the original and duplicate copy of the soldier's attestation will be sent to the Officer i/c T. F. Records, a T. F. number will be allotted to him and new identity discs will be issued. The soldier's pay account will, where necessary, be transferred to the Regimental Paymaster of his new unit, and the payment of separation allowance, &c., in respect of the soldier will be transferred to the T. F. Association administering that unit. Where the unit to which the man is posted is administered jointly by more than one Association, the Officer i/c T. F. Records will select that one for the county in which the soldier was domiciled prior to his enlistment or which for any other reason may seem to be most suitable.

12. When a soldier is posted from one Regular unit to another his attestation remains in the custody of the Officer i/c Regular Records who has previously kept it, and his pay account and separation allowance payment will continue to be dealt with by the Regimental Paymaster hitherto responsible for them.

13. When a soldier is re-posted from a Regular unit to his original T. F. unit, or *vice versa*, the fact will be notified in Part II of Orders of both units (see para. 8), he will resume his original regimental number and his attestation will be returned to the Officer i/c T. F. Records of the unit from which he was posted in the first instance. His pay account and the issue of the separation allowance will be re-transferred (see paras. 10 and 11).

Transfers.

14. *Definition.*—The term "transfer" denotes the permanent movement of a soldier *from one corps to another* whether of the same or of a different are of service.

On "transfer" to another corps a soldier ceases to have any connection with his former corps.

15. If it is desired to carry out the permanent movement of a T. F. soldier to a Regular unit of another corps, the following procedure will be observed:—

- (a) He will be *transferred* to a corps containing both T. F. units or soldiers (see Royal Warrant issued as A. O. 250 of 1916) and the Regular unit which it is desired that he should join.
- (b) He will then be *posted* to that Regular unit.

16. On transfer the soldier receives a regimental number in the new corps or, if he is posted to a T. F. unit of the corps, in his new unit. He will be eligible for promotion in his new unit in the same way as any other man belonging to it. A "transfer" necessitates the issue of new identity discs and the adoption of the dress distinctions of the new unit.

17. A transfer is recorded in Part II of Orders of both units, *i.e.*, the units from and to which the transfer is made. The attestation will be sent to the Officer i/c Records of the new unit.

In the case of the transfer of a T. F. soldier, the Officer i/c T. F. Records of the unit from which the soldier is transferred will endorse the attestation on page 3 as follows:—

"Transferred under authority of _____

"to _____ Corps. _____ Date _____

"To maintain his former rate of pay of _____"

(or otherwise if so authorised)

and will send it to the Officer i/c Records of the unit to which the soldier is posted on transfer. If the latter is a Regular unit, the Officer i/c T. F. Records of the soldier's former unit will make out a copy of the man's original attestation and send it with the original. The Officer i/c Records of the soldier's new unit will endorse the attestation with the soldier's new number and make the following entry on page 3 :—

"Posted under authority of _____

"_____ Unit _____ Date."

18. On transfer the soldier's pay account will be transferred to the Regimental Paymaster of his new unit.

As regards separation, &c., allowances, issue will be made by the Regimental Paymaster or T. F. Association of the unit to which the soldier is transferred, according as that unit is Regular or T. F., and payment will be transferred accordingly from the previous paying agency, Regular or T. F. as the case may be (*see also* A. C. I. 1166 of 1916).
** Vide I. A. O. 608 of 1916, para. 1917.—*

Compulsory Drafting to other Corps.

19. As regards the compulsory drafting under para. 1 (d) of A. O. 204 of 1916, the effect is similar to that of a man "posted" to a unit, and the administrative action to be taken in consequence of such drafting will be the same as laid down in this A. C. I. for "postings."

General.

20. Where transfers of pay accounts or of separation allowance payment required under the provisions of this A. C. I. have not already been made in the case of any postings or transfers which have been carried out, they should be effected without delay.

Measures for the suppression of rabies in cantonments.

1937. The following measures for the suppression of rabies in cantonments are sanctioned experimentally for three years from the 1st October 1914:—

20773-1 (Q.M.G. 11), 29
20773-4 (Q.M.G. 11), 5

(1) Subordinates of the Civil Veterinary Department, qualified veterinary graduates of silladar cavalry regiments and transport veterinary assistants of the Supply and Transport Corps, will be employed as Inspectors under the cantonment authorities to examine dogs suspected of rabies and thus relieve Army Veterinary Corps officers of this duty.

B. Aug. 15, 1924.

(2) The Inspectors will receive a fee of Rs. 5 for every dog examined by them and for the operation of removing the brains of dead dogs suspected of rabies for despatch to the Pasteur Institute; only when these subordinates are not available will Army Veterinary Corps officers be employed, who will receive a fee of Rs. 15 for each dog examined. The cost of all such examinations will be met from cantonment funds.

(3) In the event of Inspectors being bitten by suspected dogs and dying from rabies, family pensions will be granted to their heirs. As regards subordinates of the Civil Veterinary Department, their heirs will be eligible for pensions under the provisions of Article 735, Civil Service Regulations; but in the case of veterinary graduates of silladar cavalry regiments and transport veterinary assistants of the Supply and Transport Corps, whose heirs would not be eligible for any pension since the duty in question cannot be regarded as "military duty" within the meaning of para. 1065 (i), A. R. I. Vol. I, family pensions will be granted to the heirs from the military estimates. These provisions are also applicable to cases in which such subordinates may die as the result of rabies contracted in the operation of removing the brains of dead dogs suspected of rabies, for despatch to the Pasteur Institute.

Should the applicant appear to be a desirable candidate for a temporary commission, he will be directed to attend for a personal interview with the General Officer Commanding a Brigade or Divisional Area (or in special cases by an officer deputed by him), his travelling expenses being defrayed by Government.

The names of approved candidates, if concurred in by the Local Government, will be submitted to Army Headquarters for final sanction.

4. Officers may wear the uniform of their respective corps while holding temporary commissions.

Travelling allowance and free passage to members of the Indian Volunteer Force.

1939. Members of the Indian Volunteer Force called out for military service during the War will be granted travelling and detention allowances, or free passage, according to their volunteer rank, under the same rules and conditions as apply to corresponding ranks of the British regular forces.

Grant of free passage to volunteers serving with Indian Expeditionary Forces to the United Kingdom, or the Colonies, and back, if change of climate is necessary.

1940. Volunteers serving with Indian Expeditionary Forces, who may be invalided on account of wounds received in action or illness contracted on service in the field, will be granted free passage from India to the United Kingdom or the Colonies and back if necessary, provided a change of climate is considered necessary, by a medical board.

The provision of passages for the homeward journey will be restricted to transports or hospital ships, except in the case of volunteers proceeding to the Colonies who will be granted passages by private steamer when no transports are available.

The class of passage given will be governed by the military rank corresponding to the volunteer rank of the individual concerned; but should a volunteer provided with passage by private steamer to the Colonies wish to travel in a class higher than that to which he is entitled, he may be allowed to do so provided he bears the extra cost involved.

Proficiency boards for the examination of volunteer officers.

Compensation for loss of emoluments on promotion to warrant rank.

1945. Military subordinates, including those of the Military Works Services, who suffer a loss of emoluments on promotion to warrant rank are granted, under the orders of the General Officers Commanding Divisions, Divisional Areas and Independent Brigades and subject to the usual audit check, such personal allowances as will compensate them for the loss sustained.

This order has effect from the 18th April 1914.

Reversion of British acting warrant officers.

1946. The following extract from an Army Council Instruction is reproduced :—

"*A. C. I. No. 1211 of 1916.* Under the provisions of Section 182 and proviso (c) to Section 183 (4) of the Army Act, a soldier serving as an *acting* Warrant Officer (Class I and II) whose permanent grade is other than that of Warrant Officer (Class II), may be ordered by his Commanding Officer to revert to his permanent grade, to any acting intermediate rank, or to the ranks if he has no permanent grade above the ranks."

Introduction of Class II warrant officers in India.

1947. The provisions of Royal Warrant XIX—Warrant Officers, Class II, published in Army Order 70 of 1915, are applicable to India in respect of—

- (a) units of the British Army, including the Territorial Force, borne on the Indian establishment;
- (b) individuals of the Home Service affected by the Royal Warrant, who are serving in this country on a tour of duty. Men of the Royal Engineers who are holding local rank will not be subject to the provisions of the Royal Warrant until they are promoted in the Corps of Royal Engineers.

The application to India of the above will not affect the rates of pay and allowances at present admissible under Army Regulations, India, to the individuals holding the ranks and appointments noted in the Army Order.

Pending the issue of a Royal Warrant relating to the promotion of Acting Serjeant-Majors of Territorial Force units, these will hold the acting rank of Warrant Officer, Class I.

The attention of all concerned is directed to the Army Council's instructions at the end of the Army Order.

1948. The provisions of Army Order No. 70 of 1915 apply to India in the case of—

- (i) Company serjeant majors of Sappers and Miners.
- (ii) Company serjeant majors of the Indian Signal Service and
- (iii) Squadron serjeant major of the wireless signal squadrons.

This does not affect the rates of pay and allowances at present admissible to them under A. R. I. Vol. I.
